## The Knife Man

Random House WINNER OF THE MEDICAL JOURNALISTS' OPEN BOOK AWARD 2005 Revered and feared in equal measure, John Hunter was the most famous surgeon of eighteenth-century London. Rich or poor, aristocrat or human freak, suffering Georgians knew that Hunter's skills might well save their lives but if he failed, their corpses could end up on his dissecting table, their bones and organs destined for display in his remarkable, macabre museum. Maverick medical pioneer, adored teacher, brilliant naturalist, Hunter was a key figure of the Enlightenment who transformed surgery, advanced biological understanding and even anticipated the evolutionary theories of Darwin. He provided inspiration both for Dr Jekyll and Dr Dolittle. But the extremes to which he went to pursue his scientific mission raised question marks then as now. John Hunter's extraordinary world comes to life in this remarkable, award-winning biography written by a wonderful new talent.

## The Psychosocial Implications of Disney Movies

MDPI In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

## Justice beyond 'Just Us'

## Dilemmas of Time, Place, and Difference in American Politics

Ashgate Publishing, Ltd. Notions of justice and community in the United States are increasingly challenged by trends like immigration, multiculturalism, and economic inequality as well as historical legacies like Jim Crow-era racial segregation. These dynamics continually re-shape the communities in which people live, whether by generating new forms of interdependency and inequality, creating new social cleavages or exacerbating existing ones, or generating new spaces in which cross-boundary contact, conflict, or cooperation is possible. Revealing the ways in which notions of justice and community overlap in American politics and public discourse through concrete political questions which emerge when considering dimensions of time, place, and difference, Gregory W. Streich offers a fresh re-examination of the normative ideas of justice and community. He encourages Americans to move from a view of justice that applies only to people who are "like us" to a view of justice that applies to people beyond "just us."

## A Hero on Mount St. Helens

## The Life and Legacy of David A. Johnston

University of Illinois Press Serendipity placed David Johnston on Mount St. Helens when the volcano rumbled to life in March 1980. Those warnings saved thousands of lives when the most devastating eruption in U.S. history blew apart Mount St. Helens, but killed Johnston on the ridge that now bears his name. Melanie Holmes tells the story of Johnston's journey from a nature-loving Boy Scout to a committed geologist. Blending science with personal detail, Holmes follows Johnston through encounters with Aleutian volcanoes, his work helping the Portuguese government assess the geothermal power of the Azores, and his dream job as a volcanologist with the U.S. Geological Survey. Interviews and personal writings reveal what a friend called "the most unjaded person I ever met," an imperfect but kind, intelligent young scientist passionately in love with his life and work and determined to make a difference.

## The Sumerians

## Their History, Culture, and Character

[University of Chicago Press](#) The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. "There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a

most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation."—American Journal of Archaeology "An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity."—Library Journal

## Where Do You Go Alone

Independently Published Look again at that dot. That's here. That's home. That's us. On it everyone you love, everyone you know, everyone you ever heard of, every human being who ever was, lived out their lives. The aggregate of our joy and suffering, thousands of confident religions, ideologies, and economic doctrines, every hunter and forager, every hero and coward, every creator and destroyer of civilization, every king and peasant, every young couple in love, every mother and father, hopeful child, inventor and explorer, every teacher of morals, every corrupt politician, every "superstar," every "supreme leader," every saint and sinner in the history of our species lived there - on a mote of dust suspended in a sunbeam. - Carl Sagan, "Pale Blue Dot" In 1977, Voyager I was sent into interstellar space on a mission to reach a star 17.6 light-years from Earth. Included on the spacecraft was the Golden Record, or planet Earth's musical "message in a bottle", consisting of sounds and images selected to represent the life and diversity of our planet. The music chosen to be on this interstellar mixtape was handpicked by Carl Sagan and includes the likes of Guan Pinghu, Louis Armstrong, and Blind Willie Johnson. When I first listened to this record, one particular song which stood out for me among the rest was written by a singer from a remote hilly village in the heart of Goa known as Kesarbai Kerkar - a woman whose legacy on Earth has literally "crumbled to dust", while her voice still lives on far away among the stars. Kesarbai's raga, "Jaat kahan ho, akeli gori" was launched into space the same year she died. A billion years from now, when the Earth is nothing but dust, her voice will serve as a reminder among the debris: The universe wastes nothing. What is lost is never truly gone, it is taken back. What we create now will live beyond our own years. This grief is only temporary. Divided into five chapters named after the different full moons, this book is meant to represent the cycles within each one of us. Given the chance to do it all again, relive all the love, grief, joy and heartache of being alive--would you take it? Eventually, we will all be embedded among the stars. This is my "message in a bottle" to the universe. -- pavana reddy pavanareddy.com
