## **THE SIMPLE SCIENCE OF NUTRITION, EXERCISE, AND RELAXATION**

---

**The Happy Body Press** *Becoming lean and fit is not a matter of training for a few weeks, like Rocky, to become a world champion. That only happens in Hollywood movies that portray professional athletes exercising for hours every day until they are exhausted. Real athletes never do that. They train only to the point that they can recover for the next day's training. Their progress comes in small increments, not heroic triumphs. Unfortunately, movies have persuaded people that they can become lean and fit virtually overnight. Even the weight loss and fitness industry bought into this distortion and began pushing people to become like Rocky. When that approach failed, because people were injuring themselves or burning out or jumping from one program to another, trainers began to entertain their clients instead of finding solutions to their problems. If you want to become truly lean and fit, you must work at it like an athlete, following a structured routine and that is easier and more pleasant than you may expect. The principles that work for athletes also work for ordinary people of all ages. Athletes, of course, have coaches. The Happy Body program, on the other hand, will*

*teach you everything you need to know to be your own coach. This innovative program establishes, for the first time, exact scientific and testable methods and goals to engineer your own weight loss and fitness within precise time periods. That empowers you to self-correct your progress at every step. The Happy Body is a total health program, not just an exercise or diet plan. It will teach you to safely lose 1.0 to 2.5 pounds every week, and keep them off, without getting stuck at plateaus. You will have full control over the process, right down to the ounce. In addition to teaching you how to lose weight, the program will also help you to restore the flexibility and posture you had as a young child, and to be leaner, stronger, and faster than you have ever been. In essence, The Happy Body program will not only make you as youthful as you were at twenty, but twenty as you would have been if you had followed the program at that age.*

## PHOTOGRAPHY AND ITS ORIGINS

---

**Routledge** Recent decades have seen a flourishing interest in and speculation about the origins of photography. Spurred by rediscoveries of 'first' photographs and proclamations of photography's death in the digital age, scholars have been rethinking who and what invented the medium. *Photography and Its Origins* reflects on this interest in photography's beginnings by reframing it in critical and specifically historiographical terms. How and why do we write about the origins of the medium? Whom or what do we rely on to construct those narratives? What's at stake in choosing to tell stories of photography's genesis in one way or another? And what kind of work can those stories do? Edited by Tanya Sheehan and Andrés Mario Zervigón, this collection of 16 original essays, illustrated with 32 colour images, showcases prominent and emerging voices in the field of photography studies. Their research cuts across disciplines and methodologies, shedding new light on old questions about histories and their writing. *Photography and Its Origins* will serve as a valuable resource for students and scholars in art history, visual and media studies, and the history of science and technology.

### **EASY DEMENTIA AND ALZHEIMER COLOURING BOOK FOR ELDERLY PATIENTS - CALMING, ANTI-STRESS COLOR PAGES WITH SIMPLE SHAPES AND PATTERNS**

---

*Dementia and Alzhiemers coloring in book In recent years, the health benefits of coloring have been explored and studied. Seniors, especially those with dementia and alzhiemers, greatly benefit from neurological stimulation, and coloring in is one of the ways to achieve this much needed brain exercise. The benefits found throughout numerous studies may include: Reduction of stress and anxiety Improved motor skills and vision Improved sleep and focus Decision making skills It is important to note however, that different activities will work and be favoured by those with dementia differently - that is - some may love coloring, while others may hate it. This coloring book has been developed specifically for individuals with Dementia and Alzheimers, as well as any other seniors looking for a coloring in activity book. How does this book differ from other coloring books: This book only contains simple shapes and patterns. Rather than being specific objects or animals etc, this book contains shapes and patterns that encourage decision making - How can I make this page look good? Use of thick lines, making it easier for seniors to 'stay in the lines' Each page is repeated twice. For those who use the book in order, carers and family members will be able to track progress (I.e Coloring in may be messy to begin with, but improve throughout the book indicating improvement in cognitive function. Conversely, coloring in may be clean to begin with, and slowly get less coherent, indicating a decline in your loved ones health and indicating the need for greater assistance and care levels) It is recommended that a schedule is developed with these activities, to provide further structure to your loved one or patient. This may include a certain goal to meet (E.g. 1 Page per day) or an allocated time slot to color in. Consistency is key to improvement. Book Features: 60 Coloring in pages (30 designs repeated twice) Single sided print, allowing for use of texta and ink pen and preventing bleed through White paper Perfect bound book Softcover 8.5 x 11 inch*

## **FACIAL MAGIC - REDISCOVER THE YOUTHFUL FACE YOU THOUGHT YOU HAD LOST FOREVER!**

---

### **SAVE YOUR FACE WITH 18 PROVEN EXERCISES TO LIFT, TONE AND TIGHTEN SAGGING FACIAL FEATURES**

---

*Once in a while a product line comes along that offers men and women the opportunity to truly reclaim the youthful face they thought they had lost forever. Without drugs, electricity or anything harmful or hurtful millions of people worldwide have successfully and reliably used exercise to trim, lift and tone sagging muscles. Just like muscles in the body can be exercised, the facial muscles can greatly benefit from exercise but not just any exercise will do. Contortions, twists, puckers and funny faces will not shape or contour sagging facial muscles in a mature face. The Facial Magic facial exercise system will lift, tone and tighten sagging facial muscles. These proven, easy-to-execute isometric movements require only minutes a day to perform and most users say they look 5, 10 even 15 years younger in just weeks as eyelids tighten, eye brows lift, the forehead smoothes, jowls and pouches melt away as double chins lessen, dramatically revealing a sculpted jaw line. Facial Magic provides the look of a face lift without surgery, seams or risk of infection. Using only the thumbs and fingers while wearing special exercise gloves, your "age erasers" will produce immediate lifting and tightening of the facial features. In about three weeks the appearance of fine lines and wrinkles become less apparent as the muscles plump up the skin helping the user's face look refreshed, radiant and younger. This book contains all 18 Facial Magic exercises. Learn two exercises each week - each exercise requires 35 seconds - so in just minutes a day you will feel and see the youthful results you desire.*

## AMERICAN CHEW

---

**Burnside Review** Poetry. "Matthew Lippman's poems know how to love as only a heart knows how to love. Swelling with rage, candor, humor, and empathy, his lyrics embrace vulnerability and grit that navigate the mire that the world lays before us each day. Their music makes singular reconciliations where anxiety and angst are lent a tough and tender grace."—Michael Morse "Reading a Matthew Lippman poem is like encountering an unstoppable force—or forces. One moment you're walking down Broadway next to an old friend who's talking a mile a minute—he's on a tear, he's manic but eminently likable, and his monologue is heating up to the point of combustion. Another moment you're listening to a voiceover spoken by a hardboiled and vaguely hypnagogic private eye. And yet another moment you're at the Tamarack Lodge in a Catskills of long ago listening to a crazed Borscht Belt comedian. And finally you're listening to a mystic intoning prophecies from deep in the reaches of a dream. I love poetry that takes me through such a range of voices, guises, poses, intensities, and diapasons, yet also manages to make me feel that I am in the presence of a truly human and truly real and singular personality. These poems were written by a man who takes much pleasure in moving through this mysterious world in language and in a body. He wants to share this pleasure with us—and that is generous, and as good a reason for writing poems as any I can think of."—Geoffrey Nutter "Matthew's poems wake us up with brutal honesty and humor. If you think poetry has lost touch with everyday life, this book will restore your faith and welcome you back."—Rob MacDonald
