Lazlo Ferran **Note:** This edition enhances the standard Kids book text with the addition of 11, small B&W illustrations, which can be coloured in, at no additional cost. It is NOT simply a colouring book. Victor Frankenstein dabbles with forces he cannot understand when he creates a monster at University in Geneva and brings it to life. Mary Shelley's classic monster story has delighted readers and film fans for many years. This version of the story has been specially adapted for kids from nine to twelve years old. The language and vocabulary are easy, and emphasis is on action using past, present and future simple tenses. Punctuation meets UK or USA ESL/CEFR/IELTS Level B2 in most cases, although there are some 19th Century features of the text which do not comply and have been left intact to preserve the charm of Mary Shelley's text. The vocabulary in this book is slightly harder than for *The Mysterious Affair at Styles* and *The Secret Adversary*. You should try those books first if you are not familiar with words like the following: truthfulness, occupied, unimaginable, commenced, mechanism. Lazlo Ferran is a fully qualified English teacher and teaches in London. He has also published more than twenty novels, making him the ideal choice to adapt Mary Shelley's stories for children. ### **TROPILINE BAJAN DESIGN**

---

Createspace Independent Publishing Platform This black and white (B&W) Edition of Tropiline Bajan Design (USA Design Patent Des 328198 S) was designed to be of special value to students, artists, and academics. It is about the best modern product design ever to come out of an emerging market and is a major advance in international modern art with cultural, personal, and regional influences all synthesized to produce a masterpiece. It is a single line drawn in space as the essence of the design, like Malevich's rotated linear squares, Saarinen's St. Louis Arch, and Brancusi's Bird in Space! "Even less is even more" permeates the philosophy, which is an amazing chronology of the creative process, the struggles of innovative artists, perseverance and determination (as the design moves around the world from Barbados, to Denmark, to China); with a challenge to all emerging markets (and communities) to move forward modern progressive principles in an age of increasing globalization and international cooperation. The B&W version has a chiaroscuro that is very powerful allowing the brilliant modern forms throughout the book to emerge purely.
