A New Earth

Awakening to Your Life's Purpose

Penguin The 10th anniversary edition of *A New Earth* with a new preface by Eckhart Tolle. With his bestselling spiritual guide *The Power of Now*, Eckhart Tolle inspired millions of readers to discover the freedom and joy of a life lived "in the now." In *A New Earth*, Tolle expands on these powerful ideas to show how transcending our ego-based state of consciousness is not only essential to personal happiness, but also the key to ending conflict and suffering throughout the world. Tolle describes how our attachment to the ego creates the dysfunction that leads to anger, jealousy, and unhappiness, and shows readers how to awaken to a new state of consciousness and follow the path to a truly fulfilling existence. Illuminating, enlightening, and uplifting, *A New Earth* is a profoundly spiritual manifesto for a better way of life—and for building a better world.

Sustainable Horticultural Systems

Issues, Technology and Innovation

Springer Sustainable horticulture is gaining increasing attention in the field of agriculture as demand for the food production rises to the world community. Sustainable horticultural systems are based on ecological principles to farm, optimizes pest and disease management approaches through environmentally friendly and renewable strategies in production agriculture. It is a discipline that addresses current issues such as food security, water pollution, soil health, pest control, and biodiversity depletion. Novel, environmentally-friendly solutions are proposed based on integrated knowledge from sciences as diverse as agronomy, soil science, entomology, ecology, chemistry and food sciences. Sustainable horticulture interprets methods and processes in the farming system to the global level. For that, horticulturists use the system approach that involves studying components and interactions of a whole system to address scientific, economic and social issues. In that respect, sustainable horticulture is not a classical, narrow science. Instead of solving problems using the classical painkiller approach that treats only negative impacts, sustainable horticulture treats problem sources.

The Art of Public Speaking

Samaira Book Publishers *The Art of Public Speaking* is a fantastic introduction to public speaking by the master of the art—Dale Carnegie. Featured within this classic manual are hundreds of tips and tricks on how to become an efficient and effective public speaker. One of the core ideas in his books is that it is possible to change other people's behavior by changing one's reaction to them. This is a fascinating work and is thoroughly recommended for everyone.

Framing Intellectual and Lived Spaces in Early South Asia

Sources and Boundaries

Walter de Gruyter GmbH & Co KG The contributions to this book address a series of 'confrontations'—debates between intellectual communities, the interplay of texts and images, and the intersection of monumental architecture and physical terrain—and explore the ways in which the legacy of these encounters, and the human responses to them, conditioned cultural production in early South Asia (c. 4th-7th centuries CE). Rather than an agonistic term, the book uses 'confrontation' as a heuristic to examine historical moments within this pivotal period in which individuals and communities were confronted with new ideas and material expressions. The first half of the volume addresses the intersections of textual, material, and visual forms of cultural production by focusing on three primary modes of confrontation: the relation of inscribed texts to material media, the visual articulation of literary images and, finally, the literary interpretation and reception of built landscapes. The second part of the volume focuses on confrontations both within and between intellectual communities. The articles address the dynamics between peripheral and dominant movements in the history of Indian philosophy.

Paradoxical Citizenship

Edward Said

Lexington Books In a collection of intriguing essays on the work of Edward Said, internationally-recognized scholars pay homage to the late critic by addressing many aspects of his oeuvre, including his breakthrough *Orientalism*, the role of the intellectual, the Question of Palestine, and finally his dramatic memoir, *Out of Place*. This volume is a useful contribution for classroom use, as well as recreational reading for those interested in the work of this controversial thinker.

Shadows in the Sun

Healing from Depression and Finding the Light Within

Simon and Schuster Presents a first-of-its-kind, cross-cultural lens to mental illness through the inspiring story of Gayathri's thirty-year battle with depression. This literary memoir takes readers from her childhood in India where depression is thought to be a curse to life in America where she eventually finds the light within by drawing on both her rich Hindu heritage and Western medicine to spare. As a young girl in Bangalore, Gayathri was surrounded by the fragrance of jasmine and flickering oil lamps, her family protected by Hindu gods and goddesses. But as she grew older, demons came forth from the dark corners of her idyllic kingdom--with the scariest creatures lurking within her. The daughter of a respected Brahmin family, Gayathri began to feel different. "I can hardly eat, sleep, or think straight. The only thing I can do is cry unending tears." Her parents insisted it was all in her head. Because traditional Indian culture had no concept of depression as an illness, no doctor could diagnose and no medicine could heal her mysterious malady. This memoir traces Gayathri's courageous battle with the depression that consumed her from adolescence through marriage and a move to the United States. It was only after the birth of her first child, when her husband discovered her in the backyard "clawing the earth furiously with my bare hands, intent on digging a grave so that I could bury myself alive," that she finally found help. After a stay in a psych ward she eventually found "the light within," an emotional and spiritual awakening from the darkness of her tortured mind. Gayathri's inspiring story provides a first-of-its-kind cross-cultural view of mental illness--how it is regarded in India and in America, and how she drew on both her rich Hindu heritage and Western medicine to find healing.

Contrastive Analysis in Language

Identifying Linguistic Units of Comparison

Springer This is a book about comparison in linguistics in general, rather than 'contrastive analysis' as a distinct branch of linguistics. It addresses the question 'Does the analytical apparatus used by linguists allow comparisons to be made across languages?' Four major domains are considered in turn: derivational morphology, syntax, semantics & pragmatics, and discourse. Contributions cover a broad spectrum of linguistic disciplines, ranging from contrastive linguistics and linguistic typology to translation studies and historical linguistics.

Wikipedia @ 20

Stories of an Incomplete Revolution

MIT Press Wikipedia's first twenty years: how what began as an experiment in collaboration became the world's most popular reference work. We have been looking things up in Wikipedia for twenty years. What began almost by accident—a wiki attached to an nascent online encyclopedia—has become the world's most popular reference work. Regarded at first as the scholarly equivalent of a Big Mac, Wikipedia is now known for its reliable sourcing and as a bastion of (mostly) reasoned interaction. How has Wikipedia, built on a model of radical collaboration, remained true to its original mission of “free access to the sum of all human knowledge” when other tech phenomena have devolved into advertising platforms? In this book, scholars, activists, and volunteers reflect on Wikipedia's first twenty years, revealing connections across disciplines and borders, languages and data, the professional and personal. The contributors consider Wikipedia's history, the richness of the connections that underpin it, and its founding vision. Their essays look at, among other things, the shift from bewilderment to respect in press coverage of Wikipedia; Wikipedia as “the most important laboratory for social scientific and computing research in history”; and the acknowledgment that “free access” includes not just access to the material but freedom to contribute—that the summation of all human knowledge is biased by who documents it. Timetables of World Literature

Which authors were contemporaries of Charles Dickens? Which books, plays, and poems were published during World War II? Who won the Pulitzer Prize in the year you were born? *Timetables of World Literature* is a chronicle of literature from ancient times through the 20th century. It answers the question “Who wrote what when?” and allows readers to place authors and their works in the context of their times. A chronology of the best in global writing, this valuable resource lists more than 12,000 titles and 9,800 authors, includes all genres of literature from more than 58 countries, and covers 41 languages. It is divided into seven sections, spanning the Classical Age (to 100 CE), the Middle Ages (100–1500 CE), and the 16th through the 20th centuries. Comprehensive in scope, *Timetables of World Literature* provides students, researchers, and browsers with basic facts and a worldwide perspective on literature through time. Four extensive indexes by author, title, language/nationality, and genre make research quick and easy. Features include: Birth and death dates as well as nationalities of authors and other literary figures Winners of major literary prizes and awards, such as the Nobel Prize in Literature and the Pulitzer Prizes, for each year Brief discussions of literary developments in each period or century, and the relationship of literature to the social and political climate Timelines of key

historical events in each century.

World Cinemas, Transnational Perspectives

Routledge SCMS Award Winner "Best Edited Collection" The standard analytical category of "national cinema" has increasingly been called into question by the category of the "transnational." This anthology examines the premises and consequences of the coexistence of these two categories and the parameters of historiographical approaches that cross the borders of nation-states. The three sections of *World Cinemas, Transnational Perspectives* cover the geopolitical imaginary, transnational cinematic institutions, and the uneven flow of words and images.

The Spivak Reader

Selected Works of Gayatri Chakravorty Spivak

Routledge Among the foremost feminist critics to have emerged to international eminence over the last fifteen years, Gayatri Chakravorty Spivak has relentlessly challenged the high ground of established theoretical discourse in literary and cultural studies. Although her rigorous reading of various authors has often rendered her work difficult terrain for those unfamiliar with poststructuralism, this collection makes significant strides in explicating Spivak's complicated theories of reading.
