Leadership Training in the Hands of the Church

Experiential Learning and Contextual Practices in North Africa and the Middle East

Langham Global Library The church is a contextualized reality, and if it is to flourish, its leaders must be raised up to serve their own communities. Yet our very techniques for teaching and learning are culturally defined. If the church is to be effective in developing the leaders it needs, our approach to training must be informed by its local context. In this immensely practical text, Joseph Nehemiah combines sound pedagogical research with rich cultural insight to provide a

framework for training leaders in an Arab context. Examining principles of adult education in light of Arab cultural dynamics, Nehemiah offers a paradigm for experiential learning that is biblically rooted and contextually appropriate. Informed by the experience of professors in the Arab Gulf, along with extensive interviews from local church leaders, Leadership Training in the Hands of the Church seeks to place the development, teaching, and training of leaders into the hands of the local church.

Skinny Legs and All

A Novel

Bantam An Arab and a Jew open a restaurant together across the street from the United Nations.... It sounds like the beginning of an ethnic joke, but it's the axis around which spins this gutsy, fun-loving, and alarmingly provocative novel, in which a bean can philosophizes, a dessert spoon mystifies, a young waitress takes on the New York art world, and a rowdy redneck welder discovers the lost god of Palestine-- while the illusions that obscure humanity's view of the true universe fall away, one by one, like Salome's veils. Skinny Legs and All deals with today's most sensitive issues: race, politics, marriage, art, religion, money, and lust. It weaves lyrically through what some call the "end days" of our planet. Refusing to avert its gaze from the horrors of the apocalypse, it also refuses to let the alleged end of the world spoil its mood. And its mood is defiantly upbeat. In the gloriously inventive Tom Robbins style, here are characters, phrases, stories, and ideas that dance together on the

page, wild and sexy, like Salome herself. Or was it Jezebel?

The World Since 1945

A Concise History

He ends with an assessment of our position with regard to world unity and disunity as the millennium approaches.

The Food Revolution

How Your Diet Can Help Save Your Life and Our World

Conari Press Fears of Frankenfood, e-coli and "mad cow" meat abound. If, indeed, we are what we eat, what in the world are we becoming? John Robbins, who revolutionized how we think about food, reveals the truth about our already deadly diet. He boldly posits that, collectively, our personal diet can save ourselves and the world. If, according to chaos theory, the beating of a butterfly's wing can cause a hurricane in another part of the world, try this out for chaotic cause and effect: monarch butterflies are dying in droves due to genetically-engineered corn growing in the Midwest. There is also a direct correlation between the Big Mac in your hand and the mile-wide river now running across the North Pole. Learn the truth about foods we are eating that are, in Robbins' words, "unsafe on any plate."

Rockford's Forgotten Driving Park: Racing, Politics & Circuses

Arcadia Publishing Local thrill-seekers at the turn of the century knew that all the action was at the Driving Park. But few today know the drama buried beneath a West End subdivision. At the height of the horse racing craze after the Civil War, prominent Rockford businessmen raised \$25,000 to build a harness racetrack there in 1890 (the name refers to the person in the cart pulled by a horse--the driver). The versatile venue evolved to stay relevant, weathering the 1893 financial panic and welcoming bicycle mania. Events ranged from high school track meets to early auto racing. Folks saw a soccer game one week and a circus the next. Controversy erupted at times, from gambling and drinking to a murder and a KKK rally. Amanda Becker reveals this colorful story nearly forgotten since 1938.

Global Corruption from a Geographic Perspective

Springer This monograph explores the nature of corruption around the world from a geographic perspective. It focuses on historical context and cultural factors. Readers will learn that though corruption is pervasive, geography greatly shapes its character. This book will offer a better understanding of the level of corrupt activity in any given country. The book analyzes an array of countries and regions. Coverage ranges from democratic societies, where corruption is low due to high rates of literacy and a free press, to the most corrupt places, where centralized power structures and lack of a free media allow corruption to unfold unimpeded. Anti-corruption campaigns and their effectiveness are also reflected upon. In addition to data from Transparency International, the text examines relevant political events. In each case, the analysis focuses on the major actors and institutions involved; the cultural norms that often regard corruption as a normal part of doing business; and the attempts by foreign and domestic actors to minimize corruption. This book will help readers better understand the causes and consequences of corruption, as well as its type and severity varies widely across the planet. It will appeal to students, researchers, policy makers, and interested general readers.
