Lessons from the Masters

Current Concepts in Astronomical Image Processing

Springer Science & Business Media There are currently thousands of amateur astronomers around the world engaged in astrophotography at a sophisticated level. Their ranks far outnumber professional astronomers doing the same and their contributions both technically and artistically are the dominant drivers of progress in the field today. This book is a unique collaboration of individuals world-renowned in their particular area and covers in detail each of the major sub-disciplines of astrophotography. This approach offers the reader the greatest opportunity to learn the most current information and the latest techniques directly from the foremost innovators in the field today. "Lessons from the Masters" includes a brilliant body of recognized leaders in astronomical imaging, assembled by Robert Gendler, who delivers the most current, sophisticated and useful information on digital enhancement techniques in astrophotography available today. Each chapter focuses on a particular technique, but the book as a whole covers all types of astronomical image processing, including processing of events such as eclipses, using DSLRs, and deep-sky, planetary, widefield, and high resolution astronomical image processing. Recognized contributors include deep-sky experts such as Jay GaBany, Tony Hallas, and Ken Crawford, high-resolution planetary expert Damian Peach, and the founder of TWAN (The World at Night) Babak A. Tafreshi. A large number of illustrations (150, 75 in color) present the challenges and accomplishments involved in the processing of astronomical images by enthusiasts.

Writing as Freedom, Writing as Testimony

Four Italian Writers and Judaism

Judaic Traditions in Literatur In *Writing as Freedom, Writing as Testimony*, Sergio Parussa explores the relationship between Judaism and writing in the works of four twentieth-century Italian writers: Umberto Saba, Natalia Ginzburg, Giorgio Bassani, and Primo Levi. Parussa examines the different ways in which each author's work responds to Judaism and the notion of Jewish identity. With great detail, he shows how their writings reflect a change in attitude toward Judaism that occurred in Italian society between the mid-nineteenth and mid-twentieth centuries, from a perception of Jewish identity as a constraint to one's freedom to an understanding of it as a tool of intellectual freedom that can contribute to one's sense of identity. For these authors, the recovery of Judaism consists not only of telling stories with Jewish subject matter but also of the repeated act of remembering, a process by which, as Parussa puts it, "the past is salvaged from oblivion by means of its reactualization in the present." Through memory, one becomes free to affirm difference and to make Jewish traditions an integral part of Italian culture.

Mastering the Art of Mastery

The art of managing a healthy, realistic, and sustainable negotiated Dominant/submissive or Master/slave relationship starts with the individual who wants to be in charge. All too often, however, would-be Masters have unrealistic ideas about what it means to effectively and compassionately manage another human being, or they lack the significant skills necessary to make it work. This book calls on the wisdom of a number of experienced Masters of many different genders, styles, and walks of life, and maps out the pitfalls and challenges of walking this complicated path.

GNU Emacs LISP Reference Manual 1/2

Most of the GNU Emacs text editor is written in the programming language called Emacs Lisp. You can write new code in Emacs Lisp and install it as an extension to the editor. However, Emacs Lisp is more than a mere "extension language"; it is a full computer programming language in its own right. You can use it as you would any other programming language. Because Emacs Lisp is designed for use in an editor, it has special features for scanning and parsing text as well as features for handling files, buffers, displays, subprocesses, and so on. Emacs Lisp is closely integrated with the editing facilities; thus, editing commands are functions that can also conveniently be called from Lisp programs, and parameters for customization are ordinary Lisp variables. This manual attempts to be a full description of Emacs Lisp. For a beginner's introduction to Emacs Lisp, see An Introduction to Emacs Lisp Programming, by Bob Chassell, also published by the Free Software Foundation. This manual presumes considerable familiarity with the use of Emacs for editing; see The GNU Emacs Manual for this basic information. Generally speaking, the earlier chapters describe features of Emacs Lisp that have counterparts in many programming languages, and later chapters describe features that are peculiar to Emacs Lisp or relate specifically to editing. This is the GNU Emacs Lisp Reference Manual, corresponding to Emacs version 24.5. As Emacs Lisp became such a big project over the years, we had to split this reference manual in two parts that are two separate physical books. To keep it consistent with our digital manual, the references and page numbers cover both physical books as it were one. Therefore please note that you probably want to have both parts.

The Hidden Inheritance

Xlibris Corporation *The consequences of drug use, whether illicit or prescribed. Consequences that can be enduring, lifelong, even carry through generations. Yet few of us have the time to consider them as we live in the heat of our own daily lives. I have seen this in action, watched events while they happened, seen it unfold, lived through the results, and unfortunately am observing the ongoing calamities of it all, still today. It is not fun to watch but not mine to fix. I was and am an observer, a recorder, merely that, out of the action, incapable of altering the results. My wife made a great point on this novel's subject. Drug use she said is a leveler. It brings people down the lowest common denominator. What a concept! How right on is that statement! Drugs affect the rich, the poor, the famous, and the infamous in every country and nationality on this earth. If you are on the upscale end drugs keep you there. The user's life contribution to humanity is likely to be nothing, but the cost to the user, their family and friends in physical, emotional, and fiscal terms expensive and of course dangerous, because it may also kill you. I have put these observations into this novel hoping that readers can identify with the characters, watch them grow and suffer through the consequences of their actions unaware of the effect of their lives and on others.*

A Dictionary of Chinese Buddhist Terms

With Sanskrit and English Equivalents and a Sanskrit-Pali Index

Psychology Press *This invaluable interpretive tool, first published in 1937, is now available for the first time in a paperback edition specially aimed at students of Chinese Buddhism. Those who have endeavoured to read Chinese texts apart from the apprehension of a Sanskrit background have generally made a fallacious interpretation, for the Buddhist canon is basically translation, or analogous to translation. In consequence, a large number of terms existing are employed approximately to connote imported ideas, as the various Chinese translators understood those ideas. Various translators invented different terms; and, even when the same term was finally adopted, its connotation varied, sometimes widely, from the Chinese term or phrase as normally used by the Chinese. For instance, klésa undoubtedly has a meaning in Sanskrit similar to that of, i.e. affliction, distress, trouble. In Buddhism affliction (or, as it may be understood from Chinese, the afflictors, distressers, troublers) means passions and illusions; and consequently fan-nao in Buddhist phraseology has acquired this technical connotation of the passions and illusions. Many terms of a similar character are noted in the body of this work. Consequent partly on this use of ordinary terms, even a well-educated Chinese without a knowledge of the technical equivalents finds himself unable to understand their implications.*

Puppy Chow Is Better Than Prozac

The True Story of a Man and the Dog Who Saved His Life

Hachette UK To Bruce Goldstein-an edgy, twenty-something New Yorker trying to make his mark in advertising-just waking up in the morning was an ordeal. Underemployed and recently dumped, he was well into the downward spiral of bipolar disorder. Even with therapy, lithium, Paxil, Wellbutrin, and Prozac, he could not shake his rapid mood swings, his fear of dying, or the voice of Satan, who first visited him one sunny day in Central Park. Then came Ozzy, a black Labrador pup (named after metal's "Prince of Darkness") who leads Bruce toward recovery through complete, canine dependence. From the depths of his despair to a life remade, Bruce shows how

learning to care for, train, and love the hilariously loyal Ozzy provided him with the structure and focus he needed to heal.

The Irresistible Offer

How to Sell Your Product or Service in 3 Seconds or Less

John Wiley & Sons Your customers are going to give you three seconds to make the sale. Do you know what to say in those three seconds? The marketing methods of the past are losing effectiveness as consumers are getting smarter and smarter and have less and less time. What is needed is a new way of doing business—a method that is simultaneously socially responsible and far more effective than "old" marketing. This new way is *The Irresistible Offer*. "The Irresistible Offer is the missing link in many marketing books." —Joe Sugarman, Chairman, BluBlocker Corporation "The Irresistible Offer reveals secret after proven secret guaranteed to pump fresh power into your sales process." —John Du Cane, CEO, Dragon Door Publications, Inc. "As the world's fastest reader (Guinness Book certified) I've read just about every business and marketing book in existence. *The Irresistible Offer* by Mark Joyner is, by far, the easiest and most powerful. If you want to make a profitable business (any business small or large), *The Irresistible Offer* should be your starting point." —Howard Berg, "The World's Fastest Reader" "I've read every book on marketing printed in the last 150 years. This is the first breakthrough in over fifty years." —Dr. Joe Vitale, author of *The Attractor Factor* "If I had to choose one modern marketing genius to learn from, it would be Mark Joyner. *The Irresistible Offer* belongs in the hands of everyone wanting to wildly succeed in business." —Randy Gilbert, a.k.a. "Dr. Proactive" host of *The Inside Success Show*

Silence within and beyond Pedagogical Settings

Springer Nature This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.

Crown Jewel Wilderness

Creating North Cascades National Park

North Cascades National Park is remote, rugged, and spectacularly majestic. Efforts to establish a park gained traction after World War II, as national interest in wilderness preservation and concerns about the impact of harvesting timber grew. Troubled by the National Park Service's policy favoring development for tourism and the United States Forest Service's policy promoting logging in the national forests, conservationists leveraged a changing political environment and the evolving environmental values of the natural resource agencies. Their activism eventually led to the 1968 creation of a crown jewel—Washington's magnificent third national park. This engaging account tells the story.

Summoning Community in South India

Everything Must Go

HarperCollins Australia *Compared to some, Henry Powell's life has been lucky, if inauspicious. Yet Henry is impossibly stuck, unable to reconcile the dreams and expectations of his promising youth with the reality of the unassuming, vaguely dissatisfied clothing store clerk he has become. As weeks turn into months and months into years, the shop becomes Henry's only window to the world, where he marks time by the milestones of his former classmates' lives. But his day-to-day measured existence inadvertently conceals a fracture that has caused the disintegration of his family, one that will ultimately reveal the Henry that might have been.*

Soft Multihadron Dynamics

World Scientific *This book gives a comprehensive account of the development and present status of the field of soft (i.e. non-perturbative) phenomena encountered in the production of (multi-) hadronic final states by the collision of various types of particles at high energies. Phenomenological models used to describe the data are in general inspired by Quantum Chromo Dynamics (QCD) and the book repeatedly crosses the border OCo if at all existent OCo between soft (non-perturbative) and hard (perturbative) QCD."*

25 Sales Secrets of Highly Effective Salespeople. [read by Stephan Schiffman].

The Lepidoptera of Europe

A Distributional Checklist

Brill Academic Pub *The first list to cover the entire European fauna of butterflies and moths since the famous "Staudinger-Rebel Catalogue" which was published as long ago as in 1901. A large number of European specialists have been working on the family/subfamily treatments, and the list has been checked by leading experts in the national faunas. The higher classification used in the checklist is in accordance with the most recent research as it will be presented in the forthcoming treatment of Lepidoptera in the series "Handbook of Zoology". Hopefully the list will lead to uniformity in the systematics and nomenclature used in European lepidopterology! Besides being a checklist, "The Lepidoptera of Europe" also indicates in table form, in which of the European countries each species has been recorded. "The Lepidoptera of Europe" contains more than 8.300 species known to occur in Europe and the distributional tables have approximately 74.000 records! "The Lepidoptera of Europe" will be an indispensable tool for anyone working with the European fauna of any group of Lepidoptera. Lists the about 8,300 species with about 74,000 country records from Europe. Incl. CD-Rom.*
