Notebook

White Grey Marble College Ruled Blank Lined Cute Notebooks for Girls Teens Kids School Students and Teachers Writing Notes Journal

This beautiful, sleek, stylish 8.5x11 inch soft cover paperback marble notebook features a letter L monogram for those whose name starts with the initial L. The monogram is written in a flowy, fancy, cursive font, and is set on on a faux gray & white marble classic background. A pretty watercolor flower design print decorates the cover with blue and pink flowers, and green leaves & foliage, to complete the natural nature inspired design. Classy & elegant, this marble journal is inspired by both timeless, traditional classic luxurious styles where marble is often associated with luxury, and it is also inspired by minimalistic clean contemporary modern fashion. It's inspired by this mixed with inspiration from the pretty boho floral style. The interior of this gorgeous, feminine, floral flowery grey marbled composition notebook contains lined / Medium Ruled / College-ruled paper, with 120 pages, and the pages are perfect bound. A cute, classically glamorous, classy, trendy, girly, sophisticated, chic and beautiful diary, notepad or field book for use at work, in the office, at school, college, university, home or anywhere you desire. The perfect piece of beautiful stationery to complete your collection of lovely, fashionable paper writing pads or office supplies. A custom notebook, customised with your own name initial, great for those looking for a fancy-looking custom journal that's personalised to be a name-letter customized notebook, for you to have your own personalized journal for your personalised needs! With its flowing font & flowy typography lettering and pink flower decoration this girly note book may be particularly suitable for women, for girls, for teen girls, for ladies and for formal professional business women. Great for writing, planning, doodling, journaling, note taking and keeping track of your ideas, plans, doodles, notes and thoughts. This Notebook Perfect for used- Notebook for Kids- Notebook for School- Notebook For Doodling- Sketchbook for Kids

How to Heal Yourself When No One Else Can

A Total Self-Healing Approach for Mind, Body, and Spirit

Llewellyn Worldwide Be You, Be Happy, Be Free Using energy therapy and emotional healing techniques, How to Heal Yourself When No One Else Can shows you how to achieve complete and permanent healing by loving, accepting, and being yourself no matter what. Energy therapist Amy Scher presents an easy-to-understand, three-part approach to removing blockages, changing your relationship with stress, and coming into alignment with who you truly are. After overcoming a life-threatening illness, Amy had an epiphany that healing is more than just physical. Her dramatic story serves as a powerful example of how beneficial it is to address our emotional energies, particularly when nothing else works. Discover areas of imbalance and easy ways to address them on your healing journey. Whether you are experiencing physical symptoms or are just feeling lost, sad, anxious, or emotionally unbalanced, this book can change your life. Praise: "Amy has seen the truth and can be a coach to all those who seek healing and authenticity."—Bernie Siegel, MD, bestselling author of Love, Medicine, & Miracles and The Art of Healing "[Amy Scher is] an inspiration, not just because she teaches us how to take healing into our own hands, but because she's living proof that it works."—Pam Grout, #1 New York Times bestselling author of E-Squared and E-Cubed "Amy Scher has penned a remarkable book about the pivotal role of the body, mind, and spirit in attaining true and complete healing. There is much wisdom in this book, written with exceptional clarity, love, and wisdom."—Sanjiv Chopra, MD MACP, Professor of Medicine at Harvard Medical School, motivational speaker, and bestselling author of Brotherhood with Deepak Chopra "Amy Scher takes you on a guided journey to resolve emotional, physical, and energetic blockages that get in the way of true healing. You will feel like you have a loving expert coach by your side along the way."—Heather Dane, co-author with Louise Hay of Loving Yourself to Great Health

The State of Open Data

Histories and Horizons

African Minds It's been ten years since open data first broke onto the global stage. Over the past decade, thousands of programmes and projects around the world have worked to open data and use it to address a myriad of social and economic challenges. Meanwhile, issues related to data rights and privacy have moved to the centre of public and political discourse. As the open data movement enters a new phase in its evolution, shifting to target real-world problems and embed open data thinking into other existing or emerging communities of practice, big questions still remain. How will open data initiatives respond to new concerns about privacy, inclusion, and artificial intelligence? And what can we learn from the last decade in order to deliver impact where it is most needed? The State of Open Data brings together over 60 authors from around the world to address these questions and to take stock of the real progress made to date across sectors and around the world, uncovering the issues that will shape the future of open data in the years to come.

How to Make a Living from Music

WIPO This guide is designed for musicians and music professionals who wish to hone their knowledge of the music business. It is intended as a practical tool to help composers, performers and all those involved in the music world get into the specifics of the management of their intellectual property rights. The guide aims to provide instructive advice on how to build a successful career in music in both developed and developing countries, by generating income from musical talent.

Steel Designers' Manual Fifth Edition: The Steel Construction Institute

Wiley-Blackwell This classic manual for structural steelwork design was first published in 1956. Since then, it has sold many thousands of copies worldwide. The fifth edition is the first major revision for 20 years and is the first edition to be fully based on limit state design, now used as the primary design method, and on the UK code of practice, BS 5950. It provides, in a single volume, all you need to know about structural steel design.

Open Source

Technology and Policy

Cambridge University Press From the Internet's infrastructure to operating systems like GNU/Linux, the open source movement comprises some of the greatest accomplishments in computing over the past quarter century. Its story embraces technological advances, unprecedented global collaboration, and remarkable tools for facilitating distributed development. The evolution of the Internet enabled an enormous expansion of open development, allowing developers to exchange information and ideas without regard to constraints of space, time, or national boundary. The movement has had widespread impact on education and government, as well as historic cultural and commercial repercussions. Part I discusses key open source applications, platforms, and technologies used in open development. Part II explores social issues ranging from demographics and psychology to legal and economic matters. Part III discusses the Free Software Foundation, open source in the public sector (government and education), and future prospects.

Open Source Intelligence Tools and Resources Handbook

2018 version of the OSINT Tools and Resources Handbook. This version is almost three times the size of the last public release in 2016. It reflects the changing intelligence needs of our clients in both the public and private sector, as well as the many areas we have been active in over the past two years.

SEO for Growth

The Ultimate Guide for Marketers, Web Designers and Entrepreneurs

Seo for Growth "Search Engine Optimization, also known as SEO, is how people search and find your website on the Internet. ... SEO is a key growth channel for your business, but the rules of SEO have changed dramatically in recent years. To grow your business in today's economy, you need a strong online presence. But what does that entail exactly? Marketing is no longer about mass-market advertising and outbound sales; it's about capturing demand -- grabbing the attention of people already looking to make a purchase or acquire specific knowledge. To do that, your content needs to be at the top of Internet search results"--Amazon.com.

Bayesian Reasoning and Machine Learning

Cambridge University Press A practical introduction perfect for final-year undergraduate and graduate students without a solid background in linear algebra and calculus.

Expert F# 2.0

Apress Expert F# 2.0 is about practical programming in a beautiful language that puts the power and elegance of functional programming into the hands of professional developers. In combination with .NET, F# achieves unrivaled levels of programmer productivity and program clarity. Expert F# 2.0 is The authoritative guide to F# by the inventor of F# A comprehensive reference of F# concepts, syntax, and features A treasury of expert F# techniques for practical, real-world programming F# isn't just another functional programming language. It's a general-purpose language ideal for real-world development. F# seamlessly integrates functional, imperative, and object-oriented programming styles so you can flexibly and elegantly solve any programming problem. Whatever your background, you'll find that F# is easy to learn, fun to use, and extraordinarily powerful. F# will change the way you think about-and go about-programming. Written by F#'s inventor and two major contributors to its development, Expert F# 2.0 is the authoritative, comprehensive, and in-depth guide to the language and its use. Designed to help others become experts, the first part of the book quickly yet carefully describes the F# language. The second part then shows how to use F# elegantly for a wide variety of practical programming tasks. The world's foremost experts in F# show you how to program in F# the way they do!

MAP and TOP

Advanced Manufacturing Communications

Springer Science & Business Media Advances in technology are making the business and manufacturing environment increasingly complex. Standards can help us cope with this complexity. Given the strategic importance of computers in the economies of the industrial world, it is fitting that one of the most significant commercial stories of our time is the standardization of computer communications. Quite frankly, when we joined with other computer users to launch this effort we didn't predict its scope and we should have done. public visibility. In retrospect, I guess The computer assisted technologies looming on the horizon offer some of the greatest functional and productivity tools available to improve business operations. However, the absence of a standardized electronic link permeating most business organizations poses a severe impediment to the efficient deployment of this technology. The feasibility of using computer controlled devices to design, test, and manufacture products - as part of a massive network - is well within our technological grasp. However, unless the world agrees upon a global set of standards that will make multi-vendor computer systems interoperable, successful implementation of these technologies becomes less and less attractive.

Business Writing For Dummies

John Wiley & Sons How many pieces of paper land on your desk each day, or emails in your inbox? Your readers - the people you communicate with at work - are no different. So how can you make your communication stand out from the pile and get the job done? Whether you're crafting a short and sweet email or bidding for a crucial project, Business Writing For Dummies is the only guide you need. Inside you'll find: The basic principles of how to write well How to avoid the common pitfalls that immediately turn a reader off Crucial tips for self-editing and revision techniques to heighten your impact Lots of practical advice and examples covering a range of different types of communication, including emails, letters, major business documents such as reports and proposals, promotional materials, web copy and blogs - even tweets The global touch - understand the key differences in written communication around the world, and how to tailor your writing for international audiences

Citizen Science

Innovation in Open Science, Society and Policy

UCL Press Citizen science, the active participation of the public in scientific research projects, is a rapidly expanding field in open science and open innovation. It provides an integrated model of public knowledge production and engagement with science. As a growing worldwide phenomenon, it is invigorated by evolving new technologies that connect people easily and effectively with the scientific community. Catalysed by citizens' wishes to be actively involved in scientific processes, as a result of recent societal trends, it also offers contributions to the rise in tertiary education. In addition, citizen science provides a valuable tool for citizens to play a more active role in sustainable development. This book identifies and explains the role of citizen science within innovation in science and society, and as a vibrant and productive science-policy interface. The scope of this volume is global, geared towards identifying solutions and lessons to be applied across science, practice and policy. The chapters consider the role of citizen science in the context of the wider agenda of open science and open innovation, and discuss progress towards responsible research and innovation, two of the most critical aspects of science today.

Mine Management

Springer Science & Business Media This book had its start when Douglas A. Sloan and the late Ralph Davies first decided to share our firm's experience in mine management consulting assignments by using this experience as the basis for a mine management and productivity course. Over the years with more and more assignments, the course text notes were continuously updated and improved. However, the notes only reached the relatively few persons in the mining industry who attended each year's courses. The purpose of this book is to make this experience and knowledge available to everyone who has an interest in systematic mine management. The book is based on nearly 500 mine management consulting assignments which over the years were carried out by too many consultants to begin to mention names. However, some of the international experts whose work was used or who directly contributed must be mentioned. First would be Col. I. F. Urwick whose books, articles and personal guidance of the author have had a general influence on the whole book and a specific influence on the Organization chapter. Others are John Humble whose work in developing Management by Objectives (MBO) is reflected in that chapter and Patrick H. Irwin for his work in Corporate Planning, which he has written of in that chapter.

Intelligent Hybrid Systems

Fuzzy Logic, Neural Networks, and Genetic Algorithms

Springer Science & Business Media Intelligent Hybrid Systems: Fuzzy Logic, Neural Networks, and Genetic Algorithms is an organized edited collection of contributed chapters covering basic principles, methodologies, and applications of fuzzy systems, neural networks and genetic algorithms. All chapters are original contributions by leading researchers written exclusively for this volume. This book reviews important concepts and models, and focuses on specific methodologies common to fuzzy systems, neural networks and evolutionary computation. The emphasis is on development of cooperative models of hybrid systems. Included are applications related to intelligent data analysis, process analysis, intelligent adaptive information systems, systems identification, nonlinear systems, power and water system design, and many others. Intelligent Hybrid Systems: Fuzzy Logic, Neural Networks, and Genetic Algorithms provides researchers and engineers with up-to-date coverage of new results, methodologies and applications for building intelligent systems capable of solving large-scale problems.

Linux Basics for Hackers

Getting Started with Networking, Scripting, and Security in Kali

No Starch Press This practical, tutorial-style book uses the Kali Linux distribution to teach Linux basics with a focus on how hackers would use them. Topics include Linux command line basics, filesystems, networking, BASH basics, package management, logging, and the Linux kernel and drivers. If you're getting started along the exciting path of hacking, cybersecurity, and pentesting, Linux Basics for Hackers is an excellent first step. Using Kali Linux, an advanced penetration testing distribution of Linux, you'll learn the basics of using the Linux operating system and acquire the tools and techniques you'll need to take control of a Linux environment. First, you'll learn how to install Kali on a virtual machine and get an introduction to basic Linux concepts. Next, you'll tackle broader Linux topics like manipulating text, controlling file and directory permissions, and managing user environment variables. You'll then focus in on foundational hacking concepts like security and anonymity and learn scripting skills with bash and Python. Practical tutorials and exercises throughout will reinforce and test your skills as you learn how to: - Cover your tracks by changing your network information and manipulating the rsyslog logging utility - Write a tool to scan for network connections, and connect and listen to wireless networks - Keep your internet activity stealthy using Tor, proxy servers, VPNs, and encrypted email - Write a bash script to scan open ports for potential targets - Use and abuse services like MySQL, Apache web server, and OpenSSH - Build your own hacking tools, such as a remote video spy camera and a password cracker Hacking is complex, and there is no single way in. Why not start at the beginning with Linux Basics for Hackers?

Perfumes

Art, Science and Technology

Springer Science & Business Media The idea of publishing this book on Perfumes: Art, Science and Technology grew out of the observation that, on the verge of the 1990s, there was really no state-of-the-art compilation of the relevant know-how on which the fragrance industry is based. It was obvious that such a compilation would be well received, not only by perfumers and fragrance chemists, but also by those involved in related trade and marketing or in the development and distribution of consumer products, by researchers from other fields, by students and, finally, by amateurs of perfumes in general. Therefore, we set out to find competent authors who were willing to contribute to the endeavour, and we did not do this unselfishly; on the contrary, we selected a wish-list of specialists who would provide us with new insight and characterize the trends and research priorities determining the future. Thus, we were counting on learning much ourselves in the course of the project. We were more than pleasantly surprised by the reactions to our first letter-and so was Elsevier. We certainly had not expected perfumers who are usually much more 'doers' than 'writers' to react

in such an enthusiastic way; especially, the spontaneous affirmative answer from the famous E. Roudnitska created a momentum which contributed significantly to the successful completion of this book. But, of course, we should not create the impression that the other authors' chapters are less important, and we thank all of them heartily for their invaluable effort.

The Benefits and Risks of Solar Powered Irrigation - a global overview

Food & Agriculture Org. The report gives a state-of-the-art overview of policies, regulations and incentives for the sustainable use of solar-powered irrigation technologies (SPIS) around the world. SPIS offer a viable, low-tech energy solution for irrigated agriculture, providing a reliable source of energy in remote areas, contributing to rural electrification, reducing energy costs for irrigation and enabling low emission agriculture. Nevertheless, SPIS have a significant initial investment cost and require innovative financing models to overcome this barrier to adoption, especially for small-scale farmers. Technical knowledge and service infrastructure is needed to ensure that the systems run effectively. Moreover, SPIS - if not adequately managed - bear the risk of fostering unsustainable water use as lower energy costs may lead to over-abstraction of groundwater. This report looks at how different countries work to create an enabling environment for SPIS technologies, while managing the risks that come with it.

Clinical Measurement in Coloproctology

Springer Science & Business Media Crucial decisions concerning surgical treatment are often based on the results of various methods used for assessing colorectal function. Yet the new methods which have resulted from recent technological advances are still often regarded as research tools or viewed with skepticism by the practicing physician. New horizons are opened up for the coloproctologist in this book which fully documents the scope of established and recently developed investigative techniques. These include manometry, electromyography, scintigraphy and defaecography. The discussion shows how each technique is conducted and in what way the results can be interpreted and used for the management of patients with colorectal disorders. Specialist areas such as the neorectum and the assessment of the pediatric patient are also included. This book clearly establishes the place of each technique in clinical practice. The text is clear and simple so that not only specialists but also non-specialists will be able to understand and set up the appropriate tests for specific colorectal disorders.

Earth Day

Pebble Books Earth Day celebrates our beautiful planet and calls us to act on its behalf. Some people spend the day planting flowers or trees. Others organize neighborhood clean-ups, go on nature walks, or make recycled crafts. Readers will discover how a shared holiday can have multiple traditions and be celebrated in all sorts of ways.

Creme de la Creme

30 Outstanding Piano Pieces that Provide Students with an Inviting Introduction to the Classical Repertoire

Alfred Music The "very best," the "cream of the cream." These late-elementary to early-intermediate pieces were selected both for their beauty as well as for their appropriateness as classical repertoire study at an early stage. Composers include J.S. Bach, Beethoven, Clarke, Diabelli, Duncombe, Rameau and Schumann.

Handbook of Terrestrial Heat-Flow Density Determination

with Guidelines and Recommendations of the International Heat Flow Commission

Springer Science & Business Media There comes a time in the affairs of every organization when we have to sit down and take stock of where we are and where we want to go. When the International Heat Flow Committee (as it was first called), IHFC, was formed in 1963 at the San Francisco International Union of Geodesy and Geophysics with Francis Birch as its first Chairman, the principal purpose was to stimulate work in the basic aspects of geothermics, particularly the measurement of terrestrial heat-flow density (HFD) in what were then the 'geothermally underdeveloped' areas of the world. In this, the IHFC was remarkably successful. By the beginning of the second decade of our existence, interest in the economic aspects of geothermics was increasing at a rapid pace and the IHFC served as a conduit for all aspects of geothermics and, moreover, became the group responsible for collecting data on all types of HFD measurements. In all the tasks that are undertaken, the IHFC relies on the enthusiasm of its members and colleagues who devote much of their time to the important but unglamorous and personally unrewarding tasks that were asked of them, and we are fortunate that our parent institutions are usually quite tolerant of the time spent by their employees on IHFC work.

Making Websites Win

Apply the Customer-Centric Methodology That Has Doubled the Sales of Many Leading Websites

Conversion Rate Experts Most websites lose. Almost all of them. Many never make a profit. Others are successful at first, and then get crushed by competitors. This book is about how to buck the trend--to make websites that customers love and that are outrageously profitable. The methodology is based on the authors' award-winning work growing many of the world's biggest web companies--plus hundreds of smaller, market-leading companies in over eighty different industries. In this book, you'll get What successful web businesses do differently (and others get wrong) How to easily identify your website's biggest opportunities A treasure trove of proven solutions for growing businesses Discover how to grow your profits--by making winning websites that people love.

The Biggerers

Simon and Schuster Introducing a witty and unique voice poised to take the literary world by storm. For fans of *The Borrowers*, *Munmun* and *The Truckers*. Everybody became a bit mean. A bit individual. Units. That's all humanity could say for itself - well, it couldn't actually, because it was made up of too many, um, units. And then there were the elderly, who could never bear to be so isolated, yet isolated they were. It was cruel, really it was. And kids - not that many people had them any more - they seemed to be born sitting in one of those egg-shaped chairs, only seeing what was right in front of them. So, the government asked a doctor, that famous one, to get a team together and figure it all out. He did. Everyone got a playmate. Well, everyone who wanted one, could buy a playmate. About a foot tall, they stood, naked (except in winter), very affectionate, not too intelligent. Mute, but cute - exactly what every home needs. Something to love, little units of love. *The Biggerers* is set in a dystopian future where our two heroes, Bonbon and Jinx, spend their days gathering stones and feathers for their basket, and waiting to be fed by their owners. But it's not long before getting sick, falling in love and wondering why they can't eat with a spoon pushes them to realise they are exactly the same as their owners...only smaller.

Product Lifecycle Management to Support Industry 4.0

15th IFIP WG 5.1 International Conference, PLM 2018, Turin, Italy, July 2-4, 2018, Proceedings

Springer This book constitutes the refereed post-conference proceedings of the 15th IFIP WG 5.1 International Conference on Product Lifecycle Management, PLM 2018, held in Turin, Spain, in July 2018. The 72 revised full papers presented were carefully reviewed and selected from 82 submissions. The papers are organized in the following topical sections: building information modeling; collaborative environments and new product development; PLM for digital factories and cyber physical systems; ontologies and data models; education in the field of industry 4.0; product-service systems and smart products; lean organization for industry 4.0; knowledge management and information sharing; PLM infrastructure and implementation; PLM maturity, implementation and adoption; 3D printing and additive manufacturing; and modular design and products and configuration and change management.

The Singer's Musical Theatre Anthology - "16-Bar" Audition

Baritone/Bass Edition

Hal Leonard Corporation (Vocal Collection). Baritone/Bass edition. Songs especially good for auditions have been chosen from Volumes 1-5 of *The Singer's Musical Theatre Anthology* and edited to 30-40 second "16-Bar" excerpts. Each volume includes over 100 songs in original keys.

Soft Computing for Information Processing and Analysis

Springer Search engines, with Google at the top, have become the most heavily used online service, with millions of searches performed every day and many remarkable capabilities. *Soft Computing for Information Processing and Analysis* includes reports from the front of soft computing in the internet industry and imparts knowledge and understanding of the significance of the field's accomplishments, new developments and future directions. This carefully edited book has evolved from presentations made by the participants of a meeting entitled "Fuzzy Logic and the Internet: Enhancing the Power of the Internet", organized by the Berkeley Initiative in Soft Computing (BISC), University of California, Berkeley. It addresses the important topics of modern search engines such as fuzzy query, decision analysis and support systems, including articles about topics such as Web Intelligence, World Knowledge and Fuzzy Logic (by Lotfi A. Zadeh), perception based information processing, or web intelligence.

Pervasive Collaborative Networks

IFIP TC 5 WG 5.5 Ninth Working Conference on VIRTUAL ENTERPRISES, September 8-10, 2008, Poznan, Poland

Springer COLLABORATIVE NETWORKS Becoming a pervasive paradigm In recent years the area of collaborative networks is being consolidated as a new discipline (Camarinha-Matos, Afsarmanesh, 2005) that encompasses and gives more structured support to a large diversity of collaboration forms. In terms of applications, besides the "traditional" sectors represented by the advanced supply chains, virtual enterprises, virtual organizations, virtual teams, and their breeding environments, new forms of collaborative structures are emerging in all sectors of the society. Examples can be found in e-government, intelligent transportation systems, collaborative virtual laboratories, agribusiness, elderly care, silver economy, etc. In some cases those developments tend to adopt a terminology that is specific of that domain; often the involved actors in a given domain are not fully aware of the developments in the mainstream research on collaborative networks. For instance, the grid community adopted the term "virtual organization" but focused mainly on the resource sharing perspective, ignoring most of the other aspects involved in collaboration. The European enterprise interoperability community, which was initially focused on the intra-enterprise aspects, is moving towards inter-enterprise collaboration. Collaborative networks are thus becoming a pervasive paradigm giving basis to new socio-organizational structures.

The Dangerous Landscape

International Perspectives on Twenty-first Century Terrorism ; Transnational Challenge, International Responses ; Analysis and Commentary

This book is the result of a series of meetings of the Working Group of the Partnership for Peace Consortium, dedicated to the fight against terrorism. It provides fresh insight into the fabric of 21st century terrorism. Islamist extremism, terrorist recruitment and the role of religious converts and violence are among the many important topics explored in detail. This volume also uncovers the troubling phenomenon of terrorist innovation, and addresses the creation of counter-terrorist strategy.

Macroeconomics and Finance in the Caribbean Quantitative Analyses

Caribbean Center for Monetary Studies

Understanding Business Cycles

The Indicators Approach to Forecasting for Agility

"The collection of articles ... in this compendium has a dual purpose: to address a nonexpert, business audience and to reach business team leaders responsible for or reporting to the functions of strategic planning, forecasting, market research, procurement, or business development. ... what defines a business cycle, the relationship between categories of economic and financial indicators, and how the analysis of some regularities that exist can provide better insight into how business cycles work." -- page 4.
