Glyptic Antiquities from the Museum of Khoy, Western Azerbaijan, Iran [ISIAO](#) Swans of the Kremlin Ballet and Power in Soviet Russia [University of Pittsburgh Pre](#) Classical ballet was perhaps the most visible symbol of aristocratic culture and its isolation from the rest of Russian society under the tsars. In the wake of the October Revolution, ballet, like all of the arts, fell under the auspices of the Soviet authorities. In light of these events, many feared that the imperial ballet troupes would be disbanded. Instead, the Soviets attempted to mold the former imperial ballet to suit their

revolutionary cultural agenda and employ it to reeducate the masses. As Christina Ezrahi's groundbreaking study reveals, they were far from successful in this ambitious effort to gain complete control over art. *Swans of the Kremlin* offers a fascinating glimpse at the collision of art and politics during the volatile first fifty years of the Soviet period. Ezrahi shows how the producers and performers of Russia's two major troupes, the Mariinsky (later Kirov) and the Bolshoi, quietly but effectively resisted Soviet cultural hegemony during this period. Despite all controls put on them, they managed to maintain the classical forms and traditions of their rich artistic past and to further develop their art form. These aesthetic and professional standards proved to be the power behind the ballet's worldwide appeal. The troupes soon became the showpiece of Soviet cultural achievement, as they captivated Western audiences during the Cold War period. Based on her extensive research into official archives, and personal interviews with many of the artists and staff, Ezrahi presents the first-ever account of the inner workings of these famed ballet troupes during the Soviet era. She follows their struggles in the postrevolutionary period, their peak during the golden age of the 1950s and 1960s, and concludes with their monumental productions staged to celebrate the fiftieth anniversary of the revolution in 1968.

Covid War Report Interaction Techniques and Technologies Applicable to Learning and Teaching: Changing Relations Between New Media, Users, Contents and Evaluation of Interactive Systems Men and Bears Morphology of the Wild [Accademia University Press](#) The time of Carnival represents a “wild” time at the end of winter and pointing to the beginning of a new season. It is characterized by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the human and seems to reflect a deformed image of it. Such symbolic images come from far off times and places to tell a story that belongs to our common origins. The bear assumes attributes and functions alike in very different cultural contexts, such as the Sámi of Finland or North-American hunter-gatherers, and represents a boundary between the world of nature and the human world, between the domain of animals and the difficult construction of humanity: a process continued for centuries, perhaps millennia, and which cannot still be said complete. The Child Far Away [Ali Ribelli Edizioni](#) Once upon a time, on my little island there lived a strange child. He did not have a name, nor a place to call home. This is a story about the power of dreams and the ability to forge one's own destiny.
