**The Seduction of Culture in German History** Princeton University Press During the Allied bombing of Germany, Hitler was more distressed by the loss of cultural treasures than by the leveling of homes. Remarkably, his propagandists broadcast this fact, convinced that it would reveal not

*his callousness but his sensitivity: the destruction had failed to crush his artist's spirit. It is impossible to begin to make sense of this thinking without understanding what Wolf Lepenies calls *The Seduction of Culture in German History*. This fascinating and unusual book tells the story of an arguably catastrophic German habit--that of valuing cultural achievement above all else and envisioning it as a noble substitute for politics. Lepenies examines how this tendency has affected German history from the late eighteenth century to today. He argues that the German preference for art over politics is essential to understanding the peculiar nature of Nazism, including its aesthetic appeal to many Germans (and others) and the fact that Hitler and many in his circle were failed artists and intellectuals who seem to have practiced their politics as a substitute form of art. In a series of historical, intellectual, literary, and artistic vignettes told in an essayistic style full of compelling aphorisms, this wide-ranging book pays special attention to Goethe and Thomas Mann, and also contains brilliant discussions of such diverse figures as Novalis, Walt Whitman, Leo Strauss, and Allan Bloom. *The Seduction of Culture in German History* is concerned not only with Germany, but with how the German obsession with culture, sense of cultural superiority, and scorn of politics have affected its relations with other countries, France and the United States in particular.*

Though the Bernhardt literature is vast, this is the first English-language biography to appear in decades, tracking the trajectory through which an illegitimate--and scandalous--daughter of a Jewish courtesan transformed herself into the most famous actress who ever lived, and into a national icon, a symbol of France.--From publisher description.* **Canadian Books in Print. Reprint. **The Firmament of Time** [A Library of America eBook Classic](#) [Library of America](#) A lyrical and meditative tour de force that traces the evolution of man and science, including the rise of scientific inquiry In *The Firmament of Time*—nominated for a National Book Award—Loren Eiseley offers a series of brilliant, provocative excursions through the history of science. A paleontologist with the soul and skill of a poet, he reflects on the many ways in which the quest for knowledge has been shaped by the changing cultures in which it emerged and developed. Examining the role of metaphor in scientific thought, anticipations of scientific discoveries in the works of poets and novelists, and the “unconscious conformity” of scientific theory to prevailing orthodoxies, he argues for the ongoing relevance of dreams, the imagination, and the irrational to scientific progress. **The Book Review Digest Annual cumulation Patriots and Tyrants** [NAL](#) Fierce rivalry within the Star League threaten to plunge the entire Inner Sphere into chaos as Victor Steiner-Davion and his sister, Katrina, embark on an epic power struggle, and their younger brother, Arthur, begins to gain his own supporters, until Katrina comes up with a scheme to destroy Arthur and strike back at Victor. In this brilliant collection, he considers the cosmological significance and ultimate meanings of our evolutionary history, offering a series of profound, lyrical meditations on the origins and possible futures of humankind against the backdrop of the Apollo landings. As Western civilization attains new heights of scientific awareness and technological skill, he asks, is it also blind to its own limits and destructive capacities? Always a fond observer of the natural world, Eiseley makes a newly urgent, environmentalist plea in *The Invisible Pyramid*: we must protect the fragile "world island" against our unchecked power to pollute and consume it. **All the Strange Hours The Excavation of a Life** *U of Nebraska Press* A native of Lincoln, Nebraska, Loren Eiseley began his lifelong exploration of nature in the salt flats and ponds around his hometown and in the mammoth bone collection hoarded in the old red brick museum at the University of Nebraska, where he conducted his studies in anthropology. It was in pursuit of this interest, and in the expression of his natural curiosity and wonder, that Eiseley sprang to national fame with the publication of such works as *The Immense Journey* and *The Firmament of Time*. In *All the Strange Hours*, Eiseley turns his considerable powers of reflection and discovery on his own life to weave a compelling story, related with the modesty, grace, and keen eye for a telling anecdote that distinguish his work. His story begins with his childhood experiences as a sickly afterthought, weighed down by the loveless union of his parents. From there he traces the odyssey that led to his search for early postglacial man?and into inspiring philosophical territory?culminating in his uneasy achievement of world renown. Eiseley crafts an absorbing self-portrait of a man who has thought deeply about his place in society as well as humanity's place in the natural world.
