KEY=DEBATE - JAIDA TRINITY

A Reformation Sourcebook Documents from an Age of Debate

University of Toronto Press **During the Reformation, Europeans were engaged in a debate that would alter the course of European history. This debate was about how to understand and practice the Christian faith. Never before had so many people weighed in on a topic of such importance. This book presents the debates of the Reformation era through over eighty primary sources. Some of the documents present formal debates. Others represent informal debates or disputes, with one text responding directly to the other. Still other sections present texts that offer divergent approaches to or perspectives on specific ideas. These too were part of the century-long debate that characterized the Reformation. The author provides an essay on how to read primary sources. Each chapter opens with a brief introduction, and each group of primary sources is preceded by information on historical context as well as focus questions. Further readings are provided at the end of each chapter, and a map of Europe divided by religions is included.**

Latin American Writers on Gay and Lesbian Themes: A Bio-Critical Sourcebook

A Bio-Critical Sourcebook

ABC-CLIO Gay and lesbian themes in Latin American literature have been largely ignored. This reference fills this gap by providing more than a hundred alphabetically arranged entries for Latin American authors who have treated gay or lesbian material in their works. Each entry explores the significance of gay and lesbian themes in a particular author's writings and closes with a bibliography of primary and secondary sources. The figures included have a professed gay identity, or have written on gay or lesbian themes in either a positive or negative way, or have authored works in which a gay sensibility can be identified. The volume pays particular attention to the difficulty of ascribing North American critical perspectives to Latin American authors, and studies these authors within the larger context of Latin American culture. The book includes entries for men and women, and for authors from Latin American countries as well as Latino writers from the United States. The entries are written by roughly 60 expert contributors from Latin America, the U.S., and Europe.

Confronting Corruption

The Elements of a National Integrity System

The first version of this Source Book argued the case for a "National Integrity System", an holistic approach to transparency and accountability and embracing a range of accountability "pillars", democratic, judicial, media and civil society. The expression has since passed into common usage in development circles, and the argument for an holistic approach to anti-corruption efforts has similarly achieved a widespread consensus. The fight against corruption is not wholly a moral one, in the sense that it is a struggle against the intrinsic "evil" of corruption. Certainly there is a moral element - and one which cuts across all major religions and societies throughout the world. But the compelling reason for the struggle is the suffering and deprivation corruption brings to whole societies, and to the world's most poor. It is concern for the latter, rather than a distaste for the corrupt and their deeds, that rightly drives the global movement against corruption.

The Trial of Jeanne d'Arc (Routledge Revivals)

Routledge First published in 1931, this is the first unabridged English translation of the documents pertaining to the trial of Joan of Arc. The basis of the translation is drawn from an edition of the text published in 1841 by Jules Quicherat, but elements are also derived from a number of the manuscripts originally translated into Latin. As notes were taken daily by several scribes, the text provides important insight into the trial, its chronology and its major players, as well as Joan's character and intellect.

With a detailed introduction and beautiful illustrations, this is a fascinating reissue that will be of value to students of medieval history, particularly those with an interest in medieval hagiography, heresy during the fourteenth century, ecclesiastical law and the practice of Church courts.

Postmodern Theologies

The Challenge of Religious Diversity

Wipf and Stock Publishers An introduction and evaluation of contemporary approaches to theology, 'Postmodern Theologies' sets out to discern movements shaping the postmodern study of religion in a unique collaborative venture born of a postgraduate seminar at Florida State University. While some might say that theology after the death of God is like biology after the end of life - a discipline without a subject - 'Postmodern Theologies' identifies four general patterns of postmodernisms in theology today: constructive theologies (with Helmut Peukert, David Ray Griffin, and David Tracy cited as examples); postmodernisms of dissolution (Thomas J. J. Altizer, Mark C. Taylor, and Edith Wyschogrod); postliberal theologies (George Lindbeck); and communal praxis (exemplified by Gustavo Gutierrez and other Latin American theologians, and James Wm. McClendon and Sharon Welch among North Americans). These theologies eschew debates on traditional religious foundations to define true religion as the result of - rather than the impetus to - living one's beliefs. As these disparate approaches to theology are not directly comparable, the final chapter of 'Postmodern Theologies' instead analyzes how each one accounts for the plurality of religions. Exploring the postmodern strategies for coping with one of the most difficult questions in any theological age offers a fascinating way to assess their inherent strengths and weaknesses.

The Daily Show (The Book)

An Oral History as Told by Jon Stewart, the Correspondents, Staff and Guests

Hachette UK The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of

today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, Steve Carell, Lewis Black, Jessica Williams, John Hodgman, and Larry Wilmore-plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program hosted by Craig Kilborn to Jon Stewart's long reign to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, Jon Stewart's emotional monologue in the wake of 9/11, his infamous confrontation on Crossfire, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, the Indecisions, Mess O'Potamia, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

Qualities of Education in a Globalised World

[Springer](#) In a growing revisionist tradition, comparative educational scholars challenge conventional assumptions about quality education as a singular undertaking dominated by standardised assessments and globalisation influences. The contributors to this volume illustrate the complexities and global dimensions of educational quality that emerged in their research. Several chapters critique educational reforms employing assessments aligned to global standards and large scale assessments, revealing how considerations of contextual factors, internal needs and local traditions are essential for developing a quality curriculum or for overhauling a national education system. Most chapters interrogate the uses and misuses of standardised assessment results. The contributors reveal the importance of asking critical questions about quality education: how to access it and for what purposes; what contextual and cultural factors are important; what implementation issues and local-level realities must be considered for true understanding of standardized assessment results; what content, skills and values are necessary and desirable ingredients; what roles teachers and administrators play; and what benefits accrue in terms of

outcomes for employment and labor market needs or for achieving autonomy and stakeholder participation. Critiques of narrow interpretations of standardised assessment data contrast with research-based evidence that participation in large scale assessments such as PISA, TIMSS and PIRLS can indeed be beneficial to identify needed reform refinements and implementation shortcomings. Specific country cases include Brazil, Canada, the United States, Spain, Portugal, Ukraine, Kyrgyzstan, and the Philippines. Other chapters provide insights on quality education issues worldwide. The volume offers readers a panorama of views on the diversity of paths to quality education.

Gender Quotas in the Post-Communist World

Voice of the Parliamentarians

IFiS PAN Publishers **This is a sourcebook on gender quotas in nations that experienced multiple generations of Communist Party rule. We built the book from a variety of sources and disciplines for use in research, teaching, and activism. We intend for the book to provide an introduction to gender quota policy and, thus, to the cross-national problem of women's political inequality of voice. This book features the voice of the parliamentarians whose job it is to write, promote, and enforce the policies that help move society from gender inequality to gender equality. Nations with a Communist past have been underrepresented in the English-language scholarship on political representation and gender inequality. This sourcebook presents new and updated information about countries of the world whose women endure political inequality in everyday life yet whose specific plight over the last two decades has been little examined by Western scholars. Among other sources, this book includes, for the first time, an English language translation of the entire parliamentary debate in Poland's Sejm on the proposed gender quota law in 2010. This book was funded by the National Science Center, Poland (project number 2016/23 / B / HS6 / 03916).**
