As the illness progresses, its victims fall into silence and are gripped by dark thoughts and urges. Meanwhile, the once-thriving cod fishery has been shut down and people find their nets full of bizarre creatures - the incarnations of legendary beasts and characters that existed in the village's tales for generations. One old-timer, Eileen Laracy, gradually makes the connection: the act of breathing is no longer automatic for the inhabitants of Bareneed - out of place and time, they have lost a fundamental part of their identity.

The New Science of a Lost Art

Penguin UK THE PHENOMENAL INTERNATIONAL BESTSELLER - OVER A MILLION COPIES SOLD WORLDWIDE SHORTLISTED FOR THE ROYAL SOCIETY BOOK PRIZE 'Who would have thought something as simple as changing the way we breathe could be so revolutionary for our health, from snoring to allergies to immunity? A fascinating book, full of dazzling revelations' Dr Rangan Chatterjee There is nothing more essential to our health and wellbeing than breathing: take air in, let it out, repeat 25,000 times a day. Yet, as a species, humans have lost the ability to breathe correctly, with grave consequences. In *Breath*, journalist James Nestor travels the world to discover the hidden science behind ancient breathing practices to figure out what went wrong and how to fix it. Modern research is showing us that making even slight adjustments to the way we inhale and exhale can: - jump-start athletic performance - rejuvenate internal organs - halt snoring, allergies, asthma and autoimmune disease, and even straighten scoliotic spines None of this should be possible, and yet it is. Drawing on thousands of years of ancient wisdom and cutting-edge studies in pulmonology, psychology, biochemistry and human physiology, *Breath* turns the conventional wisdom of what we thought we knew about our most basic biological function on its head. You will never breathe the same again.

Let Your Heart Beat Again (A Breath Without Life Novel - Book 1)

Janith Hooper After four months on the job, twenty-four-year-old Rebecca Harper has become something of a jack-of-all-trades on the Cooper Bar-6 Ranch...except for her cooking. But the four strapping sons who run the ranch in their father's absence need wise counsel more than unburnt bread, and Rebecca is perfect for the job. Whether dealing with the driven eldest, the belligerent youngest, or the personalities in between, she recognizes the source of each young man's pain is a lifetime of a father's indifference. As soon as the rogue returns, Rebecca aims to give "Mr. Cooper" a thick piece of her mind. Not that dishing out hard truth will make her feel any more alive. Past betrayal has taught her to live at arm's length from anyone who might mean too much to her. So she cooks and cleans and counsels, at once harboring anger against a man she has never met and numbing herself against the life she has forgotten to desire. Until one night, one thunder storm, and one heroic stranger changes it all. In that fleeting moment, Rebecca Harper dares to hope her heart will beat again.

What does this SNAP Summary Include? - Synopsis of the original book - Key takeaways from each chapter - How incorrect breathing alters our bodies and health - How we can open up our airways, increase our lung capacity, and live longer lives - Editorial Review - Background on James Nestor About the Original Book: The way we breathe, Nestor observes, has got markedly worse since our ancestors invented fire. So much so that nearly everyone alive today is breathing incorrectly. We breathe too shallow, too fast, and too much, often through our mouths instead of our noses, and sometimes not at all. These failures are behind many of the medical conditions endemic to modern life, including asthma, anxiety, insomnia, hypertension, and heart disease. Drawing from ancient tradition, scientific research, and his own experiences, Nestor explains the breathing habits and techniques that can halt or reverse many of these chronic illnesses, boost athletic performance, and extend our lifespans. Breath is proof that every inhale and every exhale, depending on how it is performed, can impact our bodies and health in positive or negative ways. e-artnow This carefully crafted ebook: "Greatest Mystery Novels of Wilkie Collins" is formatted for your eReader with a functional and detailed table of contents. The Woman in White is considered to be among the first mystery novels and is widely regarded as one of the first (and finest) in the genre of "sensation novels". The story is sometimes considered an early example of detective fiction with the hero, Walter Hartright, employing many of the sleuthing techniques of later private detectives. The Moonstone is an epistolary novel, generally considered the first detective novel in the English language. Besides creating many of the ground rules of the detective novel, The Moonstone also reflected Collins' enlightened social attitudes in his treatment of the servants in the novel. Armadale is a mystery novel and has a convoluted plot about two distant cousins both named Allan Armadale. The father of one had murdered the father of the other (the two fathers are also named Allan Armadale). The story starts with a deathbed confession by the murderer in the form of a letter to be given to his baby son when he grows up. No Name is a 19th-century novel revolving around the issue of illegitimacy. Wilkie Collins (1824-1889) was an English novelist, playwright, and author of short stories. His best-known works are The Woman in White, No Name, Armadale, and The Moonstone. Content: The Woman in White No Name Armadale The Moonstone The Haunted Hotel: A Mystery of Modern Venice The Law and The Lady The Dead Secret Miss or Mrs?

3 books to know Social Novel

Tacet Books Welcome to the [3 Books To Know](#) series, our idea is to help readers learn about fascinating topics through three essential and relevant books. These carefully selected works can be fiction, non-fiction, historical documents or even biographies. We will always select for you three great works to instigate your mind, this time the topic is: Social Novel: [Sybil](#) - Benjamin Disraeli [Les Misérables](#) - Victor Hugo [Germinal](#) - Émile Zola Social novel is a work of fiction in which a social problem is dramatized through its effect on the characters. Usually a social novel limits itself to exposure of a problem. A personal solution may be arrived at by the novel's characters, but the author does not insist that it can be applied universally or that it is the only one. Benjamin Disraeli's [Sybil](#) is one of the first social-problem novels.
