Constitution of India And Indian Polity | For Civil Service

Exam | LLB Entrance | By Pearson

Pearson Education India This title has been conceptualized to fill the gap between established titles like Laxmikant Indian Polity to the NCERT text books. Students prefer to read a textbook where conceptual theories are explained along with gives them the full coverage of competitive examinations. So, there have always been a need for a book on constitution that could cater to the requirements of various competitive exams, i.e., to answer multiple-choice questions as well as descriptive questions. The same was the need for the candidates preparing for the Civil Services Examination. This book seeks to fulfil that need. This book presents all the concepts in a lucid and simple manner, where concepts are supported with pictographic representation, flowcharts and tabular format to enhance the understanding of the student. Also, the book contains important questions that appeared in the Civil Services Main Examination. Especially, the history of making of the Constitution and the Local Governments have been given in comparative table mode. This book would be of good help to the students preparing not only for the Civil Service Examination, but all competitive exams and the students of LLB (Law), alike.

Reimagining Contract Law Pedagogy

A New Agenda for Teaching

Routledge Reimagining Contract Law Pedagogy examines why existing contract teaching pedagogy has remained in place for so long and argues for an overhaul of the way it is taught. With contributions from a range of jurisdictions and types of university, it provides a survey of contract law courses across the common law world, reviewing current practice and expressing concern that the emphasis the current approach places on some features of contract doctrine fails to reflect reality. The book engages with the major criticism of the standard contract course, which is that it is too narrow and rarely engages with ordinary life, or at least ordinary contracts, and argues that students are left without vital knowledge. This collection is designed to be a platform for sharing innovative teaching experiences, with the aim of building a new approach that addresses such issues. This book will have international appeal and will be of interest to academics, researchers and postgraduates in the fields of law and education. It will also appeal to teachers of contract law, as well as governmental and legal profession policymakers.

National Space Legislation

A Comparative and Evaluative Analysis

Springer This book provides a unique in-depth comparative and evaluative analysis based upon primary sources. Therefore, it does not only provide a more complete understanding of the subject compared to other publications but, because it provides a full perspective, can also serve as a basis for further research. The interest in national space legislation, and the importance thereof to regulating space activities conducted by private entities, gives a clear incentive to conduct a comparative analysis of the national space legislation of various states. The purpose of this report is to provide such a comparative analysis that will detail the similarities and differences between the national space laws of selected states with a focus on European comprehensive national space legislation. The states discussed are: Sweden, the United Kingdom, Australia, China, Belgium, the Netherlands, France, Austria, Indonesia, Denmark, New Zealand and Luxembourg. This report is intended to assist the efforts of states that are seeking to enact or revise national space legislation not only by presenting the approaches taken by other states, but also by presenting, as far as possible, the rationale behind their approaches. The readership of this book consists of academics and professionals in space law and can further assist policymakers wishing to revise or enact national space legislation.

The Problems of Jurisprudence

A Selection of Readings Supplemented by Comments Prepared by the Editor

An Introduction to Tort Law

The second edition of An Introduction to Tort Law offers a clear exposition to the rapidly developing law of tort in Britain. For those coming to the subject for the first time it provides a succinct and thoughtful overview; ideal as an introduction, it will also be of use and interest to those engaged in the course or completing it, for it pulls themes together, illustrates important distinctions and provokes reflection on what has already been learnt. Many of the areas subjected to analysis and discussion are highly topical, such as the invasion of the privacy of celebrities, and liability for medical mishaps and industrial diseases. On these and many other subjects of relevance in modern society, Weir's comments act as a springboard for further study and reflection, as well as presenting an authoritative overview, enlivened by a fascinating and critical commentary, of the present situation and how we reached it. The second edition naturally includes recent developments in tort law, the most significant of which is doubtless the incorporation into English law of the European Convention on Human Rights. This has not only affected the outcome in a number of cases, but also brought about changes in our vocabulary, interpretation of enactments, and treatment of precedent, which are rather less easily documented.

Legal Awareness and Legal Reasoning : For CLAT and Other Law Entrance Examinations, Celebrating 10 Successful years in guiding aspirants to crack CLAT and other premier LLB examinations

It provides a detailed exposition of all the topics supported by an expansive array of pedagogy to help understand, retain and apply the concepts effectively. Coverage includes.

An Introduction to Land Law

Bloomsbury Publishing Gardner and MacKenzie's An Introduction to Land Law has been widely acclaimed by students and teachers for the distinctively informative and stimulating way in which it addresses this challenging subject. Concise and highly readable, it covers the main points of land law found in the syllabuses of law schools in England and Wales. While not intended as a comprehensive textbook, it provides both sufficient detail, and especially the illuminating overview needed, for a real understanding, and many pointers for those seeking more. Most of all, it stands apart from other land law books in the model it offers of critical engagement with the material. As the authors say in their Preface: [W]e aim not just to state the law, but to paint its portrait, or tell its story, or something of that kind. So we set out to offer a careful, thoughtful, honest and critical (but not unsympathetic) appraisal, from a number of directions, both doctrinal and contextual. Once again, too, we present the portrait or story partly for its own interest, but most of all so as to encourage readers to try something similar for themselves - to reflect on the subject more, and so understand it better, and at the same time deepen their thinking skills in general. As well as updating the book's overall coverage, this new edition features reworked discussions of areas where the law has recently undergone substantial change, and also where the authors' thoughts themselves have developed - including ownership, easements, and rectification of the land register. As one reader of the first edition commented, 'it shone light where none had shone before, and lit a clear path to understanding'.

Natural Law and Natural Rights

On Fantasy Island

Britain, Strasbourg, and Human Rights

Oxford University Press In the 2015 UK General Election, one of the major pledges of the Conservative party was the repeal of the Human Rights Act 1998, to be replaced with a UK Bill of Rights. In this book, Professor Conor Gearty puts forth his case for keeping the Human Rights Act by dissecting the so called 'fantasies' that are driving the case for repeal. Analysing the debate through the perspective of British law, history, politics, and culture, he examines what arguments are in place for the repeal of the Act and how

these can be dismissed as no more than 'English exceptionalism'. Structured in three parts, the book first exposes the myths that drive the anti-Human Rights Act argument. Second, in a counter-balance to these arguments, Gearty outlines how the Act operates in practice and what its impact really is 'on the ground'. Third, he looks to the future and the kind of Britain we want to live in, and how, for all its modesty, the survival or otherwise of the Human Rights Act will play a pivotal part in that future.

Cases and Materials on EU Law

Oxford University Press *Cases and Materials on EU Law* is a highly respected EU law text and the only cases and materials book in the field. With his clear, engaging writing style, Stephen Weatherill presents the main constitutional and substantive areas of EU law alongside the themes and principles that have shaped the development of the EU and its policies. The 12th edition provides a wealth of carefully selected case law alongside engaging extracts and materials to help explain the complexities of EU law in a contextualized and thought-provoking manner. Insightful author notes and questions accompany each extract, providing valuable additional detail to challenge understanding and encourage students to engage critically with the material. This title is accompanied by an Online Resource Centre, providing students with extra learning materials including: - an interactive map of Europe - a timeline of the EU - video footage - a guide to further web resources - a table of equivalences - legal updates - guidance for lecturers on using the book when teaching.

The Climate of History in a Planetary Age

University of Chicago Press For the past decade, historian Dipesh Chakrabarty has been one of the most influential scholars addressing the meaning of climate change. Climate change, he argues, upends long-standing ideas of history, modernity, and globalization. The burden of *The Climate of History in a Planetary Age* is to grapple with what this means and to confront humanities scholars with ideas they have been reluctant to reconsider—from the changed nature of human agency to a new acceptance of universals. Chakrabarty argues that we must see ourselves from two perspectives at once: the planetary and the global. This distinction is central to Chakrabarty's work—the globe is a human-centric construction, while a planetary perspective intentionally decenters the human. Featuring wide-ranging excursions into historical and philosophical literatures, *The Climate of History in a Planetary Age* boldly considers how to frame the human condition in troubled times. As we open ourselves to the implications of the Anthropocene, few writers are as likely as Chakrabarty to shape our understanding of the best way forward.

The Cambridge Companion to Public Law

Static General Knowledge

Gk Publications General Knowledge for Competitive exams is highly exhaustive and broad. It becomes very difficult to cover all aspects accurately and topically. To help students prepare better and gain stronghold in general knowledge questions and answers, GKP has come up with Static GK. The book covers topics of static GK for competitive exams in the niches of history and geography of India and the World, Indian Polity, General Science, World Organizations & Institutions, Literature and Language. The reason why these topics have been covered comprehensively is due to the fact that questions from these topics are reflected in nearly every important exam in India. Other highlights of the book include: a. Over 200 tables presenting nearly 5,000 facts b. 5000+ MCQs with solutions c. Nearly 2000 solved questions from original exam papers of UPSC - IAS, PCS, SSC, CTET/STET, PO, CDS, NDA, Banking, Insurance, Railway Recruitment Board, Defence, Police, GATE/ PSUs, CAT, MAT, SET, CLAT, AILET & other examinations Students can easily prepare their Static GK component from this book and supplement their current affairs with a monthly magazine.
