RESPONSIVE LITERACY COACHING

TOOLS FOR CREATING AND SUSTAINING PURPOSEFUL CHANGE

Stenhouse Publishers In *Responsive Literacy Coaching*, Cheryl Dozier draws on twenty-four years of experience as an elementary classroom teacher and teacher educator to present both a theoretical framework and practical tools to enact responsive literacy coaching. Through thoughtful and purposeful coaching, teachers learn effective ways to improve literacy instruction and student achievement. The range of tools offered in the text invite customization based on the reader's specific instructional context. This framework empowers literacy coaches and teachers through conversation, sustained engagement, and reflective analysis. Dozier argues that at its best, literacy coaching is responsive, collegial, thoughtful, thought-provoking, deliberate, reflective, and transferable. In this book she invites readers to enter into a coaching dialogue, through: vignettes that bring coaching interactions to life; prompts to engage both teachers and students; occasions for collaborative reflection; frequently-asked questions. As literacy tasks are documented and analyzed, coaching interactions logged and categorized, and assessment scores scrutinized, Dozier cautions coaches to avoid being so caught up in the doing of coaching that one forgets the purpose behind it. In this book she provides an occasion for them to step back, and ask, what is the goal of literacy coaching? What kind of literacy environments and experiences are we creating for our schools and our students? What is possible as we engage in transformative literacy practices? While the tools offered in this book do not provide a "quick fix," they foster critical thinking and sustained inquiry that leads to positive change for both teachers and students.

DIALOGUE AND DIFFERENCE IN A TEACHER EDUCATION PROGRAM

A 16-YEAR SOCIOCULTURAL STUDY OF A PROFESSIONAL DEVELOPMENT SCHOOL

IAP This book is a longitudinal study of a 10-year experimental teacher education program. Follow-up studies and writing continued for 6 years after the program closed. This case study describes a search for effective and socially just practices within a long-term reform initiative intended to prepare teachers for urban schools. The program was run through a Professional Development School--a collaboration between a university program and a diverse group of practicing teachers; and the book was written collaboratively by many of the participants—faculty, mentor teachers, doctoral students, and teacher candidates/graduates. There are few longitudinal studies of teacher education programs, especially ones that focus on what was learned and told by those who did the learning. The narratives here

are rich, diverse, and multivocal. They capture the complexity of a reform initiative conducted within a democratic context. It's difficult, messy and as varied as is democracy itself. The program was framed by a sociocultural perspective and the focus was on learning through difference. Dialogue across difference, which is more than just talk, was both the method for doing research and the means for learning. The program described here began in the ferment of teacher education reform in the early 1990s, responding to the critics of the mid-1980s; and this account of it is finished at a time when teacher education is again under attack from a different direction. Criticized earlier for being too progressive, teacher education is now seen as too conservative. The longitudinal results of this program show high retention rates and ground the argument that quality teacher preparation programs for teaching in urban schools may well be cost effective, as well as provide increased student learning. This is counter to the current move to shorten teacher preparation programs, at a time of low teacher retention in our under resourced urban schools. The book does not advocate a model for teacher education, but it aims to provide principles for practice that include school/university collaboration, democratic dialogue across differences, and inquiry as a way to guide reform.
