Holding Back The Tears

Rose Garden Press This is true story about real people is set in Edinburgh City and Dundee, where a petite Scottish Lassie called Rosie Gilmour, mother to Finlay Sinclair, receives news of the death of her son - who tragically has taken his own life by hanging. Rosie pretends her son is still alive by talking to him, for that takes away the unbearable pain of her loss. But once she begins to face up to the fact that Finlay is not coming back, her conversations become more of a challenge than she can handle. When memories of her past are triggered by everyday life events, they take her mind back and forth in time - back to her own childhood days in 1960, when she flirted with the fairground boys, and to the day she gave birth to Finlay - "ME LADDIE". Rosie's Scottish accent becomes more apparent whenever her emotions are heightened and she begins to recite poetry. She goes on to reveal doubts about her own self-worth and how she re-unites her role as mother - a role she had denied herself for seven years prior to Finlay's death. Rosie learns how to forgive herself and how to accept her loss with using practical coping strategies that sometimes but not always work for her. Many voices of different natures and walks of life appear in Rosie's, story with each one offering a part of their own belief to try and console her in her misery - except that she turns her back on any advice or support offered. Rosie is convinced that she can cope with her loss on her own and "needs no help from anyone, thank you" - until a sweet, gentle, soft-spoken voice begins to travel with her throughout her ordeal, leaving her no other choice but to listen. Eventually moving to the countryside in Angus, Rosie finds the isolation gives her life a new meaning offering her the opportunity to re-value her belief's about her own self values and decides the time has come to give her son a memorial service and invite a chosen few dance companions whom she met on a regular basis in Edinburgh to honour this day. Rosie begins to accept she will never be the same person she once had been and shall never be again, believing now her journey through grief taught her many lessons making her a stronger and better person than she imagined she could ever be.

The Eagle and the Dragon

Globalization and European Dreams of Conquest in China and America in the Sixteenth Century

John Wiley & Sons In this important new book the renowned historian Serge Gruzinski returns to two episodes in the sixteenth century which mark a decisive stage in global history and show how China and Mexico experienced the expansion of Europe. In the early 1520s, Magellan set sail for Asia by the Western route, Cortes seized Mexico and some Portuguese based in Malacca dreamed of colonizing China. The Aztec Eagle was destroyed but the Chinese Dragon held strong and repelled the invaders - after first seizing their cannon. For the first time, people from three continents encountered one other, confronted one other and their lives became entangled. These events were of great interest to contemporaries and many people at the time grasped the magnitude of what was going on around them. The Iberians succeeded in America and failed in China. The New World became inseparable from the Europeans who were to conquer it, while the Celestial Empire became, for a long time to come, an unattainable goal. Gruzinski explores this encounter between civilizations that were different from one another but that already fascinated contemporaries, and he shows that our world today bears the mark of this distant age. For it was in the sixteenth century that human history began to be played out on a global stage. It was then that connections between different parts of the world began to accelerate, not only between Europe and the Americas but also between Europe and China. This is what is revealed by a global history of the sixteenth century, conceived as another way of reading the

Renaissance, less Eurocentric and more in tune with our age.

Economy and State

John Wiley & Sons Should governments be involved in economic affairs? Challenging prevailing wisdom about the benefits of self-regulating markets, Nina Bandelj and Elizabeth Sowers offer a uniquely sociological perspective to emphasize that states can never be divorced from economy. From defining property rights and regulating commodification of labor to setting corporate governance standards and international exchange rules, the state continuously manages the functioning of markets and influences economic outcomes for individuals, firms and nations. The authors bring together classical interventions and cutting-edge contemporary research in economic sociology to discuss six broad areas of economy/state connection: property, money, labor, firms, national economic growth, and global economic exchange. A wealth of empirical examples and illustrations reveals that even if the nature of state influence on economy varies across contexts, it is always dependent on social forces. This accessible and engaging book will be essential reading for upper-level students of economic sociology, and those interested in the major economic dilemmas of our times.

Dangerous Intentions

Mouth Full of Lies

Dangerous Intentions: Mouth Full of Lies is about my experience in a relationship with a Jamaican man named Mark (The Love of My Life) or so I thought. No matter how good things felt with all of the passion, love, time spent together, and chemistry, a web of lies was created. Once lies begin to surface things take a dramatic turn which changes the whole perception of what things appeared to be. I was taken on the ride of my life, the man I thought I knew suddenly became someone I didn't know at all. It was as if a mask was peeling off of his face and the person behind the mask emerged, which was a stranger to me. Our whole relationship seemed to disappear in the blink of an eye. My story will take you through all of the hurt and betrayal I endured. The man that vowed to love me and always be there for me lied and abandoned me. It almost seemed I was playing a character in a movie thinking this can't really be happening. He could no longer run from the truth, it was time to face it. The double life he was living blew up in an unexpected way. Ultimately he sold me a dream, but in the end delivered a nightmare. As my life was turned upside down I slowly moved on trying to put the pieces back together. In the process I crossed paths with another Jamaican man named Devon, who seemed to be the opposite of Mark. Devon and I would talk all the time about our past relationships which he used as a way to get close to me. I became hesitant pretty quickly as I noticed a dark side emerge that kept revealing itself no matter how much he tried to conceal it. Devon became emotionally and mentally abusive, it was the first time in my life I had ever experienced that type of abuse. He became a complete monster, as I tried to leave him many times I realized unlike the relationship with Mark, getting away from Devon would be more of a challenge. He was a manager at a cruise line where I worked and he made sure to keep reminding me by his actions that things would never be over until he wanted it to be over. I was taken through more twists, turns and confusion. In the end, I had to make a wise decision and forget what I hoped things could be based off of false pretenses and instead do what was best for me.

Tropical Depression

CreateSpace "As enjoyable as a day at the beach." That's how USA TODAY summed up this hilarious and big-hearted romp in the Florida sunshine. When Murray Zemelman, a.k.a. The Bra King, pops another Prozac and heads to the Keys, he has nothing much in mind beyond a quixotic hope of winning back his first wife, Franny, whom he dumped years before. But when he forms an unlikely friendship with Tommy Tarpon, the last remaining member of an obscure Indian tribe, another plan also starts shaping up in his fevered brain. Why not open up Key West's first casino? Why not? Well, how about because the Mafia, in league with some of the nastiest politicians you will ever meet, is determined to kill anyone who tries? Somehow, Murray, Tommy, and Franny didn't think of that until they were in way too deep. Laugh along as they improvise a manic and ever more desperate campaign to keep their casino dreams--and themselves--alive.

God's Feminist Movement

Redefining a “Woman's Place” From a Biblical Perspective

Destiny Image Publishers Experience True Liberation by Seeing Your Beauty, Femininity, and Freedom From Heavens Point of View Has Christianity kept women trapped in the stone age? In many ways, yes; but this is not by Gods design. As society offers women opportunities to explore outer-space and govern nations, the church often stifles and limits them. The tide is changing, though. Amber Picotas Gods Feminist Movement is a new covenant manifesto calling women to embrace their true identity in Christ and fulfill their destiny as revolutionaries who shape the course of history with the Kingdom of God. There is a powerful new feminist movement emerging in the body of Christ. Its not politically driven and its not being championed by an uprising of angry man-haters. Based on an intense study of Scripture, factoring in historical and contextual hermeneutics and original languages, Picota shares a practical, non-legalistic, and non-traditional (yet deeply Biblical) look at topics that women commonly face, such as: Dating and Modesty Female Leaders in the Church Submission in Marriage Beauty and Self-Image Celebrate the power and beauty of womanhood. God has given you permission to change the world by being you! Break off religious traditions that keep women trapped in old school legalism and move beyond Christian clichs that minimize a womans true position in Christ!

The Story of Electricity

Simon and Schuster The purpose of this little book is to present the essential facts of electrical science in a popular and interesting way, as befits the scheme of the series to which it belongs. Electrical phenomena have been observed since the first man viewed one of the most spectacular and magnificent of them all in the thunderstorm, but the services of electricity which we enjoy are the product solely of scientific achievement in the nineteenth century. It is to these services that the main part of the following discussion is devoted.

A Complicated Legacy

If movies and books like Belle, Twelve Years a Slave, The Butler, The Help, A Time to Kill, and Amistad have moved you, you'll love A Complicated Legacy, a novel by Baltimore writer Robert H. Stucky based on the true story of Elijah Willis, a white South Carolina planter, and Amy- the love of his life, the mother of his children, and his slave. Taking place in the decade leading up to the Civil War, it is written with a cinematic eye for atmosphere and setting, a linguist's ear for dialogue, and a historian's grasp of the powerful social forces and momentous events of the time. It is a riveting tale of personal transformation in facing the tide of sweeping social change. Elijah Willis fought family opposition, public opinion, and the law to free his family of choice and leave them his entire inheritance. In so doing, his and Amy's story becomes a microcosm of the human struggles that made the Civil War and the Abolition of Slavery both necessary and inevitable. Set in rural South Carolina, Baltimore, and Cincinnati, this vivid saga weaves history and humanity in a compelling testimony to the power of relationships to shape our destinies, even a century and a half later.

The Really Useful #edtechbook

CreateSpace Technology has invaded our working and recreational lives to an extent that few envisaged 20 or 30 years ago. We'd be fools to avoid the developments in personal, mobile, and wearable technology. Even if we tried we'd still have to deal with other developments and distractions in classroom and learning technology like smart boards, blogs, video, games, students-led learning, virtual learning environments, social media, etc. More than this, however, is how the advances in technology, the economic and physical miniaturisation of computing devices, have impacted education: the students, the teachers, the classrooms, the spaces, the connections, the aspirations, etc. 'The Really Useful #EdTechBook' is about experiences, reflections, hopes, passions, expectations, and professionalism of those working with, in, and for the use of technology in education. Not only is it an insight into how, or why, we work with these technologies, it's about how we as learning professionals got to where we are and how we go forward with our own development. In this book respected individuals from different education sectors write about many aspects of learning technology; from Higher Education (Sue Beckingham, Peter Reed, Dr David Walker, Sheila MacNeil, Terese Bird, Wayne Barry, Inge de Waard, and Sharon Flynn), Further Education (Rachel Challen), to Museums (Zak Mensah), workplace learning (Julian Stodd, Julie Wedgwood, and Lesley Price) and primary schools / early years education (Mike McSharry). With a foreword written by Catherine Cronin, from the National University Ireland, Galway, the breadth and depth of the experiences here are second to none. The knowledge these leading learning practitioners, researchers, and professionals, share, under the same cover, is a unique opportunity for you to read about the variety of approaches to learning technology, the different perspectives on the same technology, and how technology is impacting our culture and learning

infrastructure, from early-age classrooms to leading research Universities and from museums and workplace learning providers. It is about our passion for our work and our desire to make our work better through our own learning and development. Contributory authors: Catherine Cronin: Foreword David Hopkins: Introduction Wayne Barry: "...and what do you do?": Can we explain the unexplainable? Zak Mensah: "Why do we do what we do?" Peter Reed: "The structure and roles of Learning Technologists within Higher Education Institutions" Rachel Challen: "Learning Technologists as agents of change?
