TEACHING AS AN ACT OF LOVE

THOUGHTS AND RECOLLECTIONS OF A FORMER TEACHER, PRINCIPAL AND KID

iUniverse Richard Lakin's collection is geared to teachers, principals, parents, and all those concerned with making schools more loving and effective for each child. He presents a close look at his school staff working together to create both a caring, challenging learning environment and a real partnership between school and home. In today's high stakes and test obsessed world, Teaching as an Act of Love encourages teachers as they remember why they entered teaching in the first place-to zero in on the individual child, "the whole child" and encourage the love of learning. In the 55 informative and optimistic pieces in the book, Richard proposes more personalized "smaller caring schools of choice," where the child comes first, where bureaucracy, testing and NCLB are minimized and where a loving school climate and kindness prevail.

DISCIPLINE WITHOUT TEARS

HOW TO REDUCE CONFLICT AND ESTABLISH COOPERATION IN THE CLASSROOM

Wiley DISCIPLINE WITHOUT TEARS: How To Reduce Conflict and Establish Cooperation in the Classroom Discipline without Tears is a modern classic within the teaching profession. The original edition was written by Pearl Cassel and Rudolf Dreikurs. First published in 1971 by arrangement with the Alfred Adler Institute, it has been a teacher's best friend and became an international bestseller with translations into French, Italian, Greek, German, Dutch, Japanese and Chinese. The focus of the book is to show the elementary school teacher how to manage a classroom of children effectively by understanding the nature of their behavior. The book is prescriptive, and challenges teachers to analyze their teaching style and become more effective at discipline in the classroom. With the co-authorship of Dr. Eva Dreikurs Ferguson, the book has been updated and revised to reflect current trends in education. Schools have put more emphasis on teachers knowing how to resolve issues of discipline within their classroom, and teachers will appreciate the clear and concise presentation of material that will lead to more effective learning time and a more pleasant teaching environment. Parents will also find this book most helpful for the family dynamic.

INTRODUCTION TO COUNSELING

AN ART AND SCIENCE PERSPECTIVE

SAGE Publications Introduction to Counseling by Michael Scott Nystul provides an overview of counseling and the helping professions from the perspective of art and science—the science of counseling that generates a knowledge base proven to promote competency and efficacy in the practitioner, and the art of using this knowledge base to build skills that can be applied sensitively to clients in a multicultural society. The Fifth Edition has been organized into three sections: (1) an overview of counseling and the counseling process, (2) multicultural counseling and counseling theories, and (3) special approaches and settings. It continues to address key topics and issues, including gender, culture, and sexual orientation, and offers ways to integrate multiculturalism into all aspects of counseling, rather than view it as a separate entity. Highlighting emerging trends and changes in ethical codes, as well as reflecting the latest updates to the Diagnostic Statistical Manual (DSM-5), the book successfully illustrates the importance of art and science to modern-day counseling.

DISCIPLINE WITHOUT TEARS

Plume From early childhood to adolescence, common misbehaviors emerge as a primary concern of both parents and educators. In "Discipline Without Tears," Dr. Rudolf Dreikurs provides a clear, constructive outline of his proven strategies for dealing with a wide range of childhood misbehaviors. Believing that children are social beings who want to belong, Dreikurs stresses encouragement, cooperation, and firm control in a democratic alliance of parents, teachers, and children. This sound and sensible guide offers surefire techniques and time-tested advice, especially designed for those who need to deal with large groups of children or with children in a classroom setting. Full of concrete examples and written in a warm, understanding tone, "Discipline Without Tears" enables parents and teachers to help children change for the better.

SOS HELP FOR PARENTS

A PRACTICAL GUIDE FOR HANDLING COMMON EVERYDAY BEHAVIOR PROBLEMS

This second edition of "SOS" provides parents with guidance for handling a variety of common behavior problems based on the

behavior approach to child rearing and discipline. This approach suggests that good and bad behavior are both learned and can be changed, and proposes specific methods, skills, procedures, and strategies for parents to use in getting improved behavior from their children. The guide is divided into four sections. Section 1 presents some fundamentals of child behavior and effective discipline. Some of the causes of children's misbehavior are examined as well as ways of increasing good behavior and eliminating bad ones. Section 2 provides advice for implementing the "time-out" method. Section 3 gives suggestions on how to: (1) manage bad behavior away from home; (2) use points, tokens, and contracts; (3) use time-out on two children at the same time; (4) use time-out on a toy instead of the child; (5) handle aggressive and dangerous behavior; and (6) help children express feelings. Section 4 suggests some additional resources for helping children. Each chapter includes a review of the most important ideas and instructions presented. The book's two appendices include an index of problem behaviors, quizzes and answers for parents, more resources for professionals, and tear-out sheets for parents and teachers. Approximately 60 references are included. A videotape, not available from ERIC, demonstrates the child-rearing rules, and errors to avoid, as well as other child management methods. A printed "Video Leader's Guide" for the training leaders provides objectives, suggested outlines for workshops, and guidelines for discussing the behavior vignettes in the video. Workshop evaluation forms and handouts are appended. A parent audio cassette on how to use "time out" effectively is also part of this multimedia package. (HTH)

UNDERSTANDING HUMAN NATURE (PSYCHOLOGY REVIVALS)

Routledge Originally published in 1928 this book was an attempt to acquaint the general public with the fundamentals of Individual Psychology. At the same time it is a demonstration of the practical application of these principles to the conduct of everyday relationships, and the organization of our personal life. Based upon a years' lectures to audiences at the People's Institute in Vienna, the purpose of the book was to point out how the mistaken behaviour of the individual affects harmony of our social and communal life; to teach the individual to recognize their own mistakes; and finally, to show them how they may effect a harmonious adjustment to the communal life. Adler felt that mistakes in business or in science were costly and deplorable, but mistakes in the conduct of life are usually dangerous to life itself. This book is dedicated by the author in his preface 'to the task of illuminating man's progress toward a better understanding of human nature.'

SOCIAL INTEREST

A CHALLENGE TO MANKIND

Martino Fine Books 2011 Reprint of 1938 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. Alfred Adler (1870-1937) was an Austrian medical doctor, psychotherapist, and founder of the Adlerian school of individual psychology. In collaboration with Sigmund Freud and a small group of Freud's colleagues, Adler was among the co-founders of the

psychoanalytic movement and a core member of the Vienna Psychoanalytic Society. He was the first major figure to break away from psychoanalysis to form an independent school of psychotherapy and personality theory. In this late work, "Social Interest: A Challenge to Mankind," Adler turns to the subject of metaphysics. He argues his vision of society: "Social feeling means above all a struggle for a communal form that must be thought of as eternally applicable... when humanity has attained its goal of perfection... an ideal society amongst all mankind, the ultimate fulfillment of evolution." This social feeling for Adler is a community feeling whereby one feels he or she belongs with others and has also developed an ecological connection with nature (plants, animals, the crust of this earth) and the cosmos as a whole.
