## Cheers! Wine Cellar Design III Hb

### Cheers!

**Cheers! Wine Cellar Design** Every wine collector has a dream of building their own wine cellar to house a wide range of wines. However, designing a wine cellar is not an easy task, as it requires a variety of factors and a comprehensive understanding of wine collecting culture. This book is the third in a series of wine cellar design books, featuring recent examples of wine cellars from a number of excellent design agencies from home and abroad. A number of design agencies in the book have adopted innovative wine cellar designs that are unique and unconventional, and are a real eyeopener. These examples represent the latest global trends and will be of benefit to both the design agencies involved and the collectors who dream of having their own wine cellars.

## A Love by Design Novel

**Simon and Schuster** A story of heart-stopping, toe-curling passion by the beloved bestselling author of *Hard to Love*, *Resisting Her*, and *The Impact of You*. Straight-laced and well-mannered southerner Emmy Clarke is out of her depth in New York City's fashion world, but when she lands a job as an assistant at a modeling agency it seems like the perfect mix of business and pleasure. Working under the notoriously tyrannical Fiona Stone is a nightmare, but there's one distinct perk: ogling the ridiculously hot male models who parade through the office—particularly rising star Ben Shaw. Ben is everything Emmy's not: exquisitely gorgeous, highly paid, and well-traveled. He's also got more issues than *Vogue*. Emmy looks after Ben on photo shoots, but she refuses to become another one of his lusting groupies. Ben finds Emmy's refreshingly real attitude to be surprisingly attractive. Against a backdrop of the most fashionable cities in the world, casual flirting turns into an illicit affair, but when Ben's twisted past is revealed, and the bitter Fiona catches wind of their relationship, their careers and hearts are threatened.

## Leading the Cheers

**Hachette UK** \* WINNER OF A WHITBREAD NOVEL AWARD \* A rich portrayal of small-town life with wonderfully evoked characters and beautifully observed writing. Dan Silas returns to America for his high school reunion where he makes some unexpected discoveries. His former girlfriend tells him that her daughter was his child and Dan's oldest friend has suffered a breakdown and now believes himself to be the reincarnation of an Indian chief. In an attempt to make sense of these disturbing facts, Dan digs further into their lives, with both tragic and comic results. 'A wonderfully observed novel which provides a rare outsider's glimpse of the quiet despair that lurks behind those bright, perfectly-formed American smiles' *Literary Review*

## Backen, Gillam, & Kroeger Architects

**Rizzoli Publications** *Elegant rusticity meets unpretentious luxury in the work of this award-winning architecture firm. Howard Backen, principal of the architecture firm Backen, Gillam & Kroeger, is at the center of a popular movement in home design that emphasizes elegant simplicity and embraces the rustic charm of natural materials. This volume, the first on his work and that of the firm, is an artful exploration of this aesthetic, featuring farmhouses in the Napa Valley, hilltop homes, seaside retreats, and lakeside hideaways. Throughout the work, a sense of intimacy, warmth, and informality pervades. Natural materials, such as wood, stone, and brick, form the foundations, walls, and ceilings of these subtly luxurious spaces, while nature itself plays a considered role that is at once complementary and also intricately conjoined with the work. Sensitive, alluring, and wonderfully resonant with the suggestion of invitation, the work of Backen, Gillam & Kroeger is both thrilling to the eye and restorative to the soul.*

## The Application of Science in Winemaking

**Hachette UK** \*\*\* *"Jamie Goode is a rarity in the wine world: a trained scientist who can explain complicated subjects without dumbing them down or coming over like a pointy head. It also helps that he's a terrific writer with a real passion for his subject." - Tim Atkin MW, Observer* *This revolutionary book is the only in-depth reference to detail the processes, developments and factors affecting the science of winemaking. Jamie Goode, a highly regarded expert on the subject, skilfully opens up this complex subject and explains the background to the various processes involved and the range of issues surrounding their uses. He reports on the vital progress in winemaking research and explains the practical application of science with reference to the range of winemaking techniques used around the world, as well as viticultural practices, organics and ecology and lifestyle influences. This third edition of Wine Science includes new sections such as managing vineyard soils, vine disease and the vineyard of the future. Jamie has updated the text throughout, and many existing chapters are entirely revised. Written in a uniquely accessible style, the book is divided into three sections covering the vineyard, the winery and human interaction with wine. It features more than 80 illustrations and photographs to help make even the most complex topics clear, straightforward and easy to understand.*

## Cheers!

### Around the World in 80 Toasts

**Red Lightning Books** *Salut! Prost! Skål! Na zdrave! Tagay!* No matter what country you clink glasses in, everyone has a word for cheers. In *Cheers! Around the World in 80 Toasts*, Brandon Cook takes readers on a whirlwind trip through languages from Estonian to Elvish and everywhere in between. Need to know how to toast in Tagalog? Say "bottoms up" in Basque? "Down the hatch" in Hungarian? Cook teaches readers how to toast in 80 languages and includes drinking traditions, historical facts, and strange linguistic phenomena for each. Sweden, for instance, has a drinking song that taunts an uppity garden gnome, while Turkey brandishes words like *Avrupallaştıramadıklarımızdanmışsınızcasına*. And the most valuable liquor brand in the world isn't Johnny Walker or Hennessy, but Maotai—President Nixon's liquor of choice when he visited China. Whether you're traveling the globe or the beer aisle, *Cheers!* will show you there's a world of fun waiting for you. So raise a glass and begin exploring! The audio book is narrated by Nicholas Smith. Produced by Speechki in 2021.

## Wine Wars

### The Curse of the Blue Nun, the Miracle of Two Buck Chuck, and the Revenge of the Terroirists

**Rowman & Littlefield Publishers** Writing with wit and verve, Mike Veseth (a.k.a. the Wine Economist) tells the compelling story of the war between the market trends that are redrawing the world wine map and the terroirists who resist them. Wine and the wine business are at a critical crossroad today, transformed by three powerful forces. Veseth begins with the first force, globalization, which is shifting the center of the wine world as global wine markets provide enthusiasts with a rich but overwhelming array of choices. Two Buck Chuck, the second force, symbolizes the rise of branded products like the famous Charles Shaw wines sold in Trader Joe's stores. Branded corporate wines simplify the worldwide wine market and give buyers the confidence they need to make choices, but they also threaten to dumb down wine, sacrificing terroir to achieve marketable McWine reliability. Will globalization and Two Buck Chuck destroy the essence of wine? Perhaps, but not without a fight, Veseth argues. He counts on "the revenge of the terroirists" to save wine's soul. But it won't be easy as wine expands to exotic new markets such as China and the very idea of terroir is attacked by both critics and global climate change. Veseth has "grape expectations" that globalization, Two Buck Chuck, and the revenge of the terroirists will uncork a favorable future for wine in an engaging tour-de-force that will appeal to all lovers of wine, whether it be boxed, bagged, or bottled.

### The Noble Rot Book: Wine from Another Galaxy

**Hardie Grant Publishing** Winner of the Guild of Food Writers Drinks Book Award 2021 Shortlisted for the André Simon Food and Drink Book Awards 2020 "Noble Rot manages to unravel the mysteries of wine with insight and humour. A wonderful - and essential - read for anyone interested in the world of wine, or even for those, like me, who just drink it." — Nigella Lawson "The Noble Rot guys have the ability to describe wines as if they're either future friends, or rock-stars coming to blow your mind." — Caitlin Moran "Noble Rot has brought originality, humour and now space travel to the very serious business of drinking wine. About time too." — Brian Eno "Dan and Mark do that thing that only crazy knowledgeable enthusiasts can do, they make you a crazy enthusiast too. If they said, 'We've found a wine like no other, a wine that actually lights up the sky, but you can only drink it in the desert at midnight, are you coming? Id be off, and I'd be confident of meteor showers. They provoke curiosity - 'how does anyone make this extraordinary drink just with grapes?' - excitement, joy, and a longing for knowledge. Now, in this book, they're sharing the knowledge." — Diana Henry "To really know and love a wine one should know the grower and the vineyard. This isn't always or even often possible, which is why the Rotters introduce these wines at source. You learn that making wine, as cooking should be, is an act of love. You will come to love this book too." — Rowley Leigh Choosing wine in a restaurant or shop can seem an unfathomable business. But, according to Dan Keeling and Mark Andrew, the duo behind London's Noble Rot, it needn't be that way. In *Wine from Another Galaxy* they'll help you to understand how it is made, where to buy it, what to look for when you drink it, and how to talk about it. And once you've mastered the basics, they'll take you on a journey through the best of European wine culture, meeting the people and places behind their favourite bottles. Indeed, Dan and Mark have spent years visiting growers that you probably haven't heard of, from the original thinkers of the natural wine movement to the iconic estates of Burgundy and Bordeaux. This is the alternative, accessible, no-holds-barred guide to wine, where the usual clichés and rules don't apply.

## Think/Make

### Della Valle Bernheimer

**Princeton Architectural Press** Architecture, the saying goes, is a verb. It's an ongoing process of creating. For Brooklyn-based architects Jared Della Valle and Andrew Bernheimer it is, more accurately, two verbs: think and make. Two words that, when fused in the work of Della Valle Bernheimer, energize and transform each other architectural process as a feedback loop. Just a decade into their practice, Della Valle Bernheimer has assembled an impressive body of completed projects. Coveted commissions in New York City include two high-profile condo towers in Chelsea and the renovation of architect Paul Rudolph's landmark modernist apartment at 23 Beekman Place. *Think/Make* documents twelve of the firm's most innovative projects, ranging from residences to public commissions such as Federal Plazain San Francisco; affordable housing units in the Bronx, New York; a public swimming center in Aalborg, Denmark; and a proposal for the reuse of New York City's Hudson Yards. Each project in *Think/Make* covers both aspects of their creative process, often demonstrating that they think both with their minds and their hands; the process is cerebral as well as physical. Thinking about the larger contexts of site and program, as well as about historical precedents, linguistics, and correlations to natural forms and phenomena, Della Valle Bernheimer creates thoughtful, structurally innovative architecture. For the Artreehouse in New Fairfield, Connecticut designed in collaboration with structural engineer Guy Nordenson they observed patterns of light filtered through canopies of native tree species and scoured the history of building techniques in the region to design a 5,400-square-foot, locally inspired house. This unique monograph illustrates how personal, associative, and often highly poetic thoughts are made legible in architecture.
