The Black Candle

Rarebooksclub.com This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1922 edition. Excerpt: ...The subterfuges they adopt to effect their purpose are very ingenious. In some cases Chinese seamen have been known to make temporary bootsocks of raw opium, others conceal it under their armpits, in their clothing, etc. By these methods they try to evade detection by H.M. Customs Officers and, if successful, they find a good and ready market amongst the Chinese residents. "The raw opium is then boiled in a copper saucepan, allowed to get cool, and when it sets it is prepared in small pills for internal application, and in packets for smoking. The pills have an effect similar to that of smoking. The drug is then surreptitiously sold and used in the East and West ends of London. The inveterate opium smoker can usually be detected by his extraordinary sallow complexion, dreamy appearance and want of vitality. "Opium smoking dens are usually arranged in upper rooms of the houses. The windows of such places are invariably covered in such a way as to prevent the fumes escaping into the street, obviously for the pur-pose of avoiding detection. These rooms are fitted out either with wide wooden shelves or beds upon which recline those desirous of taking an opium smoke. These smokes vary in price from 2/-to 5/-according to the value of the drug and the financial position of those desiring to indulge. "When the Defence of Realm Act came into operation prohibiting opium smoking, etc., a number of these dens existed in 'Chinatown.' From this time until 1920 many prosecutions took place at the Thames Police Court and the offenders were fined, and in some cases imprisonment was imposed, but this did not deter the Chinamen a great deal, as when a fine was inflicted, it was at once paid and the 'Chink' continued...

Buckling of Thin Metal Shells

CRC Press Thin-walled metal shell structures are highly efficient in their use of material, but they are particularly sensitive to failure by buckling. Many different forms of buckling can occur for different geometries and different loading conditions. Because this field of knowledge is both complex and industrially important, it is of great interest and concern in a wide range of industries. This book presents a compilation and synthesis of a wealth of research, experience and knowledge of the subject. Information that was previously widely scattered throughout the literature is assembled in a concise and convenient form that is easy to understand, and state-of-the-art research findings are thoroughly examined. This book is useful for those involved in the structural design of silos, tanks, pipelines, biodigestors, chimneys, towers, offshore platforms, aircraft and spacecraft. Buckling of Thin Metal Shells is essential reading for designers, researchers and code writers involved with thin-walled metal shell structures.

Diesel Engine Management

Systems and Components

Springer This reference book provides a comprehensive insight into today's diesel injection systems and electronic control. It focuses on minimizing emissions and exhaust-gas treatment. Innovations by Bosch in the field of diesel-injection technology have made a significant contribution to the diesel boom. Calls for lower fuel consumption, reduced exhaust-gas emissions and quiet engines are making greater demands on the engine and fuel-injection systems.

Faith Forward Future

Moving Past Your Disappointments, Delays, and Destructive Thinking

Thomas Nelson Popular pastor Chad Veach casts a vision for a future beyond what most dare to imagine and guides us all toward the abundant plans God has for his children. Are you disappointed with your life? Do you feel like you'll never accomplish anything remarkable? Fear not: you are in the perfect place for God to enter with his plan! In fact, your disappointments and failures are merely minor setbacks preceding a major comeback. In Faith Forward Future, Chad Veach presents the proof that God has always known you, has always cared, and is waiting to give you his better dream for your life. When you hear his words and release your broken dreams, you'll receive all that God has in store and be enabled to reach your best possible tomorrow. With powerful Bible teaching and practical guidance, Veach invites you to stop limiting tomorrow's possibilities by learning how to ask God for big things today dismiss the distractions of regret by being empowered to use your past for good, and redefine success by joining God in writing the remarkable story of your life!

Fairies Afield

Book Excerpt: ... But she said nothing of the sort of mystery connected with the powder; some instinct prevented her doing so. Nor did she tell that but a little of it remained, or that their stock of rose-leaves would soon be exhausted."Who knows what may happen before that?" she reflected, and the words of Linde's dream-visitor recurred to her, "Three times, and then ask the robin." Dame Barbara was quite satisfied and greatly delighted."Here," she said, fumbling for her substantial purse, "a goat for two ounces of it, did you say? No, a half-goat only? My dear, you'll have to raise your prices if the perfume is so excellent! Well to begin with, give me the four ounces straight away, and here's a half-goat over and above what it all comes to--dried leaves and fresh ones and flowers, all together--just

the tiny silver piece for luck, you know."...

Violence and Mental Health Its Manifold Faces

Springer Violence is one of the most important challenges, not only for public health systems, but also for public mental health. Violence can have immediate as well as long-term and even transgenerational effects on the mental health of its victims. This book provides a comprehensive and wide-ranging assessment of the mental health legacy left by violence. It addresses the issues as they affect states, communities and families, in other words at macro-, meso- and microlevels, beginning by describing the impact of violence on neurobiology and mental health, as well as the spectrum of syndromes and disorders associated with different forms of violence. The work moves on to tackle violence at the international—and intranational—level before zeroing in on the nature of violence in communities such as villages or city districts. It also examines the results of violence in the family. Each type of violence has distinct effects on mental health and in each chapter specific groups are explored in depth to demonstrate the heterogeneity of violence as well as the diversity of its outcomes in the realm of public mental health. Finally, the book addresses the notion of 'undoing violence' by detailing case studies of effective interventions and prevention occurring in countries, communities and families. These cases give us pause to reflect on the nature of resilience and dignity in the context of violence and mental health. All the chapters have been written by leading authors in the field and provide a state-of-the-art perspective. The authors, from different fields of expertise, facilitate interdisciplinary and international insights into the impact of violence on mental health.

Fading Shadows

Pruett Publishing Company The mountain region of Western Colorado in 1860, was disturbed from deep slumber with the rediscovery of rich deposits of gold and silver. Mining towns and camps of every size and description were born in the valleys and on the slopes. Prospectors of diversified background searched for precious metals in veins and in stream gravels. Hopes and fortunes were won and lost; living conditions were severe and uncertain. Disease, hunger, accidents, and inadequate medical care promoted cemetery growth. Today, scattered throughout the mountains, are many fascinating relics (ghosts) of these early times--collapsed log cabins, headframes, cable-tram towers, foundations of homes and mills, rusted equipment, abandoned wagon trails and railroad grades, ochorous mine dumps, tunnels, and mill trailings. These relics are rapidly fading into oblivion because of vandalism, fire, snowslides, floods, and normal progressive decay. The next 100 years will claim all except those preserved in museums. To place on photographic record as of 1974 some of these relics, is the objective of Fading Shadows. --from the book jacket.

The Potential Principle

A Proven System for Closing the Gap Between How Good You Are and How Good You Could Be

HarperCollins Leadership You may honestly be able to say (and have others say about you) that you are the absolute best in your field--the best athlete, scholar, CEO, parent, mathematician, teacher, mechanic . . . whatever it is that you fill out the "occupation" box with. But being the best at something only means you are better than everyone else. It doesn't mean you are the best you. Your potential is higher than where you are right now. Leadership expert and international bestselling author of The Fred Factor and You Don't Need a Title to Be a Leader, Mark Sanborn invites you to get better. Not better than others, but better than you! By learning to employ Sanborn's uniquely designed "Potential Matrix" to specific areas of their lives, readers can gain the tools they need to see breakthrough improvements in places they previously thought had reached their maximum potential. Every day, you have the exciting opportunity to be better. To pursue your true potential. To make what you thought was your best, now second-best. And then the next day, start again. You can be better.

Design of Spillway Tainter Gates

This manual provides guidance for the design, fabrication, and inspection of spillway tainter gates, trunnion girder, and trunnion girder anchorage for navigation and flood control projects. Load and resistance factor design (LRFD) criteria are specified for design of steel components. Allowable stress design (ASD) criteria are provided in EM ii 10-2-2105 and may be used only with prior approval of CECW-ET. Orthotropic shell, vertical framed, and stress skin-type tainter gates may be suitable in some locations but are not covered in this manual. Other types of control gates, including radial lock valves (reverse tainter valves) and sluice gates, may be referred to as tainter gates but also are not included in this manual.

Artificial Intelligence

Data Analytics and Innovation for Beginners

Efalon Acies In this guide, you will learn about all the basics of artificial intelligence. You'll learn what it is, how it works, and where it came from (or, in other words, how it all started). Aside from that, we'll dive into some data analytics and examples of artificial intelligence. We'll cover several steps in the analytical process, and see what it takes for artificial intelligence to be effective. Last but not least, safety and privacy issues will be brought to light, since today's age is full of hacking, spying, and theft. Therefore, it is mandatory that these devices and systems are kept safe and secure. If any of these topics interest you, then I encourage you to pick up this digital book and start reading or listening to the audio version.

Technology Vs Humanity

The Coming Clash Between Man and Machine

Futurist Gerd Leonhard breaks new ground again by bringing together mankind's urge to upgrade and automate everything-down to human biology itself-with our timeless quest for freedom and happiness. Before it's too late, we must stop and ask the big questions: How do we embrace technology without becoming it? When it happens-gradually, then suddenly-the machine era will create the greatest watershed in human life on Earth. Technology vs. Humanity is one of the last moral maps we'll get as humanity enters the Jurassic Park of Big Tech. Artificial intelligence. Cognitive computing. The Singularity. Digital obesity. Printed food. The Internet of Things. The death of privacy. The end of work-as-we-know-it, and radical longevity: The imminent clash between technology and humanity is

already rushing towards us. What moral values are you prepared to stand up for-before being human alters its meaning forever? Gerd Leonhard is a new kind of futurist schooled in the humanities as much as in technology. In his most provocative book to date, he explores the exponential changes swamping our societies, providing rich insights and deep wisdom for business leaders, professionals and anyone with decisions to make in this new era. If you take being human for granted, press Reset now with this passionately argued call to create a genuinely braver new world.

Bad Blood

Secrets and Lies in a Silicon Valley Startup

Pan Macmillan *The shocking true story behind The Dropout, starring Amanda Seyfried, Naveen Andrews and Stephen Fry 'I couldn't put down this thriller . . . the perfect book to read by the fire this winter.'* - Bill Gates Winner of the Financial Times/McKinsey Business Book of the Year Award 2018 *The full inside story of the breathtaking rise and shocking collapse of Theranos, the multibillion-dollar biotech startup founded by Elizabeth Holmes, by the prize-winning journalist who first broke the story and pursued it to the end, despite pressure from its charismatic CEO and threats by her lawyers. In 2014,*

*Theranos founder and CEO Elizabeth Holmes was widely seen as the female Steve Jobs: a brilliant Stanford dropout whose startup "unicorn" promised to revolutionize the medical industry with a machine that would make blood testing significantly faster and easier. Backed by investors such as Larry Ellison and Tim Draper, Theranos sold shares in a fundraising round that valued the company at more than \$9 billion, putting Holmes's worth at an estimated \$4.7 billion. There was just one problem: The technology didn't work. In *Bad Blood*, John Carreyrou tells the riveting story of the biggest corporate fraud since Enron, a tale of ambition and hubris set amid the bold promises of Silicon Valley. 'Chilling . . . Reads like a West Coast version of *All the President's Men*.' - New York Times Book Review*
