#### PROGRESS, CHALLENGES, AND OPPORTUNITIES: SUMMARY OF A SYMPOSIUM

---

National Academies Press Since 1991, the National Research Council, under the auspices of the Board on Science, Technology, and Economic Policy, has undertaken a program of activities to improve policymakers' understandings of the interconnections of science, technology, and economic policy and their importance for the American economy and its international competitive position. The Board's activities have corresponded with increased policy recognition of the importance of knowledge and technology to economic growth. The goal of the this symposium was to conduct two public symposia to review and analyze the potential contributions of public-private partnerships and identify other relevant issues for the Department of Energy, Office of Vehicle Technologies, Energy Storage Team's activities in the energy storage research and development area. The symposia will also identify lessons from these and other domestic and international experiences to help inform DoE as to whether its activities are complete and appropriately focused. Additional topics that emerge in the course of the planning may also be addressed. Building the U.S. Battery Industry for Electric Drive Vehicles: Summary of a Symposium gathers representatives from leading battery manufacturers, automotive firms, university researchers, academic and industry analysts, congressional staff, and federal agency representatives. An individually-authored summary of each symposium will be issued. The symposium was held in Michigan in order to provide direct access to the policymakers and industrial participants drawn from the concentration of battery manufacturers and automotive firms in the region. The symposium reviewed the current state, needs, and challenges of the U.S. advanced battery manufacturing industry; challenges and opportunities in battery R&D, commercialization, and deployment; collaborations between the automotive industry and battery industry; workforce issues, and supply chain development. It also focused on the impact of DoE's investments and the role of state and federal programs in support of this growing industry. This task of this report is to summarize the presentations and discussions that took place at this symposium. Needless to say, the battery industry has evolved very substantially since the conference was held, and indeed some of the caveats raised by the speakers with regard to overall demand for batteries and the prospects of multiple producers now seem prescient. At the same time, it is important to understand that it is unrealistic to expect that all recipients of local, state, or federal support in a complex and rapidly evolving industry will necessarily succeed. A number of the firms discussed here have been absorbed by competitors, others have gone out of business, and others continue to progress.

#### THE ASIA-PACIFIC CENTURY

---

---

#### CHALLENGES AND OPPORTUNITIES

---

CRC Press When Secretary of State Hillary Clinton published "America's Pacific Century" in Foreign Policy magazine in November 2011, the administration was clearly indicating to domestic and international audiences that the United States is beginning a pivot toward the Asia-Pacific. Clinton's article served as a spark for renewed interest in the nation's Asia-Pacific strategy and American interests in the region. The Asia-Pacific Century: Challenges and Opportunities looks to the future of the Asia-Pacific and examines a broad range of questions that focus on diplomatic, economic, and military challenges facing the region's key players, with a particular focus on their relevance to the US military.

#### EMOTIONS AND EDUCATION: PROMOTING POSITIVE MENTAL HEALTH IN STUDENTS WITH LEARNING DISABILITIES

---

Vernon Press Written by an experienced team of practitioners and scholars, this text attempts to fill the gap in texts that specifically address the needs of Learning Disabilities (LD) students in the socioemotional and mental health domains. By providing a foundational understanding of some of the salient issues facing students with learning disabilities, we hope to empower all of those who are working to ensure their success by providing the particular challenges that LD students and their families may face, and strategies and best practices for building creativity, resiliency, prosocial behavior, and positive mental health. As a practitioner and family-oriented text, this book seeks to offer a truncated review of relevant literature followed by suggestions to guide practice.

**RECRUITER JOURNAL****ARMY HISTORY****THE PROFESSIONAL BULLETIN OF ARMY HISTORY****THE POLITICS OF SECURITY SECTOR REFORM****CHALLENGES AND OPPORTUNITIES FOR THE EUROPEAN UNION'S GLOBAL ROLE**

Ashgate Publishing, Ltd. Security Sector Reform (SSR) is increasingly becoming a cornerstone in international security and development cooperation. Indeed, the concept has often been seen as a panacea for many of the biggest threats to the world such as failed states, terrorism and poverty. In particular, this book focuses on the complexities of implementation of SSR across the globe and the actual and potential role for the European Union (EU) to play in SSR. As suggested in the title of the book, this involves not only opportunities, but challenges to be overcome as well. There are three core themes to this book: Policy, Policies and Practice. By presenting the themes in this particular order a greater appreciation of the influences on the process of SSR, from conception to implementation is relayed to the reader. This volume appeals to audiences interested in the EU as a global actor and the interrelationships between foreign, security, defence and development policies.

**ARMY RESEARCH AND DEVELOPMENT****RUSSIAN-AMERICAN SECURITY COOPERATION AFTER ST. PETERSBURG: CHALLENGES AND OPPORTUNITIES**

Lulu.com President Vladimir Putin's recent speech at the Munich Security Conference, in which he accused the United States of pursuing an American-dominated world order without regard for international law and morality, vividly demonstrated the extent to which political relations between Russia and the United States have frayed in recent years. For their part, American observers criticize the Putin administration for weakening Russia's opposition parties, restricting broadcast media, and impeding nongovernmental organizations (NGOs). They also fault Russia's military and nuclear cooperation with Iran and its overbearing energy policies towards other countries. Many people in the United States and elsewhere called on President George W. Bush to boycott the July 2006 G-8 summit in St. Petersburg to protest these developments.

**ARMY R, D & A.****THE JOURNEY THROUGH LIFE IN SEARCH OF SUCCESS****A BOOK THAT SHOWS YOU HOW TO TURN OBSTACLES INTO OPPORTUNITIES**

Notion Press This book is about a boy who grew up having to struggle for everything, including food and clothing. He faced numerous challenges that would be unfathomable to the average person. He gathered courage and challenged the situation in order to overcome the struggle he was facing. Otherwise, he would have continued to work as a labourer. This book is about a boy who grew up without anything, not even proper food and adequate clothing. But he somehow managed to balance his studies and labour work. He gained the courage to face the challenges in his life and rose to the position of a Class 1 Gazetted Officer and a Commissioned Officer. Dr (Col) Shaji Panikkar was diagnosed with cancer late in his military career and faced it head-on. On the first day, he stated that he would not die of cancer and he overcame all the odds to survive the battle. He is now in good health and says that our belief system should work for us. There will be difficulties, but we must face them. This book will definitely make the readers dig deep within themselves to find what it takes to face and overcome all the hurdles in life. In this book, one can easily understand the benefit of gaining courage and how to face challenges and achieve success.

**POST COLD WAR CHALLENGES TO U.S. MILITARY****HEARINGS BEFORE THE COMMITTEE ON ARMED SERVICES, UNITED STATES SENATE, ONE HUNDRED FIFTH CONGRESS, SECOND SESSION, JANUARY 29, MARCH 19, 25, AND JUNE 4, 1998****HEARINGS****TRUST IN MILITARY TEAMS**

Ashgate Publishing, Ltd. The objective of this book is to report on contemporary trends in the defence research community on trust in teams, including inter- and intra-team trust, multi-agency trust and coalition trust. The book also considers trust in information and automation, taking a systems view of humans as agents in a multi-agent, socio-technical, community. The different types of trust are usually found to share many of the same emotive, behavioural, cognitive and social constructs, but differ in the degree of importance associated with each of them. Trust in Military Teams is written by defence scientists from the USA, Canada, Australia and the UK, under the auspices of The Transfer Cooperation Programme. It is representative of the latest thinking on trust in teams, and is written for defence researchers, postgraduate students, academics and practitioners in the human factors community.

**ARMY SCIENCE AND TECHNOLOGY MASTER PLAN****AERONAUTICAL RESEARCH AND DEVELOPMENT, HEARINGS BEFORE THE SUBCOMMITTEE ON ADVANCED RESEARCH AND TECHNOLOGY...90-2, SEPTEMBER 24, 25, 26, 30, OCTOBER 1, 2, 3, 1968, (NO. 10).****SPECIAL OPERATIONS FROM A SMALL STATE PERSPECTIVE****FUTURE SECURITY CHALLENGES**

Springer "Over the past dozen years special operations forces (SOF) have been one of the few areas of growth and expansion in a number of militaries. This growth and expansion, however, has not been mirrored by a comparable one in academic inquiries into the subject. Special Operations from a Small State Perspective - Future Security Challenges, which contains a wide range of perspectives from both practitioners and academics, makes a unique contribution to the literature and offers fascinating insights into the opportunities provided by and challenges confronting small states such as Sweden in their evolutionary development and use of SOF." Dr James Kiras, Associate Professor, School of Advanced Air and Space Studies, The Air University, Alabama, USA.

**CHALLENGES AND OPPORTUNITIES FOR THE OBAMA ADMINISTRATION IN CENTRAL ASIA**

---

President Obama has outlined a comprehensive strategy for the war in Afghanistan which is now the central front of the U.S. campaign against Islamic terrorism. The strategy strongly connects the prosecution of that war to U.S. policy in Pakistan and internal developments there as a necessary condition of victory. But the strategy also has provided for a new logistics road through Central Asia. In this monograph, Dr. Stephen Blank argues that a winning strategy in Afghanistan depends upon the systematic leveraging of the opportunity provided by that road and a new coordinated nonmilitary approach to Central Asia. That approach would rely heavily on improved coordination at home and a more effective leveraging of U.S. economic power in Central Asia to help stabilize the region so that it provides a secure rear to Afghanistan. In this fashion, the United States would help Central Asia meet the challenges of extremism and of economic decline due to the global economic crisis, thus helping to provide political stability in states that are likely to be challenged by the confluence of those trends. This timely monograph contributes directly to the debate on U.S. strategy in Afghanistan and Central Asia in the hope that policy makers will find it informative and useful, and that those who may be called upon to implement the policy will be able to do so more effectively.

**SMALL STATES IN EUROPE**

---

**CHALLENGES AND OPPORTUNITIES**

---

Ashgate Publishing, Ltd. The effects of recent institutional change within the European Union on small states have often been overlooked. This book offers an accessible, coherent and informative analysis of contemporary and future foreign policy challenges facing small states in Europe. Leading experts analyze the experiences of a number of small states including the Netherlands, the Czech Republic, Slovakia, Luxembourg, Cyprus, Iceland, Austria and Switzerland. Each account, written to a common template, explores the challenges and opportunities faced by each state as a consequence of EU integration, and how their behaviour regarding EU integration has been characterized. In particular, the contributors emphasize the importance of power politics, institutional dynamics and lessons of the past. Innovative and sophisticated, the study draws on the relational understanding of small states to emphasize the implications of institutional change at the European level for the smaller states and to explain how the foreign and European policies of small states in the region are affected by the European Union.

**THE OVERLORD EFFECT**

---

**EMERGENT LEADERSHIP STYLE AT THE D-DAY INVASION**

---

AuthorHouse The Overlord Effect is a historically based leadership review that combines the accounts of Veterans of the Normandy Campaign of World War II and presents a conversation about their experiences with the leadership theories that have become part of today's conversation on the subject in the military, academics, and business. The Normandy Invasion was one of the most complex and successful military campaigns in history. The preparation for this event took years of planning and training. It required leaders at every level to demonstrate exemplary leadership in a compressed space and time that called for decisions to be made in an instant, for leaders to act with courage and character, and for both followers and leaders to accomplish any mission regardless of the personal cost. The Overlord Effect takes the snapshots of the critical experiences of leaders at every level of the Allied Invasion Force and reviews their actions and places them into understandable, thought provoking insights that will help leaders in any discipline respond better to challenges. The work also presents Dr. Pierce's theory on Emergent Leadership During Crisis(ELDC), and discusses ways that the leaders and professionals of today can use it to help themselves understand their own leadership experience, as well as to develop future leaders in the workplace.

**STRENGTHENING THE MILITARY FAMILY READINESS SYSTEM FOR A CHANGING AMERICAN SOCIETY**

---

---

National Academies Press The U.S. military has been continuously engaged in foreign conflicts for over two decades. The strains that these deployments, the associated increases in operational tempo, and the general challenges of military life affect not only service members but also the people who depend on them and who support them as they support the nation — their families. Family members provide support to service members while they serve or when they have difficulties; family problems can interfere with the ability of service members to deploy or remain in theater; and family members are central influences on whether members continue to serve. In addition, rising family diversity and complexity will likely increase the difficulty of creating military policies, programs and practices that adequately support families in the performance of military duties. Strengthening the Military Family Readiness System for a Changing American Society examines the challenges and opportunities facing military families and what is known about effective strategies for supporting and protecting military children and families, as well as lessons to be learned from these experiences. This report offers recommendations regarding what is needed to strengthen the support system for military families.
