Haying with Horses

Small Farmers Journal Small Farmer's Journal is after a new view of involvement, ownership, craftsmanship, and the understandable/mysterious seeds of magic. They also seek the craft of good farming and the faith that comes of thankful farming. Small Farmer's Journal wants to be defenders and agents of and for good farming and they realize that they are a small endeavor with small consequences. A practical and comprehensive reference text covering all aspects of haymaking with horses and mules in harness. Offering in-depth information on mowers, rakes, hayloaders, buckrakes, stackers, tracks, and trollies for barns, hay fork systems, balers, wagons, feed sleds, and forecart adaptations. Haying with Horses covers the building of loose hay stacks and wagon loads as well as unloading systems and feeding systems.

Soldiers

Farm & Ranch Safety Management

Starts with the basic human factors that affect farm equipment safety. Tells how to recognize potential hazards & understand what causes them. Illustrates major points using colorful diagrams & photos. Broadens the concept of machine safety by using a positive, in-depth approach. Widely useful for teaching safe machinery operation to youth & adult readers. This book was, to our knowledge, the first major agricultural machinery safety text ever published. CONTENTS: Agriculture-Hazardous Occupation, Be Your Own Safety Director, Man & His Machines, Be Prepared for the Unexpected, Communication of Safety Messages, Human Factors in Safety, Common Machine Hazards, Protective Equipment, Machine Service Hazards, Safe Use of Shop Tools, Safe Tractor Operation, Tractor Safety Checklist, Safe Tillage & Planting, Safe Use of Crop Chemicals, Safe Hay & Forage Operations, Grain-Harvesting Safety, Cotton- & Vegetable-Harvesting Safety, Safe Materials Handling & Feeding, Safety with Farm Accessories, OSHA & Hazardous Occupation Laws.

Compact Utility Tractors

Enthusiast Books Compact Utility Tractors, or CUTs, are cute little cutters! As farming became more refined so did the needs of tractors. The answer was a smaller, more maneuverable and fuel-efficient tractor with a variety of implements and attachments. With this focus on special needs, attachments became available such as plows, disc harrows, mower decks, cultivators, spreaders, snowblowers, and more. They have become a necessary utility for farmers, orchards, small construction jobs, and landscaping/maintenance for estates, parks and golf courses. At the forefront of this evolution was the Farmall Cub and John Deere Model L. Then came the Japanese invasion; a new kind of tractor by companies such as Yanmar and Kubota. These four-wheel drive machines were rugged and tough and used a variety of hydraulically powered attachments. American companies like John Deere, International Harvester, and Massey Ferguson built their own their own four-wheel versions. Today's compact tractors, such as the Kubota BX series, Massey Ferguson's GC series, and the John Deere 3000, offer an even larger selection of implements for special purposes.
