Parentology

Everything You Wanted to Know about the Science of Raising Children but Were Too Exhausted to Ask

Simon and Schuster An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

OBD-II & Electronic Engine Management Systems

Land Rover Series III Reborn

Veloce Publishing Ltd We took a low-mileage, ex-military, unregistered Series III Land Rover, stripped it down to its bare bones, and then blended it with an original Series III Station Wagon in very poor condition. After stirring into the pot a selection of new and modified parts from a number of different sources, we ended up with the most immaculate and user-friendly Series III you could imagine. Here's how you can restore or modify your own Series III, from suspension, brakes, and steering, to engine, transmission and body improvements. You want better seats? Galvanized chassis and bulkhead? Immaculately restored body and mechanical components? This manual has the answers. Featuring advice on rebuilding the rear body tub, the bulkhead, Station Wagon side frames, and much more besides, this book is a must!

Chicago Poems

Unabridged

Courier Corporation Written in the poet's unique personal idiom, these early poems include "Chicago," "Fog," "Who Am I?" "Under the Harvest Moon," plus more on war, love, death, loneliness, and the beauty of nature.

Popular Science

FinTech

The Technology Driving Disruption in the Financial Services Industry

CRC Press Everything that we know about the world of finance is changing before us. Innovation is happening constantly, despite the protests of the traditional financial industry. With all the new technology that we have today, it is almost mind-blowing to think about the kind of technology that we will have in another ten years or so. The change is going to keep coming, the only thing we can do is get on board with it. This book introduces the basics of FinTech and equips readers with the knowledge to get on the cutting edge of age we live in today.

Renewable Energy Resources

Taylor & Francis "This second edition maintains the book's basis on fundamentals, whilst including experience gained from the rapid growth of renewable energy technologies as secure national resources and for climate change mitigation, more extensively illustrated with case studies and worked problems. The presentation has been improved throughout, along with a new chapter on economics and institutional factors. Each chapter begins with fundamental theory from a scientific perspective, then considers applied engineering examples and developments, and includes a set of problems and solutions and a bibliography of printed and web-based material for further study. Common symbols and cross referencing apply throughout, essential data are tabulated in appendices. Sections on social and environmental aspects have been added to each technology chapter." -- back cover.

Yamaha YZF-R1 1998-2003

Haynes Manuals N. America, Incorporated Yamaha YZF-R1 1998-2003

Hydrogen: A renewable energy perspective

International Renewable Energy Agency (IRENA) This paper examines the potential of hydrogen fuel for hard-to-decarbonise energy uses, including aviation, shipping and other. But the decarbonisation impact depends on how hydrogen is produced.
