Eular Compendium on Rheumatic Diseases Wiley-Blackwell The compendium on Rheumatic Diseases found its origin in the successful EULAR on-line course on rheumatic diseases. The yearly updated reviews of the fifty modules of that course form the content of this book. Each chapter is written by two dedicated expert rheumatologists from two different countries, to get a balanced view. Most of them were assisted by a junior doctor or researcher from their own department, in order to stimulate focus on modern educational goals and techniques. The fifty chapters, encompassing the whole spectrum of rheumatology, brought together in a textbook, are a vital part of rheumatologists' continuing medical education, keeping doctors up to date in daily practice. The structure of the chapters in the Compendium is the same as the one of the modules in the on-line course: starting with learning points, text with many figures, tables and pictures, a summary, and a limited number of key references.

Crescendo of the Virtuoso Spectacle, Skill, and Self-Promotion in Paris During the Age of Revolution Studies on the History of Society and Culture During the Age of Revolution, Paris came alive with wildly popular virtuoso performances. Whether the performers were musicians or chefs, chess players or detectives, these virtuosos transformed their technical skills into dramatic spectacles, presenting the marvelous and the outré for spellbound audiences. Who these characters were, how they attained their fame, and why Paris became the focal point of their activities is the subject of Paul Metzner's absorbing study. Covering the years 1775 to 1850, Metzner describes the careers of a handful of virtuosos: chess masters who played several games at once; a chef who sculpted hundreds of four-foot-tall architectural fantasies in sugar; the first police detective, whose memoirs inspired the invention of the detective story; a violinist who played whole pieces on a single string. He examines these virtuosos as a group in the context of the society that was then the capital of Western civilization. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1999.

The Life of Jesus; Critically Examined Volume 2 Theclassics.us This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1860 edition. Excerpt: ... the first-bor n among the believers in the resurrection of Jesus, may also be explained the divergency, that according to the narrative of the fourth gospel alone, Wary Magdalene hastens back to the two disciples before she has yet seen an angel. For had she beforehand witnessed an angelic appearance, which she would not any more than the women in Matthew have mistrusted, she would have been the first believer, and would have won the precedence of John in this respect: but this is avoided by representing her as coming to the two disciples immediately after perceiving the emptiness of the grave, and under the disquietude excited in her by this circumstance. This presupposition serves also to explain why the fourth gospel makes the women returning from the grave go, not to the disciples in general, but only to Peter and John. As, namely, the intelligence which, according to the original narrative, was brought to all the disciples, occasioned, according to Luke, only Peter to go to the grave, and as moreover, according to Mark (v. 7), the message of the women was destined more especially for Peter: the idea might easily be formed, that the news came to this disciple alone, with whom the object of the fourth evangelist would then require that he should associate John. Only after the two disciples had come to the grave, and his John had attained faith, could the author of the fourth gospel introduce tire appearances of the angel and of Jesus himself, which were said to have been granted to the women. That instead of these collectively he names only Mary Magdalene--although, as has been earlier remarked, he xx. 2. presupposes at least a subsequent meeting between her and other women--this might certainly, under other circumstances, be regarded...

Winning Your Election the Wellstone Way A Comprehensive Guide for Candidates and Campaign Workers U of Minnesota Press As the 2008 presidential race dominates political discussion and media coverage worldwide, thousands of lesser-known local contests are being hard-fought in our neighborhoods, cities, and states. Winning Your Election the Wellstone Way is based on the work of Wellstone Action, a leading-edge progressive training center that has instructed thousands of political activists, campaign managers, and volunteers, of whom more than two hundred have gone on to run for office and win. Jeff Blodgett and Bill Lofy analyze the crucial lessons learned from many successful (and several losing) campaigns and demystifies what it takes to run for—and win—a political seat. This companion guide to Politics the Wellstone Way, the best-selling introduction to political action, features the in-depth knowledge that campaigns need to take energy and engagement to the next level—getting elected. With detailed and informative examples from progressive campaigns at every level throughout the United States, Winning Your Election the Wellstone Way combines grassroots organizing with political strategy, articulating a bold populist agenda. If you have ever considered volunteering for a political candidate, working for a campaign, or even running for public office yourself, Winning Your Election the Wellstone Way is the key resource you need to devise a sophisticated, progressive, and successful strategy and, ultimately, affect people's lives for the better.

Bach and the Patterns of Invention Harvard University Press In this major new interpretation of the music of J.S. Bach, we gain a striking picture of the composer as a unique critic of his age. By reading Bach's music "against the grain" of contemporaries, Laurence Dreyfus explains how Bach's approach to musical invention posed a fundamental challenge to Baroque aesthetics.

Gastrointestinal Microbiology CRC Press This reference supplies a comprehensive and current overview of every aspect of gastrointestinal microbiota. Expertly written chapters cover conventional and molecular techniques for the study of differing microbial populations, as well as the analysis of microbial activity and interaction with host bodies. Illustrative and up-to-date, this source

Unfaithful Angels How Social Work Has Abandoned its Mission Simon and Schuster In this provocative examination of the fall of the profession of social work from its original mission to aid and serve the underprivileged, Harry Specht and Mark Courtney show how America's excessive trust in individualistic solutions to social problems have led to the abandonment of the poor in this country. A large proportion of all certified social workers today have left the social services to enter private practice, thereby turning to the middle class -- those who can afford psychotherapy -- and away from the poor. As Specht and Courtney persuasively demonstrate, if social work continues to drift in this direction there is good reason to expect that the profession will be entirely engulfed by psychotherapy within the next twenty years, leaving a huge gap in the provision of social services traditionally filled by social workers. The authors examine the waste of public funds this trend occasions, as social workers educated with public money abandon community service in increasing numbers.

Tasmanian Government Gazette The Rise of the Global South Philosophical, Geopolitical and Economic Trends of the 21st Century World Scientific This book provides a broad and in-depth introduction to the geopolitical, economic and trade changes wrought with the increasing influence of the countries of the Global South in international affairs. The global role of the developing countries came to the forefront in 1974, when the United Nations General Assembly promulgated The New International Economic Order. Since then, the countries of the Global South, particularly China, India, Brazil, Saudi Arabia, South Africa and Qatar, made an indelible impact upon the world's economic architecture. However, their true influence became starkly illustrated during the onset of the 2000s, when several seismic events occurred. The September Eleventh terrorist attacks — with the resultant debilitating wars in Iraq and Afghanistan — extreme world commodity price increases and the global financial crisis of 2007–2008 all served to wrench the epicenter of global influence increasingly southward. While the developed countries of the Global North became mired in economic stagnation with problems associated with the global financial crisis, their collective influence waned. Since then, the world has been attempting to accommodate, somewhat unevenly, the rising geopolitical and economic clout of the Global South. This book presents a collection of scholarly articles that, taken together, functions as a primer on the workings of the immense global changes at the beginning of the twenty-first century.

Contents:Cooperation in the Global South: History and Process:How the South Was Born: Reflections on the Geography and Culture of Inequality (Anouar Majid)South-South Cooperation: A Counter-Hegemonic Movement? (Deniz Altinbaş)South-South Cooperation: A Bridge Between Regionalism and Globalization? (Rita Giacalone)Conflict and Resolution: Geostategic Cooperation in Africa and the Arab/Islamic World:Africa and South-South Cooperation: Opportunities and Challenges (Amadu Sesay, Olayode Kehinde Olusola, and Mashood Omotosho)Gaddafi's Southern Legacy: Ideology and Power Politics in Africa (Dennis Kumetat)The Gulf States and South-South Cooperation (Kristian Coates Ulrichsen)South-South Cooperation and the Impacts on Sub-Saharan Africa and the Maghreb Region: Missed Opportunities and the Way Forward (Mhamed Biygautane and Nicolas Depetris Chauvin)Searching for an End Game in the West's Unwinnable Wars in the South: The Experience of Counter-Terrorism Strategies in a Selection of Muslim Countries (Marat Terterov, Marine Vallet, and Claudia Nocente)Trade, Tourism, and Migration as South-South Cooperation Drivers:Tourism, Sustainable Development, and Poverty Alleviation (Madan Bezbaruah)Migrants as Agents of South-South Cooperation: The Case of Chinese in Africa (Giles Mohan)Promoting Industrialization: Trade and Industrial Strategies for the Global South (Justin Dargin)South-South Cooperation in the WTO: Doha to Cancun (Adhip Chaudhuri)South-South Cooperation and Emerging Economies: Insights from Health Sector Cooperation between India and Brazil (Sachin Chaturvedi and Halla Thorsteinsdóttir) Readership: Graduate students and ambitious undergraduates in the field of international affairs. Non-experts interested in international relations. Keywords:Global South;Imperialism;Colonialism;Trade;Global North;Geopolitics;21st Century;Development;Underdevelopment;World Trade;BRIC;Developing;ResourcesKey Features:This book does not focus on merely one field; it covers philosophy, economics, geopolitics, and energyIt includes well-known experts who grant unique perspectives to the myriad concerns of South-South cooperationThe book reviews the historical development of South-South cooperation and investigates the linkage between globalization and South-South cooperation, as well as determines whether the dominant model of globalization assists this nascent growth or hinders it

Politics the Wellstone Way How to Elect Progressive Candidates and Win on Issues U of Minnesota Press During the past four years, political activism has grown to a level that has not been seen in the United States since the Vietnam War. Tensions over the war in Iraq and the presidential election motivated hundreds of thousands of people on both sides of the political fence to take to the streets. Politics the Wellstone Way offers a comprehensive set of strategies to help progressives channel that energy into winning issue-based and electoral campaigns. Wellstone Action is a nonprofit organization dedicated to continuing Paul and Sheila Wellstone's fight for progressive change and economic justice by teaching effective political action skills to people across the country. Politics the Wellstone Way is a workshop in book form, providing the detailed framework needed to jump-start a new generation of activists plus plenty of helpful tools for old pros, including articulating a strong message, base building, field organizing, budgeting, fundraising, scheduling, getting out the vote, and grassroots advocacy and lobbying, illustrated by practical and inspirational examples. From the school board all the way to the White House, Politics the Wellstone Way instructs people on becoming better organizers, candidates, campaign workers, and citizen activists, empowering them to make their voices heard. Wellstone Action was established by the Wellstones' two surviving sons, David and Mark. The main vehicle for this ongoing work is Camp Wellstone, a weekend training program that Wellstone Action leads regularly in locations across the country. Jeff Blodgett, Paul Wellstone's longtime campaign manager, is the executive director of Wellstone Action. For more information visit www.wellstoneaction.com.

PharmPrep: ASHP's NAPLEX Review ASHP After years of studying and hard work, you're almost a licensed pharmacist! The final step is passing the North American Pharmacy Licensure Examination, or the NAPLEX®. For the last decade, PharmPrep: ASHP's NAPLEX® Review, has been a trusted resource with new graduates preparing for the NAPLEX examination, both as an online product and a print companion.Using real patient cases accompanied by questions that address all NAPLEX® competency statements, the new fully updated PharmPrep: ASHP's NAPLEX® Review, 4th edition, gives you the flexibility to review information by specific disease state and provides 78 sample cases, as well as calculations and law review sections. As drug therapy becomes more complex, PharmPrep has continued to update and revise cases so they reflect contemporary clinical practice.PharmPrep is an equally important reference for the experienced practitioner as a tool for pharmacists to continue to develop professionally, or for out of practice professionals looking to refresh their skills. Only PharmPrep has case-based questions and detailed explanations that don't just tell you what answers are right or wrong, but why. It is the most affordable, trusted resource available to prepare for the NAPLEX® exam. As a book or in a convenient online/book package, PharmPrep goes where you go—on the subway, in the break room, to the coffeehouse. Or, just cozy up to the PharmPrep book from the comforts of home. Wherever you go, its the best resource to get you passed and ready to practice.To learn more about PharmPrep Online, visit www.pharmpreponline.com and sign up for a free trial today. Don't have an ASHP account? Simply register at www.ashp.org.

Current Problems in Thyroid Research Proceedings of the Second Asia and Oceania Thyroid Association

Meeting, Tokyo, August 19-22, 1982 Touching the World Reference in Autobiography Princeton University Press Paul John Eakin's earlier work *Fictions in Autobiography* is a key text in autobiography studies. In it he proposed that the self that finds expression in autobiography is in fundamental ways a kind of fictive construct, a fiction articulated in a fiction. In this new book Eakin turns his attention to what he sees as the defining assumption of autobiography: that the story of the self does refer to a world of biographical and historical fact. Here he shows that people write autobiography not in some private realm of the autonomous self but rather in strenuous engagement with the pressures that life in culture entails. In so demonstrating, he offers fresh readings of autobiographies by Roland Barthes, Nathalie Sarraute, William Maxwell, Henry James, Ronald Fraser, Richard Rodriguez, Henry Adams, Patricia Hampl, John Updike, James McConkey, and Lillian Hellman. In the introduction Eakin makes a case for reopening the file on reference in autobiography, and in the first chapter he establishes the complexity of the referential aesthetic of the genre, the intricate interplay of fact and fiction in such texts. In subsequent chapters he explores some of the major contexts of reference in autobiography: the biographical, the social and cultural, the historical, and finally, underlying all the rest, the somatic and temporal dimensions of the lived experience of identity. In his discussion of contemporary theories of the self, Eakin draws especially on cultural anthropology and developmental psychology.

Social Construction and Social Work Practice Interpretations and Innovations Columbia University Press Social construction addresses the cultural factors and social dynamics that give rise to and maintain values and beliefs. Drawing on postmodern philosophies and critical, social, and literary theories, social construction has become an important and influential framework for practice and research within social work and related fields. Embracing inclusivity and multiplicity, social construction provides a framework for knowledge and practice that is particularly congruent with social work values and aims. In this accessible collection, Stanley L. Witkin showcases the innovative ways in which social construction may be understood and expressed in practice. He calls on experienced practitioner-scholars to share their personal accounts of interpreting and applying social constructionist ideas in different settings (such as child welfare agencies, schools, and the courts) and with diverse clientele (such as "resistant" adolescents, disadvantaged families, indigenous populations, teachers, children in protective custody, refugee youth, and adult perpetrators of sexual crimes against children). Eschewing the prescriptive stance of most theoretical frameworks, social construction can seem challenging for students and practitioners. This book responds with rich, illustrative descriptions of how social constructionist thinking has inspired practice approaches, illuminating the diversity and creative potential of practices that draw on social constructionist ideas. Writing in a direct, accessible style, contributors translate complex concepts into the language of daily encounter and care, and through a committed transnational focus they demonstrate the global reach and utility of their work. Chapters are provocative and thoughtful, reveal great suffering and courage, share inspiring stories of strength and renewal, and acknowledge the challenges of an approach that complicates evidence-based evaluations and requirements.

The Old Faith and the New A Confession German philosopher and radical theologian David Friedrich Strauss (1808-1874) distinguished himself as one of Europe's most controversial biblical critics and as an intellectual martyr for freethought. **Defense Procurement Fraud The Representative** Oberon Books Includes Historical Highlights by Hochhuth and the essays "Hochhuth" and "Lessing" by Walter Muschg and "The Deputy" by Hannah Arendt. The Representative is Hochhuth's highly controversial epic about the Vatican's alleged complicity in the murder of the Jews by the Nazis.

Orofacial Pain Guidelines for Assessment, Diagnosis, and Management Quintessence Publishing Company Completely revised and updated, this new version of the AAOP Guidelines educates readers on the procedures of evidence-based assessment, diagnosis, and management of orofacial pain conditions based on the latest scientific knowledge. While the structure of the previous version has been maintained, this book offers evidence-based concepts where available and reflects many significant changes in the field of orofacial pain. For example, an entire chapter is now devoted to cervical disorders to emphasize the close relationships between some orofacial pain disorders and cervical pain disorders and to cast greater attention on their differences and similarities. Because they constitute a major part of orofacial pain and affect so many, temporomandibular disorders are the primary topic of several chapters as well as a major focus of the chapter of classification. Other important topics covered in detail include neuropathic pain conditions, odontogenic pain, and mucogingival disorders. This long-awaited edition arms clinicians with new insights and procedures for assessing, diagnosing, and managing patients who present with symptoms of orofacial pain.

Sustainably Improving Health Care Creatively Linking Care Outcomes, System Performance, and Professional Development Radcliffe Pub Sustainably Improving Health Care promotes the importance of integrating improved care outcomes, system performance and professional development so that the future of health care advancement is creative and sustainable. It addresses the challenge of creating and nurturing a culture of continuous improvement that is able to sustain and generate creative professional work for the improvement of health care. Using real-world examples, the book succinctly reveals how the model can be practically applied from a variety of different perspectives. Health care leaders at all levels will find much needed motivation to invest in development, and professionals and educators will also benefit from the practical approach of this inspirational model.

Corporate Takeovers Causes and Consequences University of Chicago Press The takeover boom that began in the mid-1980s has exhibited many phenomena not previously observed, such as hostile takeovers and takeover defenses, a widespread use of cash as a means of payment for targeted firms, and the acquisitions of companies ranking among the largest in the country. With the aim of more fully understanding the implications of such occurrences, contributors to this volume consider a broad range of issues as they analyze mergers and acquisitions and study the takeover process itself.

Community College Faculty At Work in the New Economy Springer John S. Levin, Susan T. Kater, and Richard L. Wagoner collectively argue that as community colleges organize themselves to respond to economic needs and employer demands, and as they rely more heavily upon workplace efficiencies such as part-time labor, they turn themselves into businesses or corporations and threaten their social and educational mission.

Phoenix processional (from Phoenix fanfare and processional for organ, brass and percussion) Ricordi - Bmg Ricordi (Organ). Excerpted from Phoenix Fanfare and Processional, this solo organ version features flexible duration. Played with one repeat observed: duration ca. 6 minutes.

Productivity Improvement in Construction McGraw-Hill College

These Old Stone Walls Essentials of Orthopedic Surgery Springer Science & Business Media This concise third edition offers hands-on guidance for identifying and treating the most commonly seen orthopedic problems in children and adults. Convenient as a study source for medical students, its many photographs and illustrations will also serve as a useful clinical reference for young surgeons, residents, nurses, and physician assistants. Each of the many topics is covered in depth and is designed to educate medical students and steer them towards formulating excellent diagnoses and treatment plans. As a further aid, multiple-choice questions are included at the end of each chapter, and there is a section devoted to case studies.

The Death of Scripture and the Rise of Biblical Studies Oxford University Press The Death of Scripture and the Rise of Biblical Studies examines the creation of the academic Bible. Beginning with the fragmentation of biblical interpretation in the centuries after the Reformation, Michael Legaspi shows how the weakening of scriptural authority in the Western churches altered the role of biblical interpretation. Focusing on renowned German scholar Johann David Michaelis (1717-1791), Legaspi explores the ways in which critics reconceived the role of the Bible. This book offers a new account of the origins of biblical studies, illuminating the relation of the Bible to churchly readers, theological interpreters, academic critics, and people in between. It explains why, in an age of religious resurgence, modern biblical criticism may no longer be in a position to serve as the Bible's disciplinary gatekeeper.

Neurogenic Intermittent Claudication With Special Reference to Stenosis of the Lumbar Vertebral Canal Assistant Deputy Warden Career Examination The Supervising Fire Alarm Dispatcher Passbook(R) prepares you for your test by allowing you to take practice exams in the subjects you need to study. It provides hundreds of questions and answers in the areas that will likely be covered on your upcoming exam, including but not limited to: operation, maintenance, and adjustments of component parts of fire alarm communications systems; principles and techniques of supervision and safety; office procedures and controls; preparation of reports; pertinent department rules, regulations, directives, procedures; and more.

Vibrational Medicine The #1 Handbook of Subtle-Energy Therapies Simon and Schuster The original comprehensive guide to energetic healing with a new preface by the author and updated resources. • More than 125,000 copies sold. • Explores the actual science of etheric energies, replacing the Newtonian worldview with a new model based on Einstein's physics of energy. • Summarizes key points at the end of each chapter to help the serious student absorb and retain the wealth of information presented. Vibrational Medicine has gained widespread acceptance by individuals, schools, and health-care institutions nationwide as the textbook of choice for the study of alternative medicine. Trained in a variety of alternative therapies as well as conventional Western medicine, Dr. Gerber provides an encyclopedic treatment of energetic healing, covering subtle-energy fields, acupuncture, Bach flower remedies, homeopathy, radionics, crystal healing, electrotherapy, radiology, chakras, meditation, and psychic healing. He explains current theories about how various energy therapies work and offers readers new insights into the physical and spiritual perspectives of health and disease.

Bach's Works for Solo Violin Style, Structure, Performance Oxford University Press J.S. Bach's sonatas and partitas for solo violin have been central to the violin repertoire since the mid-18th century. This engaging introduction to these works is the first comprehensive exploration of their place within Bach's music, focusing on their structural and stylistic features as they have been perceived since their creation. Combining an analytical study, a historical guide, and an insightful introduction to Bach's style, this book will help violinists, scholars, and other listeners develop a deeper personal involvement with many aspects of these wonderful pieces.

Bach and the Meanings of Counterpoint Cambridge University Press Table of contents

Project Management for Construction Fundamental Concepts for Owners, Engineers, Architects, and Builders Chris Hendrickson Devita, Hellman, and Rosenberg's **Cancer Principles and Practice of Oncology Review** Lippincott Williams & Wilkins Based on: DeVita, Hellman, and Rosenberg's cancer / editors, Vincent T. DeVita Jr., Theodore S. Lawrence, Steven A. Rosenberg. 9th ed. c2011.

The Keyboard in Baroque Europe Cambridge University Press Table of contents

Bach's Well-tempered Clavier The 48 Preludes and Fugues Yale University Press Bach's Well-tempered Clavier (or the 48 Preludes and Fugues) stands at the core of baroque keyboard music and has been a model and inspiration for performers and composers ever since it was written. This invaluable guide to the 96 pieces explains Bach's various purposes in compiling the music, describes the rich traditions on which he drew, and provides commentaries for each prelude and fugue. In his text, David Ledbetter addresses the main focal points mentioned by Bach in his original 1722 title page. Drawing on Bach literature over the past three hundred years, he explores German traditions of composition types and Bach's novel expansion of them; explains Bach's instruments and innovations in keyboard technique in the general context of early eighteenth-century developments; reviews instructive and theoretical literature relating to keyboard temperaments from 1680 to 1750; and discusses Bach's pedagogical intent when composing the Well-tempered Clavier. Ledbetter's commentaries on individual preludes and fugues equip readers with the concepts necessary to make their own assessment and include information about the sources when details of notation, ornaments, and fingerings have a bearing on performance.

Epidemiology of the Rheumatic Diseases The book is a reference work reviewing in detail currently available data on the epidemiology of the major rheumatic and musculoskeletal diseases. The volume considers the problems of disease definition and criteria, data on the occurrence of these diseases, both prevalence and incidence, and describes their variation with age, sex, geographical area, ethnic group, and trends over time. Also reviewed are results of epidemiological investigations looking at risk factors, both genetic and environmental. The results of family and twin studies are considered together with new data from immunogenetics and molecular biology. The impact of specific diseases on survival is also considered.

Orthopaedic Basic Science: Foundations of Clinical Practice Lippincott Williams & Wilkins Publisher's Note: Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality, authenticity, or access to any online entitlements included with the product. Build your Foundation of Basic Science – from Research to Clinical Application A great tool for MOC preparation! A 'must have' for residency! This fourth edition, developed in a partnership between the American Academy of Orthopaedic Surgeons (AAOS) and the Orthopaedic Research Society (ORS), is your concise and clinically relevant resource for the diagnosis and treatment of musculoskeletal diseases and conditions.

The Enlightenment Bible Translation, Scholarship, Culture Princeton University Press How did the Bible survive the Enlightenment? In this book, Jonathan Sheehan shows how Protestant translators and scholars in the eighteenth century transformed the Bible from a book justified by theology to one justified by culture. In doing so, the Bible was made into the cornerstone of Western heritage and invested with meaning, authority, and significance even for a secular age. The Enlightenment Bible offers a new history of the Bible in the century of its greatest crisis and, in turn, a new vision of this century and its effects on religion. Although the Enlightenment has long symbolized the corrosive effects of modernity on religion, Sheehan shows how the Bible survived, and even thrived in this cradle of ostensible secularization. Indeed, in eighteenth-century Protestant Europe, biblical scholarship and translation became more vigorous and culturally significant than at any time since the Reformation. From across the theological spectrum, European scholars--especially German and English--exerted tremendous energies to rejuvenate the Bible, reinterpret its meaning, and reinvest it with new authority. Poets, pedagogues, philosophers, literary critics, philologists, and historians together built a post-theological Bible, a monument for a new religious era. These literati forged the Bible into a cultural text, transforming the theological core of the Judeo-Christian tradition. In the end, the Enlightenment gave the Bible the power to endure the corrosive effects of modernity, not as a theological text but as the foundation of Western culture.

The Ashmolean Museum Complete Illustrated Catalogue of Paintings For the first time ever, all paintings in the Department of Western Art in the Ashmolean Museum have been brought together in one volume. Every picture is illustrated and almost all are represented in colour. Biographies of all known artists in the collection are also included, making this catalogue an invaluable reference work for specialist libraries, collectors and general readers alike.
