### Liewer as lief

*Penguin Random House South Africa* **Anika was maar al te bly toe Ivan, haar vriend, so vinnig vir hul albei werk gekry het by die magtige eiendomsmagnaat, EVS. Dinge het aanvanklik goed begin, totdat die ontwikkelaar, Hugo, Anika se voete onder haar uitslaan. Anika sukkel om 'n balans te vind tussen haar nuwe werk en haar gevoelens vir Hugo. Wat sy nie besef nie, is dat daar veel meer in die familiebesigheid skuil. Hugo is nie wie hy sê hy is nie, en Ivan is nie die vriend wat sy gedink het sy ken nie. Boonop is daar 'n ondersoek na bedrog geloods en Anika is die hoofverdagte. Hoe sal die nuutgevonde liefde die stryd wen tussen al die misverstande, leuens en korrupsie?**

### Caswell County, North Carolina, Will Books, 1777-1814 ; 1784 Tax List, Guardians' Accounts, 1794-1819

*Genealogical Publishing Com* **Following the Glorious Revolution, the supporters of the House of Stuart, known as Jacobites, could be found throughout the British Isles. The Scottish county of Angus, or Forfarshire, made a significant contribution to the Jacobite armies of 1715 and 1745. David Dobson has compiled a list of about 900 persons--including not only soldiers but also civilians who lent crucial support to the rebellion. Arranged alphabetically, the entries always give the full name of the Jacobite, his occupation, his rank, date of service and unit (if military), and, sometimes, the individual's date of birth, the names of his parents, a specific place of origin, and a wide range of destinations to which the Jacobites fled after each of the failed insurrections.**

### Ma cousine Rachel

*LGF/Le Livre de Poche* **Philip, sans la connaître, déteste cette femme que son cousin Ambroise, avec lequel il a toujours vécu étroitement uni dans leur beau domaine de Cornouailles, a épousée soudainement pendant un séjour en Italie. Quand Ambroise lui écrira qu'il soupçonne sa femme de vouloir l'empoisonner, Philip le croira d'emblée. Ambroise mort, il jure de le venger. Sa cousine, cependant, n'a rien de la femme qu' imagine Philip. Il ne tarde pas à s'éprendre d'elle, à bâtir follement un plan d'avenir pour finir par buter sur une réalité de cauchemar. Ce don du suspense psychologique, que le nombreux public de la célèbre romancière anglaise lui reconnaît dans chacune de ses oeuvres, est particulièrement présent dans Ma cousine Rachel.**

### The Ascendance of Harley Quinn

## Essays on DC's Enigmatic Villain

*McFarland* Since her first appearance in 1992, Harley Quinn--eccentric female sidekick to the Joker--has captured the attention of readers like few new characters have in eight decades of Batman comics. Her bubbly yet malicious persona has earned her a loyal and growing fan base as she has crossed over into television, theater, video games, and film. In this collection of new essays, contributors explore her various iterations, focusing on her origin and contexts, the implications of her abusive relationship with the Joker, her relationships with other characters, her representations across media, and the philosophic basis of her character.

## Mouth of the Donkey

## Re-imagining Biblical Animals

*Wipf and Stock Publishers* The Hebrew Bible is filled with animals. Snakes and ravens share meals with people; donkeys and sheep work alongside us; eagles and lions inspire us; locusts warn us. How should we read their stories? What can they teach us about ecology, spirituality, and ethics? Author Laura Duhan-Kaplan explores these questions, weaving together biology, Kabbalah, rabbinic midrash, Indigenous wisdom, modern literary methods, and personal experiences. She re-imagines Jacob's sheep as family, Balaam's donkey as a spiritual director, Eve's snake as a misguided helper. Finally, Rabbi Laura invites metaphorical eagles, locusts, and mother bears to help us see anew, confront human violence, and raise children who live peacefully on the land.

## Evangelism and Social Concern in the Theology of Carl F. H. Henry

*Wipf and Stock Publishers* How do evangelism and social concern relate to one another in the mission of the church? How should the Old Testament's emphasis on social justice inform the praxis of modern believers? Does the Bible emphasize individual salvation, or does it teach a broader, more inclusive concept? Theologians, missiologists, pastors, and educators have wrestled with these questions for centuries. But especially since the early part of the twentieth century, this debate has increasingly become a point of contention among evangelical Christians, with few indications that a consensus may soon be forthcoming. Yet few have offered so thorough an answer to these questions as has Carl F. H. Henry. Henry's regenerative model of evangelism and social concern stands on the shoulders of Augustine and many others, and offers what may be the best way forward. This book explores Henry's thoughts on this subject and sets him in dialogue with numerous others who have written on these topics. Thus it will prove a valuable resource for all interested in this topic.

## Feminist Trauma Theologies

## Body, Scripture & Church in Critical Perspective

*SCM Press* Throughout the study of trauma theology runs a lineage that is deeply feminist. As traumatic experience is being more frequently acknowledged in public, this book seeks to articulate an explicit understanding of feminist trauma theology for the first time. Bringing together scholars from a range of disciplines, this book explores the relationship between trauma and feminist theologies, highlighting methodological, theological, and practical similarities between the two. The #MeToo and #ChurchToo movements, sexual abuse scandals, gender based violence, pregnancy loss, and the oppression of women in Church spaces are all featured as important topics. With contributions from a diverse team of scholars, this book is an essential resource for all thinkers and practitioners who are trying to navigate the current conversations around theology, suffering, and feminism. With a foreword by Shelly Rambo, author of Resurrecting Wounds

## Civic Participation in Contentious Politics

## The Digital Foreshadowing of Protest

*Springer* The book examines the highly dynamic communication ecology of recent contentious politics and its expanding digital footprint. First, it looks at the attainment of democratic citizenship through practice as street protests attract substantial numbers of followers who narrate their involvement or reflect on the claims and the implications of collective action on social media. Secondly, it considers the ramifications for contemporary democracy arising from the large-scale uptake of social media by variegated protest networks, which no longer pivot on the coordination capacity of bureaucratic movement organizations. The book ties these aspects together to propose that contentious politics can be a fertile ground for progressive civic participation.

## Prayer as Divine Experience in 4 Ezra and John's Apocalypse

## Emotions, Empathy, and Engagement with God

*Rowman & Littlefield* Prayer as Divine Experience examines the emotional language in the prayer preludes contained in 4 Ezra and the hymns recounted in John's Apocalypse. Based on studies in neuropsychology, readers or hearers of the emotional language could potentially achieve a divine experience similar to what is described in this literature.

## Plastid Proteostasis: Relevance of Transcription, Translation and Post-Translational Modifications

*Frontiers Media SA* Due to their bacterial endosymbiotic origin plastids are organelles with both nuclear-encoded and plastid-encoded proteins. Therefore, a highly integrated modulation of gene expression between the nucleus and the plastome is needed in plant cell development. Plastids have retained for the most part a prokaryotic gene expression machinery but, differently from prokaryotes and eukaryotes, they have largely abandoned transcriptional control and switched to predominantly translational control of their gene expression. Some transcriptional regulation is known to occur, but the coordinate expression between the nucleus and the plastome takes place mainly through translational regulation. However, the regulatory mechanisms of plastid gene expression (PGE) are mediated by intricate plastid-nuclear interactions and are still far from being fully understood. Although, for example, translational autoregulation mechanisms in algae have been described for subunits of heteromeric protein complexes and termed control by epistasy of synthesis (CES), only few autoregulatory proteins have been identified in plant plastids. It should be noted of course that PGE in *C. reinhardtii* is different from that in plants in many aspects. Another example of investigation in this research area is to understand the interactions that occur during RNA binding between nucleus-encoded RNA-binding proteins and the respective RNA sequences, and how this influences the translation initiation process. In addition to this, the plastid retains a whole series of mechanisms for the preservation of its protein balance (proteostasis), including specific proteases, as well as molecular chaperones and enzymes useful in protein folding. After synthesis, plastid proteins must rapidly fold into stable three dimensional structures and often undergo co- and posttranslational modifications to perform their biological mission, avoiding aberrant folding, aggregation and targeting with the help of molecular chaperones and proteases. We believe that this topic is highly interesting for many research areas because the regulation of PGE is not only of wide interest for plant biologists but has also biotechnological implications. Indeed, plastid transformation turns out to be a very promising tool for the production of recombinant proteins in plants, yet some limitations must still be overcome and we believe that this is mainly due to our limited knowledge of the mechanisms in plastids influencing the maintenance of proteostasis.

## The Closing of the Liberal Mind

### How Groupthink and Intolerance Define the Left

*Encounter Books* A former U.S. Assistant Secretary of State and currently Acting Senior Vice President for Research at The Heritage Foundation, Kim R. Holmes surveys the state of liberalism in America today and finds that it is becoming its opposite—illiberalism—abandoning the precepts of open-mindedness and respect for individual rights, liberties, and the rule of law upon which the country was founded, and becoming instead an intolerant, rigidly dogmatic ideology that abhors dissent and stifles free speech. Tracing the new illiberalism historically to the radical Enlightenment, a movement that rejected the classic liberal ideas of the moderate Enlightenment that were prominent in the American Founding, Holmes argues that today's liberalism has forsaken its American roots, incorporating instead the authoritarian, anti-clerical, and anti-capitalist prejudices of the radical and largely European Left. The result is a closing of the American liberal mind. Where once freedom of speech and expression were sacrosanct, today liberalism employs speech codes, trigger warnings, boycotts, and shaming rituals to stifle freedom of thought, expression, and action. It is no longer appropriate to call it liberalism at all, but illiberalism—a set of ideas in politics, government, and popular culture that increasingly reflects authoritarian and even anti-democratic values, and which is devising new strategies of exclusiveness to eliminate certain ideas and people from the political process. Although illiberalism has always been a temptation for American liberals, lurking in the radical fringes of the Left, it is today the dominant ideology of progressive liberal circles. This makes it a new danger not only to the once venerable tradition of liberalism, but to the American nation itself, which needs a viable liberal tradition that pursues social and economic equality while respecting individual liberties.

## Contemporary Latin American Cinema

### Resisting Neoliberalism?

*Springer* Contemporary Latin American Cinema investigates the ways in which neoliberal measures of privatization, de-regularization and austerity introduced in Latin America during the 1990s have impacted film production and film narratives. The collection examines the relationship between economic policies and the films that depict recent transformations in many Latin American countries, demonstrating how contemporary Latin American film has not only criticized and resisted, but also benefitted from neoliberal advancements. Based on films produced in Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, Mexico and Peru since 2010, the fourteen case studies illustrate neoliberalism's effects, from big industries to small national cinemas. It also shows the new types of producers that have emerged, and the novel patterns of distribution, exhibition and consumption that shape and influence the Latin American filmscape. Through industry studies, reception analyses and close readings, this book establishes an informative and accessible text for scholars and students alike.

Whispering in the Daylight

The Children of Tony Alamo Christian Ministries and Their Journey to Freedom

*Univ Tennessee Press* Beginning in the 1960s in California, erstwhile music producer Tony Alamo became interested in authoritarian religion and, along with his charismatic wife, Susan, began gathering followers. By the 1970s, Tony Alamo Christian Ministries had established particularly strong footholds in Arkansas, as well as maintaining outposts in California. The ministry gained a legion of followers, with branches not only in the USA but in places as diverse as Africa and Sri Lanka. Even through their leader's eventual imprisonment under federal charges (related to transporting minors across state lines for sexual purposes), Alamo's vision survived—and his community survives him today. *Whispering in the Daylight: The Children of Tony Alamo Christian Ministries and Their Journey to Freedom* is based on numerous interviews from group members and, more importantly, on interviews with the children—second and third-generation followers. Author Debby Schriver chronicles how this group was formed, documenting its many abuses and its gradual adoption of cult-like behaviors and practices. Like many cult leaders, Tony Alamo had different faces. The public saw him as a somewhat self-important but harmless music promoter and designer of bedazzling denim jackets. Schriver chronicles firsthand the condemnation, rejection, and torment that the second-generation survivors of Tony Alamo's abuses experienced. Schriver's interviews, particularly those with children, illuminate the real horrors of the Alamos' behavior, ranging from economic exploitation, extreme forced fasts, and beatings, that resulted in permanent injury. Schriver's extensive research—including interviews with Tony Alamo himself, harrowing visits to Alamo compounds, and witnessing gut-wrenching confrontations between freed children and their unreformed parents—tells the story of a closed group whose origins and history are unlikely ever to be definitively unraveled. DEBBY SCHRIVER has spent her career working with students, parents, and staff in the departments of student life and employee training and development at the University of Tennessee, Knoxville. She is the author of *In the Footsteps of Champions: The University of Tennessee Lady Volunteers, the First Three Decades*, coauthor, with Jenny Moshak, of *Ice 'n' Go: Score in Sports and Life*, and coeditor, with Lucia McMahon of *To Read My Heart: The Journal of Rachel Van Dyke, 1810-1811*.

## Prussian Army Soldiers and the Seven Years' War

## The Psychology of Honour

*Bloomsbury Publishing* The army of Frederick the Great of Prussia is generally known as an efficient fighting machine based on brutal and strict drill procedures that led to broken but fearless soldiers as well as glorious battle victories. In analysing the mentalities of the men who established Prussia's great power status, *Prussian Army Soldiers and the Seven Years' War* fundamentally challenges this interpretation. Drawing on a vast array of primary sources (including the writing of regimental chaplain Küster, who could probably be called the first modern military psychologist) and presenting the first English translation of 12 letters of common Prussian soldiers from the Seven Years' War, this book shows that the soldiers were feeling individuals. They were loving husbands, vulnerable little brothers, deeply religious preachers, and sometimes even bold adventurers. All these individuals, however, were united by one idea which made them fight efficiently: honour. In *Prussian Army Soldiers and the Seven Years' War*, the different elements of the Prussian soldiers' concept of such honour are expertly analysed. The result is a nuanced, sophisticated, and much-needed psychological history of Frederick the Great's army.

## Ab Terra 2020

## A Science Fiction Anthology

*Ab Terra Books* "Oh my God! Look at that picture over there! There's the Earth coming up. Wow, is that pretty." —William Anders, December 24th, 1968, Moon Astronaut William Anders took a photograph after remarking on the beauty of Earth from the moon. Called "Earthrise," it introduced us to our home, to the vastness of humanity's planet. *Ab Terra 2020* is a short story anthology that seeks to recreate the feeling of the moment when we first laid eyes on our world through stories of science fiction belonging to all, from Earth. Twelve stories from both emerging and recognized science fiction authors offer diverse cultural perspectives and provide readers with journeys that in one way or another are "from Earth," even if home is far, far away. About the Editor Yen Ooi is a writer-researcher whose works explore cultural storytelling and its effects on identity. She is obsessed with science fiction, where she excavates stories to expose and explore the permutation of culture across the genre. Yen is narrative designer on *Road to Guangdong*, a narrative driving game, and author of *Sun: Queens of Earth* (novel) and *A Suspicious Collection of Short Stories and Poetry* (collection). Her short stories and poetry can be found in various publications. When she's not writing, Yen is also a lecturer and mentor. *Ich-iri* by Clare McNamee-Annett Following a bereavement, an alien travels with a crew to Earth's past to kidnap the human infant who will grow up to be responsible for the technology that brings humans to the alien world. *Come Water, Come Navigator* by Elizabeth Kate Switaj In a future that sees most of Earth underwater, a Navigator with traumas in her past travels with a small team to find out what happened to America. *Chronotope* by Raul Ciannella, edited by Rachel Cordasco A small team enslaved to data entry roles by an AI system manages to break out by combining their "alienating habits," which allow them to work at super-fast speeds. *The Wisdom of Doubts* by Soramimi Hanarejima A thought-story explores the creative potential of doubts. on either side of 1986 by Megan Russell A sister's recollections of living with a younger brother with special needs and an abusive parent are interwoven with the details of the 1986 Space Shuttle Challenger disaster. *Blip* by Charlie Hill A ship's AI and its pilot collaborate to make a bad decision in a deep space near-contact scenario. *Michael* by Ky Parker A robot created in the vision of the inventor's wife, memories and all, finds itself alone after the inventor dies. *Porch Light* by Nels Challinor A lonely journey in space prompts memories of home on Earth. *Compatibility* by Alaina Symanovich A matching service finds a near-perfect match for a debutante, which is impossible—horrifying the girl and delighting her parents. *Grapefruit Rug* by Stephanie Boyter An alien attempts to blend into life in a big city. by Elizabeth Wing An alien encounter ends in an exchange of eggs. *Chinode-matsuri* by Nyri A.
