The perfect gift, this book will have you clapping for Tinker Bell and more.

The Psychosocial Implications of Disney Movies

MDPI In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

I Am Dumbo (Disney Classic)

Golden/Disney This new Little Golden Book is all about the flying elephant from Disney's Dumbo! This new Little Golden Book celebrates everything that is special about Dumbo, the lovable big-eared elephant from the beloved Disney movie Dumbo. Pinocchio, the Tale of a Puppet

Pinocchio, The Tale of a Puppet follows the adventures of a talking wooden puppet whose nose grew longer whenever he told a lie and who wanted more than anything else to become a real boy.As carpenter Master Antonio begins to carve a block of pinewood into a leg for his table the log shouts out, "Don't strike me too hard!" Frightened by the talking log, Master Cherry does not know what to do until his neighbor Geppetto drops by looking for a piece of wood to build a marionette. Antonio gives the block to Geppetto. And thus begins the life of Pinocchio, the puppet that turns into a boy.Pinocchio, The Tale of a Puppet is a novel for children by Carlo Collodi is about the mischievous adventures of Pinocchio, an animated marionette, and his poor father and woodcarver Geppetto. It is considered a classic of children's literature and has spawned many derivative works of art. But this is not the story we've seen in film but the original version full of harrowing adventures faced by Pinocchio. It includes 40 illustrations.

Little Golden Books enjoy nearly 100% consumer recognition. They feature beloved classics, hot licenses, and new original stories . . . the classics of tomorrow.

The Idea of Nature in Disney Animation

From Snow White to WALL-E

Routledge In the second edition of *The Idea of Nature in Disney Animation*, David Whitley updates his 2008 book to reflect recent developments in Disney and Disney-Pixar animation such as the apocalyptic tale of earth's failed ecosystem, WALL-E. As Whitley has shown, and Disney's newest films continue to demonstrate, the messages animated films convey about the natural world are of crucial importance to their child viewers. Beginning with *Snow White*, Whitley examines a wide range of Disney's feature animations, in which images of wild nature are central to the narrative. He challenges the notion that the sentimentality of the Disney aesthetic, an oft-criticized aspect of such films as *Bambi*, *The Jungle Book*, *Pocahontas*, *Beauty and the Beast*, and *Finding Nemo*, necessarily prevents audiences from developing a critical awareness of contested environmental issues. On the contrary, even as the films communicate the central ideologies of the times in which they were produced, they also express the ambiguities and tensions that underlie these dominant values. In distinguishing among the effects produced by each film and revealing the diverse ways in which images of nature are mediated, Whitley urges us towards a more complex interpretation of the classic Disney canon and makes an important contribution to our understanding of the role popular art plays in shaping the emotions and ideas that are central to contemporary experience.

Merida Is Our Babysitter (Disney Princess)

Golden/Disney A Disney Princess makes the best babysitter! Children ages 2 to 5 will love this Little Golden Book, which tells a funny story about Princess Merida looking after her rambunctious triplet brothers!

Walt Disneys the Jungle Book

Fast Kart, Slow Kart

RH/Disney Using examples of opposites from the film, highlights differences between Ralph and Felix and shows how Vanellpe is able to win her kart race despite her small size and changing speeds.

The Art of the Disney Golden Books

Disney Editions Walt Disney once wisely said, "There is more treasure in books than in all pirates' loot on Treasure Island and at the bottom of the Spanish Main . . . and best of all, you can enjoy these riches every day of your life." No doubt Walt was referring to the intangible wealth of opportunities for learning and imagining inherent in the act of reading, but when one considers the vibrant art and gilded spines of the Disney Golden Books, Walt's pronouncement takes on a parallel meaning. For perhaps no other children's books are as cherished and collected-as though they were doubloons and jewels-than the Disney Golden Books. The history of these books began in 1933, when the president of Whitman Publishing wrote a letter to Walt Disney. Whitman had already published compilations of the "Dick Tracy" and "Little Orphan Annie" comic strips, and these Big Little Books had met with great success. The publisher proposed a similar collection of the "Mickey Mouse" comic strips, and offered a royalty of one-half percent per book. Walt agreed, and a new era in Disney publishing commenced. A remarkable lineup of talent, many of whom were Disney Studio artists- including Mary Blair, Alice and Martin Provinsen, Gustaf Tenggren, Al Dempster, Retta Scott Worcester, and Bill Peet-created the illustrations for the early Disney Golden Books. The bold and incredibly detailed artwork was painstakingly executed in gouache and watercolor-media that required a steady hand and immense patience and precision. The resulting publications became favorite selections in the libraries of many children, among them, future generations of Disney and Pixar artists who were inspired to draw, dream, and later, create their own films and Golden Books. The Art of the Disney Golden Books celebrates a legacy that has now thrived for more than eighty years and continues to influence new generations of artists and filmmakers. Through interviews with contemporary animators who recall tracing the characters in their childhood Disney Golden Books, paintings by artists who influenced and inspired the Disney Golden Book illustrations, and a generous complement of Golden Book artwork-much of which was thought to have been lost until very recently-the rich tradition of the series is explored in this vibrant volume. From Peter Pan and Cinderella to Toy Story and Tangled, the Disney Golden Books are displayed in all their glory, evoking a poignant sense of wonder and nostalgia. For as long as parents and children partake in the ritual of reading together at bedtime, the Disney Golden Books will continue to be published, enjoyed, and treasured.
