Foundations, Guides, and Applications

SUNY Press This is an introductory text for an ethics course that provides the theoretical background for discussion of ethical problems. It could be supplemented with essays or anthologies on a range of particular problems, or an instructor could focus on the problems that occupy the concluding chapters: abortion, whistle-blowing, and the relation between ethics and the law. The first few chapters present ethical theory in straightforward fashion discussing alternatives and providing historical orientation. The middle chapters develop what the author calls "action guides" with principles for applying them. The last few chapters demonstrate the theory and action guides at work.

The Ethics of Animal Experimentation

A Critical Analysis and Constructive Christian Proposal

Oxford University Press The ethical treatment of animals has become an issue of serious moral concern. Many people are challenging long-held assumptions about animals and raising questions about their status and treatment. What is the relationship between humans and animals? Do animals have moral standing? Do we have direct or indirect duties to animals? Does human benefit always outweigh animal suffering? The use of animals for experimentation raises all of these questions in a particularly insistent way. Donna Yarri gives an overview of the current state of the discussion, and presents an argument for significantly restricted animal experimentation. Pointing to the similarities between humans and animals, she argues that the actual differences are differences of degree rather than kind. Animal cognition and animal sentience together are the basis for the claim that experimental animals do have rights. Examining arguments in the disciplines of ethology, philosophy, science, and theology, Yarri makes a case for placing substantial restrictions on animal experimentation. Grounding her examination in Christian theology, she formulates a more humane approach to animal experimentation. She concludes with a concrete burden-benefit analysis that can serve as the foundation for informed decision-making. The Ethics of Animal Experimentation serves as both a handbook of animal rights theory and a practical guide to navigating the complexities of animal experimentation. As animal experimentation features in an increasing number of scientific endeavors, it is an ethical issue that requires our immediate attention. Yarri's unique contribution forges a path toward an ethical practice of animal experimentation.

Mental Capacity Act 2005 code of practice

[large print 2007 final edition]

The Stationery Office The Mental Capacity Act 2005 provides a statutory framework for people who lack the capacity to make decisions for themselves, or for people who want to make provision for a time when they will be unable to make their own decisions. This code of practice, which has statutory force, provides information and guidance about how the Act should work in practice. It explains the principles behind the Act, defines when someone is incapable of making their own decisions and explains what is meant by acting in someone's best interests. It describes the role of the new Court of Protection and the role of Independent Mental Capacity Advocates and sets out the role of the Public Guardian. It also covers medical treatment and the way disputes can be resolved.

Guidelines for Constructing Consumption Aggregates for Welfare Analysis

World Bank Publications In September 2001, staff from the World Bank and the International Monetary Fund met with the objective of strengthening collaboration between the two organizations in projects of civil service reform. This strengthened collaboration will have key benefits in ensuring consistency between the conflicting goals of the two organizations, establishing realistic objectives within the reform process, and maintaining a core set of wage and employment data. The principal conclusion arrived at was that World Bank and IMF staff should be engaging in collaboration earlier in the reform process. To guide the collaboration, six foundations were identified. These include: develop a medium-term fiscal framework; foster national ownership by making reforms politically feasible; focus and streamline conditionality; agree on sequencing and timing of reforms; and strengthen data collection. These principals will be tested for effectiveness in several focus countries.

Working Together to Safeguard Children

A Guide to Inter-agency Working to Safeguard and Promote the Welfare of Children

The Stationery Office This publication contains guidance on the shared responsibilities and effective joint working practices between agencies and practitioners involved in safeguarding and promoting the welfare of children, including statutory and non-statutory guidance. This revised guidance (which supersedes that issued in 1999 (ISBN 0113223099) has been produced in light of a number of developments, including the inquiry into the death of Victoria Climbiá (2003, Cm 5730, ISBN 0101573022), the Government's Green Paper ('Every Child Matters', Cm 5860, ISBN 0101586027) and the provisions of the Children Act 2004 (c.31, ISBN 0105431044). Three of the most important changes are: the creation of children's trusts under the duty to co-operate, the setting up of Local Safeguarding Children Boards (LSCBs), and the duty on all agencies to make arrangements to safeguard and promote the welfare of children. The publication includes statutory guidance relating to: roles and responsibilities, Local Safeguarding Children Boards, training and development for inter-agency work, managing individual cases, supplementary guidance, child death review processes and serious case reviews; as well as and non-statutory practice guidance relating to: lessons from research and inspection, implementing key principles, the welfare of vulnerable children, and managing individuals who pose a risk of harm to children.
