NONPROFITS AS POLICY SOLUTIONS TO THE BURDEN OF GOVERNMENT

Walter de Gruyter GmbH & Co KG **This book addresses a specific subset of nonprofits that are chartered with a single mission: decrease the burden of government. Designing and engaging nonprofits to lessen the burden of government requires a specific description and acknowledgement of the burden to be lessened, and these may include the provision of infrastructure, the relief of debt, or the provision of general public services that are not motivated by charity. It also requires the assignment of specific operating powers to the nonprofit including the power of eminent domain. This book explores these and other related topics including the avoidance of resource dependence on government when**

attempting to reduce its burden. The book is addressed to the policy makers and rule makers who design policies that affect the ability of the nonprofit to effectively lessen the burden of government. It is also addressed to public administrators in search of innovative ways of implementing these policies consistent with the laws, and to the creative nonprofit managers who are charged with carrying out the mission often in collaboration with the government or other entities. To the advanced student in all related fields, the author offers not only material for discussion, but enables discovery of what is possible by giving key examples of organizations meeting the terms and objective of lessening a significant burden of government.

BUDGET MEASURES AND LOW-INCOME HOUSEHOLDS

THIRTEENTH REPORT OF SESSION 2007-08 : REPORT, TOGETHER WITH FORMAL MINUTES, ORAL AND WRITTEN EVIDENCE

The Stationery Office This report examines the impact of the abolition of the 10 pence rate of income tax, considering separately the effects of initial implementation and the effects in the light of the changes to personal allowances announced on 13 May 2008. The losers from the measures as initially implemented were people whose taxable income was small and for whom the loss might be significant when required to manage a personal or household budget at a time of sharply rising prices for many essential goods and services. For the current tax year, in the circumstances which the Chancellor of the Exchequer faced, the option chosen on 13 May of increasing personal allowances, but confining the benefits to basic rate taxpayers, was probably the least bad option, with the benefits of simplicity, transparency and greater incentives to work on the basis that fewer taxpayers face high marginal deduction rates. However, £2 billion of the £2.7 billion committed to that measure is not devoted to compensating losers from the removal of the starting rate of income tax, and is not well-targeted. The Government must learn lessons relating to budgetary processes. The Government should publish a Household Impact Assessment alongside future Budgets and Pre-Budget Reports. There is a pressing need for the Government to compensate the remaining 1.1 million households who lose from the removal of the starting rate of income tax even after the 13 May changes. In the longer-term, reforms should be centred on the greater challenges faced by the Government in combating poverty. The Committee recommends the establishment of a Poverty Commission on a similar basis to the Pensions Commission to examine the public policy challenges relating to poverty.
