Geary also details the flight of the culprits and the hot pursuit of federal agents. "With his elegant pen-and-ink art and knack for sifting memorable and unusual details from history, Geary renders this familiar true story in riveting and thorough detail." -Publishers Weekly

The Hall-Mills Mystery

NBM Publishing The perfect ingredients for a juicy scandal and fascinating investigation are presented in this masterful graphic novel retelling of an unsolved murder from the 1920s. On the evening of September 14, 1922, Reverend Edward Hall and Mrs. Eleanor Mills take a stroll in the New Brunswick town park. Shots are heard and two days later their bodies are found lying neatly next to each other, love letters strewn around them, and a scarf obscures the fact that Mrs. Mills' throat has been slit. The two had been involved in an affair and the press hungrily devours the story. No evidence is sufficient to lead to an indictment, so the mystery intensifies with conjecture: Was this a dual suicide? Was this perpetrated by a jealous rival? Four years later the case reopens due to new evidence indicting the reverend's wife, but she is an upstanding member of the community who vehemently denies that her husband ever had an affair. This is a tragic story told with beguiling relish and expert illustration in a distinctive style fitting of the era.

Cravan Mystery Man of the Twentieth Century

*Dark Horse Comics This is a true story about the most interesting person you've never heard of: Arthur Cravan, major figure in pre-WWI cutting-edge art circles, was among the greatest mysterious figures of the Twentieth Century. A self-confessed thief, forger, and con-artist, he used a roster of assumed names and false identities. He was known, at various times, as a novelist, poet, painter, art critic, lecturer, publisher, and the lightweight boxing champion of France. Always a rebellious, restless spirit, this dedicated rule-breaker was a political radical whose friendship with Leon Trotsky earned him the surveillance of the U.S. government—even through his immigration to Mexico with his wife, the poet Mina Loy. In 1918, at the age of thirty-one, the fascinating physical giant vanished without a trace, and—despite several supposed sightings over the years—was never seen again. Is it possible that he became the mysterious, reclusive novelist B. Traven, who wrote *The Treasure of the Sierra Madre*?*

Madison Square Tragedy

The Murder of Stanford White

*NBM Publishing Nominee: Reuben Award for Best Graphic Novel YALSA, Great Graphic Novels for Teens Bringing to life turn-of-the-century New York and the scintillating career of one of its most famous architects, as well as the vices that cost him his life, this true-crime graphic novel tells the story of one of the most scandalous murders of the times. Stanford White was one of New York's most famous architects, having designed many mansions and the first Madison Square Garden; his influence on New York's look at the turn of the century was pervasive. As he became popular and in demand, he also became quite self-indulgent: he had a taste for budding young showgirls on Broadway, even setting up a private apartment to entertain them in, including a room with a red velvet swing. When he met Evelyn Nesbit—an exquisite young nymph, cover girl, showgirl, inspiration for Charles Dana Gibson's drawing *The Eternal Question* and later for the movie *The Girl in the Red Velvet Swing*—he knew he was on to something special. However, Evelyn eventually married a young Pittsburgh decadent heir with a dark side who developed a deep hatred for White and what he may or may not have done to her.*

Pre-Incident Indicators of Terrorist Incidents

The Identification of Behavioral, Geographic and Temporal Patterns of Preparatory Conduct

[DIANE Publishing](#) This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Final Report of the National Commission on Terrorist Attacks Upon the United States

[Createspace Independent Publishing Platform](#) Nearly three thousand people died in the terrorist attacks of September 11, 2001. In Lower Manhattan, on a field in Pennsylvania, and along the banks of the Potomac, the United States suffered the single largest loss of life from an enemy attack on its soil. In November 2002 the United States Congress and President George W. Bush established by law the National Commission on Terrorist Attacks Upon the United States, also known as the 9/11 Commission. This independent, bipartisan panel was directed to examine the facts and circumstances surrounding the September 11 attacks, identify lessons learned, and provide recommendations to safeguard against future acts of terrorism.

Late Victorian Holocausts

El Niño Famines and the Making of the Third World

[Verso Books](#) Examining a series of El Niño-induced droughts and the famines that they spawned around the globe in the last third of the 19th century, Mike Davis discloses the intimate, baleful relationship between imperial arrogance and natural incident that combined to produce some of the worst tragedies in human history. Late Victorian Holocausts focuses on three zones of drought and subsequent famine: India, Northern China; and Northeastern Brazil. All were affected by the same global climatic factors that caused massive crop failures, and all experienced brutal famines that decimated local populations. But the effects of drought were magnified in each case because of singularly destructive policies promulgated by different ruling elites. Davis argues that the seeds of underdevelopment in what later became known as the Third World were sown in this era of High Imperialism, as the price for capitalist modernization was paid in the currency of millions of peasants' lives.

Louise Brooks: Detective

Not before she gets herself in great danger will she emerge with the solution the police fail to grasp.

The Great Hunger

Ireland: 1845-1849

[Penguin Books](#) The Irish potato famine of the 1840s, perhaps the most appalling event of the Victorian era, killed over a million people and drove as many more to emigrate to America. It may not have been the result of deliberate government policy, yet British 'obtuse, short-sightedness and ignorance' - and stubborn commitment to laissez-faire 'solutions' - largely caused the disaster and prevented any serious efforts to relieve suffering. The continuing impact on Anglo-Irish relations was incalculable, the immediate human cost almost inconceivable. In this vivid and disturbing book Cecil Woodham-Smith provides the definitive account. 'A moving and terrible book. It combines great literary power with great learning. It explains much in modern Ireland - and in modern America' D.W. Brogan.

The Graphic

Road To Nuremberg

Years after the event, the Nuremberg trials remain the most important (and controversial) international legal assault ever launched against aggression and atrocities. Yet, until recently, the full story behind the decision to go to Nuremberg could not be told because the essential documentation was unavailable. Now, this book provides the first authoritative account of how the Allies finally agreed to try the surviving Nazi leaders under international law, rather than summarily shoot them without trial.

True Death of Billy the Kid

[NBM](#) One of the great folk legends of the Wild West, William H. Bonney went from cowboy and rancher's gunslinger to a pure outlaw, forever dodging justice in New Mexico before it was even a state. On the one hand, he was charming, fun-loving, often present at social events, quite appealing to the ladies. Also conversant in Spanish, "Billito" was popular with the Spanish speaking crowd. On the other hand, he had no compunction to coldly kill a man, a sheriff, a deputy—anyone who got in the way of his rustling cattle or horses for an illicit living. He also proved hard to keep in jail once he was caught. It is probably his daring escapes from jails that made him most famous, and this is the main subject of this biography, which traces his story up through his death by a gunshot in the pitch darkness, fired by

lawmen obsessed with getting rid of him.

The Psychosocial Implications of Disney Movies

MDPI In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

The Fatal Bullet

A True Account of the Assassination, Lingering Pain, Death, and Burial of James A. Garfield, Twentieth President of the United States; Also Including the Inglorious Life and Career of the Despised Assassin Guiteau

Nbm Publishing Company The Assassination of President Garfield Geary explores the first assassination of an American president by an obsessive-compulsive stalker, a deluded loser who thought his action would bring him national glory. Once again, beyond a mere presentation of facts, the author surreptitiously unpeels a bit of national American Psyche. Fourth in the popular Victorian Murder series.

Slavery and the British Country House

In 2007 English Heritage commissioned initial research into links with transatlantic slavery or its abolition amongst families who owned properties now in its care. This was part of the commitment by English Heritage to commemorate the bicentenary of the abolition of the British transatlantic slave trade with work that would make a real difference to our understanding of the historic environment in the longer term. The research findings and those of other scholars and heritage practitioners were presented at the 'Slavery and the British Country House' conference which brought together academics, heritage professionals, country house owners and community researchers from across Britain to explore how country houses might be reconsidered in the light of their slavery linkages and how such links have been and might be presented to visitors. Since then the conference papers have been updated and reworked into a cutting edge volume which represents the most current and comprehensive consideration of slavery and the British country house as yet undertaken.

The Terrible Axe-Man of New Orleans

Treasury of Xxth Century Murde Just after the First World War, the party atmosphere returns to the Big Easy, but someone looks to spoil it. Grocers are being murdered in the dead of night by someone grabbing their axe and hacking them to bits in their own cushy beds. The pattern for each murder is the same: a piece of the door is removed for entry; the axe is borrowed on the property; and the assailant aims straight for the head. Why? How could he fit through that piece in the door? Though the culprit is never revealed, speculations abound, which Geary presents here with his usual gusto.

The Report of the Hillsborough Independent Panel

The Stationery Office 96 women, men and children died as a result of the disaster in Hillsborough Stadium on 15 April 1989. They were crushed due to overcrowding in the Leppings Lane terrace, penned in by the ground's fencing. Hundreds more were injured and thousands traumatised. Lord Justice Taylor led a judicial inquiry (1990, Cm. 962, ISBN 9780101096225), concluding that the main cause of the disaster was the failure of police control. The next 11 years saw a variety of investigations and proceedings, including a scrutiny of new evidence (Lord Justice Stuart-Smith, 1998, Cm. 3878, ISBN 9780101387828). Yet many bereaved families felt that the true context, circumstances and aftermath had not been adequately made public, and were particularly aggrieved that it had become widely assumed that Liverpool fans' behaviour had contributed to the disaster. The Independent Panel was established in 2010 to oversee full public disclosure of all documents relating to the disaster and to report on its work. This report is in three parts. Firstly it shows what was already known and in the public domain by 2010. Secondly, in 12 detailed chapters, it describes what the disclosed documents add to public understanding. The third part gives a review of options for providing an archive of the documents. The disclosed documents (available at <http://panel.hillsborough.independent.gov.uk/>) add considerably to public understanding. They show that multiple factors were responsible for the tragedy and that the fans were not the cause. The report also shows that the bereaved families met a series of obstacles in their search for justice over more than 20 years.
