STAYING WITH CONFLICT

A STRATEGIC APPROACH TO ONGOING DISPUTES

John Wiley & Sons Winner of the 2009 CPR Award for Outstanding Book In this groundbreaking book, Bernard Mayer, a pioneer in the field of conflict resolution, offers a new paradigm for dealing with long-term disputes. Mayer explains that when dealing with enduring conflict, mediators and other conflict resolution specialists need to move past the idea of how quickly they can resolve the conflict. Instead, they should focus on how they can help people prepare to engage with an issue over time. Once their attention is directed away from a speedy resolution to a long-term approach, new avenues of intervention become apparent.

DEBATING PUBLIC ADMINISTRATION

MANAGEMENT CHALLENGES, CHOICES, AND OPPORTUNITIES

Routledge Dialog between practitioners and academics has increasingly become the exception rather than the rule in contemporary public administration circles. Bridging the gap between theory and practice, *Debating Public Administration: Management Challenges, Choices, and Opportunities* tackles some of the major management challenges, choices, and opportunities of the twenty-first century facing public managers across various subfields of public administration. Informed by contemporary pressures on public managers to reconceptualize purpose, redefine administrative rationality, recapitalize human assets, reengage resources, and revitalize democratic constitutionalism, the book offers students, practitioners, and researchers an opportunity to take stock and ponder the future of practice and research in public administration. Organized by three sets of major management challenges facing the field—Rethinking Administrative Rationality in a Democratic Republic, Recapitalizing Organizational Capacity, and Reconceptualizing Institutions for New Policy Challenges—the book takes an uncommon approach to the study of these topics. In it, leading practitioners and academics comment on condensed versions of articles appearing in the Theory to Practice feature of *Public Administration Review (PAR)* from 2006 through 2011. The authors and commentators focus on some of the best current research, draw lessons from that literature for practice, and identify gaps in research that need to be addressed. They expertly draw out themes, issues, problems, and prospects, providing bulleted lessons and practical takeaways. This makes the book a unique one-stop resource for cross-disciplinary, cross-sectoral, and cross-professional exchanges on contemporary challenges.

BUILDING PEACE

PRACTICAL REFLECTIONS FROM THE FIELD

[Kumarian Press](#) Even though international peacebuilding has rapidly expanded in the last two decades to respond to more multi-faceted and complex conflicts, the field has lagged behind in documenting the impact and success of projects. To help address this gap, the Alliance for Peacebuilding, one of the leading networks in the field, has brought together 13 stories of innovative peacebuilding practices from around the world in Building Peace. While the projects covered are diverse in nature, together they demonstrate the significant impact of peacebuilding work. Contributors created new institutions to prevent and manage conflicts at the local or national levels, helped restore relationships in conflict-affected communities, and empowered citizens to work for positive change in their societies across ethnic, religious, and political divides. It's clear that there is no quick fix for violence but this volume will go a long way in providing inspiration and practical tools for policymakers, academics and practitioners who seek to make significant and valuable contributions towards achieving peace.

FIGHTING FOR EMPOWERMENT IN AN AGE OF VIOLENCE

[IGI Global](#) In today's modern world, persistent violence against vulnerable groups and minorities permeates societies, making it difficult for them to flourish. Empowering these groups has never been more important as society attempts to evolve and focus on inclusion. To understand the best practices and challenges of empowerment for minorities, further study is required. Fighting for Empowerment in an Age of Violence analyzes the different forms of violence against vulnerable groups and minorities, states their civil rights, and illustrates the forms of weakening and violence supported by authorities against their own citizens. The book also highlights the challenges for people marked as unequal or weak and the possibilities that the 21st century offers to empower them. Covering topics such as gender roles, political violence, societal security, and globalization, this reference work is ideal for government officials, sociologists, psychologists, politicians, security experts, activists, researchers, academicians, practitioners, scholars, educators, and students.

ENVIRONMENTAL CONFLICT RESOLUTION

MAKING SENSE OF INTRACTABLE ENVIRONMENTAL CONFLICTS

CONCEPTS AND CASES

[Island Press](#) Despite a vast amount of effort and expertise devoted to them, many environmental conflicts have remained mired in controversy, stubbornly defying resolution. Why can some environmental problems be resolved in one locale but remain contentious in another, often carrying on for decades? What is it about certain issues or the people involved that make a conflict seemingly insoluble. Making Sense of Intractable Environmental Conflicts addresses those and related questions, examining what researchers and experts in the field characterize as "intractable" disputes—intense disputes that persist over long periods of time and cannot be resolved through consensus-building efforts or by administrative, legal, or political means. The approach focuses on the "frames" parties use to define and enact the dispute—the lenses through which they interpret and understand the conflict and

critical conflict dynamics. Through analysis of interviews, news media coverage, meeting transcripts, and archival data, the contributors to the book:examine the concepts of frames, framing, and reframing, and the role that framing plays in conflictsoutline the essential characteristics of intractability and its major causesoffer case studies of eight intractable environmental conflictspresent a rich body of original interview material from affected partieset forth recommendations for intervention that can help resolve disputesWithin each case chapter, the authors describe the historical development and fundamental nature of the conflict and then analyze the case from the perspective of the key frames that are integral to understanding the dynamics of the dispute. They also offer cross-case analyses of related conflicts.Conflicts examined include those over natural resource use, toxic pollutants, water quality, and growth. Specific conflicts examined are the Quincy Library Group in California; Voyageurs National Park in Minnesota; Edwards Aquifer in Texas; Doan Brook in Cleveland, Ohio; the Antidegradation Environmental Advisory Group in Ohio; Drake Chemical in Pennsylvania; Alton Park/Piney Woods in Tennessee; and three examples of growth-related conflicts along the Front Range of Colorado's Rocky Mountains.
