Open Data White Paper

Unleashing the Potential

The Stationery Office This White Paper sets out clearly how the UK will continue to unlock and seize the benefits of data sharing in the future in a responsible way. Firstly by ensuring equality in access to data; secondly in building greater trust in public data; and thirdly by ensuring that public services are more personalised and efficient by being smarter with the data public bodies hold. The UK is currently co-chairing the Open Government Partnership of 55 governments whose theme is 'Transparency drives prosperity' with the belief that opening up data will empower citizens, foster innovation and reform public services. It is also, therefore, about how others

participate. About businesses and organisations becoming more transparent themselves and pushing data into the public domain and individuals taking that data and using it to make better decisions or press for different types of services.

Addressing Adversity

Prioritising adversity and trauma-informed care for children and young people in England.

YoungMinds / Health Education England / Human-Experience / An edited collection of papers published by YoungMinds and funded by Health Education England. With 1 in 3 adult mental health conditions related directly to adverse childhood experiences, it is vital that we understand the impact that adversity and trauma can have on the mental health and wellbeing of young people, and how we can strengthen resilience and support recovery. Addressing Adversity presents evidence, insight, direction and case studies for commissioners, providers and practitioners in order to stimulate further growth in adversity and trauma-informed care, and spark innovation and good practice across England. Section 1: Understanding adversity, trauma and resilience includes evidence and analysis of the impact that adverse childhood experiences and trauma have on children and young people's mental health and wider outcomes across the lifecourse. Section 2: Addressing childhood adversity and trauma includes insights from the NHS in England, organisations and clinicians working with children and young people who have experienced forms of adversity and trauma. Section 3: Emerging good practice includes insight, case studies and working examples of adversity and trauma-informed service models being developed across England. The collection ends with an agenda for change, calling on all Directors of Public Health, commissioners and providers to make adversity and trauma-informed care a priority in their locality.

The Complete Indian Housekeeper and Cook

OUP Oxford 'an Indian household can no more be governed peacefully, without dignity and prestige, than an Indian Empire' In *The Complete Indian Housekeeper and Cook* (1888) Flora Annie Steel and her co-author Grace Gardiner provide practical, and often highly opinionated, advice to young memsahibs in India. They explain how to 'make a hold' over servants, how to establish and stock a storeroom, how to plan a menu, manage young children, treat bites from 'mad, or even doubtful dogs', and teach an Indian cook how to make fish quenelles. *The Complete Indian Housekeeper and Cook* promised its reader a comprehensive guide to domesticity in India, even if she found herself living in camps or in the jungle, on the hills or in the plains, whether she was the wife of an influential Indian Civil Servant or a missionary. This new edition, complete with its stimulating introduction and substantial notes, makes available a classic domestic work that in detailing the memsahib's role in the household sheds light on the entire imperial experience. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Written by experts in the field, *Quality Management and Accreditation in Hematopoietic Stem Cell Transplantation and Cellular Therapy: A Practical Guide* is a valuable resource for physicians, healthcare professionals, and laboratory staff involved in the creation and maintenance of a state-of-the-art HSCT and cellular therapy program.

The Financial Crisis Inquiry Report

The Final Report of the National Commission on the

Causes of the Financial and Economic Crisis in the United States Including Dissenting Views

Cosimo, Inc. The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film In Debt We Trust warned of the economic meltdown in 2006. He has since written three books on the subject including Plunder: Investigating Our Economic Calamity (Cosimo Books, 2008), and The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail (Disinfo Books, 2011), a companion to his latest film Plunder The Crime Of Our Time. Domestic Workers Across the World

Global and Regional Statistics and the Extent of Legal Protection

International Labour Organisation This publication sheds light on the magnitude of domestic work, a sector often "invisible" behind the doors of private households and unprotected by national legislation. The adoption of new international labour standards on domestic work (Convention No. 189 and its accompanying Recommendation No. 201) by the ILO at its 100th International Labour Conference in June 2011 represents a key milestone on the path to the realisation of decent work for domestic workers. This volume presents national statistics and new global and regional estimates on the number of domestic workers. It shows that domestic workers represent a significant share of the labour force worldwide and that domestic work is an important source of wage employment for women, especially in Latin America and Asia. It also examines the extent of inclusion or exclusion of domestic workers from key working conditions laws. In particular, it analyses how many domestic workers are covered by working time provisions, minimum wage legislation and maternity protection. The results demonstrate that under current national laws, substantial gaps in protection still remain. The volume concludes with a summary of the main findings and a reflection on the relevance of the newly adopted international standards to extend legal protection to domestic workers.

Report of the Mid Staffordshire NHS Foundation Trust Public Inquiry

Executive Summary

The Stationery Office This public inquiry report into serious failings in healthcare that took place at the Mid Staffordshire NHS Foundation Trust builds on the first independent report published in February 2010 (ISBN 9780102964394). It further examines the suffering of patients caused by failures by the Trust: there was a failure to listen to its patients and staff or ensure correction of

deficiencies. There was also a failure to tackle the insidious negative culture involving poor standards and a disengagement from managerial and leadership responsibilities. These failures are in part a consequence of allowing a focus on reaching national access targets, achieving financial balance and seeking foundation trust status at the cost of delivering acceptable care standards. Further, the checks and balances that operate within the NHS system should have prevented the serious systemic failure that developed at Mid Staffs. The system failed in its primary duty to protect patients and maintain confidence in the healthcare system. This report identifies numerous warning signs that could and should have alerted the system to problems developing at the Trust. It also sets out 290 recommendations grouped around: (i) putting the patient first; (ii) developing a set of fundamental standards, easily understood and accepted by patients; (iii) providing professionally endorsed and evidence-based means of compliance of standards that are understood and adopted by staff; (iv) ensuring openness, transparency and candour throughout system; (v) policing of these standards by the healthcare regulator; (vi) making all those who provide care for patients, properly accountable; (vii) enhancing recruitment, education, training and support of all key contributors to the provision of healthcare; (viii) developing and sharing ever improving means of measuring and understanding the performance of individual professionals, teams, units and provider organisations for the patients, the public, and other stakeholders.

Improving Compliance with Safety Procedures

Reducing Industrial Violations

Deliberate breaches, or violations, of safety rules and procedures are a significant cause of many industrial accidents. They can also cause production, quality and maintenance problems. This report outlines practical strategies for reducing the potential for industrial violations. It shows managers how to identify violations by selecting rule sets that have the greatest risk for safety if they are not followed. Management can develop detailed action plans to suit their specific problems on the basis of suggestions offered in the report.

Home Blood Pressure Monitoring

Springer Nature Hypertension remains a leading cause of disability and death worldwide. Self-monitoring of blood pressure by patients at home is currently recommended as a valuable tool for the diagnosis and management of hypertension. Unfortunately, in clinical practice, home blood pressure monitoring is often inadequately implemented, mostly due to the use of inaccurate devices and inappropriate methodologies. Thus, the potential of the method to improve the management of hypertension and cardiovascular disease prevention has not yet been exhausted. This volume presents the available evidence on home blood pressure monitoring, discusses its strengths and limitations, and presents strategies for its optimal implementation in clinical practice. Written by distinguished international experts, it offers a complete source of information and guide for practitioners and researchers dealing with the management of hypertension.

Transforming the Workforce for Children Birth Through Age 8

A Unifying Foundation

National Academies Press Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Procurement of Works

World Bank Publications These Standard Prequalification Documents serve as a guide for those wanting to prequalify to bid on large contracts for projects financed by the World Bank. Qualifying as a bidder is separate from the bid evaluation process. Before invitations to bid on large or especially complex works projects are issued, a process of prequalification is required to select competent bidders. This document helps bidders through the prequalification process. To simplify presentation by applicants for prequalification, standard forms have been prepared for the submission of relevant information. Guidance notes and examples are provided for the implementing agency making the evaluation. Annexes give information about prequalification that are likely to be of interest to potential bidders on World Bank projects. NOTE: This replaces Standard Prequalification Document: Procurement of Works (September 1999), Stock no. 14601 (ISBN 0-8213-4601-6).

Health in Prisons

A WHO Guide to the Essentials in Prison Health

WHO Regional Office Europe Based on the experience of many countries in the WHO European Region and the advice of experts, this guide outlines some of the steps prison systems should take to reduce the public health risks from compulsory detention in often unhealthy situations, to care for prisoners in need and to promote the health of prisoners and prison staff. This requires that everyone working in prisons understand how imprisonment affects health, what prisoners' health needs are, and how evidence-based health services can be provided for everyone needing treatment, care and prevention in prison. Other essential elements are being aware of and accepting internationally recommended standards for prison health; providing professional care with the same adherence to professional ethics as in other health services; and, while seeing individual needs as the central feature of the care provided, promoting a whole-prison approach to care and promoting the health and well-being of people in custody.

Maternity and Paternity at Work

Law and Practice Across the World

This report provides a picture of where we stand and what we have learned so far about maternity and paternity rights across the world. It offers a rich international comparative analysis of law and practice relating to maternity protection at work in 185 countries and territories, comprising leave, cash benefits, employment protection and non-discrimination, health protection, breastfeeding arrangements at work and childcare. Expanding on previous editions, it is based on an extensive set of new legal and statistical indicators, including coverage in law and in practice of paid maternity leave as well as statutory provision of paternity and parental leave and their evolution over the last 20 years. The report also takes account of the recent economic crisis and austerity measures. It shows how well national laws and practice conform to the ILO Maternity Protection Convention, 2000 (No. 183), its accompanying Recommendation (No. 191) and the Workers with Family Responsibilities Convention, 1981 (No. 156), and offers guidance on policy design and implementation. This report shows that a majority of countries have established legislation to protect and support maternity and paternity at work, even if those provisions do not always meet the ILO standards. One of the persistent challenges is the effective implementation of legislation, to ensure that all workers are able to benefit from these essential labour rights.

Essence of Care 2010

Benchmarks for the Fundamental Aspects of Care; [Complete]

Stationery Office/Tso Essence of Care was first introduced in 2001, designed to support and address the fundamentals of care. Essence of Care 2010 is a tool to help healthcare professionals take a patient-focused and structured approach to sharing and comparing practice, which is at the heart of the 12 revised benchmarks contained in the publication. The updated Essence of Care 2010 supports and reflects a number of the themes in "Equity and excellence: liberating the NHS" (Cm. 7881, ISBN 9780101788120) and provides a suite of benchmarks to drive forward best practice in delivering the fundamentals of care and improving the experiences of people who use the services. Essence of care is essential for all front line staff in health and social care settings. This title is a complete set of all 12 benchmarks along with "How to use Essence of care 2010", which includes a description of the benchmarking tool and explains how to use the 12 benchmarks. The benchmarks and "How to use" are all available separately

Effective Protection for Domestic Workers

A Guide to Designing Labour Laws

International Labour Organisation This guide is a practical tool for those involved in national legislative processes and in the design of labour laws, including government officials and representatives of workers' and employers' organisations. At the 100th International

Labour Conference in June 2011, the ILO adopted Convention No. 189 and Recommendation No. 201 on decent work for domestic workers. Because domestic workers are often excluded from the protection of labour laws or are treated less favourably than other wage workers, implementing the basic principles embodied in Convention No. 189 calls for an assessment and strengthening of national labour laws. With the Convention No. 189 as its underlying framework, this volume provides specific guidelines and complements these with examples drawn from a wide range of existing national labour laws concerning domestic workers. The guide's first part discusses alternative approaches to regulating domestic work, the nature and characteristics of domestic work, the forms of employment relationships that may exist, and their implications for regulation. Subsequent chapters focus on substantive areas of regulation, namely formalizing the employment relationship, working time, remuneration, fundamental principles and rights at work, protection from abuse and harassment, and protection of migrant domestic workers and child domestic workers.

A Quick Reference Guide for Health Workers

These guidelines provide recommendations that outline the critical aspects of infection prevention and control. The recommendations were developed using the best available evidence and consensus methods by the Infection Control Steering Committee. They have been prioritised as key areas to prevent and control infection in a healthcare facility. It is recognised that the level of risk may differ according to the different types of facility and therefore some recommendations should be justified by risk assessment. When implementing these recommendations all healthcare facilities need to consider the risk of transmission of infection and implement according to their specific setting and circumstances.

Dark Night of the Soul

Xlibris Corporation It is precisely 3:00 a.m. Detective Toni Rome's cell chirps, waking her from a recurring nightmare. "I've been bad again, Detective," the voice on the other end tells her. It is the voice of the Rosary Reaper, christened so by Toronto's media and members of the force. At each crime scene, a black rosary is found around the throats of his victims. It is the fourth call she has received in the past month, and as always, a brutalized body waits to be discovered. No trace and no clues other than the early hour whispers and the bloody taunts Catch me, carved into the victim's torsos. With a grandmother deep in the clutches of dementia to care for and a reawakened passion for the man who has just moved in next door, Toni and her partner Detective Sid Tillman find themselves pitted against a ruthless killer. A mind gone wrong. A vendetta long overdue. * You, my darlings, are my confidants, my audience, spying while I exact my vengeance. Together we will wait in the woods, scheming, planning. Our hands are treacherous, glorious, guilty weapons. And so the vine ripens. Each of its sacrosanct thorns exacting another prick of blood owed. I am a master of disguise. I am wealthy beyond your imagination. I am thirty-four and will not celebrate my thirty-fifth birthday. My name is Nathan. I am a killer.
