### Fearless Church Fundraising

### The Practical and Spiritual Approach to Stewardship

*Church Publishing, Inc. Considering how essential fundraising is to ministry, many church leaders remain terrified of asking for or talking about money. Fearless Church Fundraising removes the terror from stewardship, urging leaders to focus on deep spiritual conversion and a clear, compelling mission before they design the pledge cards. In this rich resource part handbook, part workbook, part spiritual guidebook former monk and popular consultant Charles LaFond combines road-tested strategies and sample campaign documents with a spiritual director's sensitivity. The result is an irresistible, user-friendly text that promises to transform your ministry's fundraising and its spiritual life.*

### The ABCs of RBCs

### An Introduction to Dynamic Macroeconomic Models

*Harvard University Press The ABCs of RBCs is the first book to provide a basic introduction to Real Business Cycle (RBC) and New-Keynesian models. These models argue that random shocks—new inventions, droughts, and wars, in the case of pure RBC models, and monetary and fiscal policy and international investor risk aversion, in more open interpretations—can trigger booms and recessions and can account for much of observed output volatility. George McCandless works through a sequence of these Real Business Cycle and New-Keynesian dynamic stochastic general equilibrium models in fine detail, showing how to solve them, and how to add important extensions to the basic model, such as money, price and wage rigidities, financial markets, and an open economy. The impulse response functions of each new model show how the added feature changes the dynamics. The ABCs of RBCs is designed to teach the economic practitioner or student how to build simple RBC models. Matlab code for solving many of the models is provided, and careful readers should be able to construct, solve, and use their own models. In the tradition of the “freshwater” economic schools of Chicago and Minnesota, McCandless enhances the methods and sophistication of current macroeconomic modeling.*

The Armed Forces Covenant in action? Part 1: Military casualties

seventh report of session 2010-12, Vol. 1: Report, together with formal minutes, oral and written evidence

*The Stationery Office The Government must show how the excellent medical care being delivered to injured service personnel will continue long after the memory of the Afghan Operation fades. This report, which gives praise to the first class medical treatment provided for the Armed Forces, questions whether the support for injured personnel will be sustainable over the long term. In particular, the committee is concerned about the number of people who may go on to develop severe and life-limiting, physical, mental health, alcohol or neurological problems. There is still a question mark over whether the Government as a whole fully understands the likely future demands and related costs*

## The Chinese Dream and Ordinary Chinese People

*Springer Nature This collection of interviews explores how the Chinese Dream is fueling the aspirations of individuals in China today and presents 40 representative cases that showcase the journeys that ordinary people undertake in pursuit of their dreams as well as their extraordinary achievements. The authors identify autonomy, self-awareness, and hard work as the most fundamental driving forces in individuals taking control of their own lives and achieving their dreams, with family and social support as further important factors. Despite the vast differences in the interviewees' dreams and experiences in pursuing them, there is a common thread in their stories, namely the impact of major changes in the country on their lives. The future of individuals is closely linked to the future of the country: a bright future for the country means a good life for all. People's longing for a better life is the basis and a central element of the Chinese Dream, which is the dream of the nation and the dream of every citizen. This book will appeal to a wide audience, including ordinary people.*
