Christian Theology

An Introduction

John Wiley & Sons **Christian Theology: An Introduction**, one of the most internationally-acclaimed Christian theology textbooks in use, has been completely rewritten for the 6th edition. It now features new and extended material and companion resources, ensuring it retains its reputation as the ideal introduction for students. A new edition of the bestselling Christian theology textbook to celebrate its 25th anniversary Rewritten throughout for exceptional clarity and accessibility, and adds substantial new material on the Holy Spirit Features increased coverage of postcolonial theology, and feminist theology, and prodigious development of world theology Increases the focus on contemporary theology to complement the excellent coverage of historical material A new 2-color design includes more pedagogical features including textboxes and sidebars to aid learning

Christian Theology

Wiley-Blackwell Since its first publication, **Christian Theology: An Introduction** has established itself as the leading introductory textbook world-wide. Now, Alister McGrath provides a full new edition which maintains the strengths, structure and features of the first edition in its comprehensive but user-friendly style and coverage. At the same time, it has been revised and updated in light of feedback from students and lecturers internationally. In addition to general updating and expansion, changes include: The addition of significant new historical sections dealing with Byzantine theology, Eastern Orthodoxy, Roman Catholicism, Charismatic and Pentecostal Christianity, and Third World Christianity. The addition of major new theological sections, including sections dealing with the development of the discipline of theology, twentieth-century ecclesiology, ninth- and twentieth century sacramental debates, and the interaction of Christian theology and the natural sciences. The chapters on Christianity and the World Religions and Last Things have been rewritten and expanded. Addition of a major new section detailing theological resources available on the Internet. all citations are now sourced, and linked to the readings provided in the accompanying Christian Theology Reader. The glossary has been expanded Based on many years; experience of teaching Christian theology, Alister McGrath has provided the finest textbook available in the field. This new edition strengthens its position, and will be welcomed by professors and their students alike.

Historical Theology

An Introduction to the History of Christian Thought

John Wiley & Sons Freshly updated for this second edition with considerable new material, this authoritative introduction to the history of Christian theology covers its development from the beginnings of the Patristic period just decades after Jesus's ministry, through to contemporary theological trends. A substantially updated new edition of this popular textbook exploring the entire history of Christian thought, written by the bestselling author and internationally-renowned theologian Features additional coverage of orthodox theology, the Holy Spirit, and medieval mysticism, alongside new sections on liberation, feminist, and Latino theologies, and on the global spread of Christianity Accessibly structured into four sections covering the Patristic period, the Middle Ages and Renaissance, the reformation and post-reformation eras, and the modern period spanning 1750 to the present day, addressing the key issues and people in each Includes case studies and primary readings at the end of each section, alongside comprehensive glossaries of key theologians, developments, and terminology Supported by additional resources available on publication at www.wiley.com/go/mcgrath

Christianity

An Introduction

John Wiley & Sons Now available in a fully-revised and updated new edition, this popular textbook by one of the worlds leading theologians offers a lively, jargon-free introduction to Christianity. Features a wealth of new material on global Christianity, American Christianity, the Orthodox Church, current theological debates, and Christianity in relation to other world religions Includes enhanced and expanded student-friendly features, including numerous illustrations, suggestions for further reading, a glossary of Christian terms, and brief readings from primary Christian sources Written in an accessible and engaging style that assumes no prior knowledge of Christian beliefs or practices, making it an invaluable resource for beginners to the subject as well as those looking for a refresher Incorporates coverage of Catholicism, Orthodoxy, Protestantism, Evangelicalism, and Pentecostalism A glossary, related websites, and other resources from Dr. McGrath are available online at www.alistermcgrathwiley.com

Christian History

An Introduction

John Wiley & Sons A major new introduction to the global history of Christianity, written by one of the world's leading theologians and author of numerous bestselling textbooks. Provides a truly global review by exploring the development of Christianity and related issues in Asia, Latin America and Africa, and not just focusing on Western concerns Spanning more than two millennia and combining elements of theology, history, and culture, it traces the development of all three branches of Christianity - Catholic, Protestant, and Orthodox - providing context to Christianity's origins and its links to Judaism Looks beyond denominational history at Christianity's impact on individuals, society, politics, and intellectual thought, as well as on art, architecture, and the natural sciences Combines McGrath's acute historical sensibility with formidable organizational skill, breaking the material down into accessible, self-contained historical periods Offers an accessible and student-oriented text, assuming little or no advance theological or historical knowledge on the part of the reader

Christian Theology

An Introduction

Wiley-Blackwell This book gives an accessible account of classical Greek history, from the aftermath of the Persian Wars in 478 bc to the death of Alexander the Great in 323 bc. The author describes the years which witnessed the flourishing of democracy in Athens; the establishment of the Athenian empire; the Peloponnesian war, which involved the whole Greek world; the development of Macedonian power under Philip II; and the conquests of Alexander the Great. His account combines narrative with analysis, and deals with major social, economic and cultural developments as well as political and military events. Rhodes details the evidence on which his narrative is based, which includes inscriptions, coins and material remains, and outlines the considerations which have to be borne in mind in using this evidence."

Christian Spirituality

An Introduction

John Wiley & Sons This text fills the need for a clear, informative, helpful and well-written introduction to Christian spirituality. Includes a detailed guide to resources in spirituality available on the Internet Written by a leading theological educationalist in a clear and accessible manner Encourages active engagement with primary sources through worked case studies

Theology

The Basic Readings

John Wiley & Sons This highly successful and popular book is now available in a thoroughly expanded and updated new edition. Alister E. McGrath, one of the world's leading theologians, provides readers with a concise and balanced introduction to Christianity as it has been interpreted by many of its greatest thinkers and commentators, from its beginning to the modern day. *Theology: The Basic Readings, 3rd Edition* comprises sixty-eight readings spanning twenty centuries of Christian history. To help readers engage with the material, each reading is accompanied by an introduction, comments, study questions, and a helpful glossary of terms used by its author. Readings are drawn from a broad theological spectrum and include both historical and contemporary, mainstream, and cutting-edge approaches Uses the Apostles' Creed as a framework to introduce readers to writings on key issues, such as faith, God, Jesus, creation, and salvation Represents two thousand years of sustained critical reflection within western Christianity Encourages readers to interact with each text and to engage with primary sources Serves as an ideal companion to the bestselling, *Theology: The Basics* or as a standalone text *Theology: The Basic Readings, 3rd Edition* is an essential guide to the topics, themes, controversies, and reflections on Christianity as they have been understood by many of its greatest commentators.

Theology

The Basics

John Wiley & Sons This fourth edition of the international bestseller is the ideal introduction for those who are new to Christian theology. In this revised and expanded edition, the author introduces readers to the central ideas and beliefs, the key debates and the leading thinkers of Christianity. Throughout, the aim is to bring clarity and brevity to the central ideas of theology, both traditional and contemporary. The text comprehensively covers the individual doctrines that form the Christian belief system, weaving together these doctrines, their history, and the intellectual nuance behind them into an inter-connected web. All major Christian denominations are explored, as are their differences and shared

customs and beliefs. This rich tapestry results in a clear view of Christianity, providing a coherent vision of the religion in its main forms.

Science and Religion

A New Introduction

John Wiley & Sons Now thoroughly updated to reflect the latest debates, this popular textbook introduces readers to the central questions in the field of science and religion. Ideally suited to those who have little or no prior knowledge in either area, it incorporates numerous student-friendly features, including maps, summaries, and historical references, resulting in the most up-to-date introduction to the study of religion and the natural sciences available. Examines the historical, theological, philosophical and scientific aspects of the interaction between religion and science Fully updated to reflect current, cutting-edge debates on scientific atheism and the limits of scientific method, and discussions about the relationship between science and religion in major world faiths Includes a historical component to enable readers to orientate themselves within the subject Takes a topic based approach which fits into the existing structure of most courses, and includes explanatory material not found in other works of this kind, making it highly accessible for those with little scientific or religious background knowledge Incorporates illustrations, tables, maps, summaries and questions for a lively and engaging approach to the subject Written by world-renowned theologian, Alister McGrath; author of bestselling books such as Dawkins' God, and an acknowledged expert in the field of science and religion

The Christian Theology Reader

John Wiley & Sons Regarded as the leading text in Christian theology for the last 25 years, Alister E. McGrath's The Christian Theology Reader is now available in a new 5th edition featuring completely revised and updated content. Brings together more than 350 readings from over 200 sources that chart 2,000 years of Christian history Situates each reading within the appropriate historical and theological context with its own introduction, commentary, and study questions Includes new readings on world Christianity and feminist, liberation, and postcolonial theologies, as well as more selections by female theologians and theologians from the developing world Contains additional pedagogical features, such as new discussion questions and case studies, and a robust website with new videos by the author to aid student learning Designed to function as a stand-alone volume, or as a companion to Christian Theology: An Introduction, 6th edition, for a complete overview of the subject

Reformation Thought

An Introduction

John Wiley & Sons Reformation Thought, 4th edition offers an ideal introduction to the central ideas of the European reformations for students of theology and history. Written by the bestselling author and renowned theologian, Alister McGrath, this engaging guide is accessible to students with no prior knowledge of Christian theology. This new edition of a classic text has been updated throughout with the very latest scholarship Includes greater coverage of the Catholic reformation, the counter-reformation, and the impact of women on the reformation Explores the core ideas and issues of the reformation in terms that can be easily understood by those new to the field Student-friendly features include images, updated bibliographies, a glossary, and a chronology of political and historical ideas This latest edition retains all the features which made the previous editions so popular with readers, while McGrath's revisions have ensured it remains the essential student guide to the subject.

Christianity

An Introduction

Introduction to Theology, 3rd Edition

Church Publishing, Inc. A comprehensive introduction to theology from an Anglican perspective.

Introduction to Christianity

Blackwell Publishing Beginning with an introduction to Biblical sources and Jesus as a central figure the book then examines theology, history and the present situation in which Christianity finds itself. The author treats it as a way of life and not just a set of ideas.

Studies in Doctrine

Zondervan Four outstanding McGrath books are here in one volume that gives a clear, thoughtful, and highly readable introduction to the basic doctrines of the Christian faith.

Mere Apologetics

How To Help Seekers And Sceptics Find Faith

SPCK The faith has been defended by great and articulate voices down the centuries. But the challenges of scientific atheism mean we now need a fresh and flexible approach. Alister McGrath is ideally placed to offer robust and intriguing insights into the biblical basis for apologetics and its historical uses. He explores different pointers to faith, such as our innate sense of longing for justice, our appreciation for beauty, and the order we see in the physical world. Various approaches to sharing our faith with others are outlined and McGrath shows how explanations, arguments, stories, and images are all right and useful ways to communicate what we believe. Armed with the tools we need to engage others on this subject, we are guided on choosing the best approach for our particular personality and how we can adapt our approach to suit our audience. Practical, insightful and warmly affirming, this book will have you longing for a chance to put these techniques into practice.

The Future of Christianity

Wiley-Blackwell Christianity is the world's largest religious grouping. It has undergone massive change in the twentieth century, and seems poised to undergo major transformations in the next. In this important and timely book, one of Christianity's most prolific and respected writers examines these changes, and their implications for the future.

Introduction to Christian Theology

Abingdon Press This book helps beginning theological students grasp the basics of Christian theology. Consciously avoiding the perspective of one school of thought or confessional tradition, the authors provide the reader with a brief, broad overview of the questions and contents of theological study. Their accessible use of language, clear organization, and careful explanation will prove of invaluable aid to those who are getting their theological feet wet for the first time. "In the words of its authors, this book offers an introduction 'to the fuller spectrum of Christian theology as it has developed through the centuries.' Few writers address the historical development of the classic doctrines and the contemporary resonance as adroitly as Gonzalez and Perez. The chapter on Jesus Christ, for example, presents concise summaries of the treatments of Christ's person leading up to Chalcedon, while suggesting a need for a multiplicity of images in understanding the work of Christ that liberates the whole person and restores all creation. Beginning students, as a result, are invited into a living theological conversation, where the contested claims of the past have continued relevance in a contemporary era beset by its undervaluing of the body and creation. Broadly ecumenical in tenor, with reference to theologians from nearly every century, the work should appeal to both a popular readership and introductory students in college and seminary. One disappointing aspect of the book is an absence of Latino/a, feminist, and liberation perspectives. For a work that argues for the contextuality of all theology, and from authors whose previous work has been monumental in Hispanic theological education, this lack is surprising."---David H. Jensen, Austin Presbyterian Theological Seminary, in *Religious Studies Review*, Volume 29 Number 3, July 2003.

Science & Religion

A New Introduction

John Wiley & Sons The leading introductory textbook on the study of religion and the natural sciences, including new coverage of the latest topics in the field **Science and Religion** provides students with a thorough introduction to the major themes and landmark debates in the interaction of science and religion. Incorporating history, philosophy, the natural sciences, and theology, this popular textbook examines how science and religion approach central questions and discusses the relationship between the two areas through the centuries. The authoritative and accessible chapters are designed for readers with minimal knowledge of science or theology. Written by one of the world's leading authorities on the study of religion and science, this fully revised and updated third edition addresses contemporary topics and reflects the latest conceptual developments in the field. New and expanded chapters and case studies discuss Scientism, evolutionary theodicy, the Theory of Relativity, warranted belief in science and religion, the influence of science and religion on human values, and more. The most up-to-date introduction to this exciting and rapidly growing field, this textbook: Offers an engaging, thematically-based approach to the subject Provides historical context for major events in science and religion Explores scientific and religious perspectives on Creation and the existence of God Discusses models, analogies, and issues at the intersection of science and religion Is supported by a series of videos that complement each chapter One of the most respected and widely adopted textbooks in the field, **Science and Religion: A New Introduction, 3rd Edition** is an ideal resource for college, seminary, and university students in courses in science and religion; church or community courses in the relation of science and faith; and general readers looking for an inclusive overview of the field.

A Brief History of Heaven

John Wiley & Sons This engaging book by one of today's best-known Christian writers explores the history of heaven, from its origins in biblical writings to its most recent representations. A short, accessible book on the history of heaven. Draws together representations of heaven by a wide range of writers, theologians, politicians and artists. Covers literary works such as Dante's *Divine Comedy*, Bunyan's *Pilgrim's Progress*, and the poems of George Herbert. Considers discussions by Marx and Freud of heaven's role in society. Based on serious scholarship but is ideal for the non-specialist who wants to learn more about the idea of heaven. Alister E. McGrath is one of today's best-known Christian writers.

The Order of Things

Explorations in Scientific Theology

John Wiley & Sons Provocative and immensely well informed, *The Order of Things* represents a substantial and original contribution to the fields of systematic theology, historical theology, and the science and religion dialogue. Leading theologian, Alister E. McGrath explores how the working methods and assumptions of the natural sciences can be used to inform and stimulate systematic theology. Written by one of today's best-known Christian writers Explores how the working methods and assumptions of the natural sciences can be used to inform and stimulate systematic theology Continues McGrath's acclaimed exploration of scientific theology, begun with his groundbreaking three-volume work, *A Scientific Theology* Includes a landmark extended analysis of whether doctrinal development can be explained using Darwinian evolutionary models, and exploration of how the transition from a "scientific theology" to a future "scientific dogmatics" might be made Supported by a published review of McGrath's scientific theology project, which is currently the best brief introduction to his thought.

The Science of God

An Introduction to Scientific Theology

A&C Black How do science and theology interact? What can be gained by exploring Christian theology using the insights of the natural sciences? Can a synergy be found? Is there a defensible natural theology within the scope and framework of a revealed God?

Re-Imagining Nature

The Promise of a Christian Natural Theology

John Wiley & Sons Reimagining Nature is a new introduction to the fast developing area of natural theology, written by one of the world's leading theologians. The text engages in serious theological dialogue whilst looking at how past developments might illuminate and inform theory and practice in the present. This text sets out to explore what a properly Christian approach to natural theology might look like and how this relates to alternative interpretations of our experience of the natural world Alister McGrath is ideally placed to write the book as one of the world's best known theologians and a chief proponent of natural theology This new work offers an account of the development of natural theology throughout history and informs of its likely contribution in the present This feeds in current debates about the relationship between science and religion, and religion and the humanities Engages in serious theological dialogue, primarily with Augustine, Aquinas, Barth and Brunner, and includes the work of natural scientists, philosophers of science, and poets

Iustitia Dei

A History of the Christian Doctrine of Justification

Cambridge University Press An updated and expanded version of Alister McGrath's definitive study of the history of the Christian doctrine of justification. It brings together into a single volume the enormous amount of material from the first edition, while adding new sections dealing with recent developments in Pauline scholarship and ecumenical debates over the doctrine.

Iustitia Dei

A History of the Christian Doctrine of Justification

Cambridge University Press The Christian doctrine of justification is of immense interest to historians and theologians, and continues to be of major importance in modern ecumenical discussions. The present work appeared in its first edition in 1986, and rapidly became the leading reference work on the subject. Its many acclaimed features include a detailed assessment of the semantic background of the concept in the ancient Near East, a thorough examination of the doctrine of the medieval period, and especially careful analysis of its development during the critical years of the sixteenth century. The third edition thoroughly updates the work, adding material where necessary, and responding to developments in scholarly literature. It will be an essential resource for all concerned with the development of Christian doctrine, the history of the Reformation debates on the identity of Christianity, and modern discussions between Protestants and Roman Catholics over the nature of salvation.

The Intellectual World of C. S. Lewis

John Wiley & Sons Marking the 50th anniversary of Lewis' death, *The Intellectual World of C. S. Lewis* sees leading Christian thinker Alister McGrath offering a fresh approach to understanding the key themes at the centre of Lewis' theological work and intellectual development. Brings together a collection of original essays exploring important themes within Lewis' work, offering new connections and insights into his theology. Throws new light on subjects including Lewis' intellectual development, the uses of images in literature and theology, the place of myth in modern thought, the role of the imagination in making sense of the world, the celebrated 'argument from desire', and Lewis' place as an Anglican thinker and a Christian theologian. Written by Alister McGrath, one of the world's leading Christian thinkers and authors; this exceptional pairing of McGrath and Lewis brings together the work of two outstanding theologians in one volume.

Dawkins' GOD

Genes, Memes, and the Meaning of Life

John Wiley & Sons Alister E. McGrath is one of the world's leading theologians, with a doctorate in the sciences. Richard Dawkins is one of the bestselling popular science writers, with outspoken and controversial views on religion. This fascinating and provoking work is the first book-length response to Dawkins' ideas, and offers an ideal introduction to the topical issues of science and religion. Addresses fundamental questions about Dawkins' approach to science and religion: Is the gene actually selfish? Is the blind watchmaker a suitable analogy? Are there other ways of looking at things? Tackles Dawkins' hostile and controversial views on religion, and examines the religious implications of his scientific ideas, making for a fascinating and provoking debate. Written in a very engaging and accessible style, ideal to those approaching scientific and religious issues for the first time. Alister McGrath is uniquely qualified to write this book. He is one of the world's best known and most respected theologians, with a strong research background in molecular biophysics. A superb book by one of the world's leading theologians, which will attract wide interest in the growing popular science market, similar to Susan Blackmore's *The Meme Machine* (1999).

"I Believe"

Exploring the Apostles' Creed

IVP Books Alister McGrath unpacks the content of the Apostles' Creed and introduces us to the essential truths about God the Father, the person and work of Jesus Christ, and the Holy Spirit.

Iustitia Dei

A History of the Christian Doctrine of Justification

Cambridge University Press A substantially rewritten edition of a work that has already established itself as the leading authority in its field.

Scientific Theology: Reality

A&C Black This second volume in the series provides a detailed and thorough examination and defense of theological realism. Engaging critically with writers such as George Lindbeck and John Millbank, McGrath offers a sparkling and sophisticated affirmation of theological realism against its modern and postmodern critics. His refutation of the claim that the rise of philosophical nonfoundationalism entails the abandoning of any form of realism is of particular importance, as is his application of the highly influential form of 'critical realism' developed by Roy Bhaskar. *Scientific Theology* is a groundbreaking work of systematic theology in three volumes: *Nature, Reality and Theory*. Now available as a three volume set.

The Science of God

An Introduction to Scientific Theology

Burns & Oates How do science and theology interact? What can be gained by exploring Christian theology using the insights of the natural sciences? Can a synergy be found? Is there a defensible natural theology within the scope and framework of a revealed God? In the three volumes of *A Scientific Theology* (T&T Clark, 2001-2003), Alister E. McGrath produced a groundbreaking work proposing a mutual cross-fertilization of ideas and approaches: a scientific theology based on the present and past relationships between Christian theology and the natural sciences. In *The Science of God*, Professor McGrath provides a summary of and introduction to the major themes examined in the series. He outlines all the main ideas on Christian theology both philosophically and historically, discussing their relationships with the natural sciences. This unique approach results not simply in a traditional introduction to systematic theology, nor in an introduction to the science versus religion debate, but in a highly readable guide to Christian theology as a systematic theology enriched by the natural sciences, conceived and presented as a legitimate and coherent intellectual discipline with its own sense of identity, place and purpose.

A Passion for Truth

The Intellectual Coherence of Evangelicalism

IVP Academic Voted one of *Christianity Today's* 1997 Books of the Year! Decades ago, evangelicalism was given up for dead in the academy. But since World War II, evangelical intellectualism has made a surprising comeback. Esteem has been regained especially in such disciplines as history and philosophy. Now evangelical theologians are making their bid for academic respectability. *A Passion for Truth*, written by one of evangelicalism's outstanding younger theologians, seeks to show that the movement has in its heritage excellent resources to engage the scholarly debates of the day. McGrath first sets forth the constructive ground on which evangelicalism stands, then shows how this revived

school of thought might respond to such important theological and cultural realities as postmodernism, religious pluralism and postliberalism. His book is fresh and exciting evidence that evangelicalism is coming of age.

Understanding the Trinity

Zondervan Beginning with the current skepticism about God's very existence, Dr. McGrath starts off with some convincing apologetics. But he does not rely on apologetics alone. He knows that the only way to be sure about the living God is to encounter him--and this can happen to people who know almost nothing about him.

The Territories of Human Reason

Science and Theology in an Age of Multiple Rationalities

Ian Ramsey Centre Studies in S Our understanding of human rationality has changed significantly since the beginning of the century, with growing emphasis being placed on multiple rationalities, each adapted to the specific tasks of communities of practice. We may think of the world as an ontological unity-but we use a plurality of methods to investigate and represent this world. This development has called into question both the appeal to a universal rationality, characteristic of the Enlightenment, and also the simple 'modern-postmodern' binary. The Territories of Human Reason is the first major study to explore the emergence of multiple situated rationalities. It focuses on the relation of the natural sciences and Christian theology, but its approach can easily be extended to other disciplines. It provides a robust intellectual framework for discussion of transdisciplinarity, which has become a major theme in many parts of the academic world. Alister E. McGrath offers a major reappraisal of what it means to be 'rational' which will have significant impact on older discussions of this theme. He sets out to explore the consequences of the seemingly inexorable move away from the notion of a single universal rationality towards a plurality of cultural and domain-specific methodologies and rationalities. What does this mean for the natural sciences? For the philosophy of science? For Christian theology? And for the interdisciplinary field of science and religion? How can a single individual hold together scientific and religious ideas, when these arise from quite different rational approaches? This ground-breaking volume sets out to engage these questions and will provoke intense discussion and debate.

Heresy

A History of Defending the Truth

Harper Collins In *Heresy*, leading religion expert and church historian Alister McGrath reveals the surprising history of heresy and rival forms of Christianity, arguing that the church must continue to defend what is true about Jesus. He explains that remaining faithful to Jesus's mission and message is still the mandate of the church despite increasingly popular cries that traditional dogma is outdated and restricts individual freedom.

J.I. Packer

A Biography

Baker Publishing Group His books have sold over three million copies worldwide and *Christianity Today* readers named him one of the most influential theological writers of the 20th century. Now J.I. Packer's life and ministry are examined in this admirable biographical work.

Re-Imagining Nature

The Promise of a Christian Natural Theology

John Wiley & Sons **Reimagining Nature** is a new introduction to the fast developing area of natural theology, written by one of the world's leading theologians. The text engages in serious theological dialogue whilst looking at how past developments might illuminate and inform theory and practice in the present. This text sets out to explore what a properly Christian approach to natural theology might look like and how this relates to alternative interpretations of our experience of the natural world Alister McGrath is ideally placed to write the book as one of the world's best known theologians and a chief proponent of natural theology This new work offers an account of the development of natural theology throughout history and informs of its likely contribution in the present This feeds in current debates about the relationship between science and religion, and religion and the humanities Engages in serious theological dialogue, primarily with Augustine, Aquinas, Barth and Brunner, and includes the work of natural scientists, philosophers of science, and poets

The Blackwell Encyclopedia of Modern Christian Thought

Wiley-Blackwell **The Blackwell Encyclopedia of Modern Christian Thought** is an authoritative reference source for those interested in the development of Christian belief, from the Enlightenment to the present day.

The Territories of Human Reason

Science and Theology in an Age of Multiple Rationalities

Oxford University Press Our understanding of human rationality has changed significantly since the beginning of the century, with growing emphasis being placed on multiple rationalities, each adapted to the specific tasks of communities of practice. We may think of the world as an ontological unity-but we use a plurality of methods to investigate and represent this world. This development has called into question both the appeal to a universal rationality, characteristic of the Enlightenment, and also the simple 'modern-postmodern' binary. **The Territories of Human Reason** is the first major study to explore the emergence of multiple situated rationalities. It focuses on the relation of the natural sciences and Christian theology, but its approach can easily be extended to other disciplines. It provides a robust intellectual framework for discussion of transdisciplinarity, which has become a major theme in many parts of the academic world. Alister E. McGrath offers a major reappraisal of what it means to be 'rational' which will have significant impact on older discussions of this theme. He sets out to explore the consequences of the seemingly inexorable move away from the notion of a single universal rationality towards a plurality of cultural and domain-specific methodologies and rationalities. What does this mean for the natural sciences? For the philosophy of science? For Christian theology? And for the interdisciplinary field of science and religion? How can a single individual hold together scientific and religious ideas, when these arise from quite different rational approaches? This groundbreaking volume sets out to engage these questions and will provoke intense discussion and debate.
