KEY=ANDREWS - ISAIAS HINES

Do Apes Read Minds?

Toward a New Folk Psychology

MIT Press Andrews argues for a pluralistic folk psychology that employs different kinds of practices and different kinds of cognitive tools (including personality trait attribution, stereotype activation, inductive reasoning about past behavior, and generalization from self) that are involved in our folk psychological practices.

The Routledge Handbook of Philosophy of Animal Minds

Taylor & Francis While philosophers have been interested in animals since ancient times, in the last few decades the subject of animal minds has emerged as a major topic in philosophy. The Routledge Handbook of Philosophy of Animal Minds is an outstanding reference source to the key topics, problems, and debates in this exciting subject and is the first collection of its kind. Comprising nearly fifty chapters by a team of international contributors, the Handbook is divided into eight parts: Mental representation Reasoning and metacognition Consciousness Mindreading Communication Social cognition and culture Association, simplicity, and modeling Ethics. Within these sections, central issues, debates, and problems are examined, including: whether and how animals represent and reason about the world; how animal cognition differs from human cognition; whether animals are conscious; whether animals represent their own mental states or those of others; how animals communicate; the extent to which animals have cultures; how to choose among competing models and explanations of animal behavior; and whether animals are moral agents and/or moral patients. The Routledge Handbook of Philosophy of Animal Minds is essential reading for students and researchers in philosophy of mind, philosophy of psychology, ethics, and related disciplines such as ethology, biology, psychology, linguistics, and anthropology.

Joint Attention

New Developments in Psychology, Philosophy of Mind, and Social Neuroscience

MIT Press Interdisciplinary perspectives on definitional concerns, underlying mechanisms, and the functional significance of joint attention. Academic interest in the phenomenon of joint attention—the capacity to attend to an object together with another creature—has increased rapidly over the past two decades. Yet it isn't easy to spell out in detail what joint attention is, how it ought to be characterized, and what exactly its significance consists in. The writers for this volume address these and related questions by drawing on a variety of disciplines, including developmental and comparative psychology, philosophy of mind, and social neuroscience. The volume organizes their contributions along three main themes: definitional concerns, such as the question of whether or not joint attention should be understood as an irreducibly basic state of mind; processes and mechanisms obtaining on both the neural and behavioral levels; and the functional significance of joint attention, in particular the role it plays in comprehending spatial perspectives and understanding other minds. The collected papers present new work by leading researchers on one of the key issues in social cognition. They demonstrate that an adequate theory of joint attention is indispensable for a comprehensive account of mind.

The Routledge Companion to Philosophy of Psychology

Routledge The Routledge Companion to Philosophy of Psychology is an invaluable guide and major reference source to the major topics, problems, concepts and debates in philosophy of psychology and is the first companion of its kind. A team of renowned international contributors provide forty-two chapters organised into six clear parts: I. Historical background to the philosophy of psychology II. Psychological explanation III. Cognition and representation IV. The biological basis of psychology V. Perceptual experience VI. Personhood The Companion covers key topics such as the origins of experimental psychology; folk psychology;

behaviorism and functionalism; philosophy, psychology and neuroscience; the language of thought, modularity, nativism and representational theories of mind; consciousness and the senses; personal identity; the philosophy of psychopathology and dreams, emotion and temporality. Essential reading for all students of philosophy of mind, science and psychology, *The Routledge Companion to Philosophy of Psychology* will also be of interest to anyone studying psychology and its related disciplines.

The Animal Mind

An Introduction to the Philosophy of Animal Cognition

Routledge *The study of animal cognition raises profound questions about the minds of animals and philosophy of mind itself. Aristotle argued that humans are the only animal to laugh, but in recent experiments rats have also been shown to laugh. In other experiments, dogs have been shown to respond appropriately to over two hundred words in human language. In this introduction to the philosophy of animal minds Kristin Andrews introduces and assesses the essential topics, problems and debates as they cut across animal cognition and philosophy of mind. She addresses the following key topics: what is cognition, and what is it to have a mind? What questions should we ask to determine whether behaviour has a cognitive basis? the science of animal minds explained: ethology, behaviourist psychology, and cognitive ethology rationality in animals animal consciousness: what does research into pain and the emotions reveal? What can empirical evidence about animal behaviour tell us about philosophical theories of consciousness? does animal cognition involve belief and concepts; do animals have a 'Language of Thought'? animal communication other minds: do animals attribute 'mindedness' to other creatures? moral reasoning and ethical behaviour in animals animal cognition and memory. Extensive use of empirical examples and case studies is made throughout the book. These include Cheney and Seyfarth's vervet monkey research, Thorndike's cat puzzle boxes, Jensen's research into humans and chimpanzees and the ultimatum game, Pankseep and Burgdorf's research on rat laughter, and Clayton and Emery's research on memory in scrub-jays. Additional features such as chapter summaries, annotated further reading and a glossary make this an indispensable introduction to those teaching philosophy of mind, animal cognition. It will also be an excellent resource for those in fields such as ethology, biology and psychology.*

Once Upon a Time Machine

Dark Horse Comics *Fairy tales have fueled our dreams and fired our imaginations for centuries. Step inside a time machine built by a collection of today's finest storytellers, and enter a range of futures where familiar tales are reimaged in an astonishing variety of styles. Editors Andrew Carl and Chris Stevens bring you the next wave of leading writers and illustrators working alongside superstar creators like Farel Dalrymple (Pop Gun War), Ryan Ottley (Invincible), Khoi Pham (Daredevil), and Brandon Graham (King City) to deliver a reading experience that will delight generations young and old. * Ageless stories become tales for a new age!*

How to Study Animal Minds

Cambridge University Press *Comparative psychology, the multidisciplinary study of animal behavior and psychology, confronts the challenge of how to study animals we find cute and easy to anthropomorphize, and animals we find odd and easy to objectify, without letting these biases negatively impact the science. In this Element, Kristin Andrews identifies and critically examines the principles of comparative psychology and shows how they can introduce other biases by objectifying animal subjects and encouraging scientists to remain detached. Andrews outlines the scientific benefits of treating animals as sentient research participants who come from their own social contexts and with whom we will be in relationship. With discussions of science's quest for objectivity, worries about romantic and killjoy theories, and debates about chimpanzee cognition between primatologists who work in the field and those in the lab, Andrews shows how scientists can address the different biases through greater integration of the subdisciplines of comparative psychology.*

Little, Big

Hachette UK *Edgewood is many houses, all put inside each other, or across each other. It's filled with and surrounded by mystery and enchantment: the further in you go, the bigger it gets. Smoky Barnable, who has fallen in love with Daily Alice Drinkwater, comes to Edgewood, her family home, where he finds himself drawn into a world of magical strangeness. Crowley's work has a special alchemy - mixing the world we know with an imagined world which seems more true and real. Winner of the WORLD FANTASY AWARD, LITTLE, BIG is eloquent, sensual, funny and unforgettable, a true Fantasy Masterwork. Winner of the WORLD FANTASY AWARD FOR BEST NOVEL, 1982.*

The Philosophy of Animal Minds

Cambridge University Press *This volume is a collection of fourteen essays by leading philosophers on issues concerning the nature, existence, and our knowledge of animal minds. The nature of animal minds has been a topic of interest to philosophers since the origins of philosophy, and recent years have seen significant philosophical engagement with the subject. However, there is no volume that represents the current state of play in this important and growing field. The purpose of this volume is to highlight the state of the debate. The issues which are covered include whether and to what degree animals think in a language or in iconic structures, possess concepts, are conscious, self-aware, metacognize, attribute states of mind to others, and have emotions, as well as issues pertaining to our knowledge of and the scientific standards for attributing mental states to animals.*

The Psychosocial Implications of Disney Movies

MDPI In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

The Grey King

Simon and Schuster A strange boy and dog remind Will Stanton that he is an immortal, whose quest is to find the golden harp which will rouse others from a long slumber in the Welsh hills so they may prepare for the ultimate battle of Light versus Dark.

The Missing

One of the most original, moving and beautifully written non-fiction works of recent years, *The Missing* marked the acclaimed debut of one of Britain's most astute and important writers. In a brilliant merging of reportage, social history and memoir, Andrew O'Hagan clears a devastating path from the bygone Glasgow of the 1970s to the grim secrets of Gloucester in the mid 1990s. 'A triumph in words.' *Independent on Sunday* 'The Missing, part autobiography, part old-fashioned pavement-pounding, marks the most auspicious debut by a British writer for some time.' *Gordon Burn, Independent* 'A timely corrective to the idea that nothing profound can be said about now.' *Will Self, Observer Books of the Year* 'His vision of modern Britain has the quality of a poetic myth, with himself as Bunyan's questing Christian and the missing as Dantesque souls in limbo.' *Blake Morrison, Guardian*

Ethics for A-Level

Open Book Publishers What does pleasure have to do with morality? What role, if any, should intuition have in the formation of moral theory? If something is 'simulated', can it be immoral? This accessible and wide-ranging textbook explores these questions and many more. Key ideas in the fields of normative ethics, metaethics and applied ethics are explained rigorously and systematically, with a vivid writing style that enlivens the topics with energy and wit. Individual theories are discussed in detail in the first part of the book, before these positions are applied to a wide range of contemporary situations including business ethics, sexual ethics, and the acceptability of eating animals. A wealth of real-life examples, set out with depth and care, illuminate the complexities of different ethical approaches while conveying their modern-day relevance. This concise and highly engaging resource is tailored to the Ethics components of AQA Philosophy and OCR Religious Studies, with a clear and practical layout that includes end-of-chapter summaries, key terms, and common mistakes to avoid. It should also be of practical use for those teaching Philosophy as part of the International Baccalaureate. *Ethics for A-Level* is of particular value to students and teachers, but Fisher and Dimmock's precise and scholarly approach will appeal to anyone seeking a rigorous and lively introduction to the challenging subject of ethics. Tailored to the Ethics components of AQA Philosophy and OCR Religious Studies.

Summer Rental

A Novel

St. Martin's Press Sometimes, when you need a change in your life, the tide just happens to pull you in the right direction... Ellis, Julia, and Dorie. Best friends since Catholic grade school, they now find themselves, in their mid-thirties, at the crossroads of life and love. Ellis, recently fired from a job she gave everything to, is rudderless and now beginning to question the choices she's made over the past decade of her life. Julia--whose caustic wit covers up her wounds--has a man who loves her and is offering her the world, but she can't hide from how deeply insecure she feels about her looks, her brains, her life. And Dorie has just been shockingly betrayed by the man she loved and trusted the most in the world...though this is just the tip of the iceberg of her problems and secrets. A month in North Carolina's Outer Banks is just what they each of them needs. Ty Bazemore is their landlord, though he's hanging on to the rambling old beach house by a thin thread. After an inauspicious first meeting with Ellis, the two find themselves disturbingly attracted to one another, even as Ty is about to lose everything he's ever cared about. Maryn Shackelford is a stranger, and a woman on the run. Maryn needs just a few things in life: no questions, a good hiding place, and a new identity. Ellis, Julia, and Dorie can provide what Maryn wants; can they also provide what she needs? Mary Kay Andrews' novel is the story of five people questioning everything they ever thought they knew about life. Five people on a journey that will uncover their secrets and point them on the path to forgiveness. Five people who each need a sea change, and one month in a summer rental that might just give it to them. *Summer Rental* is one of *Library Journal's* Best Women's Fiction Books of 2011

The Science of Lay Theories

How Beliefs Shape Our Cognition, Behavior, and Health

Springer *This timely and important collection broadens our understanding of the ways in which lay theories (also known as folk psychologies, implicit theories, naïve theories, or mindsets) impact our lives and social relations. Moving well beyond lay theories as applied to intelligence and achievement, this volume considers lay theories in an admirably wide context, including perspectives on prejudice, creativity, self-regulation, health, free will, justice, magic, religion and more. Eminent and emerging scholars alike provide a comprehensive overview that presents and synthesizes cutting edge contemporary research on lay theories, spanning social, cognitive, developmental, cultural, and clinical psychology. Structurally, this volume is organized in three parts. Beginning with a preface by renowned scholar Carol Dweck, the first part looks at the origins and nature of lay theories, and how malleable they are. The second part explores lay theories about common psychological phenomena. The third section discusses lay theories about the metaphysical or supernatural. Finally, the last section explores the important question of how lay theories impact health and health behavior. Taken together, the chapters provide an integrative survey of the science of lay theories, bringing together many perspectives that previously have been studied largely in isolation. This volume is more than the sum of its parts—perspectives from different strands of research provide insights that cut across research disciplines, making novel connections and prompting new directions for this field of study. Shedding light on how our beliefs shape all facets of our lives, *The Science of Lay Theories: How Beliefs Shape Our Cognition, Behavior, and Health* will appeal to researchers and practitioners in psychology, as well as philosophers, cognitive and developmental neuroscientists, religious scholars, sociologists, and anthropologists. It is very rare to say of an edited volume of scholarly chapters “I couldn’t put it down!” Yet that was the case with this book. It’s not just that I have worked in this field for many years, but rather, with every chapter I felt I was gaining new insights into what, deep down, people really believe and how these beliefs influence their lives—Carol Dweck, Stanford University, Palo Alto, CA, USA*

The Historian

Hachette UK *The record-breaking phenomenon from Elizabeth Kostova is a celebrated masterpiece that "refashioned the vampire myth into a compelling contemporary novel, a late-night page-turner" (San Francisco Chronicle). Breathtakingly suspenseful and beautifully written, *The Historian* is the story of a young woman plunged into a labyrinth where the secrets of her family's past connect to an inconceivable evil: the dark fifteenth-century reign of Vlad the Impaler and a time-defying pact that may have kept his awful work alive through the ages. The search for the truth becomes an adventure of monumental proportions, taking us from monasteries and dusty libraries to the capitals of Eastern Europe—in a feat of storytelling so rich, so hypnotic, so exciting that it has enthralled readers around the world. "Part thriller, part history, part romance...Kostova has a keen sense of storytelling and she has a marvelous tale to tell." —Baltimore Sun*

Towers Of Midnight

Book 13 of the Wheel of Time (soon to be a major TV series)

Hachette UK *Soon to be a major Amazon Prime TV series *The thirteenth novel in the Wheel of Time series - one of the most influential and popular fantasy epics ever published. The Last Battle has started. The seals on the Dark One's prison are crumbling. The Pattern itself is unravelling, and the armies of the Shadow have begun to spill out of the Blight. Perrin Aybara is haunted by spectres from his past. To prevail, he must find a way to master the wolf within him or lose himself to it for ever. Meanwhile, Matrim Cauthon prepares for the most difficult challenge of his life. The Tower of Ghenjei awaits, and its secrets will reveal the fate of a friend long lost. The end draws near. It's time to roll the dice. 'Epic in every sense' Sunday Times 'With the Wheel of Time, Jordan has come to dominate the world that Tolkien began to reveal' New York Times '[The] huge ambitious Wheel of Time series helped redefine the genre' George R. R. Martin 'A fantasy phenomenon' SFX *The Wheel of Time The Eye of the World The Great Hunt The Dragon Reborn The Shadow Rising The Fires of Heaven Lord of Chaos A Crown of Swords The Path of Daggers Winter's Heart Crossroads of Twilight Knife of Dreams The Gathering Storm Towers of Midnight A Memory of Light New Spring (prequel) The Wheel of Time Companion***

The Self-Conscious Emotions

Theory and Research

Guilford Publications *Timely and authoritative, this volume reviews the breadth of current knowledge on the self-conscious emotions and their role in psychological and social functioning. Leading investigators approach the subject from multiple levels of analysis, ranging from basic brain mechanisms to complex social processes. Chapters present compelling advances in research on the most fundamental self-conscious emotions: embarrassment, guilt, humiliation, pride, and shame. Addressed are neural and evolutionary mechanisms, developmental processes, cultural differences and similarities, and influences on a wide array of social behaviors and personality processes. A unique chapter on assessment describes and evaluates the full range of available measures.*

Play Among Books

A Symposium on Architecture and Information Spelt in Atom-Letters

Birkhäuser How does coding change the way we think about architecture? This question opens up an important research perspective. In this book, Miro Roman and his AI Alice_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information. They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an "infinite flow" of real books. Focusing on the intersection of information technology and architectural formulation, the authors create an evolving intellectual reflection on digital architecture and computer science.

Fuzzies

A Folk Fable

Tabor Pub. This 72-page soft-cover book is designed to aid students in their studies of human values. This folk story encourages readers to look for meanings beneath the surface of a story. The book tells the story of a valley of happiness where everyone shared fuzzies, until one day someone began to hoard them and the valley and its people changed tremendously. The allegory is designed to reveal an essential truth about human choices, as it deals with the joy of sharing and the tragedy of greed. The specified interest and instructional levels include grades 3 through 12. Filmstrips, records, and cassettes are also available for purchase. LKK,9-76 JLK, 9-76.

Darkfever

Fever Series Book 1

Delacorte Press MacKayla Lane's life is good. She has great friends, a decent job, and a car that breaks down only every other week or so. In other words, she's your perfectly ordinary twenty-first-century woman. Or so she thinks . . . until something extraordinary happens. When her sister is murdered, leaving a single clue to her death—a cryptic message on Mac's cell phone—Mac journeys to Ireland in search of answers. The quest to find her sister's killer draws her into a shadowy realm where nothing is as it seems, where good and evil wear the same treacherously seductive mask. She is soon faced with an even greater challenge: staying alive long enough to learn how to handle a power she had no idea she possessed—a gift that allows her to see beyond the world of man, into the dangerous realm of the Fae. . . . As Mac delves deeper into the mystery of her sister's death, her every move is shadowed by the dark, mysterious Jericho, a man with no past and only mockery for a future. As she begins to close in on the truth, the ruthless Vlane—an alpha Fae who makes sex an addiction for human women—closes in on her. And as the boundary between worlds begins to crumble, Mac's true mission becomes clear: find the elusive Sinsar Dubh before someone else claims the all-powerful Dark Book—because whoever gets to it first holds nothing less than complete control of the very fabric of both worlds in their hands. . . . Look for all of Karen Marie Moning's sensational Fever novels: DARKFEVER | BLOODFEVER | FAEFEVER | DREAMFEVER | SHADOWFEVER | ICED | BURNED | FEVERBORN | FEVERSONG BONUS: This edition contains an excerpt from Karen Marie Moning's Bloodfever.

Nora Ephron

A Biography

Chicago Review Press Nora Ephron was one of the most popular, accomplished, and beloved writers in American journalism and film. *Nora Ephron: A Biography* is the first comprehensive portrait of the Manhattan-born girl who forged a path of her own, earning

accolades and adoration from critics and fans alike. Author Kristin Marguerite Doidge explores the tremendous successes and disappointing failures Ephron sustained in her career as a popular essayist turned screenwriter turned film director. She redefined the modern rom-com genre with bestselling books such as *Heartburn* and hit movies including *When Harry Met Sally*, *Sleepless in Seattle*, and *Julie & Julia*. Doidge also examines the private life Ephron tried to keep in balance with her insatiable ambition. Based on rare archival research and numerous interviews with some of Ephron's closest friends, collaborators, and award-winning colleagues including actors Tom Hanks and Caroline Aaron, comedian Martin Short, composer George Fenton, and lifelong friends from Wellesley to New York to Hollywood—as well as interviews Ephron herself gave throughout her career—award-winning journalist and cultural critic Doidge has written a captivating story of the life of a creative writer whose passion for the perfect one-liner and ferocious drive to succeed revolutionized journalism, comedy, and film. The first in-depth biography to explore the complex themes that ran through Ephron's work and to examine why so many of them still grab our attention today.

Dragon Bound

Penguin *THE FIRST NOVEL IN THE NEW YORK TIMES BESTSELLING ELDER RACES SERIES!* Half-human and half-wyr, Pia Giovanni spent her life keeping a low profile among the wyrkind and avoiding the continuing conflict between them and their Dark Fae enemies. But after being blackmailed into stealing a coin from the hoard of a dragon, Pia finds herself targeted by one of the most powerful—and passionate—of the Elder races. As the most feared and respected of the wyrkind, Dragos Cuelebre cannot believe someone had the audacity to steal from him, much less succeed. And when he catches the thief, Dragos spares her life, claiming her as his own to further explore the desire they've ignited in each other. Pia knows she must repay Dragos for her trespass, but refuses to become his slave—although she cannot deny wanting him, body and soul...

Thinking Without Words

Oxford University Press *First Oxford University Press pbk edition.*

The Secret Relationship Between Blacks and Jews

Did You Ever Have a Family

Random House *This book of dark secrets opens with a blaze. On the morning of her daughter's wedding, June Reid's house goes up in flames, destroying her entire family - her present, her past and her future. Fleeing from the carnage, stricken and alone, June finds herself in a motel room by the ocean, hundreds of miles from her Connecticut home, held captive by memories and the mistakes she has made with her only child, Lolly, and her partner, Luke. In the turbulence of grief and gossip left in June's wake we slowly make sense of the unimaginable. The novel is a gathering of voices, and each testimony has a new revelation about what led to the catastrophe - Luke's alienated mother Lydia, the watchful motel owners, their cleaner Cissy, the teenage pothead who lives nearby - everyone touched by the tragedy finds themselves caught in the undertow, as their secret histories finally come to light. Lit by the clarity of understanding that true sadness brings, *Did You Ever Have a Family* is an elegant, unforgettable story that reveals humanity at its worst and best, through loss and love, fracture and forgiveness. At the book's heart is the idea of family - the ones we are born with and the ones we create - and the desire, in the face of everything, to go on living.*

World Development Report 1978

World Bank Publications *This first report deals with some of the major development issues confronting the developing countries and explores the relationship of the major trends in the international economy to them. It is designed to help clarify some of the linkages between the international economy and domestic strategies in the developing countries against the background of growing interdependence and increasing complexity in the world economy. It assesses the prospects for progress in accelerating growth and alleviating poverty, and identifies some of the major policy issues which will affect these prospects.*

The Noonday Demon

An Atlas Of Depression

Simon and Schuster *The author offers a look at depression, drawing on his own battle with the illness and interviews with fellow sufferers, researchers, and doctors to assess the disease's complexities, causes, symptoms, and available therapies.*

Philosophy of Mind

Routledge *This book explores a range of issues in the philosophy of mind, with the mind-body problem as the main focus. It serves as a stimulus to the reader to engage with the problems of the mind and try to come to terms with them, and examines Descartes's mind-body dualism.*

Psychology

Themes and Variations

Wadsworth Publishing Company In *PSYCHOLOGY: THEMES AND VARIATIONS, BRIEFER VERSION*, Wayne Weiten continues his proven combination of a scientifically rigorous text with selective pedagogy that makes learning easy for students. Weiten's approach is backed by a straightforward writing style, unparalleled in-text visuals and didactic art program, and in-book review to help users prioritize and retain the core concepts. Weiten surveys psychology's broad range of content with three aims: to illuminate the process of research and its intrinsic relationship to application (themes); to show both the unity and diversity of the subject (variations), and to invite users to the study of psychology by respecting their ability to master its fundamental concepts. Weiten's themes (including empiricism, theoretical diversity, sociohistorical contexts, multifactorial causation, cultural heritage, heredity and environment, and subjectivity of experience) and variations provide unifying threads across chapters that help users see the connections among different research areas in psychology.

Southern Gods

Simon and Schuster Recent World War II veteran Bull Ingram is working as muscle when a Memphis DJ hires him to find Ramblin' John Hastur. The mysterious blues man's dark, driving music—broadcast at ever-shifting frequencies by a phantom radio station—is said to make living men insane and dead men rise. Disturbed and enraged by the bootleg recording the DJ plays for him, Ingram follows Hastur's trail into the strange, uncivilized backwoods of Arkansas, where he hears rumors the musician has sold his soul to the Devil. But as Ingram closes in on Hastur and those who have crossed his path, he'll learn there are forces much more malevolent than the Devil and reckonings more painful than Hell... In a masterful debut of Lovecraftian horror and Southern gothic menace, John Hornor Jacobs reveals the fragility of free will, the dangerous power of sacrifice, and the insidious strength of blood.

Good Economics for Hard Times

Better Answers to Our Biggest Problems

Penguin UK FROM THE WINNERS OF THE 2019 NOBEL PRIZE IN ECONOMICS 'Wonderfully refreshing . . . A must read' Thomas Piketty In this revolutionary book, prize-winning economists Abhijit V. Banerjee and Esther Duflo show how economics, when done right, can help us solve the thorniest social and political problems of our day. From immigration to inequality, slowing growth to accelerating climate change, we have the resources to address the challenges we face but we are so often blinded by ideology. Original, provocative and urgent, *Good Economics for Hard Times* offers the new thinking that we need. It builds on cutting-edge research in economics - and years of exploring the most effective solutions to alleviate extreme poverty - to make a persuasive case for an intelligent interventionism and a society built on compassion and respect. A much-needed antidote to polarized discourse, this book shines a light to help us appreciate and understand our precariously balanced world.

Homegoing

Penguin UK THE SUNDAY TIMES BESTSELLER Selected for Granta's Best of Young American Novelists 2017 Winner of the National Book Critics Circle Award for Best First Book Shortlisted for the PEN/Robert W. Bingham Prize for Debut Fiction Effia and Esi: two sisters with two very different destinies. One sold into slavery; one a slave trader's wife. The consequences of their fate reverberate through the generations that follow. Taking us from the Gold Coast of Africa to the cotton-picking plantations of Mississippi; from the missionary schools of Ghana to the dive bars of Harlem, spanning three continents and seven generations, Yaa Gyasi has written a miraculous novel - the intimate, gripping story of a brilliantly vivid cast of characters and through their lives the very story of America itself. Epic in its canvas and intimate in its portraits, *Homegoing* is a searing and profound debut from a masterly new writer.

The Mating Mind

How Sexual Choice Shaped the Evolution of Human Nature

Random House Miller shows how our brains are the products of sexual selection, not natural selection, and how this alters and illuminates our understanding of intelligence, art, language, mortality, sex and the differences between men and women.

It's Complicated

The Social Lives of Networked Teens

Yale University Press Surveys the online social habits of American teens and analyzes the role technology and social media plays in their lives, examining common misconceptions about such topics as identity, privacy, danger, and bullying.

On World History

An Anthology

Routledge A collection of writings on world history by an 18th-century founder of German Romanticism. Herder was one of the first to separate history from theology, and to use humanity itself as an organizing principle for studying history. Includes an introduction on the author's position in the context of the historiography and theoretical assumptions of his day, plus brief introductions to each reading. About one-third of the chapters have been translated into English for the first time. Paper edition (unseen), \$27.95.

Annotation copyright by Book News, Inc., Portland, OR

Henri Lefebvre

A Critical Introduction

Routledge Philosopher, sociologist and urban theorist, Henri Lefebvre is one of the great social theorists of the twentieth century. This accessible and innovative introduction to the work of Lefebvre combines biography and theory in a critical assessment of the dynamics of Lefebvre's character, thought, and times. Exploring key Lefebvrian concepts, Andy Merrifield demonstrates the evolution of Lefebvre's philosophy, while stressing the way his long and adventurous life of ideas and political engagement live on as an enduring and inspiring interrelated whole.

Emotional Intelligence

Why It Can Matter More Than IQ

Bloomsbury Publishing Daniel Goleman offers a vital new curriculum for life that can change the future for us and for our children

Oh, Play that Thing

CCV On the last page of *A Star Called Henry*, the first volume of the *The Last Roundup* trilogy, we left Henry Smart on the run from his Republican paymasters, the men for whom he had perpetrated murder and mayhem. He flees from Dublin to Liverpool and from thence to Ellis Island, New York, America. And this is where *Oh, Play That Thing* begins... It's 1924, and New York is the centre of the universe. Henry falls on his feet, as a handsome man with a sandwich board, and - this being Prohibition - behind his sandwich board a stash of hooch for the speakeasies of the Lower East Side. When he starts hiring kids to carry boards for him, he catches the attention of the mobsters who run the district and soon there are eyes on his back and men in the shadows. It is time to leave, for another America: Chicago. In Chicago there is no past waiting to jump on Henry. The place is wild, as new as he is, and newest of all is the music. Furious, wild, happy music played by a man with a trumpet and bleeding lips called Louis Armstrong. His music is everywhere, coming from every open door, every phonograph. But Armstrong is a prisoner of his colour; there are places a black man cannot go, things he cannot do. And the mob is in Chicago too: they own every stage - and they own the man up on the stage. Armstrong needs a man, a white man, and the man he chooses is Henry Smart. This is a novel of prodigious energy and invention. Its language and its rhythms are as breathtaking as the music it celebrates. It shows yet again that as a writer Roddy Doyle is unequalled in his vision, his ambition, his ability to surprise us with each new novel. It is nothing less than a triumph.
