**Confluence of Thought Mohandas Karamchand Gandhi and Martin Luther King, Jr.** [Oxford University Press](#) "The literature on Gandhi and Martin Luther King is vast, and scholars often speak of the two leaders when discussing theories of non-violence. Yet, no attempt has yet been made to understand the way in which Gandhi and King's socio-political ideas converge in terms of their origins, development and application. In *Confluence of Thought*, Bidyut Chakrabarty argues that there is a confluence of thought between Gandhi and King's concerns for humanity and advocacy of non-violence, despite their different historical and socio-economic contexts. He says that these two figures are perhaps the best modern historical examples of individuals who combined religion with the political to produce a dynamic social ideology. Gandhi saw service to humanity as the path to 'self-actualization' and thus spiritually most fulfilling; similarly, King pursued religion-driven social action. Chakrabarty looks particularly at the way in which each deployed religious and political language to draw the widest possible membership to their social movements. While Chakrabarty points out that neither thinker was able to fulfill his chosen mission, both suffering death by assassination, he positions the two as the premier modern influences on theories of non-violence today"--

**The Birth of Chinese Feminism Essential Texts in Transnational Theory** [Columbia University Press](#) The book repositions He-Yin Zhen as central to the development of feminism in China, juxtaposing her writing with fresh translations of works by two of her better-known male interlocutors. The editors begin with a detailed portrait of He-Yin Zhen's life and an analysis of her thought in comparative terms. They then present annotated translations of six of her major essays, as well as two foundational tracts by her male contemporaries, Jin Tianhe (1873-1947) and Liang Qichao (1873-1929), to which He-Yin's work responds and with which it engages. Jin Tianhe, a poet and educator, and Liang Qichao, a philosopher and journalist, understood feminism as a paternalistic cause that "enlightened" male intellectuals like themselves should defend. Zhen counters with an alternative conception of feminism that draws upon anarchism and other radical trends in thought.

**The Modern Satiric Grotesque and Its Traditions** [University Press of Kentucky](#) Thomas Mann predicted that no manner or mode in literature would be so typical or so pervasive in the twentieth century as the grotesque. Assuredly he was correct. The subjects and methods of our comic literature (and much of our other literature) are regularly disturbing and often repulsive -- no laughing matter. In this ambitious study, John R. Clark seeks to elucidate the major tactics and topics deployed in modern literary dark humor. In Part I he explores the satiric strategies of authors of the grotesque, strategies that undercut conventional usage and form: the de-basement of heroes, the denigration of language and style, the disruption of normative narrative technique, and even the debunking of authors themselves. Part II surveys major recurrent themes of grotesquerie: tedium, scatology, cannibalism, dystopia, and Armageddon or

the end of the world. Clearly the literature of the grotesque is obtrusive and ugly, its effect morbid and disquieting -- and deliberately meant to be so. Grotesque literature may be unpleasant, but it is patently insightful. Indeed, as Clark shows, all of the strategies and topics employed by this literature stem from age-old and spirited traditions. Critics have complained about this grim satiric literature, asserting that it is dank, cheerless, unsavory, and negative. But such an interpretation is far too simplistic. On the contrary, as Clark demonstrates, such grotesque writing, in its power and its prevalence in the past and present, is in fact conventional, controlled, imaginative, and vigorous -- no mean achievements for any body of art. Critical Pedagogy and the Everyday Classroom

Springer Science & Business Media **Critical Pedagogy** addresses the shortcomings of mainstream educational theory and practice and promotes the humanization of teacher and student. Where Critical Pedagogy is often treated as a discourse of academics in universities, this book explores the applications of Critical Pedagogy to actual classroom situations. Written in a straight-forward, concise, and lucid form by an American high school teacher, drawing examples from literature, film, and, above all, the everyday classroom, this book is meant to provoke thought in teachers, students and education activists as we transform our classrooms into democratic sites. From grading to testing, from content area disciplines to curriculum planning and instruction, from the social construction of knowledge to embodied cognition, this book takes the theories behind Critical Pedagogy and illustrates them at work in common classroom environments. **The Golden Treasury of the Best Songs and Lyrical Poems in the English Language South and South Central Africa** [BoD - Books on Demand](#) **Reproduction of the original: South and South Central Africa** by **H. Frances Davidson** **Liberty and the Great Libertarians** [Ludwig von Mises Institute](#) In 1913, Charles T. Sprading (1871-1959) wrote a book of remarkable prescience that anticipated the systematic development of an American libertarian tradition. He called it **Liberty and the Great Libertarians**. What he provided was a biography and intellectual analysis of some thirty great thinkers. Most valuable is his extraordinary job of editing. He chooses the best and most enlightening of their writings and brings them to life. The thinkers covered include Edmund Burke, Thomas Paine, Thomas Jefferson, William Godwin, Wilhelm von Humboldt, John Stuart Mill, Ralph Waldo Emerson, William Lloyd Garrison, Wendell Phillips, Josiah Warren, Max Stirner, Henry D. Thoreau, Herbert Spencer, Lysander Spooner, Henry George, Benjamin Tucker, Pierre Kropotkin, Abraham Lincoln, Auberon Herbert, G. Bernard Shaw, Oscar Wilde, Maria Montessori, and others. Now, not all of these people would be considered libertarians by the modern understanding. Some even called themselves socialists, as absurd as that may sound to us today. But they all exhibited in their writings a deep and abiding attachment to the idea of human liberty. They agree in the primacy of the individual. They agreed that the greatest threat to individual rights is the state. And they believed in fighting for these rights. They believed in the freedom of assembly, freedom of press, freedom of religion, freedom to think and act. They hated war and social control. They rejected every form of authoritarianism, and, in all these areas, they made huge contributions. As Sprading says in his introduction: The greatest violator of the principle of equal liberty is the State. Its functions are to control, to rule, to dictate, to regulate, and in exercising these functions it interferes with and injures individuals who have done no wrong. The objection to government is, not that it controls those who invade the liberty of others, but that it controls the non-invader. It may be necessary to govern one who will not govern himself, but that in no wise justifies governing one who is capable of and willing to govern himself. To argue that because some need restraint all

must be restrained is neither consistent nor logical. Governments cannot accept liberty as their fundamental basis for justice, because governments rest upon authority and not upon liberty. To accept liberty as the fundamental basis is to discard authority; that is, to discard government itself; as this would mean the dethronement of the leaders of government, we can expect only those who have no economic compromises to make, to accept equal liberty as the basis of justice. The introduction alone is extraordinary, given the times. On war he writes: "How is war to be abolished? By going to war? Is bloodshed to be stopped by the shedding of blood? No; the way to stop war is to stop going to war; stop supporting it and it will fall, just as slavery did, just as the Inquisition did. The end of war is in sight; there will be no more world wars. The laboring-man, who has always done the fighting, is losing his patriotism; he is beginning to realize that he has no country or much of anything else to fight for, and is beginning to decline the honor of being killed for the glory and profits of the few. Those who profit by war, those who own the country, will not fight for it; that is, they are not patriotic if it is necessary for them to do the killing or to be killed in war. In all the wars of history there are very few instances of the rich meeting their death on the battlefield." This is a fat book, 542 pages, with a vast index. It remains the best chronicle of libertarian thought ever put together, which is why Murray Rothbard chose this book as one of his favorites. This edition is a reprint of the original 1913 volume. **Animal Dispersal Small Mammals As a Model** [Springer Science & Business Media](#) **Introductory chapters. The process of dispersal. The Sheltered Life A Comparative History of Literatures in the Iberian Peninsula** [John Benjamins Publishing](#) "A Comparative History of Literatures in the Iberian Peninsula" is the second comparative history of a new subseries with a regional focus, published by the Coordinating Committee of the International Comparative Literature Association. As its predecessor for East-Central Europe, this two-volume history distances itself from traditional histories built around periods and movements, and explores, from a comparative viewpoint, a space considered to be a powerful symbol of inter-literary relations. Both the geographical pertinence and its symbolic condition are obviously discussed, when not even contested. Written by an international team of researchers who are specialists in the field, this history is the first attempt at applying a comparative approach to the plurilingual and multicultural literatures in the Iberian Peninsula. The aim of comprehensiveness is abandoned in favor of a diverse and extensive array of key issues for a comparative agenda. "A Comparative History of Literatures in the Iberian Peninsula" undermines the primacy claimed for national and linguistic boundaries, and provides a geo-cultural account of literary inter-systems which cannot otherwise be explained. **The Life and Works of Mencius With Essays and Notes** [Franklin Classics Trade Press](#) This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. Philosophy in a New Key A Study in the Symbolism of Reason, Rite, and Art [Signet Book](#) Animal Narratology [MDPI](#) Animal Narratology interrogates what it means to narrate, to speak—speak for, on behalf of—and to voice, or represent life beyond the human, which is in itself as different as insects, bears, and dogs are from each other, and yet more, as individual as a single mouse, horse, or puma. The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of, attitude toward, and responsibility for the animals that are read and written about, thus demonstrating that just as “the animal” does not exist, neither does “the human”. In their zoopoetic focus, the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology, yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non-human in the first place. Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another’s perspective to the degree that such an endeavor is possible. Ultimately, the contributions call for a recognition of the many spaces, moments, and modes in which human lives are entangled with those of animals—one of which is located within the creative bounds of storytelling. The Journals of Sylvia Plath [Anchor](#) Sylvia Plath began keeping a diary as a young child. By the time she was at Smith College, when this book begins, she had settled into a nearly daily routine with her journal, which was also a sourcebook for her writing. Plath once called her journal her “Sargasso,” her repository of imagination, “a litany of dreams, directives, and imperatives,” and in fact these pages contain the germs of most of her work. Plath’s ambitions as a writer were urgent and ultimately all-consuming, requiring of her a heat, a fantastic chaos, even a violence that burned straight through her. The intensity of this struggle is rendered in her journal with an unsparing clarity, revealing both the frequent desperation of her situation and the bravery with which she faced down her demons. Written in electrifying prose, The Journals of Sylvia Plath provide unique insight, and are essential reading for all those who have been moved and fascinated by Plath’s life and work. Honour [Penguin UK](#) From the Orange Prize long-listed and award-winning author of The Forty Rules of Love and The Bastard of Istanbul Elif Shafak, Honour is a novel of love, betrayal and a clash of

cultures. 'My mother died twice. I promised myself I would not let her story be forgotten . . .' Leaving her twin sister behind, Pembe leaves Turkey for love - following her husband Adem to London. There the Topraks hope to make new lives for themselves and their children. Yet, no matter how far they travel, the traditions and beliefs the Topraks left behind stay with them - carried in the blood. Their eldest is the boy Iskender, who remembers Turkey and feels betrayal deeper than most. His sister is Esma, who is loyal and true despite the pain and heartache. And, lastly, Yunus, who was born in London, and is shy and different. Trapped by the mistakes of the past, the Toprak children find their lives shattered and transformed by a brutal act of murder . . . A powerful novel set in Turkey and London in the 1970s, Honour explores pain and loss, loyalty and betrayal, the trials of the immigrant, the clash of tradition and modernity, as well as the love and heartbreak that too often tears families apart. 'A powerful book; thoughtful, provoking and compassionate' Joanne Harris, author of *Chocolat* 'Rich and wide as the Euphrates river along whose banks it begins and ends, Elif Shafak has woven with masterful care and compassion one immigrant family's heartbreaking story - a story nurtured in the terrible silences between men and women trying to grow within ancient ways, all the while growing past them. In this work Berdyaev outlines his philosophical journey and describes the influences which brought him to his intellectual position. In his view, the only way of escape from the many forms of slavery--spiritual, economic, political--which shackle and impoverish the spirit lies in the fuller realization of personality, as he defines it. Berdyaev essentially embraced a religious view of man in the world and his work played a large part in the renaissance of religious and philosophical

thought in Russian intellectual life early in the 20th century. In 1922 he and other intellectuals were expelled from the USSR. In the end he advocated for a "personal transvaluation of values." **The Art of Writing English A Manual for Students, with Chapters on Paraphrasing, Essay-writing, Précis-writing, Punctuation, and Other Matters** **The Happiest People on Earth** [Hodder Christian Books](#) **The amazing life of the Armenian dairyman who founded the Full Gospel Business Men's Fellowship International, a unique ministry to men and women in the business world.
