STILL LEARNING TO READ

TEACHING STUDENTS IN GRADES 3-6

Stenhouse Publishers Foreword by Colby Sharp In the decade since the first edition of Still Learning to Read was published, the prevalence of testing and the Common Core State Standards have changed what is expected of both teachers and students. The new edition of Still Learning to Read focuses on the needs of students in grades 3-6 in all aspects of reading workshop, including reading workshop, read-aloud, classroom design, digital tools, fiction, nonfiction, and close reading. The book stays true to its original beliefs of slowing down and knowing our readers, but it also takes into account the sense of urgency that changing times and standards impose on classrooms. This edition examines current trends in literacy, includes a new section on intentional instructional planning, and provides expanded examples of mini-lessons and routines that promote deeper thinking about learning. It also includes a brand new chapter on scaffolding for reading nonfiction and showcases the authors' latest thinking on close reading and text complexity. Online videos provide glimpses into classrooms as students make book choices, work in small groups, and discuss their reading notebooks. Expanded and updated book lists, recommendations for digital tools, lesson cycles, and sections specifically written for school leaders round out this foundational resource.

THE CLUBWOMEN'S DAUGHTERS

COLLECTIVIST IMPULSES IN PROGRESSIVE-ERA GIRL'S FICTION, 1890-1940

Routledge The author provides an interdisciplinary cultural study of the evolution of Progressive-era girls' peer groups, their representation in popular girls' fiction, and the influence of these communities, both real and fictional, upon young women's lives during the years leading up to the Second World War. The writers featured in this volume were the first generation of New Women, whose ability to enter traditionally male spaces such as the college campus, the playing field, the wilderness, and the office was facilitated by their membership in women's clubs, political and religious organizations, and athletic teams. Eager to promote the idea that same-sex group activities would lead to female empowerment, these clubwomen targeted young girls as their intended audience and developed an idealized fictional portrait of female cooperation that girls could replicate in their own lives. By adding to our knowledge of girls' cultural history, the author gives voice to a segment of the population that was, and still is, at the center of society's debates concerning the appropriate roles for girls and women. Authors discussed include Louisa May Alcott, Emma Dunham Kelley, Laura Lee Hope (pseudonym for Lilian Garis), Carolyn Keene (pseudonym for Mildred Wirt Benson), and Margaret Sutton.
