THE FRAUD RULE IN THE LAW OF LETTERS OF CREDIT:A COMPARATIVE STUDY

Kluwer Law International B.V. "Dr. Gao finds the best provisions and practices in respect of the fraud rule in the United States, the United Kingdom, Canada, and Australia, and applies these standards to the reformulation of the fraud rule in the PRC. In the process he surveys the entire field of the fraud rule in the law of letters of credit in its substantive aspects, thus going deeper than mere banking law analyses and revealing, for the benefit of jurists everywhere, the fundamental legal issues that must underlie all sound judicial reasoning in the area. In more practical terms, this approach also allows judges to meet their essential responsibility - that of giving an answer when a case is put before them - with the widest and best possible degree of discernment."--BOOK JACKET.

CONTRACT DOCUMENTATION FOR CONTRACTORS

John Wiley & Sons The JCT standard forms of building contract require a thorough understanding of their procedural requirements, as well as their legal implications. They require both the contractor and the architect, on behalf of the employer, to send a wide range of notices and letters if each party is to protect its legitimate interests. The main contract forms are also supported by complex sub-contract documentation. Therefore, it is not surprising that when this book of specimen letters, notices and forms was first published, it was widely welcomed by the construction industry. The book provides examples of documentation likely to be required for a contract under the following JCT forms: ? the Standard Form of Building Contract ? the Intermediate Form of Building Contract ? the Agreement for Minor Building Works ? the Standard Form of Building Contract With Contractor's Design It includes a commentary on the practical implications of the various documents and highlights the points to be watched. The new edition takes into account the wide range of amendments to the latest editions of the standard forms following the Housing Grants, Construction and Regeneration Act 1996, and in particular, the new payment and adjudication provisions. For the first time it features documentation for use with the JCT design and build form.

E-BUSINESS

KEY ISSUES, APPLICATIONS AND TECHNOLOGIES

IOS Press How can the Internet and world wide web improve my long-term competitive advantage? This book helps answer this question by providing a better understanding of the technologies, their potential applications and the ways they can be used to add value for customers, support new strategies, and improve existing operations. It is not just about e-commerce but the broader theme of e-business which affects products, business processes, strategies, and relationships with customers, suppliers, distributors and competitors. To cover future trends, the editors have collected papers from authors operating at the frontiers of the developments so the reader can more appreciate the directions in which these technologies are heading. The resulting 165 essays have been collated into ten sections, which have been grouped in three parts: key issues, applications areas and applications, tools and technologies. A business rarely makes radical changes but is constantly making adjustments to circumstances. Businesses must now adapt to the global implications of the Internet and world wide web. This book hopes to aid awareness of the implications so that the changes are managed wisely.
