Accountable Marketing

Linking marketing actions to financial performance

Routledge *Accountable Marketing* is designed to be the definitive volume on the emerging role of accountability and performance metrics in marketing. Sponsored and developed by the Marketing Accountability Standards Board (MASB), it provides a multi-disciplinary, international perspective on this topic of critical importance. Stewart and Gugel have curated the work of several leading marketing, finance and accounting professionals and academics on the topics of marketing accountability and financial reporting to create a volume that represents the best of MASB's work over the last few years. The book not only emphasizes the importance of accountability in the marketing function, but also creates a dialogue among academics and practitioners about the importance of marketing in driving consistent growth in the organization, and the ways in which improved methods for measuring and forecasting contribute to the effectiveness of these marketing activities. This book marks the first-ever reference point for practicing professionals, faculty and students interested in marketing accountability, the development of standards for marketing reporting, and developing stronger linkages between marketing activities and outcomes, and the financial performance of the firm.

Chandresh Agrawal SGN. The Ebook FCI-Assistant General Manager (General Administration) Exam: Management Subject Covers Objective Questions From Various Competitive Exams With Answers.

Handbook on Business to Business Marketing

Edward Elgar Publishing This insightful Handbook provides a comprehensive state-of-the-art review of business-to-business marketing. It supplies an overview and pioneers new ideas relating to the activity of building mutually value-generating relationships between organizations Ð from businesses to government agencies to not-for-profit organizations Ð and the many individuals within them. Comprising 38 chapters written by internationally renowned scholars, this Handbook presents perspectives of a variety of issue areas from both an academic and a managerial perspective (state of theory and state of practice). The material in this compendium includes theoretical and practical perspectives in business-to-business marketing, marketing mix and strategy, interfirm relationships, personal selling and sales management, technology marketing, and methodological issues central to business-to-business markets. Published in conjunction with Penn State's Institute for the Study of Business Markets, this extensive volume will expand research and teaching in business-to-business marketing in academia and will improve the practice of business-to-business marketing for firms in the industry. This path-breaking Handbook is targeted primarily at marketing academics and graduate students who want a complete overview of the academic state of the business-to-business marketing domain. It will also prove an invaluable resource for forward-thinking business-to-business practitioners who want to be aware of the current state of knowledge in their domains.

Harnessing Social Media as a Knowledge Management Tool

IGI Global Knowledge is a valuable resource that must be managed well for any organization to thrive. Proper knowledge management practices can improve business processes by creating value, however, the available tools meant to aid in the creation, collection, and storage of information have drastically changed since the emergence of social media. By using this collaborative online application for engaging with information, organizations are able to precisely disseminate knowledge to the correct audience. Harnessing Social Media as a Knowledge Management Tool explores the usage of social media in managing knowledge from multiple dimensions highlighting the benefits, opportunities and challenges that are encountered in using and implementing social media. This publication endeavors to provide a thorough insight into the role of social media in knowledge management from both an organizational and individualistic perspective. This book elucidates emerging strategies perfect for policy makers, managers, advertisers, academics, students, and organizations who wish to effectively manage knowledge through social media.

Sustainable Finance, Digitalization and the Role of Technology

Proceedings of The International Conference on Business and Technology (ICBT 2021)

Springer Nature This book constitutes the refereed proceedings of the International Conference on Business and Technology (ICBT2021) organized by EuroMid Academy of Business & Technology (EMABT), held in Istanbul, between 06-07 November 2021. In response to the call for papers for ICBT2021, 485 papers were submitted for presentation and inclusion in the proceedings of the conference. After a careful blind refereeing process, 292 papers were selected for inclusion in the conference proceedings from forty countries. Each of these chapters was evaluated through an editorial board, and each chapter was passed through a double-blind peer-review process. The book highlights a range of topics in the fields of technology, entrepreneurship, business administration, accounting, and economics that can contribute to business development in countries, such as learning machines, artificial intelligence, big data, deep learning, game-based learning, management information system, accounting information system, knowledge management, entrepreneurship, and social enterprise, corporate social responsibility and sustainability, business policy and strategic management, international management and organizations, organizational behavior and HRM, operations management and logistics research, controversial issues in management and organizations, turnaround, corporate entrepreneurship, innovation, legal issues, business ethics, and firm governance, managerial accounting and firm financial affairs, non-traditional research, and creative methodologies. These proceedings are reflecting quality research contributing theoretical and practical implications, for those who are wise to apply the technology within any business sector. It is our hope that the contribution of this book proceedings will be of the academic level which even decision-makers in the various economic and executive-level will get to appreciate.

opening keynote address will be delivered by Dr Catherine Middleton, Ted Rogers School of Information Technology Management, Ryerson University, Toronto, Canada.

The Global Emerging Market

Strategic Management and Economics

Routledge Despite the growing importance of the global emerging market (GEM) for the world's business, economies, and politics, it has received a relatively scant amount of academic attention in business and economics courses. This textbook is the first to focus on the GEM and its strategic and economic characteristics. The Global Emerging Market: Strategic Management and Economics describes the fundamental economic base and trends of the global marketplace (GMP) as well as business and management development for the conditions of emerging-market countries (EMCs). Focusing on the formation of a strategic mindset and the decision making process, it explains how to analyze the basic economic factors and the global order, especially in times of crisis. This text also explains how to classify countries related to this new market of tremendous opportunities. Furthermore, the book includes recommendations on how to develop entry and exit strategies for the GEM, work in it and create efficient management systems. Features include: Extensive tables, charts, and graphs illustrating the strategic considerations of the GMP and the GEM End-of-chapter study questions Practical examples based on the author's involvement in the development of the GEM, from both sides of the international transactions This academic book is the ideal guide for current business leaders and students on how to make strategic, symmetric, and asymmetric time-sensitive decisions related to the GEM.

Intelligent Transport Systems, From Research and Development to the Market Uptake

Second EAI International Conference, INTSYS 2018, Guimarães, Portugal, November 21-23, 2018, Proceedings

Springer This book constitutes the proceedings of the Second EAI International Conference on Intelligent Transport Systems, INTSYS 2108, which was held in Guimarães, Portugal, in November 2018. Performance Management of Integrated Systems and its Applications in Software Engineering

Springer Nature This book presents a key solution for current and future technological issues, adopting an integrated system approach with a combination of software engineering applications. Focusing on how software dominates and influences the performance, reliability, maintainability and availability of complex integrated systems, it proposes a comprehensive method of improving the entire process. The book provides numerous qualitative and quantitative analyses and examples of varied systems to help readers understand and interpret the derived results and outcomes. In addition, it examines and reviews foundational work associated with decision and control systems for information systems, to inspire researchers and industry professionals to develop new and integrated foundations, theories, principles, and tools for information systems. It also offers guidance and suggests best practices for the research community and practitioners alike. The book's twenty-two chapters examine and address current and future research topics in areas like vulnerability analysis, secured software requirements analysis, progressive models for planning and enhancing system efficiency, cloud computing, healthcare management, and integrating data-information-knowledge in decision-making. As such it enables organizations to adopt integrated approaches to system and software engineering, helping them

implement technological advances and drive performance. This in turn provides actionable insights on each and every technical and managerial level so that timely action-based decisions can be taken to maintain a competitive edge. Featuring conceptual work and best practices in integrated systems and software engineering applications, this book is also a valuable resource for all researchers, graduate and undergraduate students, and management professionals with an interest in the fields of e-commerce, cloud computing, software engineering, software & system security and analysis, data-information-knowledge systems and integrated systems.
