It draws on dozens of historical testimonies of individuals who had encounters with a Supreme Being which influenced them to change their lives, and sometimes the world, for the better. Taking the reader on an evidence-based tour through the cosmos, Lee, qualified in the fields of the philosophy of futures studies, theology, literature and education, reveals a stunning degree of indwelling intelligence and beauty on display throughout the universe and on Earth. KINGDOM OF TWILIGHT

Hachette UK **HISTORICAL FICTION BOOK OF THE MONTH - THE TIMES One night in autumn 1944, a gunshot echoes through the alleyways of a small**

town in occupied Poland. An S.S. officer is shot dead by a young Polish Jew, Margarita Ejzenstain. In retaliation, his commander orders the execution of thirty-seven Poles - one for every year of the dead man's life. First hidden by a German couple, Margarita must then flee the brutal advance of the Soviet army with her new-born baby. So begins a thrilling panorama of intermingled destinies and events that reverberate from that single act of defiance. KINGDOM OF TWILIGHT follows the lives of Jewish refugees and a German family resettled from Bukovina, as well as a former S.S. officer, chronicling the geographical and psychological dislocation generated by war. A quest for identity and truth takes them from Displaced Persons camps to Lübeck, Berlin, Tel Aviv and New York, as they try to make sense of a changed world, and of their place in it. Hypnotically lyrical and intensely moving, Steven Uhly's epic novel is a finely nuanced and yet shattering exploration of universal themes: love, hatred, doubt, survival, guilt, humanity and redemption. For readers of HHHH by Laurent Binet, THE KINDLY ONES by Jonathan Littell, THE ZONE OF INTEREST by Martin Amis, and ALL THE LIGHT WE CANNOT SEE by Anthony Doerr Translated from the German by Jamie Bulloch

AIRCRAFT MAINTENANCE AND SERVICE

THE ORIGIN OF COMPETITIVE STRENGTH

FIFTY YEARS OF THE AUTO INDUSTRY IN JAPAN AND THE U.S.

Springer Science & Business Media When the war ended on August 15, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal. The Topeka Capital-Journal headline read, "MacArthur's Jeeps Were the Toyota Catalyst."

BEIJING JEEP

A CASE STUDY OF WESTERN BUSINESS IN CHINA

Routledge When China opened its doors to the West in the late 1970s, Western businesses jumped at the chance to sell their products to the most populous nation in the world. Boardrooms everywhere buzzed with excitement?a Coke for every citizen, a television for every family, a personal computer for every office. At no other time have the institutions of Western capitalism tried to do business with a communist state to the extent that they did in China under Deng Xiaoping. Yet, over the decade leading up to the bloody events in and around Tiananmen Square, that experiment produced growing disappointment on both sides, and a vision of capturing the world's largest market faded. Picked as one of Fortune Magazine's "75 Smartest Books We Know," this updated version of Beijing Jeep, traces the history of the stormy romance between American business and Chinese communism through the experiences of American Motors and its operation in China, Beijing Jeep, a closely watched joint venture often visited by American politicians and Chinese leaders. Jim Mann explains how some of the world's savviest executives completely misjudged the business climate and recounts how the Chinese, who acquired valuable new technology at virtually no expense to themselves, ultimately outcapitalized the capitalists. And, in a new epilogue, Mann revisits and updates the events which constituted the main issues of the first edition. Elegantly written, brilliantly reported, Beijing Jeep is a cautionary tale about the West's age-old quest to do business in the Middle Kingdom.
