The Manual for Scholastic Newspaper Publications [Social Studies Student manual and Adviser's toolbox for a high school program in journalism.](#) **Building Communities of Engaged Readers** [Reading for pleasure](#) [Routledge](#) **Reading for pleasure urgently requires a higher profile to raise attainment and increase children's engagement as self-motivated and socially interactive readers. Building Communities of Engaged Readers highlights the concept of 'Reading Teachers' who are not only knowledgeable about texts for children, but are aware of their own reading identities and prepared to share their enthusiasm and understanding of what being a reader means. Sharing the processes of reading with young readers is an innovative approach to developing new generations of readers. Examining the interplay between the 'will and the skill' to read, the book distinctively details a reading for pleasure pedagogy and demonstrates that reader engagement is strongly influenced by relationships between children, teachers, families and communities. Importantly it provides compelling evidence that reciprocal reading communities in school encompass: a shared concept of what it means to be a reader in the 21st century; considerable teacher and child knowledge of children's literature and other texts; pedagogy practices which acknowledge and develop diverse reader**

identities; spontaneous 'inside-text talk' on the part of all members; a shift in the focus of control and new social spaces that encourage choice and children's rights as readers. Written by experts in the literacy field and illustrated throughout with examples from the project schools, it is essential reading for all those concerned with improving young people's enjoyment of and attainment in reading. **Holes** [Bloomsbury Publishing](#) Stanley Yelnat's family has a history of bad luck going back generations, so he is not too surprised when a miscarriage of justice sends him to Camp Green Lake Juvenile Detention Centre. The warden claims that it is character building, but this is a lie and Stanley must dig up the truth. In this wonderfully inventive, compelling novel that is both serious and funny, Louis Sachar has created a masterpiece that will leave all readers amazed and delighted by the author's narrative flair and brilliantly handled plot. **Rick: A George Novel** [Scholastic UK](#) "Profound, moving, and - as Charlotte would say - radiant, this book will stay with anyone lucky enough to find it." - Publishers Weekly, starred review for **GEORGE Rick's** never questioned much. Largely left out of the discussion are parents of boys, who are most aware that their bright, eager sons hit an invisible wall somewhere near fourth grade, after which they become disengaged, discouraged, and disaffected. There are dozens of books on underachieving boys, but most parents brave enough to lift one off the shelf are instantly intimidated by the footnotes, graphs, case studies, and academic-speak addressed almost entirely to educators. What about the average guilt-ridden, frustrated mother or father of an underachieving boy? **Jump-Starting Boys** is the first book on the market that empowers parents, helping them reclaim the duties and rewards of raising their children and navigate the influences of school and media. Filled with reassurance and support, the authors turn fear and guilt into can-do confidence. Through easy tips and action list sidebars, this is the most practical, readable book on the topic. **George** [Scholastic Fiction](#) "Allow me to introduce you to a remarkable book, full of love, wonder, hope, and the importance of getting to be who you were meant to be. Youth Fiction and Trans Representation [Taylor & Francis](#) Youth Fiction and Trans Representation is the first book that wholly addresses the growth of trans and gender variant representation in literature, television, and films for children and young adults in the twenty-first century. Ranging across an array of media—including picture books, novels, graphic novels, animated cartoons, and live-action television and feature films—Youth Fiction and Trans Representation examines how youth texts are addressing and contributing to ongoing shifts in understandings of gender in the new millennium. While perhaps once considered inappropriate for youth, and continuing to face backlash, trans and gender variant representation in texts for young people has become more common, which signals changes in understandings of childhood and adolescence, as well as gender expression and identity. Youth Fiction and Trans Representation provides a broad outline of developments in trans and gender variant depictions for young people in the late twentieth and early twenty-first centuries and closely analyzes a series of millennial literary and screen texts to consider how they communicate a range of, often competing, ideas about gender, identity, expression, and embodiment to implied child and adolescent audiences. Those in Generation Z are among our youngest consumers, students, colleagues, constituents, voters, and neighbors. Being able to better understand who they are and how they see the world can be helpful in effectively working with, teaching, supervising, and leading them. Generation Z: A Century in the Making offers insight into nearly every aspect of the lives of those in Generation Z, including a focus on their career aspirations, religious beliefs and practices, entertainment and hobbies, social concerns, relationships with friends and family, health and wellness, money management, civic engagement, communication styles, political ideologies, technology use, and educational preferences. Drawing from an unprecedented number of studies with higher education research institutions, market research firms such as Pew and Census, other generational researchers and industry leaders, this is the authoritative defining work on Generation Z that market researchers, consumer behaviour specialists, and employers sorely need - and it is a fascinating read for anyone interested in the sociology of generations.
