## **ON COMPILING AN ANNOTATED BIBLIOGRAPHY**

---

*Modern Language Association* James Harner's popular pamphlet, first published in 1985, has been revised and updated in the light of advances in computer technology and the availability of humanities databases. Harner offers useful information on planning research, organizing an annotated bibliography, compiling entries, using a computer to prepare the manuscript, and editing. While the booklet focuses on the preparation of a comprehensive bibliography on a single literary author, the procedures and techniques are easily adapted to selective or subject bibliographies and to other periods and disciplines.

## **BUILDING TECHNOLOGY RICH LEARNING CONTEXTS THAT WORK**

---

*IOS Press* " The nature of technology has changed since Artificial Intelligence in Education (AIED) was conceptualised as a research community and Interactive Learning Environments were initially developed. Technology is smaller, more mobile, networked, pervasive and often ubiquitous as well as being provided by the standard desktop PC. This creates the potential for technology supported learning wherever and whenever learners need and want it. However, in order to take advantage of this potential for greater flexibility we need to understand and model learners and the contexts with which they interact in a manner that enables us to design, deploy and evaluate technology to most effectively support learning across multiple locations, subjects and times. The AIED community has much to contribute to this endeavour. This publication contains papers, posters and tutorials from the 2007 Artificial Intelligence

in Education conference in Los Angeles, CA, USA. "

## **EMERGING CONCEPTUAL, ETHICAL AND POLICY ISSUES IN BIONANOTECHNOLOGY**

---

*Springer Science & Business Media* Nanobiotechnology is the convergence of existing and new biotechnology with the 1 ability to manipulate matter at or near the molecular level. This ability to manipulate matter on a scale of 100 nanometers (nm) or less is what constitutes the nanotechnology revolution occurring today, the potentially vast economic and social implications of which are yet to be fully understood (Royal Society, 2004). The most immediate way to understand the implications of nanobiotechnology for ethics is to consider the real life concerns of communities that are mobilizing within civil society. The conflicts and ethical debates surrounding nanotechnology will, almost by definition, emerge on the fault lines between different civil society actors, researchers and financial interests associated with nanobiotechnology, as well as (potentially) government regulators. These fault lines are all reflected within the concerns (as expressed d- cursively) of the communities mobilizing. This chapter will explore converging d- courses regarding converging technologies. Converging Technologies (CT) are already a familiar theme in the next gene- tion of biotechnology, nanotechnology, pharmacogenomics and proteomics research 2 and development. Nanobiotechnology means that previously separate disciplines (IT, physics, chemistry, and biology) are merging and

converging to create new applications and even new life forms through converged technological platforms. Schummer (2004), and Glimell and Fogelberg (2003, p. 43), note the predominance of interdisciplinarity as a core theme of nano-discourse.

## **ALCOHOL AND DRUG ABUSE PROBLEMS: OXFORD BIBLIOGRAPHIES ONLINE RESEARCH GUIDE**

---

*Oxford University Press, USA* This ebook is a selective guide designed to help scholars and students of social work find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related. A reader will discover, for instance, the most reliable introductions and overviews to the topic, and the most important publications on various areas of scholarly interest within this topic. In social work, as in other disciplines, researchers at all levels are drowning in potentially useful scholarly information, and this guide has been created as a tool for cutting through that material to find the exact source you need. This ebook is a static version of an article from Oxford Bibliographies Online: Social Work, a dynamic, continuously updated, online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study and practice of social work. Oxford Bibliographies Online covers most subject disciplines within the social science and humanities, for more information visit [www.aboutobo.com](http://www.aboutobo.com).

---

### **A CRITICAL ANNOTATED BIBLIOGRAPHY**

---

*IAP* **EDUCATING ABOUT SOCIAL ISSUES IN THE 20th and 21st Centuries: A Critical Annotated Bibliography, Volume 3** is the third volume in a series that addresses an eclectic host of issues germane to teaching and learning about social issues at the secondary level of schooling, ranging over roughly a one hundred year period (between 1915 and 2013). Volume 3 specifically addresses how an examination of social issues can be incorporated into the extant curriculum. Experts in various areas each contribute a chapter in the book. Each chapter is comprised of a critical essay and an annotated bibliography of key works germane to the specific focus of the chapter.

## **ENTERPRISE RESOURCE PLANNING FOR GLOBAL ECONOMIES: MANAGERIAL ISSUES AND CHALLENGES**

---

### **MANAGERIAL ISSUES AND CHALLENGES**

---

*IGI Global* Local functional systems that create inefficient islands of information are being replaced by expensive enterprise-wide applications that unify the functional areas; however, while we have not yet been able to completely and seamlessly integrate across functions, we find that the new islands of information are no longer functional but political, cultural, linguistic, and geographical. The global village is a reality and enterprise resource planning (ERP) implementations face new issues and challenges. **Enterprise Resource Planning for Global Economies: Managerial Issues and Challenges** provides authoritative research on the theoretical frameworks and pragmatic discussions on global implementations of information systems, particularly ERP systems. This book offers professionals, managers, and researchers, who want to improve their understanding of the issues and challenges that arise when information systems cross national boundaries, with an authoritative, essential research resource.

## **RESOURCES IN EDUCATION**

---

### **RESEARCH FOR MEDICAL IMAGING AND RADIATION SCIENCES**

---

*Springer Nature* This book addresses essential principles of research according to the scientific method for medical imaging technology research. The scope of this book covers the nature of scientific research; quantitative and qualitative approaches essentials; research planning; literature review fundamentals; research methods; data collection, analysis, and interpretation; and communicating research findings. The book meets the educational requirements on Research Principles and Concepts (for entry to practice) of the following professional radiologic

technology associations: the American Society of Radiologic Technologists (ASRT), the Canadian Association of Medical Radiation Technologists (CAMRT), the College of Radiographers in the United Kingdom, and radiography societies and associations in Asia, Australia, Europe, and Africa. This is an ideal book for radiologic technologists, nuclear medicine technologists, and radiation therapists seeking to get started in research in their profession. Additionally, biomedical imaging engineering technologists, radiologists, and medical imaging physicists may use this as a “guiding principles” textbook.

## **USING THE ENGINEERING LITERATURE, SECOND EDITION**

---

*CRC Press* With the encroachment of the Internet into nearly all aspects of work and life, it seems as though information is everywhere. However, there is information and then there is correct, appropriate, and timely information. While we might love being able to turn to Wikipedia® for encyclopedia-like information or search Google® for the thousands of links on a topic, engineers need the best information, information that is evaluated, up-to-date, and complete. Accurate, vetted information is necessary when building new skyscrapers or developing new prosthetics for returning military veterans. While the award-winning first edition of *Using the Engineering Literature* used a roadmap analogy, we now need a three-dimensional analysis reflecting the complex and dynamic nature of research in the information age. *Using the Engineering Literature, Second Edition* provides a guide to the wide range of resources available in all fields of engineering. This second edition has been thoroughly revised and features new sections on nanotechnology as well as green engineering. The information age has greatly impacted the way engineers find information. Engineers have an effect, directly and indirectly, on almost all aspects of our lives, and it is vital that they find the right information at the right time to create better products and processes. Comprehensive and up to date, with expert chapter authors, this book fills a gap in the literature, providing critical information in a user-friendly format.

## **INFORMATION SOURCES IN THE SOCIAL SCIENCES**

---

*Walter de Gruyter GmbH & Co KG* The aim of each volume of this series *Guides to Information Sources* is to reduce the time which needs to be spent on patient searching and to recommend the best starting point and sources most likely to yield the desired information. The criteria for selection provide a way into a subject to those new to the field and assists in identifying major new or possibly unexplored sources to those who already have some acquaintance with it. The series attempts to achieve evaluation through a careful selection of sources and through the comments provided on those sources.

## **THE COLD WAR AND THE COLOR LINE**

---

---

### **AMERICAN RACE RELATIONS IN THE GLOBAL ARENA**

---

*Harvard University Press* After World War II the United States faced two preeminent challenges: how to administer its responsibilities abroad as the world's strongest power, and how to manage the rising movement at home for racial justice and civil rights. The effort to contain the growing influence of the Soviet Union resulted in the Cold War, a conflict that emphasized the American commitment to freedom. The absence of that freedom for nonwhite American citizens confronted the nation's leaders with an embarrassing contradiction. Racial discrimination after 1945 was a foreign as well as a domestic problem. World War II opened the door to both the U.S. civil rights movement and the struggle of Asians and Africans abroad for independence from colonial rule. America's closest allies against the Soviet Union, however, were colonial powers whose interests had to be balanced against those of the emerging independent Third World in a multiracial, anticommunist alliance. At the same time, U.S. racial reform was essential to preserve the domestic consensus needed to sustain the Cold War struggle. *The Cold War and the Color Line* is the first comprehensive examination of how the Cold War intersected with the final destruction of global white supremacy. Thomas Borstelmann pays close

attention to the two Souths--Southern Africa and the American South--as the primary sites of white authority's last stand. He reveals America's efforts to contain the racial polarization that threatened to unravel the anticommunist western alliance. In so doing, he recasts the history of American race relations in its true international context, one that is meaningful and relevant for our own era of globalization. Table of Contents: Preface Prologue 1. Race and Foreign Relations before 1945 2. Jim Crow's Coming Out 3. The Last Hurrah of the Old Color Line 4. Revolutions in the American South and Southern Africa 5. The Perilous Path to Equality 6. The End of the Cold War and White Supremacy Epilogue Notes Archives and Manuscript Collections Index Reviews of this book: In rich, informing detail enlivened with telling anecdote, Cornell historian Borstelmann unites under one umbrella two commonly separated strains of the U.S. post-WWII experience: our domestic political and cultural history, where the Civil Rights movement holds center stage, and our foreign policy, where the Cold War looms largest...No history could be more timely or more cogent. This densely detailed book, wide ranging in its sources, contains lessons that could play a vital role in reshaping American foreign and domestic policy. --Publishers Weekly Reviews of this book: [Borstelmann traces] the constellation of racial challenges each administration faced (focusing particularly on African affairs abroad and African American civil rights at home), rather than highlighting the crises that made headlines...By avoiding the crutch of "turning points" for storytelling convenience, he makes a convincing case that no single event can be untied from a constantly thickening web of connections among civil rights, American foreign policy, and world affairs. --Jesse Berrett, Village Voice Reviews of this book: Borstelmann...analyzes the history of white supremacy in relation to the history of the Cold War, with particular emphasis on both African Americans and Africa. In a book that makes a good supplement to Mary Dudziak's Cold War Civil Rights, he dissects the history of U.S. domestic race relations and foreign relations over the past half-century...This book provides new insights into the dynamics of American foreign policy and international affairs and will undoubtedly be a useful and welcome addition to the literature on U.S. foreign policy and race relations. Recommended. --Edward G. McCormack, Library Journal

## **LEGAL AND ETHICAL ISSUES FOR THE IBCLC**

---

*Jones & Bartlett Publishers* **Legal and Ethical Issues for the IBCLC** is the only text that covers the day-to-day legal and ethical challenges faced by the International Board Certified Lactation Consultant (IBCLC) in the workplace—in any work setting or residence. Since lactation management crosses many disciplines in the healthcare arena, most IBCLCs carry other licenses and titles. Consequently, what they can and cannot do while performing their lactation consultant role is of vital importance, information that is often difficult to find. **Legal and Ethical Issues for the**

IBCLC is a practical resource that provides guidance on what is proper, legal, and ethical IBCLC behavior. It reflects the 2011 IBLCE Code of Professional Conduct and discusses how to devise an appropriate, safe, legal, and ethical plan of action in the consultation of a breastfeeding dyad.

## **EVIDENCE-BASED MEDICAL ETHICS:**

---

---

## **CASES FOR PRACTICE-BASED LEARNING**

---

*Springer Science & Business Media* In the modern practice of medicine, new challenges complicate the ethical care of patients. Today's times require a contemporary take on the concept of medical ethics. The idea for this textbook was born out of a need for a teaching resource that merges medical ethics theory with the practical needs of modern clinical medicine. In *Evidence-Based Medical Ethics: Cases for Practice-Based Learning*, the authors address what has been missing in existing text books and ethics courses to date - clear-cut ethical and legal guidelines that provide a method for the reader to learn how to systematically manage dilemmas

seen in the everyday practice of medicine. The reader is guided through several "typical" patient scenarios and prompted by various questions that should be entertained by the treating health care provider. Then, relevant evidence-based medicine, legal precedent, and the ethical theory that applies to the situation are revealed. Often, finding the "best" ethical solution for each problem is automatic, as the solution often becomes self-evident during information-gathering. This general method is reinforced throughout the text with multiple different cases, using a practice-based approach by building on the reader's developing skills. Additionally, we have sought to emphasize a culturally competent manner in resolving these dilemmas, respectfully addressing issues of age, gender, and culture whenever possible. The main goal of *Evidence-Based Medical Ethics: Cases for Practice-Based Learning* is to assist the reader in adapting a patient-centered and evidence-based approach to dilemmas faced in their future practice of medicine.

### THE LONG SHADOW OF LITTLE ROCK

---

#### A MEMOIR

---

*University of Arkansas Press* At an event honoring Daisy Bates as 1990's Distinguished Citizen then-governor Bill Clinton called her "the most distinguished Arkansas citizen of all time." Her classic account of the 1957 Little Rock School Crisis, *The Long Shadow of Little Rock*, couldn't be found on most bookstore shelves in 1962 and was banned throughout the South. In 1988, after the University of Arkansas Press reprinted it, it won an American Book Award. On September 3, 1957, Gov. Orval Faubus called out the National Guard to surround all-white Central High School and prevent the entry of nine black students, challenging the Supreme Court's 1954 order to integrate all public schools. On September 25, Daisy Bates, an official of the NAACP in Arkansas, led the nine children into the school with the help of federal troops sent by President Eisenhower-the first time in eighty-one years that a president had dispatched troops to the South to protect the constitutional rights of black Americans. This new edition of Bates's own story about these historic events is being issued to coincide with the fiftieth anniversary of the Little Rock School crisis in 2007.
