## Creative Bible Teaching

*Moody Publishers Bring the Bible to Your Students like Never Before Communicating the Scriptures is much like building a bridge. However, instead of ravines or rivers, the teacher must span both cultural boundaries and great gulfs of time between the present and the pasts of Moses, David, Jesus, and Paul. Though God's Word is always relevant, the teacher must help students see Scripture's vast treasures. The effective, engaging Bible teacher must, therefore, become creative. Together, Lawrence Richards and Gary Bredfeldt have created the ultimate guide to building bridges for those seeking to learn about God's Word. Creative Bible Teaching offers a five-step process by which Christian educators can construct a bridge across time, geography, and culture to help students of all ages connect with God's Word. This newly revised edition makes learning about God's Word more accessible for both teachers and students today. Simple, clear, and memorable, the method laid out in Creative Bible Teaching provides a sure-fire way of communicating God's Word in a way that sticks.*

## Ensayo humano

*Caligrama Ensayo humano aborda nuestra naturaleza; nacimos de una pizca de polvo cósmica, y sin saberlo, ya la habíamos colonizado como nuestro mundo. La ciencia dice que la realidad percibida está hecha de elementos, que el universo es infinito o existen infinitos universos, pero le hacía falta decir algo... Puede verse en la regulación íntima de la naturaleza que nos rodea que todo este universo, sin aparente inteligencia, opera con una precisión asombrosa. ¿Puede semejante creación ocurrir por casualidad y repentinamente de la nada? ¡No existe tal cosa! La materia no sea crea a sí misma, así lo demuestra la ciencia. Aunque supiera que nada surge de la nada, se negaba a aceptar algo que, a partir de mi experiencia, era muy clara su evidencia, la causa en la consecuencia; tras tal creación debe haber una fuente energética. Llamamos big bang a esa razón primera, una explosión que desde un punto originó todas las leyes de la materia... y es en ella donde el ser humano ha venido rastreando sus propias huellas.*
