## Thoughts Out of Thinking

## Things You Should Know If You Don't Already Know

Xlibris Corporation When thinking impregnates the mind, thoughts are born and ideas are formed. Man s soul now finds a medium to express itself through various arts. Whatever art form man chooses as the outlet for his thinking, it is his choice. The realization of his artistry will be the tangible proof that he is in fact thinking. For his artistry to be manifested into reality, he first has to be thinking. The man that is not thinking is dead. A dead man creates neither thoughts nor tangible objects. Truly there are a lot of dead people in our world. For thinking ability is sacred, and those who have been dominating the thinking market refuse to give up their control. As a result of this self-preservation of the thinkers, they become stalwart proponents for ignorance, stagnation and non-progression of the remaining masses. The thinkers know that even the educated are led by them. For the ones who were educated were taught by thinkers. When these thinkers educate the common man, they educated them to be followers. No man can teach you how to think. One must develop this ability on his own. Thinking abilities are truly developed when one s thinking abilities come full circle; meaning a full three hundred-sixty degrees of knowledge. Man has steps of knowledge; they are past, present and future. With the completion of all

three houses of knowledge to full completion or full circle; man opens his mind, body, and soul to be receptacles of learning and ultimately outlets of wisdom. Within the pages of this book, you will read one thousand and eighty thoughts. The three completed houses of wisdom for your enlightenment. We wish for you to enhance your thinking abilities and also utilize what you have learn in your daily living.

## A CEO's Lessons in American Capitalism

SelectBooks, Inc. The landscape of corporate America changed dramatically between 2000 and 2003. In an age when the daily life of a business CEO could include appearances on national TV, golfing with PGA stars, and doing promo spots for ESPN, the public's trust and confidence in our open market economy quickly disappeared in the face of scandal after scandal: the Enron debacle in November 2001, and into 2002 with Adelphia, Qwest, Tyco, and the unthinkable \$74.4 billion in improper accounting by WorldCom. Even the venerable Martha Stewart was indicted for insider trading abuses. As CEO and Chairman of the dynamic telecom Net2000 during those days, Charlie Thomas experienced the full life cycle of a business-start-up, incremental growth, rapid expansion, near collapse, boom, bust, and exit. In Entrepreneur, Charlie has leveraged his knowledge as a business advisor and his experience leading and growing Net2000 to deliver a unique mix of business guidance set against the backdrop of company triumphs and disappointments. These Lessons Learned will guide the reader through taking a company from a startup to an IPO and beyond.
