Pull Me Under

A Football Romance

When the world is watching, don't stand aloneThe morning after celebrating his team's championship title, Ben Jimmer wakes up - not to a barrage of well-deserved congratulatory messages, but to a hangover and the news that he may have accidentally come out the night before. His manager convinces him that if you have to be the first openly gay footballer at the prime of your career, there's nothing wrong with enlisting a little help in the form of a long-term, committed and very fake boyfriend. Enter Henry Brown, university student, who's all too happy to lend Ben a hand. Between public appearances and the media spotlight, a careful friendship starts to bloom. But when the lines inevitably start to blur, the question is: are they ready for the real thing?

Beautiful Haunting

Tragic Legacy

iUniverse **So far, everything I'd put together went something like this: 1) There was a freaky paranormal organization I've never heard of sending people to protect me from ruthlessly lethal demons bent on murdering me for absolutely no reason I could think of. 2) A dangerous duo of charismatic twin brothers one of which is somehow related to me had been sent to do the job. 3) A sparky (and sparkly) and daring new teen girl that takes**

bipolar to a whole new level and just maybe needs to check into an insane asylum, was acting like we had been friends forever or were going to be. Which, though the thought was definitely interesting, scared me slightly. 4) All these things added up to a wonderful sitcom made specially by God for me, called: The End of My Normal Life as I Knew It. God.

Hachette UK Ever since he was a young boy, music has coursed through the veins of eighteen-year-old Anthem—the Corp has certainly seen to that. By encoding music with addictive and mind-altering elements, the Corp holds control over all citizens, particularly conduits like Anthem, whose life energy feeds the main power in the Grid. Anthem finds hope and comfort in the twin siblings he cares for, even as he watches the life drain slowly and painfully from his father. Escape is found in his underground rock band, where music sounds free, clear, and unencoded deep in an abandoned basement. But when a band member dies suspiciously from a tracking overdose, Anthem knows that his time has suddenly become limited. Revolution all but sings in the air, and Anthem cannot help but answer the call with the chords of choice and free will. But will the girl he loves help or hinder him? Emma Trevayne's dystopian debut novel is a little punk, a little rock, and plenty page-turning.

Heart Tears of a Unicorn

Merdale

AuthorHouse This book comes from personal experience, both as a long time timeshare owner and from selling vacation ownership. What prompted this book? Well, for too many years I have listened to too many people whom, for whatever reasons have a negative impression about the timeshare or vacation ownership industry. As an owner I inevitably found myself asking them why. The reasons varied from "they do not work" to "we cannot afford it." For those folks this book will open your eyes. The second reason was for all those owners who honestly do not have a clue as to what they own. I wanted to let people understand something that they did not already know or have simply forgotten. Having been a timeshare owner for over twenty-five years I understand, and have experienced, the public perception of the industry. I have also seen it change dramatically during that time. However, it was during my first few years in Mexico when I sold timeshare that I came to understand, and appreciate, the real public perception of the industry. From these experiences I realized that the industry could use a simple "how to" and "why" book. The book is written in a simple, straight forward manner that is easy to understand. The book covers the history, marketplace, the players, the IN's and Out's of attending a sales

presentation, of buying one -- good and bad, legislation and much more. A quick, easy read it contains personal stories and antidotes, and easy, self awareness quizzes for you to do. By the end you will know whether or not timeshare is right for your lifestyle.

Cesare Pavese and Anthony Chiuminatto

Their Correspondence

[University of Toronto Press](#) **Italian poet, novelist, literary critic and translator Cesare Pavese (1908-1950) is generally recognized as one of the most important writers of his period. Between the years 1929 and 1933, Pavese enjoyed a rich correspondence with his Italian American friend, the musician and educator Antonio Chiuminatto (1904-1973). The nature of this correspondence is primarily related to Pavese's thirst to learn about American culture, its latest books, its most significant contemporary writers, as well as its slang. This volume presents an annotated edition of Pavese and Chiuminatto's complete epistolary exchange. Mark Pietralunga's brilliant introduction provides historical and cultural context for the letters and traces Pavese's early development as a leading Americanist and translator. The volume also includes an appendix of Chiuminatto's detailed annotations and thorough explanations of colloquial American terms and slang, drawn from the works of Sinclair Lewis, Sherwood Anderson, and William Faulkner. A lively and illuminating exchange, this collection ultimately corroborates critical opinion that America was the igniting spark of Pavese's literary beginnings as a writer and translator.**

Harvey

Lulu.com Harvest Smith, better known as Harvey, has been the lead singer of the band Harvest Moon since she was 17 years old. As she turns 30, she begins to question what has she accomplished with her life. There is the number one hit when she was 19. Is that all she is ever going to be, a One-Hit Wonder? As she starts to question the things in her life, it spirals out of control. Her manager and ex-fiance, Mitch believes that she is faking the medical issues that may force the band off the road. Her band thinks that she is suffering from exhaustion. She doesn't know what is happening, but she knows that there is something wrong. She is convinced that whatever killed her mother in her thirties has come to kill her. But what about love? Can she gain enough control of her life to see what is really there before she runs out of time? Or should she continue to blindly except what life has given her since she is convinced her days are numbered?

Watcher

WestBow Press Coda Irin is a typical sixteen-year-old sophomore at Stanton Valley High School. However, due to her mother's unexplained disappearance, she always feels different from the students surrounding her. With the arrival of the mysterious Jeremiah, Coda's world is rocked by the knowledge of how unusual her family really is. Waking every night from the nightmare that plagues her, Coda's once glorious appearance fades along with her spirits. She begins taking solace in Jeremiah-the only person who didn't know her before. But how can she continue to trust him if he speaks in riddles, and will not give her the answers that she must know to her questions? Confronted with the fact that angels exist, and that not one person in her life is who she thought they were, Coda needs answers. However, when her life is on the line, Coda learns that sometimes you have to blindly trust a person, even when all the necessary information is not

shared. With reality changing from a human realm to an angelic realm, the problem is: in whom should she trust?

Banded

Logan Byrne In dystopian Manhattan, society is divided into six zones, with each one representing a citizen's benefit to society: Stalwart (strength), Astute (intelligence), Collusive (greed), Radiant (beauty), Quixotic (no life direction), and the Altruistic (willingness to help others). On a citizen's sixteenth birthday, a computer suggests a new zone for them based on their inherent benefit to society. When Kalenna Slater is sorted out of her home zone Quixotic and into Altruistic, she thinks things can't get worse. Life looks dismal until she meets Gavin, a boy also just sorted into Altruistic who becomes the light needed on her cloudy days. During sorting she receives a device known as 'The Band'. It's a large watch-like device that never comes off, and it measures a citizen's karma on a scale from one to one hundred. If a citizen does good, they gain points. If a citizen does bad, including breaking laws, they lose points. When your number reaches zero, the band acts as judge, jury, and executioner, and you are injected with toxins that kill you within minutes. After sorting, recruits are taken to a three month long mandatory school named HQ. It's at HQ she meets new friends from different zones, and finally begins to feel at ease. Everything goes well until a rare trip home makes her discover that her father, who has been missing for a decade, may have taken part in a terrible program that stands to shake the fabric of society. young adult science fiction, young adult dystopian, dystopian series, dystopian science fiction, teen dystopian, teen dystopian series, teen dystopian romance, dystopian romance, science fiction romance, science fiction dystopian, teen romance series, dystopian series, science fiction series, free dystopian, free young adult dystopian, free young adult science fiction, free young adult series, free teen series, free science fiction, free science fiction series, free book, free series

A Conflict of Interest

UES Galaxy Fights for our Future – Operation OACOI

Strategic Book Publishing & Rights Agency The war on our world has taken its toll, and many from both sides are tired of the fighting. Both factions want to stop the war, but neither knows how. The war has taken many lives and

destroyed most of the environment on two planets. Someone comes up with an idea. "Instead of ending the war, why not stop it before it begins?" This is how the idea of going back in time to prevent the war was implemented. Unfortunately, Earth does not have the technology for time travel, but the Tharoans do, for they've been traveling through wormholes for eons. The tale begins when the United States is conducting a nuclear test above a deserted island. At that moment, a wormhole opens and a ship emerges from another dimension. The nuclear device explodes, engulfing the ship, killing the ambassadors and royal aliens. Their civilization takes this as an act of war. As a result, Earth is attacked and a war lasting two hundred years begins. Both sides, tired of fighting, secretly convene to stop the war. However, there are some who don't want the war to end. The President of the United Earth orders Admiral Hawkens and the crew of the UES Galaxy to travel back in time to stop the war at any cost. One major problem is that they can't kill anyone from the past for fear of disrupting Earth's timeline.

The Generals of the Yang Family Four Early Plays

World Scientific **This book offers a complete translation of four early plays of the Yang Family Generals. The story of the Yang Family Generals, particularly its female generals, was a perennial favorite on the Chinese stage in the 19th and 20th centuries. In detailing the role of this military family in the Song-Khitan wars of the late 10th and early 11th centuries, these four plays are all in the form of zaju, a type of play that originated in the 13th century. These plays are from the 15th and 16th centuries and allow a glimpse into earlier renditions of the Yang Family saga, which is a decidedly more male-centered tradition than that performed in the Qing dynasty. This volume offers the only complete English-language translation of these early plays. These plays allow access to the earliest phase in the development of the Yang Family saga. The plays provide information on the staging of large battle scenes on the stage and have considerable literary and cultural value.**
