## CAMPUS CONFIDENTIAL

---

### 100 STARTLING THINGS YOU DON'T KNOW ABOUT CANADIAN UNIVERSITIES (SECOND EDITION)

---

**James Lorimer & Company** In 2011, the first edition of *Campus Confidential* sparked a lively debate about what is really going on inside our colleges and universities. The media and readers alike welcomed this readable, honest book. University authorities didn't. They took the authors to task for spilling the beans. In this second edition, Ken S. Coates and Bill Morrison pick up where they left off, adding new and up-to-date information for students and their parents to consider. Among the questions they address: Why more students should consider the skilled trades Whether a BA is ever worth the paper it's printed on How roving administrators are undermining universities Why we over-produce graduate students What's right (and wrong) with what's happening on campuses in Quebec Now that nearly everyone goes to college or university but only a small percentage of graduates actually find employment in their chosen field, understanding what's really going on in Canadian postsecondary institutions is more important than ever. Readers can count on Ken S. Coates and Bill Morrison for unexpected insights and lots of fresh new ideas and information.

### NINETEEN EIGHTY-FOUR

---

**epubli** "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his

lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

## **BUILDING COMMUNITIES OF ENGAGED READERS**

---

### **READING FOR PLEASURE**

---

**Routledge** Reading for pleasure urgently requires a higher profile to raise attainment and increase children's engagement as self-motivated and socially interactive readers. *Building Communities of Engaged Readers* highlights the concept of 'Reading Teachers' who are not only knowledgeable about texts for children, but are aware of their own reading identities and prepared to share their enthusiasm and understanding of what being a reader means. Sharing the processes of reading with young readers is an innovative approach to developing new generations of readers. Examining the interplay between the 'will and the skill' to read, the book distinctively details a reading for pleasure pedagogy and demonstrates that reader engagement is strongly influenced by relationships between children, teachers, families and communities. Importantly it provides compelling evidence that reciprocal reading communities in school encompass: a shared concept of what it means to be a reader in the 21st century; considerable teacher and child knowledge of children's literature and other texts; pedagogic practices which acknowledge and develop diverse reader identities; spontaneous 'inside-text talk' on the part of all members; a shift in the focus of control and new social spaces that encourage choice and children's rights as readers. Written by experts in the literacy field and illustrated throughout with examples from the project schools, it is essential reading for all those concerned with improving young people's enjoyment of and attainment in reading.
