HPCR PRACTITIONER'S HANDBOOK ON MONITORING, REPORTING, AND FACT-FINDING

INVESTIGATING INTERNATIONAL LAW VIOLATIONS

Cambridge University Press *This book offers a portrait of the practice of monitoring, reporting, and fact-finding in the domain of human rights, international humanitarian law, and international criminal law. By analyzing the experiences of fifteen missions implemented over the course of the past decade, the book illuminates the key issues that these missions face and offers a roadmap for practitioners working on future missions. This book is the result of a five-year research study led by the Program on Humanitarian Policy and Conflict Research at Harvard University, Massachusetts. Based on extensive interviews conducted with fact-finding practitioners, this book consists of two parts. Part I offers a handbook that details methodological considerations for the design and implementation of fact-finding missions and commissions of inquiry. Part II - which consists of chapters written by scholars and practitioners - presents a more in-depth, scholarly examination of past fact-finding practices.*

PLAQUE IMAGING, AN ISSUE OF NEUROIMAGING CLINICS OF NORTH AMERICA,

Elsevier Health Sciences *This issue of Neuroimaging Clinics of North America focuses on Plaque Imaging. Articles will include: 3D carotid plaque MR imaging, Analysis of multi-contrast carotid plaque MR imaging, Incorporating carotid plaque imaging into routine clinical carotid MRA, PET-CT imaging to assess future cardiovascular risk, Utility of combining PET and MR imaging of carotid plaque, 3D carotid plaque ultrasound, Contrast-enhanced carotid plaque ultrasound, Detection of vulnerable*

plaque in patients with “cryptogenic stroke, Measuring plaque burden in secondary prevention of asymptomatic patients with known carotid stenosis, Plaque imaging in primary prevention of cardiovascular disease, Plaque imaging to decide on optimal treatment: medical versus CEA versus CAS, Clinical perspective of carotid plaque imaging, and more!

CRISIS

ANU Press The year 2020 was marked by a series of rolling crises. The Australian wildfires at the start of the year were a catastrophic sign of the global climate crisis. Xi Jinping’s announcement in September that the People’s Republic of China would become carbon neutral by 2060 could help alleviate the crisis, but China has to fix its coal problem first. The big story was, of course, the global COVID-19 pandemic. Appearing to originate in a Wuhan wet market, by year’s end the pandemic had claimed nearly 2 million lives worldwide, put whole countries into lockdown, and sent economies around the world tumbling into recession. China itself successfully suppressed the disease at home and recorded positive economic growth for the year — proving, at least according to the Chinese Communist Party, the ‘superiority of the socialist system’. Not everyone was convinced, with persistent questions about the CCP’s initial cover up of the outbreak, and how the lack of transparency helped it become a pandemic in the first place. The China Story Yearbook 2020: Crisis surveys the multiple crises of the year of the Metal Rat, including the catastrophic mid-year floods that sparked fears about the stability of the Three Gorges Dam. It looks at how Chinese women fared through the pandemic, from the rise in domestic violence to portraits of female sacrifice on the medical front line to the trolling of a famous dancer for being childless. It also examines the downward-spiralling Sino-Australian relationship, the difficult ‘co-morbidities’ of China’s relations with the US, the end of ‘One Country, Two Systems’ in Hong Kong, the simmering border conflict with India, and the rise of pandemic-related anti-Chinese racism. The Yearbook also explores the responses to crisis of, among others, Daoists, Buddhists, and humourists — because when all else fails, there’s always philosophy, prayer, and laughter.

SCIENTIFIC AND TECHNICAL AEROSPACE REPORTS

CLINICAL GYNECOLOGY

Cambridge University Press Written with the busy practice in mind, this book delivers clinically focused, evidence-based gynecology guidance in a quick-reference format. It explores etiology, screening, tests, diagnosis, and treatment for a full range of gynecologic health issues. The coverage includes the full range of gynecologic malignancies, reproductive endocrinology and infertility, infectious diseases, urogynecologic problems, gynecologic concerns in children and adolescents, and surgical interventions including minimally invasive surgical procedures. Information is easy to find and absorb owing to the extensive use of full-color diagrams, algorithms, and illustrations. The new edition has been expanded to include aspects of gynecology important in international and resource-poor settings.

SAFE PRACTICE IN PHYSICAL EDUCATION

RESEARCH IN SYSTEMS ANALYSIS AND DESIGN: MODELS AND METHODS

4TH SIGSAND/PLAIS EUROSYPHOSEIUM 2011, GDAŃSK, POLAND, SEPTEMBER 29, 2011, REVISED SELECTED PAPERS

Springer This book constitutes the proceedings of the 4th EuroSymposium on Systems Analysis and Design, SIGSAND/PLAIS 2011, held in Gdańsk, Poland, in September 2011. The objective of this symposium is to promote and develop high-quality research on all issues related to systems analysis and design (SAND). It provides a forum for SAND researchers and practitioners in Europe and beyond to interact, collaborate, and develop their field. The 9 papers were carefully reviewed and selected from 20 submissions. An additional revision took place after the conference to incorporate discussion results from the presentation. The contributions are organized into topical sections on business process modeling, integrated systems development, and software development.

THE EUROPEAN UNION'S BROADER NEIGHBOURHOOD

CHALLENGES AND OPPORTUNITIES FOR COOPERATION BEYOND THE EUROPEAN NEIGHBOURHOOD POLICY

Routledge Over the past decade the European Union (EU) has gradually developed the European Neighbourhood Policy (ENP) with its neighbours. At the same time, the 'neighbours of the EU's neighbours' have presented new challenges. This book addresses the EU's broader neighbourhood, comprising of the ENP countries and the neighbours of its neighbours. With specific focus on Saharan Africa, the Middle East and Central Asia, it discusses trans-regional policy issues that arise from the EU's relations with regions beyond the ENP. Based on an interdisciplinary, policy-oriented approach, this volume explores major political, legal, security and socio-economic challenges and identifies opportunities for cooperation across the EU's broader neighbourhood. This book will be of interest to students, experts and scholars interested in EU affairs and politics, international relations, EU and international law, diplomacy and area studies.

THE YALE TEXTBOOK OF PUBLIC PSYCHIATRY

Oxford University Press Yale Textbook of Public Psychiatry is a comprehensive resource on treatment, rehabilitation, recovery, and public health of persons cared for in organized, publically funded systems of care. Edited and authored by experts in public psychiatry at the Yale Department of Psychiatry, this text provides up-to-date information on clinical work in the public sector. This book will be a useful reference for professionals and students of public psychiatry, administrators, and policy makers.

UNCERTAINTY QUANTIFICATION IN COMPUTATIONAL SCIENCE

THEORY AND APPLICATION IN FLUIDS AND STRUCTURAL MECHANICS

World Scientific During the last decade, research in Uncertainty Quantification (UC) has received a tremendous boost, in fluid engineering and coupled structural-fluids systems. New algorithms and adaptive variants have also emerged. This timely compendium overviews in detail the current state of the art of the field, including advances in structural engineering, along with the recent focus on fluids and coupled systems. Such a strong compilation of these vibrant research areas will certainly be an inspirational reference material for the scientific community.

INTELLIGENT HUMAN COMPUTER INTERACTION

8TH INTERNATIONAL CONFERENCE, IHCI 2016, PILANI, INDIA, DECEMBER 12-13, 2016, PROCEEDINGS

Springer This book constitutes the proceedings of the 8th International Conference on Intelligent Human Computer Interaction, IHCI 2016, held in Pilani, India, in December 2016. The 22 regular papers and 3 abstracts of invited talks included in this volume were carefully reviewed and selected from 115 initial submissions. They deal with intelligent interfaces; brain machine interaction; HCI applications and technology; and interface and systems.

TERRORISM AND HOMELAND SECURITY

THINKING STRATEGICALLY ABOUT POLICY

CRC Press Despite the fact that the Department of Homeland Security (DHS) has been active since November of 2002, the American homeland is still not secure from terrorist attack. What passes as DHS strategy is often just a list of objectives with vague references to the garnering of national resources, and the marshalling of support from other nations. Drawing on the expertise of several of the nation's leading researchers and policy experts, *Terrorism and Homeland Security: Thinking Strategically About Policy* provides policymakers with a much needed starting point for the creation of an effective coherent national security strategy. Its origins pre-dating 9-11, this volume grew out of an extensive project featuring the participation of various institutions including the Army War College. The primary goal: develop a strategy that optimizes security with minimal infringement on rights and liberties. After addressing points salient to a central strategy, the book then identifies the domestic and external elements that need to be addressed in building such a strategy. To this end, it examines the nature of terrorist threats, looks at challenges specific to various weapons of mass destruction, and then goes beyond terrorism to discuss safeguarding society and its infrastructure from natural disasters. In concluding, the editors present a number of preliminary suggestions. It is hoped that policymakers and others may take these suggestions into account when developing a comprehensive national security strategy.

TARGETED THERAPIES FOR SOLID TUMORS

A HANDBOOK FOR MOVING TOWARD NEW FRONTIERS IN CANCER TREATMENT

Humana Press This volume provides readers a comprehensive and state-of-the-art overview about the range of applications of targeted therapies for solid tumors. The sections of the book have been structured to review the oncogene addicted tumors, the pharmacology and clinical development of new molecularly targeted agents, the use of biomarkers as prognostic, predictive and surrogate endpoints, and the evaluation of tumor response and specific malignancies treated with targeted agents. The book also covers some of the newest developments in cancer therapy that are not adequately covered by any current available literature. Written by recognized experts in the field, *Targeted Therapies for Solid Tumors: A Handbook for Moving Toward New Frontiers in Cancer Treatment* provides a unique and valuable resource in the field of molecular oncology, both for those currently in training, and for those already in clinical or research practice.

PIER ADVANCED GENERATION ROADMAP

BACKGROUND PAPER : DRAFT CONSULTANT REPORT

ECONOMIC EVALUATION OF CANCER DRUGS

USING CLINICAL TRIAL AND REAL-WORLD DATA

CRC Press Cancer is a major healthcare burden across the world and impacts not only the people diagnosed with various cancers but also their families, carers, and healthcare systems. With advances in the diagnosis and treatment, more people are diagnosed early and receive treatments for a disease where few treatments options were previously available. As a result, the survival of patients with cancer has steadily improved and, in most cases, patients who are not cured may receive multiple lines of treatment, often with financial consequences for the patients, insurers and healthcare systems. Although many books exist that address economic evaluation, *Economic Evaluation of Cancer Drugs using Clinical Trial and Real World Data* is the first unified text that specifically addresses the economic evaluation of cancer drugs. The authors discuss how to perform cost-effectiveness analyses while emphasising the strategic importance of designing cost-effectiveness into cancer trials and building robust economic evaluation models that have a higher chance of reimbursement if truly cost-effective. They cover the use of real-world data using cancer registries and discuss how such data can support or complement clinical trials with limited follow up. Lessons learned from failed reimbursement attempts, factors predictive of successful reimbursement and the different payer requirements across major countries including US, Australia, Canada, UK, Germany, France and Italy are also discussed. The book includes many detailed practical examples, case studies and thought-provoking exercises for use in classroom and seminar discussions. Iftexhar Khan is a medical statistician and health economist and a lead statistician at

Oxford University's Center for Statistics in Medicine. Professor Khan is also a Senior Research Fellow in Health Economics at University of Warwick and is a Senior Statistical Assessor within the Licensing Division of the UK Medicine and Health Regulation Agency. Ralph Crott is a former professor in Pharmacoeconomics at the University of Montreal in Quebec, Canada and former head of the EORTC Health Economics Unit and former senior health economist at the Belgian HTA organization. Zahid Bashir has over twelve years experience working in the pharmaceutical industry in medical affairs and oncology drug development where he is involved in the design and execution of oncology clinical trials and development of reimbursement dossiers for HTA submission.

AWARENESS, TREATMENT, AND CONTROL OF HYPERTENSION OR DIABETES IN INDIA: THE IMPACT OF PUBLIC HEALTH PROMOTION

Frontiers Media SA

MDCT: A PRACTICAL APPROACH

Springer Science & Business Media This book describes current examination techniques and advanced clinical applications of state-of-the-art multidetector computed tomography (MDCT) scanners. There are contributions from several distinguished radiologists and clinicians. Each chapter is written from a practical perspective, so that radiologists, residents, medical physicists, and radiology technologists can obtain relevant information about MDCT applications.

GUCCIONE'S GERIATRIC PHYSICAL THERAPY E-BOOK

Elsevier Health Sciences Offering a comprehensive look at physical therapy science and practice, Guccione's Geriatric Physical Therapy, 4th Edition is a perfect resource for both students and practitioners alike. Year after year, this text is recommended as the primary preparatory resource for the Geriatric Physical Therapy Specialization exam. And this new fourth edition only gets better. Content is thoroughly revised to keep you up to date on the latest geriatric physical therapy protocols and conditions. Five new chapters are added to this edition to help you learn how to better manage common orthopedic, cardiopulmonary, and neurologic conditions; become familiar with functional outcomes and assessments; and better understand the psychosocial aspects of aging. In all, you can rely on Guccione's Geriatric Physical Therapy to help you effectively care for today's aging patient population. Comprehensive coverage of geriatric physical therapy prepares students and clinicians to provide thoughtful, evidence-based care for aging patients. Combination of foundational knowledge and clinically relevant information provides a meaningful background in how to effectively manage geriatric disorders Updated information reflects the most recent and relevant information on the Geriatric Clinical Specialty Exam. Standard APTA terminology prepares students for terms they will hear in practice. Expert authorship ensures all information is authoritative, current, and clinically accurate. **NEW!** Thoroughly revised and updated content across all chapters keeps students up to date with the latest geriatric physical therapy protocols and conditions. **NEW!** References located at the end of each chapter point students toward credible

external sources for further information. *NEW!* Treatment chapters guide students in managing common conditions in orthopedics, cardiopulmonary, and neurology. *NEW!* Chapter on functional outcomes and assessment lists relevant scores for the most frequently used tests. *NEW!* Chapter on psychosocial aspects of aging provides a well-rounded view of the social and mental conditions commonly affecting geriatric patients. *NEW!* Chapter on frailty covers a wide variety of interventions to optimize treatment. *NEW!* Enhanced eBook version is included with print purchase, allowing students to access all of the text, figures, and references from the book on a variety of devices.

FROM INNOVATION TO IMPLEMENTATION

EHEALTH IN THE WHO EUROPEAN REGION

World Health Organization "The principal authors were Carrie Beth Peterson (Consultant in eHealth and Innovation, WHO Regional Office for Europe), Clayton Hamilton (Editor-in-chief and Unit Leader, eHealth and Innovation in the Division of Information, Evidence, Research and Innovation, WHO Regional Office for Europe) and Per Hasvold (WHO Collaborating Centre for eHealth and Telemedicine at the Norwegian Centre for Integrated Care and Telemedicine, Troms, Norway)."--Page viii.

THE ROYAL MARSDEN MANUAL OF CLINICAL NURSING PROCEDURES

John Wiley & Sons *The Royal Marsden Manual of Clinical Nursing Procedures* has been the number one choice for nurses since it first published, over 30 years ago. One of the world's most popular books on clinical skills and procedures, it provides detailed procedure guidelines based on the latest research findings and expert clinical advice, enabling nurses and students to deliver clinically effective patient-focused care. The ninth edition of this essential, definitive guide, written especially for pre-registration nursing students, now includes a range of new learning features throughout each chapter that have been designed to support student nurses to support learning in clinical practice. Providing essential information on over 200 procedures, this manual contains all the skills and changes in practice that reflect modern acute nursing care.

EMERGING CHEMICAL RISKS IN THE WORK ENVIRONMENT

CRC Press Around the world, the production and use of nanomaterials, as well as carcinogenic, mutagenic, reprotoxic substances (CMR) and endocrine disruptors has systematically increased. The increase in production has exposed workers to hazardous substances in practically all branches of the world economy. Readers will have access to up-to-date and comprehensive knowledge on emerging risks related to nanomaterials, endocrine disruptors, reprotoxic, carcinogenic and mutagenic substances, which are related to the development of technologies and workplaces. The book will provide the tools for occupational risk assessment of chemical substances for which there are no safety levels of exposure as well as an indication of methods and measurements to protect human health and reduce chemical risks at the workplace. This book creates awareness for employers, employees and safety

experts about emerging risks related to chemical agents resulting in the reduction of cancer, reproductive system diseases, cases of abnormal child development, hormonal system disorders leading to abnormal metabolism, obesity, and diabetes. Features: Comprehensive information on emerging and newly identified chemical hazards Delivers the latest data on methods and tools for identification, assessing and reducing health risks Provides practical occupational safety advice and recommendations Real life examples from measurements carried out in the workplaces "The monograph, due to the high universality of its considerations, can be addressed to a very wide audience. It is an important compendium of knowledge, which can be used by health and safety services, employers, people designing new technologies and those interested in this issue. It is a valuable and up-to-date study, among others because it uses the latest literature and quotes current legal acts." —Sławomir Czerczak, Nofer Institute of Occupational Medicine, Poland

LIMITED ACHIEVEMENTS

OBAMA'S FOREIGN POLICY

Springer Through an analysis of the general principles of Obama's foreign policy, Laldi shows how Obama has charted a realist course in the Middle East, in Europe, in diplomacy, and in war.

PROCEEDINGS

THE STRATEGIC MANAGEMENT OF HIGHER EDUCATION INSTITUTIONS

SERVING STUDENTS AS CUSTOMERS FOR INSTITUTIONAL GROWTH

Business Expert Press If you are a professional interested in reorganizing or restructuring your higher education or postsecondary institutions, you'll need this book. Inside, the author smartly examines the needs of learners in the 21st century, the rise of for-profit higher education institutions, and the technological innovations impacting postsecondary education. Kazeroony provides examples of administrative processes and how to satisfy regulatory agencies standards to take advantage of a particular marketing niche for attracting students. He addresses the changing environment of higher education, the administrative structure, challenges, and the requirements for successful execution of start-up operations or changing strategies for existing institutions, as well as provides a summary of findings and additional recommendations.

NEW APPROACHES TO BREAST CANCER RADIOTHERAPY

Frontiers Media SA

PRINCIPLES OF INCIDENT RESPONSE AND DISASTER RECOVERY

Course Technology Ptr Are you ready to respond to an unauthorized intrusion to your computer network or server? Principles of Incident Response and Disaster Recovery presents methods to identify vulnerabilities and take appropriate countermeasures to prevent and mitigate failure risks for an organization. Not only does book present

a foundation in disaster recovery principles and planning, but it also emphasizes the importance of incident response minimizing prolonged downtime that can potentially lead to irreparable loss. This book is the first of its kind to address the overall problem of contingency planning rather than focusing on specific tasks of incident response or disaster recovery.

SAFE WORKING AND THE PREVENTION OF INFECTION IN CLINICAL LABORATORIES AND SIMILAR FACILITIES

This guidance provides health and safety information for all those involved in work in clinical pathology laboratories. It is relevant to work in hospitals and other facilities where people may be exposed to biological agents and diagnostic work in patient care areas. The guidance is intended to help employers, managers and employees identify and assess the risks of infection, take appropriate precautions to eliminate or control such risks, prepare standard operating procedures and ensure that everyone is aware of the risks and what to do about them.

THE MATHEMATICS OF DIFFUSION

Oxford University Press Though it incorporates much new material, this new edition preserves the general character of the book in providing a collection of solutions of the equations of diffusion and describing how these solutions may be obtained.

FEDERAL HIGHWAY ADMINISTRATION FINDING OF NO SIGNIFICANT IMPACTS AND PROGRAMMATIC SECTION 4(F) EVALUATION FOR BROADWAY VIADUCT IMPROVEMENTS COUNCIL BLUFFS, IOWA, POTTAWATTAMIE COUNTY, IOWA DOT PROJECT NUMBER: NHSX-6-1(109)-3H-78

The purpose of this project is to maintain a safe and efficient flow of traffic over the Broadway Viaduct by providing a facility that meets Iowa DOT's current design standards for a principal arterial highway. The Broadway Viaduct is part of U.S. 6 connecting Council Bluffs, Iowa, and Omaha, Nebraska, and needs to be replaced to maintain the connectivity between the two cities. The project is located within the City of Council Bluffs in Pottawattamie County, Iowa. This Environmental Assessment evaluates alternatives for improvements to the existing viaduct and replacing the viaduct, with viaduct replacement identified as the preferred alternative.

INTERPERSONAL RELATIONSHIPS IN EDUCATION: FROM THEORY TO PRACTICE

Springer This book brings together recent research on interpersonal relationships in education from a variety of perspectives including research from Europe, North America and Australia. The work clearly demonstrates that positive teacher-student relationships can contribute to student learning in classrooms of various types. Productive learning environments are characterized by supportive and warm interactions throughout the class: teacher-student and student-student. Similarly, at the school level, teacher learning thrives when there are positive and mentoring

interrelationships among professional colleagues. Work on this book began with a series of formative presentations at the second International Conference on Interpersonal Relationships in Education (ICIRE 2012) held in Vancouver, Canada, an event that included among others, keynote addresses by David Berliner, Andrew Martin and Mieke Brekelmans. Further collaboration and peer review by the editorial team resulted in the collection of original research that this book comprises. The volume (while eclectic) demonstrates how constructive learning environment relationships can be developed and sustained in a variety of settings. Chapter contributions come from a range of fields including educational and social psychology, teacher and school effectiveness research, communication and language studies, and a variety of related fields. Together, they cover the important influence of the relationships of teachers with individual students, relationships among peers, and the relationships between teachers and their professional colleagues.

MANUAL HANDLING

MANUAL HANDLING OPERATIONS REGULATIONS 1992 (AS AMENDED)

Offers guidance on the Manual Handling Operations Regulations 1992 as amended by the Health and Safety (Miscellaneous Amendments) Regulations 2002 ('the Regulations').

PRIORITIZING ACADEMIC PROGRAMS AND SERVICES

REALLOCATING RESOURCES TO ACHIEVE STRATEGIC BALANCE, REVISED AND UPDATED

PACKET GUIDE TO ROUTING AND SWITCHING

EXPLORING THE NETWORK LAYER

"O'Reilly Media, Inc." Go beyond layer 2 broadcast domains with this in-depth tour of advanced link and internetwork layer protocols, and learn how they enable you to expand to larger topologies. An ideal follow-up to Packet Guide to Core Network Protocols, this concise guide dissects several of these protocols to explain their

structure and operation. This isn't a book on packet theory. Author Bruce Hartpence built topologies in a lab as he wrote this guide, and each chapter includes several packet captures. You'll learn about protocol classification, static vs. dynamic topologies, and reasons for installing a particular route. This guide covers: Host routing—Process a routing table and learn how traffic starts out across a network Static routing—Build router routing tables and understand how forwarding decisions are made and processed Spanning Tree Protocol—Learn how this protocol is an integral part of every network containing switches Virtual Local Area Networks—Use VLANs to address the limitations of layer 2 networks Trunking—Get an indepth look at VLAN tagging and the 802.1Q protocol Routing Information Protocol—Understand how this distance vector protocol works in small, modern communication networks Open Shortest Path First—Discover why convergence times of OSPF and other link state protocols are improved over distance vectors

CONSTRUCTION INNOVATION

John Wiley & Sons

JULIUS CAESAR

Standard Ebooks After defeating enemies in battle, Roman citizens celebrate in the streets as Julius Caesar and his entourage make their way through the city. As Caesar passes a soothsayer, he receives an ominous warning: "Beware the ides of March," which he immediately disregards. Meanwhile, some of his closest followers are convinced their leader has become too powerful and plot his removal. Plutarch's *Lives of the Noble Grecians and Romans* was Shakespeare's primary source for Julius Caesar. This Standard Ebooks edition is based on William George Clark and William Aldis Wright's 1887 Victoria edition, which is taken from the Globe edition. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

TWELFTH NIGHT, OR, WHAT YOU WILL

Oxford University Press *Twelfth Night* is one of the most popular of Shakespeare's plays in performance, and this edition emphasizes its theatrical qualities in both the introduction and the full and detailed commentary.

PRISON BREAK

WHY CONSERVATIVES TURNED AGAINST MASS INCARCERATION

Oxford University Press American conservatism rose hand-in-hand with the growth of mass incarceration. For decades, conservatives deployed "tough on crime" rhetoric to attack liberals as out-of-touch elitists who coddled criminals while the nation spiraled toward disorder. As a result, conservatives have been the motive force in building our vast prison system. Indeed, expanding the number of Americans under lock and key was long a point of pride for politicians on the right - even as the U.S. prison population eclipsed international records. Over the last few years,

conservatives in Washington, D.C. and in bright-red states like Georgia and Texas, have reversed course, and are now leading the charge to curb prison growth. In *Prison Break*, David Dagan and Steve Teles explain how this striking turn of events occurred, how it will affect mass incarceration, and what it teaches us about achieving policy breakthroughs in our polarized age. Combining insights from law, sociology, and political science, Teles and Dagan will offer the first comprehensive account of this major political shift. In a challenge to the conventional wisdom, they argue that the fiscal pressures brought on by recession are only a small part of the explanation for the conservatives' shift, over-shadowed by Republicans' increasing anti-statism, the waning efficacy of "tough on crime" politics and the increasing engagement of evangelicals. These forces set the stage for a small cadre of conservative leaders to reframe criminal justice in terms of redeeming wayward souls and rolling back government. These developments have created the potential to significantly reduce mass incarceration, but only if reformers on both the right and the left play their cards right. As Dagan and Teles stress, there is also a broader lesson in this story about the conditions for cross-party cooperation in our polarized age. Partisan identity, they argue, generally precedes position-taking, and policy breakthroughs are unlikely to come by "reaching across the aisle," promoting "compromise," or appealing to "expert opinion." Instead, change happens when political movements redefine their own orthodoxies for their own reasons. As Dagan and Teles show, outsiders can assist in this process - and they played a crucial role in the case of criminal justice - but they cannot manufacture it. This book will not only reshape our understanding of conservatism and American penal policy, but also force us to reconsider the drivers of policy innovation in the context of American politics.

MANAGING SHIFT WORK

HEALTH AND SAFETY GUIDANCE

Explains employers' legal duties to assess risks associated with shift work. This book aims to improve understanding of shift work and its impact on health and safety. It is suitable for employers, safety representatives, trade union officials, employees, regulators and other stakeholders.
