Orientalism

Western Conceptions of the Orient

Penguin UK 'A stimulating, elegant yet pugnacious essay'—Observer In this highly acclaimed seminal work, Edward Said surveys the history and nature of Western attitudes towards the East, considering Orientalism as a powerful European ideological creation—a way for writers, philosophers and colonial administrators to deal with the 'otherness' of Eastern culture, customs and beliefs. He traces this view through the writings of Homer, Nerval and Flaubert, Disraeli and Kipling, whose imaginative depictions have greatly contributed to the West's romantic and exotic picture of the Orient. In the Afterword, Said examines the effect of continuing Western imperialism.

Sport and the Transformation of Modern Europe States, Media and Markets 1950-2010

Routledge In the modern era, sport has been an important agent, and symptom, of the political, cultural and commercial pressures for convergence and globalization. In this fascinating, inter-disciplinary study, leading international scholars explore the making of modern sport in Europe, illuminating sport and its cultural and economic impacts in the context of the supra-state formations and global markets that have re-shaped national and trans-national cultures in the later twentieth century. The book focuses on the emergence and expansion of media markets, high-performance sport's transformation by, and effects upon, Cold War dynamics and relations, and the implications of the Treaty of Rome for an emerging European identity in sport as in other areas (for example, the influence of soccer's governing body in Europe, UEFA, and its club and international competitions). It traces the connections between the forces of ideological division, economic growth, leisure consumption, European integration and the development of European sport, and examines the role of sport in the changing relationship between Europe and the US. Illuminating a key moment in global cultural history, this book is important reading for any student or scholar working in international studies, modern history or sport.

Common European Framework of Reference for Languages: Learning, Teaching, assessment Companion volume

Council of Europe The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ► an explanation of the key aspects of the CEFR for teaching and learning; ► a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ► a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ► promote and support the learning and teaching of modern languages; ► enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ► protect linguistic and cultural diversity in Europe; and ► promote the right to quality education for all.

Baseball in Europe

A Country by Country History, 2d ed.

McFarland With the success of *The Netherlands in the World Baseball Classic*, baseball in Europe has begun to receive more attention. But few realize just how far back the sport's history stretches on the continent. Baseball has been played in Europe since the 1870s, and in several countries the players and devoted followers have included royalty, Hall of Famers from the U.S. major leagues, and captains of industry. Featuring approximately 80 new interviews and 70 new photos and images, this second edition builds extensively on the previous edition's country-by-country histories of more than 40 European nations. Also included are two new appendices on European players signed by MLB organizations and European countries' performance in worldwide rankings.

International Encyclopedia of the Social & Behavioral Sciences

Elsevier Science Limited Fully revised and updated, the second edition of the *International Encyclopedia of the Social and Behavioral Sciences*, first published in 2001, offers a source of social and behavioral sciences reference material that is broader and deeper than any other. Available in both print and online editions, it comprises over 3,900 articles, commissioned by 71 Section Editors, and includes 90,000 bibliographic references as well as comprehensive name and subject indexes. Provides authoritative, foundational, interdisciplinary knowledge across the wide range of behavioral and social sciences fields. Discusses history, current trends and future directions. Topics are cross-referenced with related topics and each article highlights further reading.

American Universities and Colleges, 19th Edition [2 Volumes]

Nineteenth Edition

ABC-CLIO For well over a half century, *American Universities and Colleges* has been the most comprehensive and highly respected directory of four-year institutions of higher education in the United States. A two-volume set that *Choice* magazine hailed as a most important resource in its November 2006 issue, this revised edition features the most up-to-date statistical data available to guide students in making a smart yet practical decision in choosing the university or college of their dreams. In addition, the set serves as an indispensable reference source for parents, college advisors, educators, and public, academic, and high school librarians. These two volumes provide extensive information on 1,900 institutions of higher education, including all accredited colleges and universities that offer at least the baccalaureate degree. This essential resource offers pertinent, statistical data on such topics as tuition, room and board; admission requirements; financial aid; enrollments; student life; library holdings; accelerated and study abroad programs; departments and teaching staff; buildings and grounds; and degrees conferred. Volume two of the set provides four indexes, including an Institutional Index, a subject accreditation index, a levels of degrees offered index, and a tabular index of summary data by state. These helpful indexes allow readers to find information easily and to make comparisons among institutions effectively. Also contained within the text are charts and tables that provide easy access to comparative data on relevant topics.

Russian Foreign Policy

Interests, Vectors, and Sectors

CQ Press In a truly contemporary analysis of Moscow's relations with its neighbors and other strategic international actors, Nikolas K. Gvosdev and Christopher Marsh use a comprehensive vectors approach, dividing the world into eight geographic zones. Each vector chapter looks at the dynamics of key bilateral relationships while highlighting major topical issues—oil and energy, defense policy, economic policy, the role of international institutions, and the impact of major interest groups or influencers—demonstrating that Russia formulates multiple, sometimes contrasting, foreign policies. Providing rich historical context as well as exposure to the scholarly literature, *Russian Foreign Policy: Interests, Vectors, and Sectors* offers an incisive look at how and why Russia partners with some states while it counter-balances others.

European Paintings of the 19th Century: Guigol-Wonder Economy and State

John Wiley & Sons *Should governments be involved in economic affairs? Challenging prevailing wisdom about the benefits of self-regulating markets, Nina Bandelj and Elizabeth Sowers offer a uniquely sociological perspective to emphasize that states can never be divorced from economy. From defining property rights and regulating commodification of labor to setting corporate governance standards and international exchange rules, the state continuously manages the functioning of markets and influences economic outcomes for individuals, firms and nations. The authors bring together classical interventions and cutting-edge contemporary research in economic sociology to discuss six broad areas of economy/state connection: property, money, labor, firms, national economic growth, and global economic exchange. A wealth of empirical examples and illustrations reveals that even if the nature of state influence on economy varies across contexts, it is always dependent on social forces. This accessible and engaging book will be essential reading for upper-level students of economic sociology, and those interested in the major economic dilemmas of our times.*

Americans in a Splintering Europe

McFarland *World War I began in August 1914—the United States did not enter the conflict until April 1917. During those nearly three years of neutrality, a small number of Americans did experience the horrors of the war zones of Europe. Some ran for their lives as refugees while others, like journalists and doctors, headed toward the fighting. Missionaries in Persia (Iran) and the Ottoman Empire became witnesses to both the Armenian genocide and the persecution of Assyrian Christians. This history focuses on the war from the perspective of ordinary people who found themselves in the midst of what was then the most destructive and bloody war in history.*

Managing Global Legal Systems

International Employment Regulation and Competitive Advantage

Routledge *Presenting a framework for understanding the corporate strategy-public policy interface as it relates to human capital management, this unique text treats legal systems as factors that must be actively managed in the firm's larger pursuit of international competitive advantage. It provides readers with the most comprehensive description to date of the role that transnational, regional and national institutions play in the evolution of domestic employment regulation and international labour standards, and discusses the opportunities that employers have to influence their form and application. High-profile news events from around the world are utilized to illustrate key concepts, offering unique insights into the regulatory environment that MNEs face when managing an international work force. Taking an applied approach to the subject of labour-market regulation on six continents, this book is a valuable reference for students and practitioners alike in the fields of HRM, business management and law.*

Union List of Serials of the California State University

The United States and the European Pillar

The Strained Alliance

Springer *The first major study of Atlantic political relations since World War 2 that uses a comparative perspective to analyze U.S. foreign policy and U.S.-European relations in the context of a Western Europe attempting to speak with one voice. The book examines U.S. policy toward European unity and the evolution of a West European pillar in foreign policy and defence, contrasts U.S. and European approaches toward specific global issues, and considers Atlantic relations in light of the dramatic European upheavals in 1989-90.*

Congressional Record

Proceedings and Debates of the ... Congress

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Parties, Elections, and Policy Reforms in Western Europe Voting for Social Pacts

Routledge Social pacts - policy agreements between governments, labor unions and sometimes employer organizations - began to emerge in many countries in the 1980s. The most common explanations for social pacts tend to focus on economic factors, influenced by industrial relations institutions such as highly coordinated collective bargaining. This book presents, and tests, an alternative and complementary explanation highlighting the electoral calculations made by political parties in choosing pacts. Using a dataset covering 16 European countries for the years 1980-2006, as well as eight in-depth country case studies, the authors argue that governments' choice of social pacts or legislation is less influenced by economic problems, but is strongly influenced by electoral competition. Social pacts will be attractive when party leaders perceive them to be helpful in reducing the potential electoral costs of economic adjustment and wage restraint policies. Alternatively, parties may forgo negotiations with social partners and seek to impose such policies unilaterally if they believe that approach will yield electoral gain or minimize electoral costs. By combining the separate literatures on political economy and party politics, the book sheds new light on the dynamics of social pacts in Western Europe. This book will be of interest to students and scholars of political science, economics, political economy, European Studies and comparative politics.

A Promised Land

Penguin UK THE #1 SUNDAY TIMES BESTSELLER A riveting, deeply personal account of history in the making-from the president who inspired us to believe in the power of democracy - and the perfect gift this Christmas! 'Gorgeously written, humorous, compelling, life affirming' Justin Webb, Mail on Sunday In the stirring, highly anticipated first volume of his presidential memoirs, Barack Obama tells the story of his improbable odyssey from young man searching for his identity to leader of the free world, describing in strikingly personal detail both his political education and the landmark moments of the first term of his historic presidency-a time of dramatic transformation and turmoil. Obama takes readers on a compelling journey from his earliest political aspirations to the pivotal Iowa caucus victory that demonstrated the power of grassroots activism to the watershed night of November 4, 2008, when he was elected 44th president of the United States, becoming the first African American to hold the nation's highest office. Reflecting on the presidency, he offers a unique and thoughtful exploration of both the awesome reach and the limits of presidential power, as well as singular insights into the dynamics of U.S. partisan politics and international diplomacy. Obama brings readers inside the Oval Office and the White House Situation Room, and to Moscow, Cairo, Beijing, and points beyond. We are privy to his thoughts as he assembles his cabinet, wrestles with a global financial crisis, takes the measure of Vladimir Putin, overcomes seemingly insurmountable odds to secure passage of the Affordable Care Act, clashes with generals about U.S. strategy in Afghanistan, tackles Wall Street reform, responds to the devastating Deepwater Horizon blowout, and authorizes Operation Neptune's Spear, which leads to the death of Osama bin Laden. A Promised Land is extraordinarily intimate and introspective-the story of one man's bet with history, the faith of a community organizer tested on the world stage. Obama is candid about the balancing act of running for office as a Black American, bearing the expectations of a generation buoyed by messages of "hope and change," and meeting the moral challenges of high-stakes decision-making. He is frank about the forces that opposed him at home and abroad, open about how living in the White House affected his wife and daughters, and unafraid to reveal self-doubt and disappointment. Yet he never wavers from his belief that inside the great, ongoing American experiment, progress is always possible. This beautifully written and powerful book captures Barack Obama's conviction that democracy is not a gift from on high but something founded on empathy and common understanding and

built together, day by day. 'What is unexpected in A Promised Land is the former president's candour' David Olusoga, Observer

Newsletter

European Politics

Taylor & Francis European Politics surveys the history, institutions, and issues that are essential for understanding contemporary European politics. Exploring a central question—"what is Europe?"—this text's thematic approach helps students compare politics in individual countries and see the political big picture in the region. European Politics examines not only countries already in the European Union but also those eligible to join to give students the most comprehensive picture of Europe's evolution in a globalized world. Key changes for the new edition: Fully revised and updated to include coverage of recent elections, public opinion data and key topics such as refugees, Russia and Ukraine, Syria, more on the economic crisis, and Brexit; Expanded and revised opening chapter explaining Europeanization, multi-level governance, and the fissures in Europe; Greater and updated coverage of theory, multi-culturalism, and the EU. This timely, in-depth text will be essential reading for anyone interested in European politics.
