A Smile as Big as the Moon A Special Education Teacher, His Class, and Their Inspiring Journey Through U.S. Space Camp *St. Martin's Press* Besides being a football coach at his Michigan High School, Mike Kersjes taught special education classes, dealing with children whose disabilities included Tourette syndrome, Downs Syndrome, dyslexia, eating disorders and a variety of emotional problems. One autumn Kersjes got the outlandish idea that his students would benefit from going to Space Camp, where, in conjunction with NASA, high school students compete in a variety of activities similar to those experienced by astronauts in training for space shuttle missions. There was only one problem: this program had been specifically designed for gifted and talented students, the best and the brightest from America's most privileged high schools. Kersjes believed that, given a chance, his kids could do as well as anybody, and with remarkable persistence broke down one barrier after another, from his own principal's office to the inner sanctum of NASA, until Space Camp opened its doors, on an experimental basis, to special ed students. After nine months of rigorous preparation, during which the class molded itself into a working team, they arrived at Space Camp, where they turned in a performance so startling, so surprising, that it will leave the reader breathless. A truly triumphant story of the power of the human spirit. Journey Into Terror Story of the Riga Ghetto *Ardent Media* There were 40,000 Jews in Riga in July 1941, when the Germans occupied Latvia. 33,000 of them were interned in the ghetto, and most of them (according to Schneider's estimate, 29,000) were killed in November-December 1941 in the Rumbuli forest. At the same time, numerous Jews from the Reich began to be deported to the ghetto of Riga. Ca. 20,000 German, Austrian, and Czech Jews arrived there during the winter of 1941-42; 800 of them survived the war, which is much greater than the numbers of German Jewish survivors from the ghettos of Łódź, Minsk, Kaunas, etc. Presents a story of life and death in the ghetto, focusing mainly on the "German" part of it; the story is largely based on testimonies of survivors, including Schneider's own (she was deported to the Riga ghetto from Vienna in February 1942). Many of the Jews were sent to the Jungfernhof camp near the city, rather than to the ghetto. Later, some were transferred from the ghetto to the Salaspils camp, and in August 1943, 7,874 Jews were sent from the ghetto to the Kaiserwald camp. The rest of the ghetto was liquidated in October 1943, and ca. 60 people were left to remove all traces of the former inhabitants, after which they were also transferred to Kaiserwald. Pp. 157-175 contain a list of survivors, and pp. 177-211 contain documents. The book offers key principles, dispositions, and practices that holistic educators draw from to create learning environments in which their students can flourish. This book describes learning that is based on a balance of inner and outer ways of knowing, with an emphasis on the inner life or soul of the learner. This is illustrated through accounts of running an arts camp using the inquiry process and experiences with teacher candidates. A key principle of holistic education is connection, which is explored through experiential examples such as connections between learners and each other, the teacher, and their subject of study. The role that mindfulness practice and teacher presence plays in the classroom, as well as working with fear and vulnerability are addressed through detailed narratives. The breadth of the author's experience including being an early years teacher, a director of programs and exhibits in a children's museum, and working with pre-service teachers is woven throughout the book. Reflections from former teacher candidates highlight the influence that holistic pedagogy has on learners. The book concludes with an invitation to the reader to embrace a holistic, integrative approach to education, which creates fertile ground for student flourishing. Flourishing in the Holistic Classroom is intended to support teachers, administrators, academics, pre-service teachers and graduate students. Her lived journey resonates and inspires, as we, the reader, moves through each chapter. Drawing on the wisdom of ancestral roots, Lisa explores what makes us human in profound ways." Marni Binder Associate Director, Academic Leadership Associate Professor, Ryerson University "I loved this book! Flourishing in the Holistic Classroom by Lisa Tucker is a must-read for any teacher who is looking to make education meaningful, engaging, and relevant to students' lives. It is highly readable and full of practical examples and applications for teachers at all grade levels. It is also a wonderfully inspiring text for professors working in teacher preparation programs. I felt like I was having a conversation with a master teacher - one who truly understands the really important qualities that teachers can cultivate in their lives and work. I appreciated the way substantive theory was integrated seamlessly into her own personal narrative. Using stories, she brings her Nautilus model of holistic teaching to life, creating an intimacy with the reader that engages your mind and spirit." Sam Crowell Professor Emeritus, California State University Founder, MA in Holistic and Integrative Education Author, Emergent Teaching: A Path of Significance, Creativity and Transformation "Lisa Invites us to imagine, enact and embody wholeheartedly our life as more than surviving - she wants us to flourish in the classroom as learners, no matter if we are wearing a teacher or student hat. To do this we think of ourselves as a whole person whereby heart, mind, body and spirit are embraced. This is what holistic education is. In this book we are taken on a journey and as Lisa says 'teaching is a complex profession and in order for true exploration and deep learning to occur, a healthy, caring, and sustainable learning community must be developed'." The Eyes of Faith: The Sense of the Faithful and the Church's Reception of Revelation *CUA Press* Winner of the 2010 Lynlea Rodger Australia Theological Form (ATF) Press Theological Book Prize **The Eyes of Faith** presents a systematic theology of the sense of the faithful (*sensus fidelium*) and shows the fundamental and necessary interrelationship between *sensus fidelium*, tradition, Scripture, theology, and the magisterium. Ormond Rush provides fresh perspectives on a number of issues. He proposes that tradition and Scripture are the products of the *sensus fidelium* and that the inspiration of Scripture is best understood in terms of the Holy Spirit working through the *sensus fidelium*. In addressing the role of the *sensus fidei* in the lives of individual believers, the book provides a unique approach to the way Christians make sense of their faith within the diverse contexts of daily life. It shows how the imaginative capacity of the *sensus fidei* forms a foundational notion for understanding the diversity of spiritualities, inculturations, and contextualizations of the Gospel in the history of the church up to the present. This ecclesial activity of interpreting the Christ event through the *sensus fidelium* enables the church to proclaim the Gospel in new times and cultures throughout history. **The Eyes of Faith** proposes that, for an effective teaching of the faith to contemporary Christians, the distinctive roles of the magisterium and of theology must be conceived primarily in terms of, and in relationship to, the ecclesial Spirit-given capacity of the *sensus fidelium*.

ABOUT THE AUTHOR: Ormond Rush is lecturer of theology and former president of St. Paul's Theological College in Banyo, Australia, and is president of the Australian Catholic Theological Association. He is the author of *Still Interpreting Vatican II: Some Hermeneutical Principles and The Reception of Doctrine: An Appropriation of Hans Robert Jauss' Reception Aesthetics and Literary Hermeneutics*.

PRAISE FOR THE BOOK: "In addition to its internal argumentation, the book's extensive footnotes, Scriptural references, and Church documents will make it a tremendously valuable tool for advanced researchers in several theological areas, including pneumatology, ecclesiology, Scripture studies, and hermeneutics. . . . Highly recommended." -- C. A. Montevecchio, *Choice* "Some works of scholarship stand out, providing a point of reference and showing the way forward. Orm Rush's study is in this class, and it is not surprising that its first release by CUA Press is a splendid hardback volume. This work makes a significant contribution to Catholic Theology." -- Rev. John Thornhill SM, *The Australasian Catholic Record* "Rush provides a theologically perceptive panorama of the *sensus fidelium* at work in the church under the guidance of the Holy Spirit. In addition to offering numerous insights--usually beneficial and sometimes provocative--Rush's study is extraordinarily well-researched. . . . [T]his volume is an outstandingly creative and comprehensive theological study of the grace of the Holy Spirit acting through the *sensus fidelium* in the reception of revelation in the church."--John Ford C.S.C., *Theological Studies* "Rush has here provided us with a sophisticated study of theological hermeneutics, as well as a foundational work in ecclesiology."--Lawrence S. Cunningham, *Commonweal* "This detailed and well-argued book explores the phenomenon of reception in both the Bible and in contemporary Roman Catholic tradition. . . . An insightful study for those interested in the newest wave of Roman Catholic dogmatic theology, which tends to draw deeply from biblical sources as well as Vatican teaching, this book genuinely advances discussions of the doctrine of reception." --Aaron Klink, *Religious Studies Review*

Parenting Matters: Supporting Parents of Children Ages 0-8 *National Academies Press* Decades of research have demonstrated that the parent-child dyad and the environment of the family--"which includes all primary caregivers"--are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. **Parenting Matters** identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have

been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Hitler's Willing Executioners *Ordinary Germans and the Holocaust* *Vintage* This groundbreaking international bestseller lays to rest many myths about the Holocaust: that Germans were ignorant of the mass destruction of Jews, that the killers were all SS men, and that those who slaughtered Jews did so reluctantly. **Hitler's Willing Executioners** provides conclusive evidence that the extermination of European Jewry engaged the energies and enthusiasm of tens of thousands of ordinary Germans. Goldhagen reconstructs the climate of "eliminationist anti-Semitism" that made Hitler's pursuit of his genocidal goals possible and the radical persecution of the Jews during the 1930s popular. Drawing on a wealth of unused archival materials, principally the testimony of the killers themselves, Goldhagen takes us into the killing fields where Germans voluntarily hunted Jews like animals, tortured them wantonly, and then posed cheerfully for snapshots with their victims. From mobile killing units, to the camps, to the death marches, Goldhagen shows how ordinary Germans, nurtured in a society where Jews were seen as unalterable evil and dangerous, willingly followed their beliefs to their logical conclusion. "Hitler's Willing Executioner's is an original, indeed brilliant contribution to the...literature on the Holocaust."--New York Review of Books "The most important book ever published about the Holocaust...Eloquently written, meticulously documented, impassioned...A model of moral and scholarly integrity."--Philadelphia Inquirer

The Composer-pianists Hamelin and The Eight *Hal Leonard Corporation* "The recordings made by Marc-Andre Hamelin in recent years have cast new light on an extraordinary group of composers - Alkan, Busoni, Feinberg, Godowsky, Medtner, Rachmaninov, Scriabin, and Sorabji - whose works heralded a Golden Age of virtuosic writing for the piano." "The Eight, as author Robert Rimm has termed these composer-pianists, have much in common, traits shared in our own age with Marc-Andre Hamelin, their foremost interpreter. For all their evident differences of age, nationality, and philosophy, they each created music of unprecedented ingenuity - often complex and of immense scale - that stretched the limits of the piano's capabilities. And all were genuine virtuosos with the technical resources to play these demanding works in public." "The volume includes rare photographs and concludes with an extensive bibliography, listings of the complete solo piano works of The Eight, and discographies of their solo piano recordings. In exploring the art of those who knew their instrument both as composers and as pianists, this book serves, in the words of pianist Stephen Hough, "both as a fascinating, exhaustive study of the riches of the past and as a stimulating inspiration for the future."--BOOK JACKET.

Confronting the Challenges of Participatory Culture *Media Education for the 21st Century* *MIT Press* Many teens today who use the Internet are actively involved in participatory cultures—joining online communities (Facebook, message boards, game clans), producing creative work in new forms (digital sampling, modding, fan videomaking, fan fiction), working in teams to complete tasks and develop new knowledge (as in Wikipedia), and shaping the flow of media (as in blogging or podcasting). A growing body of scholarship suggests potential benefits of these activities, including opportunities for peer-to-peer learning, development of skills useful in the modern workplace, and a more empowered conception of citizenship. Some argue that young people pick up these key skills and competencies on their own by interacting with popular culture; but the problems of unequal access, lack of media transparency, and the breakdown of traditional forms of socialization and professional training suggest a role for policy and pedagogical intervention. This report aims to shift the conversation about the "digital divide" from questions about access to technology to questions about access to opportunities for involvement in participatory culture and how to provide all young people with the chance to develop the cultural competencies and social skills needed. Fostering these skills, the authors argue, requires a systemic approach to media education; schools, afterschool programs, and parents all have distinctive roles to play.

Who is the other girl? And who, for that matter, is Sophie herself? To solve the riddle, she uses her new knowledge of philosophy, but the truth is far stranger than she could have imagined. A phenomenal worldwide bestseller, **SOPHIE'S WORLD** sets out to draw teenagers into the world of Socrates, Descartes, Spinoza, Hegel and all the great philosophers. origin of the universe. **Sex Matters From Sex to Superconsciousness** *St. Martin's Press* Sex matters to us all. The Osho approach to sex begins with an understanding of how important love is in our lives, while at the same time acknowledges that the journey into love cannot exclude our innate biological energies. With this perspective, it becomes clear that the tendency for religions, and for society in general, to associate sex with sin and morality has been a great misfortune. **Sex Matters** begins by deconstructing the layers of sexual repression that the condemnation of sex has inflicted on human. Throughout **Sex Matters** - in response to questions about everything from jealousy to premature ejaculation, the role of intimacy and the differences between men and women - Osho proposes a vision that embraces sex as a fundamental gift from nature. We learn how orgasm offers a glimpse of timelessness, thoughtlessness, and pure awareness -- biology's way of pointing toward the consciousness that helps us to understand ourselves. Finally, we are presented with a clear choice: a repressed sexuality that leads to pornography, perversion, and a stunted humanity or a playful, respectful, and relaxed innocence that supports us in becoming fulfilled and whole, as nature intended. **Show Your Tongue** *Houghton Mifflin Harcourt P* Gunter Grass and his wife, Ute, spent six months in Calcutta, 1987-1988. Throughout, Grass kept a diary in words and drawings that record everyday sights: the poverty, the heat, the resigned anxiety of those who no longer have anything to wait for. Showing one's tongue in Bengali is an expression of shame. And shame is what Grass, as a man and as a citizen of one of the most prosperous countries in the world, feels about the human condition in India. -- taken from p. 4 of cover. **The Horseshoe Table An Inside View of the UN Security Council** *Pearson Education India* "In this unique, unprecedented and intimate account, Chinmaya Gharekhan takes us through the meetings of the Security Council as it debated such issues as emergency situations during the first Gulf War, Iraq's WMD programme and the work of the special commission set up to eliminate them, the beginnings of the Oil-for-Food programme, the Balkan War of the early 1990s, the Rwanda genocide, and the Lockerbie disaster involving Libya."--BOOK JACKET. **Pre-Incident Indicators of Terrorist Incidents The Identification of Behavioral, Geographic and Temporal Patterns of Preparatory Conduct** *DIANE Publishing* This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations. **Early Childhood Practice Froebel today** *SAGE Nursery World Awards 2012 winner!* This stimulating book brings together contributions from distinguished practitioners, who demonstrate how they have used educational methods advocated by Froebel in contemporary settings. Stressing the importance of outdoor play, they explore the Froebelian principles of: - Play - Learning through firsthand experience - Parent partnership and community in early childhood - Practitioners supporting children's interests and learning - Finger rhymes and action songs - Movement - The garden and forests - Wooden blockplay - Use of clay, paint, junk modelling, construction kits The book emphasises how learning and the application of knowledge become possible through play. It contrasts the Froebel approach with the methods such as Montessori, Steiner and recent approaches to play such as post-Modern 'playfulness'.
