#### BRITAIN'S LEVANTINE EMPIRE, 1914-1923

*Oxford University Press* Britain's Levantine Empire, 1914-1923 explains the rise and decline and nature and extent of British military rule in the urban eastern Mediterranean during the course of the First World War and its aftermath. Combining novel case studies and theoretical approaches, the volume reveals the extent of military control that Britain established and anticipated maintaining in the post-Ottoman world, before a series of confrontations with nationalist and socialist anti-imperialists forced a new division of the eastern Mediterranean, still visible in the political borders of the present day. Britain's Levantine Empire, 1914-1923 tells this story through the eyes and ears of the British servicemen who built this empire, analysing the testimony of over 100 such military personnel sent to Alexandria, Thessaloniki, Istanbul, and the towns and islands between them, as they voyaged, made camp, and explored and patrolled the city streets. Whereas histories examining soldiers' experiences in the First World War have almost exclusively focused on their lives at the frontlines, this study provides a much needed in-depth history of soldiers' experience and impact on the urban hubs of the Eastern Mediterranean, where urban planning, nightlife and entertainment, policing, and security were transformed by the presence of so many men at arms and the imperialist interventions that accompanied them.

Each year millions of visitors come to walk on its three piers, ride donkeys, enjoy shows at the Winter Gardens, scream on the thrilling rides at the Pleasure Beach and ride the lift to the top of the Tower. Generations of holidaymakers have stayed in its hotels, lodging houses and bed and breakfasts and all have succumbed to its delectable fish and chips. Two centuries of tourism has left behind a rich heritage, but Blackpool has also inherited a legacy of social and economic problems, as well as the need for comprehensive new sea defences to protect the heart of the town. In recent years this has led to the transformation of its seafront and to regeneration programmes to try to improve the town, for its visitors and residents. This book celebrates Blackpool's rich heritage and examines how its colourful past is playing a key part in guaranteeing that it has a bright future.

#### FIRST FOOTSTEPS IN EAST AFRICA, OR, AN EXPLORATION OF HARAR

#### THE CRIMEAN WAR

#### AS SEEN BY THOSE WHO REPORTED IT

*LSU Press* Armed with only a telescope, a watch, and a notebook he retrieved from a dead soldier, William Howard Russell spent twenty-two months reporting from the trenches for the Times of London during the Crimean War. A novice in a new field of journalism -- war reporting -- when he first set off for Crimea in 1854, the young Irishman returned home a veteran of three bloody battles, having survived the siege of Sebastopol and watched a colleague die of cholera. Russell's fine eye for detail electrified readers, and his remarkably colorful and hugely significant accounts of battles provided those at home -- for the first time ever -- with a realistic picture of the brutality of war. The Crimean War, originally published in 1856 under the title The Complete History of the Russian War, presents a selection of Russell's dispatches -- as well as those of other embedded reporters -- providing a ground-eye view of the conflict as depicted in British newspapers. Fought on the southern tip of the Crimea from 1853 to 1856, the Crimean War raged on far longer than either side expected -- largely because of mismanagement and disease: more soldiers died from cholera, typhus, typhoid, dysentery, and scurvy than battle wounds. Russell's biting criticisms of incompetent military authorities and an antiquated military system contributed to the collapse of the contemporary ruling party in Britain. In his reports, Russell wrote extensively about inept medical care for the wounded, which he termed "human barbarity." Thanks to compelling accounts by Russell and others, authorities allowed Florence Nightingale to enter the war zone and nurse troops back to health. The Crimean War contains reports from military men who acted as part-time reporters, articles by professional journalists, and letters from others at the front that newspapers back home later published. Rapidly pulled together by American publisher John G. Wells, the volume presents a fascinating contemporary analysis of the war by those on the ground. This reissue offers a new introduction by Angela Michelli Fleming and John Maxwell Hamilton that places these reports in context and highlights the critical role they played during a pivotal point in European history. The first first-hand accounts of the realities of war, these dispatches set the tone for future independent war reporting.

#### CONTAINING BALKAN NATIONALISM

#### IMPERIAL RUSSIA AND OTTOMAN CHRISTIANS, 1856-1914

*Oxford University Press* In 1870, the Orthodox Bulgarian Exarchate was established by the Sultan's decree without the consent of the Patriarchate of Constantinople. The inability to reach a compromise led to a schism within Orthodoxy and divided Ottoman Christian communities into traditionalists versus nationalists, Greeks versus Slavs and Arabs. Those conflicts were exacerbated by the Russo-Turkish war of 1877-1878, refugee movements, and the increasingly deadly rivalry of irredentist Balkan states. Containing Balkan Nationalism focuses on the implications of the Bulgarian national movement that developed in the context of Ottoman modernization and of European imperialism in the Near East. The movement aimed to achieve the status of an independent church, separating ethnic Bulgarians from the jurisdiction of the Patriarchate of Constantinople. Independent church status meant cultural and legal autonomy in the Islamic structure of the Ottoman Empire. Denis Vovchenko highlights the efforts put forth by ecclesiastics, publicists, and diplomats in Russia, the Ottoman Empire, Greece, and Bulgaria in developing and implementing various plans to reconcile ethnic differences within existing religious and dynastic frameworks.

The arrangements were often inspired by modern visions of a political and cultural union of Orthodox Slavs and Greeks. Whether put into effect or simply discussed, they demonstrate the strength and flexibility of supranational identities and institutions on the eve of the First World War. The book should encourage contemporary analysts and policymakers to explore the potential of such traditional loyalties to defuse ethnic tensions today and to serve as organic alternatives to generic mechanical models of power-sharing and federation.

#### RUSSIAN-SOVIET UNCONVENTIONAL WARS IN THE CAUCASUS, CENTRAL ASIA, AND AFGHANISTAN [ILLUSTRATED EDITION]

---

*Pickle Partners Publishing* [Includes 12 maps and 4 tables] In recent years, the U.S. Army has paid increasing attention to the conduct of unconventional warfare. However, the base of historical experience available for study has been largely American and overwhelmingly Western. In **Russian-Soviet Unconventional Wars in the Caucasus, Central Asia, and Afghanistan**, Dr. Robert F. Baumann makes a significant contribution to the expansion of that base with a well-researched analysis of four important episodes from the Russian-Soviet experience with unconventional wars. Primarily employing Russian sources, including important archival documents only recently declassified and made available to Western scholars, Dr. Baumann provides an insightful look at the Russian conquest of the Caucasian mountaineers (1801-59), the subjugation of Central Asia (1839-81), the reconquest of Central Asia by the Red Army (1918-33), and the Soviet war in Afghanistan (1979-89). The history of these wars—especially as it relates to the battle tactics, force structure, and strategy employed in them—offers important new perspectives on elements of continuity and change in combat over two centuries. This is the first study to provide an in-depth examination of the evolution of the Russian and Soviet unconventional experience on the predominantly Muslim southern periphery of the former empire. There, the Russians encountered fierce resistance by peoples whose cultures and views of war differed sharply from their own. Consequently, this Leavenworth Paper addresses not only issues germane to combat but to a wide spectrum of civic and propaganda operations as well.

#### SLAVERY AND THE BRITISH COUNTRY HOUSE

---

In 2007 English Heritage commissioned initial research into links with transatlantic slavery or its abolition amongst families who owned properties now in its care. This was part of the commitment by English Heritage to commemorate the bicentenary of the abolition of the British transatlantic slave trade with work that would make a real difference to our understanding of the historic environment in the longer term. The research findings and those of other scholars and heritage practitioners were presented at the 'Slavery and the British Country House' conference which brought together academics, heritage professionals, country house owners and community researchers from across Britain to explore how country houses might be reconsidered in the light of their slavery linkages and how such links have been and might be presented to visitors. Since then the conference papers have been updated and reworked into a cutting edge volume which represents the most current and comprehensive consideration of slavery and the British country house as yet undertaken.

#### THE UNION, THE CONFEDERACY, AND NATIVE PEOPLES IN THE FIGHT FOR THE WEST

---

*Scribner* Finalist for the Pulitzer Prize in History A dramatic, riveting, and "fresh look at a region typically obscured in accounts of the Civil War. American history buffs will relish this entertaining and eye-opening portrait" (Publishers Weekly). Megan Kate Nelson "expands our understanding of how the Civil War affected Indigenous peoples and helped to shape the nation" (Library Journal, starred review), reframing the era as one of national conflict—involving not just the North and South, but also the West. Against the backdrop of this larger series of battles, Nelson introduces nine individuals: John R. Baylor, a Texas legislator who established the Confederate Territory of Arizona; Louisa Hawkins Canby, a Union Army wife who nursed Confederate soldiers back to health in Santa Fe; James Carleton, a professional soldier who engineered campaigns against Navajos and Apaches; Kit Carson, a famous frontiersman who led a regiment of volunteers against the Texans, Navajos, Kiowas, and Comanches; Juanita, a Navajo weaver who resisted Union campaigns against her people; Bill Davidson, a soldier who fought in all of the Confederacy's major battles in New Mexico; Alonzo Ickis, an Iowa-born gold miner who fought on the side of the Union; John Clark, a friend of Abraham Lincoln's who embraced the Republican vision for the West as New Mexico's surveyor-general; and Mangas Coloradas, a revered Chiricahua Apache chief who worked to expand Apache territory in Arizona. As we learn how these nine charismatic individuals fought for self-determination and control of the region, we also see the importance of individual actions in the midst of a larger military conflict. Based on letters and diaries, military records and oral histories, and photographs and maps from the time, "this history of invasions, battles, and forced migration shapes the United States to this day—and has never been told so well" (Pulitzer Prize-winning author T.J. Stiles).

#### A SHORT HISTORY OF THE CRIMEAN WAR

---

*Bloomsbury Publishing* The Crimean War (1853-1856) was the first modern war. A vicious struggle between imperial Russia and an alliance of the British, French and Ottoman Empires, it was the first conflict to be reported first-hand in newspapers, painted by official war artists, recorded by telegraph and photographed by camera. In her new short history, Trudi Tate discusses the ways in which this novel representation itself became part of the modern war machine. She tells forgotten stories about the war experience of individual soldiers and civilians, including journalists, nurses, doctors, war tourists and other witnesses. At the same time, the war was a retrograde one, fought with the mentality, and some of the equipment, of Napoleonic times. Tate argues that the Crimean War was both modern and old-fashioned, looking backwards and forwards, and generating optimism and despair among those who lived through it. She explores this paradox while giving full coverage to the bloody battles (Alma, Balaklava, Inkerman), the siege of Sebastopol, the much-derided strategies of the commanders, conditions in the field and the cultural impact of the anti-Russian alliance.

#### THE CRIMEAN WAR

---

*Boxtree, Limited* The Crimean War combines an extraordinary oral and visual account of the Crimean War -- including many photographs and accounts never previously published. The history is told from eyewitness accounts from people on all sides of the conflict (British, French, Russian and Turkish) -- in the forms of letters and diaries of soldiers, sailors, doctors, artists, nurses and reporters. And as the Crimean War was the first war to be photographed and to which war artists were assigned, the book is heavily illustrated with striking images of war. The combination of art and personal accounts makes for an incredibly fascinating and original perspective on the events.

## THE FORGOTTEN REVOLUTION

---

### HOW SCIENCE WAS BORN IN 300 BC AND WHY IT HAD TO BE REBORN

---

*Springer Science & Business Media* The period from the late fourth to the late second century B. C. witnessed, in Greek-speaking countries, an explosion of objective knowledge about the external world. While Greek culture had reached great heights in art, literature and philosophy already in the earlier classical era, it is in the so-called Hellenistic period that we see for the first time — anywhere in the world — the appearance of science as we understand it now: not an accumulation of facts or philosophically based speculations, but an organized effort to model nature and apply such models, or scientific theories in a sense we will make precise, to the solution of practical problems and to a growing understanding of nature. We owe this new approach to scientists such as Archimedes, Euclid, Eratosthenes and many others less familiar today but no less remarkable. Yet, not long after this golden period, much of this extraordinary development had been reversed. Rome borrowed what it was capable of from the Greeks and kept it for a little while yet, but created very little science of its own. Europe was soon smothered in the obscurantism and stasis that blocked most avenues of intellectual development for a thousand years — until, as is well known, the rediscovery of ancient culture in its fullness paved the way to the modern age.

### CRIMEA

---

#### THE LAST CRUSADE

---

The Crimean War dominated the mid 19th century, killed at least 800,000 men and pitted Russia against a formidable coalition of Britain, France and the Ottoman Empire. It was a war for territory, provoked by fear that if the Ottoman Empire were to collapse then Russia could control a huge swathe of land from the Balkans to the Persian Gulf. But it was also a war of religion, driven by a fervent, populist and ever more ferocious belief by the Tsar and his ministers that this was a crusade, the fulfilment of Russia's task to rule all Orthodox Christians and control the Holy Land. And it was a war based on hatreds and hypocrisy, specifically the overwhelming Russophobia that swept much of Europe. Orlando Figes' major new book reimagines this extraordinary war, in which the stakes could not have been higher. It was both a recognisably modern conflict - the first to be extensively photographed, the first to employ the telegraph, the first 'newspaper war' - and a traditional one, with illiterate soldiers, amateur officers and huge casualties caused by disease. The iconic moments of the war - the Charge of the Light Brigade, the Siege of Sebastopol, the impact of Florence Nightingale - are all here, but there is also a rich sense of the entire region and of the many nationalities caught up in the fighting. The conflict engulfed the Danube principalities, the Baltic and the Caucasus as well as the Crimea, with the British creating vast if ultimately delusive plans for the partition of much of Russia. Drawing on a huge range of fascinating, often untapped sources, Figes also gives the lived experience of the war, from that of the ordinary British soldier in his snow-filled trench, to the haunted, gloomy, narrow figure of Tsar Nicholas himself, as he vows to take on the whole world in his hunt for religious salvation.

### BRITAIN'S IMPERIAL ADMINISTRATORS, 1858-1966

---

*Palgrave Macmillan* Britain's famous overseas civil services - the Colonial Administrative Service, the Indian Civil Service and the Sudan Political Service - no longer exist as a major and sought-after career for Britain's graduates. In this detailed study the history of each service is presented within the framework of the need to administer an expanding empire. Close attention is paid to the methods of recruitment and training and to the socio-educational background of the overseas administrators as well as to the nature of their work. The prestigious incumbents of Government House are revealingly examined. The impact of decolonisation on overseas officials and the kinds of 'second careers' which they took up are documented. This authoritative narrative history is enlivened by recourse to Service lore and anecdotes.

#### MANCHURIAN LEGACY

#### MEMOIRS OF A JAPANESE COLONIST

---

Kazuko Kuramoto was born and raised in Dairen, Manchuria, in 1927, at the peak of Japanese expansionism in Asia. Dairen and the neighboring Port Arthur were important colonial outposts on the Liaotung Peninsula; the train lines established by Russia and taken over by the Japanese, ended there. When Kuramoto's grandfather arrived in Dairen as a member of the Japanese police force shortly after the end of the Russo-Japanese War in 1905, the family's belief in Japanese supremacy and its "divine" mission to "save" Asia from Western imperialists was firmly in place. As a third-generation colonist, the seventeen-year-old Kuramoto readily joined the Red Cross Nurse Corps in 1944 to aid in the war effort and in her country's sacred cause. A year later, her family listened to the emperor's radio broadcast ". . . we shall have to endure the unendurable, to suffer the insufferable." Japan surrendered unconditionally. *Manchurian Legacy* is the story of the family's life in Dairen, their survival as a forgotten people during the battle to reclaim Manchuria waged by Russia, Nationalist China, and Communist China, and their subsequent repatriation to a devastated Japan. Kuramoto describes a culture based on the unthinking oppression of the colonized by the colonizer. And, because Manchuria was, in essence, a Japanese frontier, her family lived a freer and more luxurious life than they would have in Japan—one relatively unscathed by the war until after the surrender. As a commentator Kuramoto explores her culture both from the inside, subjectively, and from the outside, objectively. Her memoirs describe her coming of age in a colonial society, her family's experiences in war-torn Manchuria, and her "homecoming" to Japan—where she had never been—just as Japan is engaged in its own cultural upheaval.

### THE ABOLITIONISTS AND THE SOUTH, 1831-1861

---

*University Press of Kentucky* Within the American antislavery movement, abolitionists were distinct from others in the movement in advocating, on the basis of moral principle, the immediate emancipation of slaves and equal rights for black people. Instead of focusing on the "immediatists" as products of northern culture, as many previous historians have done, Stanley Harrold examines their involvement with antislavery action in the South—particularly in the region that bordered the free states. How, he asks, did antislavery action in the South help shape abolitionist beliefs and policies in the period leading up to the Civil War? Harrold explores the interaction of northern abolitionist, southern white emancipators, and southern black liberators in fostering a continuing antislavery focus on the South, and integrates southern antislavery action into an understanding of abolitionist reform culture. He discusses the impact of abolitionist missionaries, who preached an antislavery gospel to the enslaved as well as to the free. Harrold also offers an assessment of the impact of such activities on the coming of the Civil War and Reconstruction.

### HOOSIERS AND THE AMERICAN STORY

---

*Indiana Historical Society* A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana

set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

#### **THE JEWS AND MODERN CAPITALISM**

---

*Routledge* Since its first appearance in Germany in 1911, *Jews and Modern Capitalism* has provoked vehement criticism. As Samuel Z. Klausner emphasizes, the lasting value of Sombart's work rests not in his results—most of which have long since been disproved—but in his point of departure. Openly acknowledging his debt to Max Weber, Sombart set out to prove the double thesis of the Jewish foundation of capitalism and the capitalist foundation of Judaism. Klausner, placing Sombart's work in its historical and societal context, examines the weaknesses and strengths of Jews and Modern Capitalism.
