### THE LAST MAN IN THE TOUR DE FRANCE

---

Random House *lanterne rouge (French | noun): The competitor who finishes last in the Tour de France Froome, Wiggins, Merckx - we know the winners of the Tour de France, but what about the men who finish last? Lanterne Rouge tells the forgotten, often inspirational and occasionally absurd stories of the last-placed rider. We learn of stage winners and former yellow jerseys who tasted life at the other end of the bunch; the breakaway leader who stopped for a bottle of wine and then took a wrong turn; the dooper whose drug cocktail accidentally slowed him down and the rider who was recognised as the most combative despite finishing at the back. Flipping the Tour de France on its head and examines what these stories tell us about ourselves, the 99% who don't win the trophy, Lantern Rouge forces us to re-examine the meaning of success, failure and the very nature of sport. 'A lively account of largely forgotten men... It's not easy to come up with an original angle on Le Tour, but with this rear view Leonard has managed the feat in style' Independent on Sunday*

### ENDURANCE, TRAGEDY, AND REBIRTH IN THE 1919 TOUR DE FRANCE

---

Little A *The inspiring, heart-pumping true story of soldiers turned cyclists and the historic 1919 Tour de France that helped to restore a war-torn country and its people. On June 29, 1919, one day after the Treaty of Versailles brought about the end of World War I, nearly seventy cyclists embarked on the thirteenth Tour de France. From Paris, the war-weary men rode down the western coast on a race that would trace the country's border, through seaside towns and mountains to the ghostly western front. Traversing a cratered postwar landscape, the cyclists faced near-impossible odds and the psychological scars of war. Most of the athletes had arrived straight from the front, where so many fellow countrymen had suffered or died. The cyclists' perseverance and tolerance for pain would be tested in a grueling, monthlong competition. An inspiring true story of human endurance, Sprinting Through No Man's Land explores how the cyclists united a country that had been torn apart by unprecedented desolation and tragedy. It shows how devastated countrymen and women can come together to celebrate the adventure of a lifetime and discover renewed fortitude, purpose, and national identity in the streets of their towns.*

### THE LIFE OF BERNARD HINAULT AND THE LEGACY OF FRENCH CYCLING

---

Chicago Review Press *The thrilling life of France's finest cyclist Bernard Hinault is one of the greatest cyclists of all time. He is a five-time winner of the Tour de France and the only man to have won each of the Grand Tours on more than one occasion. Three decades after his retirement, Hinault remains the last Frenchman to win the Tour de France and his victory in 1985 marks the turning point for a nation who had dominated the first eight decades of the race they had invented. In this biography, bestselling author William Fotheringham details how Hinault, nicknamed the "Badger" for his combative style, was the last old-school champion: a larger-than-life personality from a working-class background, capable of winning on all terrains, in major tours, and one-day classics. A full portrait of this fascinating character, The Badger also explores the reasons why France, the nation that considers itself cycling's home, has found it so hard to produce another champion.*

Part personal memoir, part devastating exposé of a sport torn apart by drugs and scandal, Bad Blood is a love letter to one man's past, and a warning to cycling's future. ### SEX, FRANCE, AND ARAB MEN, 1962-1979

---

University of Chicago Press *The aftermath of Algeria's revolutionary war for independence coincided with the sexual revolution in France, and in this book Todd Shepard argues that these two movements are inextricably linked. Sex, France, and Arab Men is a history of how and why—from the upheavals of French Algeria in 1962 through the 1970s—highly sexualized claims about Arabs were omnipresent in important public French discussions, both those that dealt with sex and those that spoke of Arabs. Shepard explores how the so-called sexual revolution took shape in a France profoundly influenced by the ongoing effects of the Algerian revolution. Shepard's analysis of both events alongside one another provides a frame that renders visible the ways that the fight for sexual liberation, usually explained as an American and European invention, developed out of the worldwide anticolonial movement of the mid-twentieth century.*

## THE IDEAS OF MAN AND WOMAN IN RENAISSANCE FRANCE

---

### PRINT, RHETORIC, AND LAW

---

**Routledge** *The Ideas of Man and Woman in Renaissance France provides the first comprehensive comparison of the printed debates in the 1500s over the superiority or inferiority of woman - the Querelle des femmes - and the dignity and misery of man. Analysing these writings side by side, Lyndan Warner reveals the extent to which Renaissance authors borrowed commonplaces from both traditions as they praised or blamed man or woman and habitually considered opposite and contrary points of view. In the law courts reflections on the virtues and vices of man and woman had a practical application-to win cases-and as Warner demonstrates, Parisian lawyers employed this developing rhetoric in family disputes over inheritance and marriage, and amplified it in the published versions of their pleadings. Tracing these ideas and modes of thinking from the writer's quill to the workshops and boutiques of printers and booksellers, Warner uses probate inventories to follow the books to the households of their potential male and female readers. Warner reveals the shifts in printed discussions of human nature from the 1500s to the early 1600s and shows how booksellers adapted the ways they marketed and sold new genres such as essays and lawyers' pleadings.*

### FRENCH PRINTS IN THE AGE OF LOUIS XIV, 1660-1715

---

**Getty Publications** *Once considered the golden age of French printmaking, Louis XIV's reign saw Paris become a powerhouse of print production. During this time, the king aimed to make fine and decorative arts into signs of French taste and skill and, by extension, into markers of his imperialist glory. Prints were ideal for achieving these goals; reproducible and transportable, they fueled the sophisticated propaganda machine circulating images of Louis as both a man of war and a man of culture. This richly illustrated catalogue features more than one hundred prints from the Getty Research Institute and the Bibliothèque nationale de France in Paris, whose print collection Louis XIV established in 1667. An esteemed international group of contributors investigates the ways that cultural policies affected printmaking; explains what constitutes a print; describes how one became a printmaker; studies how prints were collected; and considers their reception in the ensuing centuries. A Kingdom of Images is published to coincide with an exhibition on view at the Getty Research Institute from June 18 through September 6, 2015, and at the Bibliothèque nationale de France in Paris from November 2, 2015, through January 31, 2016.*

### FRENCH FRIED: ONE MAN'S MOVE TO FRANCE WITH TOO MANY ANIMALS AND AN IDENTITY THIEF

---

**Book View Cafe** **\*\* New York Times Bestseller \*\*** *Animals behaving badly, other people's misfortunes and the most bizarre true crime story ever. French Fried is the unfortunately true account of Chris Dolley's first eight months in France and has been described as 'A Year in Provence with Miss Marple and Gerald Durrell.' Just when Chris and Shelagh think nothing more could possibly go wrong, they discover that Chris's identity has been stolen and their life savings - all the money from their house sale in England that was going to finance their new life in France - had disappeared. A bank account had been opened in Chris's name in Spain to take the proceeds. Then they're abandoned by the police forces of four countries who all insist the crime belongs in someone else's jurisdiction. The French say it's an Irish crime as that's where the money was held. The Irish say it's French as that's where all the correspondence came from. The British say it's nothing to do with them even though forged British passports were used to open the bank account in Spain. And the Spanish are on holiday - and can't even think about investigating any bank account for at least four weeks. So Chris has to solve the crime himself. But unlike fictional detectives he has an 80 year-old mother-in-law and an excitable puppy who insist they come along if he's going anywhere interesting - like a stakeout. REVIEWS "This was a fantastic read. It had me laughing so much that I nearly got relegated to the sofa! Once I had started reading this book, I could not put it down, I was even quite happy to miss my favourite TV programmes!" - Bookmarked "When I downloaded this book this morning, I had every intention of putting it on my phone and reading it in dribs and drabs. And now I appear to have finished the book! The best thing about 'French Fried' is it's sense of humour; warm, self-deprecating, and very British. Literally laugh out loud in several places (I'm glad I'm the only one home!)." - Librarything "Chris Dolley's humour reminds me of James Herriot at times, with my husband shushing me in the middle of the night. I could not put this book down and enjoyed it immensely. The characters, especially Nan, were life-size." - Salammi*

### MEN AND WOMEN MAKING FRIENDS IN EARLY MODERN FRANCE

---

**Routledge** *Today the friendships that grab people's imaginations are those that reach across inequalities of class and race. The friendships that seem to have exerted an analogous level of fascination in early modern France were those that defied the assumption, inherited from Aristotle and patristic sources, that friendships between men and women were impossible. Together, the essays in Men and Women Making Friends in Early Modern France tell the story of the declining intelligibility of classical models of (male) friendship and of the rising prominence of women as potential friends. The revival of Plato's friendship texts in the sixteenth century challenged Aristotle's rigid ideal of perfect friendship between men. In the seventeenth century, a new imperative of heterosociality opened a space for the cultivation of cross-gender friendships, while the spiritual friendships of the Catholic Reformation modeled relationships that transcended the gendered dynamics of galanterie. Men and Women Making Friends in Early Modern France argues that the imaginative experimentation in friendships between men and women was a distinctive feature of early modern French culture. The ten essays in this volume address friend-making as a process that is creative of self and responsive to changing social and political circumstances. Contributors reveal how men and women fashioned gendered selves, and also circumvented gender norms through concrete friendship practices. By showing that the benefits and the risks of friendship are magnified when gender roles and relations are unsettled, the essays in this volume highlight the relevance of early modern friend-making to friendship in the contemporary world.*

## A TRUE MEDIEVAL TALE

---

University of Chicago Press Replete with shady merchants, scoundrels, hungry mercenaries, scheming nobles, and maneuvering cardinals, *The Man Who Believed He Was King of France* proves the adage that truth is often stranger than fiction—or at least as entertaining. The setting of this improbable but beguiling tale is 1354 and the Hundred Years' War being waged for control of France. Seeing an opportunity for political and material gain, the demagogic dictator of Rome tells Giannino di Guccio that he is in fact the lost heir to Louis X, allegedly switched at birth with the son of a Tuscan merchant. Once convinced of his birthright, Giannino claims for himself the name Jean I, king of France, and sets out on a brave—if ultimately ruinous—quest that leads him across Europe to prove his identity. With the skill of a crime scene detective, Tommaso di Carpegna Falconieri digs up evidence in the historical record to follow the story of a life so incredible that it was long considered a literary invention of the Italian Renaissance. From Italy to Hungary, then through Germany and France, the would-be king's unique combination of guile and earnestness seems to command the aid of lords and soldiers, the indulgence of inn-keepers and merchants, and the collusion of priests and rogues along the way. The apparent absurdity of the tale allows Carpegna Falconieri to analyze late-medieval society, exploring questions of essence and appearance, being and belief, at a time when the divine right of kings confronted the rise of mercantile culture. Giannino's life represents a moment in which truth, lies, history, and memory combine to make us wonder where reality leaves off and fiction begins.

Univ of California Press In this highly original history of the world's most famous bicycle race, Christopher S. Thompson, mining previously neglected sources and writing with infectious enthusiasm for his subject, tells the compelling story of the Tour de France from its creation in 1903 to the present. Weaving the words of racers, politicians, Tour organizers, and a host of other commentators together with a wide-ranging analysis of the culture surrounding the event including posters, songs, novels, films, and media coverage Thompson links the history of the Tour to key moments and themes in French history. Examining the enduring popularity of Tour racers, Thompson explores how their public images have changed over the past century. A new preface explores the long-standing problem of doping in light of recent scandals.

## THE RIGHTS OF MAN: THE FRENCH REVOLUTION - IDEALS, ARGUMENTS & MOTIVES

---

---

## BEING AN ANSWER TO MR. BURKE'S ATTACK ON THE FRENCH REVOLUTION

---

e-artnow Thomas Paine's "Rights of Man" is born from his need to defend social mutiny and it posits that popular political revolution is permissible when a government does not safeguard the natural rights of its people. Using these points as a base Paine defends the French Revolution against Edmund Burke's attack in *Reflections on the Revolution in France*. Paine argues that the interests of the monarch and his people are united, and insists that the French Revolution should be understood as one which attacks the despotic principles of the French monarchy, not the king himself. Principally, *Rights of Man* opposes the idea of hereditary government - the belief that dictatorial government is necessary, because of man's corrupt, essential nature. *Rights of Man* concludes in proposing practical reformations of English government: a written Constitution composed by a national assembly, in the American mould; the elimination of aristocratic titles, because democracy is incompatible with primogeniture. Thomas Paine's intellectual influence is perceptible in the two great political revolutions of the eighteenth century. He dedicated *Rights of Man* to George Washington and to the Marquis de Lafayette, acknowledging the importance of the American and the French revolutions in his formulating the principles of modern democratic governance. Thomas Paine (1737-1809) was an English-American political activist, philosopher, political theorist, and revolutionary. One of the Founding Fathers of the United States, he authored the two most influential pamphlets at the start of the American Revolution, and he inspired the rebels in 1776 to declare independence from Britain. Paine's ideas reflected Enlightenment-era rhetoric of transnational human rights.

### LIQUID LOVE

### ON THE FRAILITY OF HUMAN BONDS

---

---

John Wiley & Sons This book is about the central figure of our contemporary, 'liquid modern' times – the man or woman with no bonds, and particularly with none of the fixed or durable bonds that would allow the effort of self-definition and self-assertion to come to a rest. Having no permanent bonds, the denizen of our liquid modern society must tie whatever bonds they can to engage with others, using their own wits, skill and dedication. But none of these bonds are guaranteed to last. Moreover, they must be tied loosely so that they can be untied again, quickly and as effortlessly as possible, when circumstances change – as they surely will in our liquid modern society, over and over again. The uncanny frailty of human bonds, the feeling of insecurity that frailty inspires, and the conflicting desires to tighten the bonds yet keep them loose, are the principal themes of this important new book by Zygmunt Bauman, one of the most original and influential social thinkers of our time. It will be of great interest to students and scholars in sociology and in the social sciences and humanities generally, and it will appeal to anyone interested in the changing nature of human relationships.

### GLOBALIZATION AND EUROPEAN DREAMS OF CONQUEST IN CHINA AND AMERICA IN THE SIXTEENTH CENTURY

---

---

John Wiley & Sons In this important new book the renowned historian Serge Gruzinski returns to two episodes in the sixteenth century which mark a decisive stage in global history and show how China and Mexico experienced the expansion of Europe. In the early 1520s, Magellan set sail for Asia by the Western route, Cortes seized Mexico and some Portuguese based in Malacca dreamed of colonizing China. The Aztec Eagle was destroyed but the Chinese Dragon held strong and repelled the invaders - after first seizing their cannon. For the first time, people from three continents encountered one other, confronted one other and their lives became entangled. These events were of great interest to contemporaries and many people at the time grasped the magnitude of what was going on around them. The Iberians succeeded in America and failed in China. The New World became inseparable from the Europeans who were to conquer it, while the Celestial Empire became, for a long time to come, an unattainable goal. Gruzinski explores this encounter between civilizations that were different from one another but that already fascinated contemporaries, and he shows that our world today bears the mark of this distant age. For it was in the sixteenth century that human history began to be played out on a global stage. It was then that connections between different parts of the world began to accelerate, not only between Europe and the Americas but also between Europe and China. This is what is revealed by a global history of the sixteenth century, conceived as another way of reading the Renaissance, less Eurocentric and more in tune with our age.

### ECONOMY AND STATE

---

---

John Wiley & Sons Should governments be involved in economic affairs? Challenging prevailing wisdom about the benefits of self-regulating markets, Nina Bandelj and Elizabeth Sowers offer a uniquely sociological perspective to emphasize that states can never be divorced from economy. From defining property rights and regulating commodification of labor to setting corporate governance standards and international exchange rules, the state continuously manages the functioning of markets and influences economic outcomes for individuals, firms and nations. The authors bring together classical interventions and cutting-edge contemporary research in economic sociology to discuss six broad areas of economy/state connection: property, money, labor, firms, national economic growth, and global economic exchange. A wealth of empirical examples and illustrations reveals that even if the nature of state influence on economy varies across contexts, it is always dependent on social forces. This accessible and engaging book will be essential reading for upper-level students of economic sociology, and those interested in the major economic dilemmas of our times. .
