Saltwater Aquarium Fish Care for Beginners: A Quick Start Guide to Saltwater Fish and Saltwater Aquarium Care for Happy & Healthy Pet Fish

Lulu Press, Inc Aquarium Fish are an amazing household pet. Among all the animals, they are the easiest to care for plus they don't really take so much room. However, most kids lose their interest in fishes rather fast especially those children who want to have a pet which they can cuddle up with. They tend to be a bore for kids who are active and always on the go. That must be the reason why not too many would ask for a school of fish. Nonetheless, fishes can be the perfect pet. Whenever parents think of granting their little kids' plea for a pet, most often the choice is to give them a fish. Even with the little care it requires, they could still teach them how to be responsible in taking care of a living thing. Having a pet fish would instill in them the value of love and acceptance of simplicity.

Real Food, Healthy, Happy, Children

Quivertree Publications In Real Food, Healthy, Happy Children, Kath Megaw offers a research grounded yet easy-to-grasp guide on what to feed children at the different stages of their development. A long-term advocate of low-carb eating, her mission is to convert parents and children away from the processed, nutrient-poor foods that surround them in everyday life and to win them over to 'real', natural food. Marrying practicality with warmth, science with common sense and the experience of a healthcare professional with the intuition of a mother, Kath's approach to how children should eat extends beyond the body-centred focus of nutrition. 'When meals incorporate taste experiences, social interaction and emotional connections, along with high nutritional impact, the result is altogether healthier, happier, children.'

Designer Animals

Mapping the Issues in Animal Biotechnology

University of Toronto Press Designer Animals is an in-depth study of the debates surrounding the development of animal biotechnology, which is quickly emerging out of the laboratory and into the commercial marketplace. This book innovatively combines expert analysis on the technology's economic, professional, ethical, and religious implications while remaining firmly grounded in the 'real world' political environment in which the issue is played out. Designer Animals uses non-technical language to explore the science behind animal biotechnology and the ethical frameworks at play in its surrounding debates. By investigating the interests of major stakeholders, including researchers on the cutting edge of science; mainstream and 'alternative' agriculture organizations; the animal welfare movement; and health care providers, patients, and researchers, the contributors illuminate the most important points of agreement and disagreement on this hotly contested topic.

Fountain of Health

Regain Your Health, Happiness, and Lose Weight. A Revolution in Health for Everybody

Dorrance Publishing Fountain of Health: Regain Your Health, Happiness, and Lose Weight. A Revolution in Health for Everybody By: Manuel Moran, M.D., Ph.D., J.D. While working as a surgeon over the last few decades, it became increasingly frustrating to Dr. Manuel Moran the obvious increase in diabetes, obesity, heart disease, and many other health problems. The lack of preventative support to his patients by the official medical establishment prompted Dr. Moran to write a one-page pamphlet with instructions on how to stay healthy, which he gave to his patients. Later those instructions became two pages, three pages . . . and finally this book, Fountain of Health. Drawing from his decades of experience, Dr. Moran has compiled practical information to prevent and even reverse these common conditions. Follow the advice included and you too can remain healthy or regain your health and happiness.
