### The Pirates of Penzance

### Or, The Slave of Duty : Comic Opera in Two Acts

### The Mirror Book

### Mirror Sailing from Start to Finish

Fernhurst Books Limited The Mirror dinghy was a significant factor in the boom of dinghy sailing in the 1960s, introducing thousands to the delights of sailing. While sailing has come a long way since then and there have been a lot of far more exotic craft launched, the Mirror remains a fantastic boat in which to learn to sail and to compete at the highest levels. With this second edition, The Mirror Book has been bought into the Start to Finish series format alongside such revered books as The Laser Book, The Topper Book, The Catamaran Book and The Foiling Dinghy Book. Like these titles, this book tells you everything you need to know about sailing the boat (whether it be the original gaff-rigged boat or has the newer Bermuda rig). Written for those starting out through to those striving to win a championship, the book is packed with practical advice and illustrated with step-by-step photographs. It covers: setting up the Mirror and early sailing experiences; developing skills on all points of sailing and with the spinnaker; racing & masterclasses to become a championship winner. Over 180 photographs show you exactly how it's done, and 72 diagrams illustrate key boat parts, the different points of sailing and complex on-the-water scenarios with clarity. It is written by Peter Aitken, formerly the UK National Mirror Coach, who has coached teams to win world championships in the Mirror, Cadet and 420 classes, and Tim Davison, a successful racer and author of countless books on sailing. The UK Mirror Class Association have contributed to this update and it is endorsed by Dave Wade, double Mirror National Champion, who says: "Armed with this book, your understanding of Mirror sailing techniques will grow, and your results will improve. I thoroughly recommend it."

## Reversing

## Secrets of Reverse Engineering

John Wiley & Sons Beginning with a basic primer on reverse engineering-including computer internals, operating systems, and assembly language-and then discussing the various applications of reverse engineering, this book provides readers with practical, in-depth techniques for software reverse engineering. The book is broken into two parts, the first deals with security-related reverse engineering and the second explores the more practical aspects of reverse engineering. In addition, the author explains how to reverse engineer a third-party software library to improve interfacing and how to reverse engineer a competitor's software to build a better product. \* The first popular book to show how software reverse engineering can help defend against security threats, speed up development, and unlock the secrets of competitive products \* Helps developers plug security holes by demonstrating how hackers exploit reverse engineering techniques to crack copy-protection schemes and identify software targets for viruses and other malware \* Offers a primer on advanced reverse-engineering, delving into "disassembly"-code-level reverse engineering-and explaining how to decipher assembly language

## National Security Incident: Alternis Season 1, Episode 1

Serial Box The battlefield has gone digital. And national survival could be one combo move away. Game designer Tandy Kahananui has been developing Alternis for nearly a decade, perfecting its monsters and dungeons. But she never imagined her game would be co-opted as the basis for an ambitious top-secret project to keep the world from plunging into war, where nations compete digitally for real-world resources. Team USA has been consistently losing, and the government needs a secret weapon to help them climb the leaderboard. When Tandy is conscripted into playing a key role and fighting for the future of her country, she quickly realizes she is in way over her head...and not everybody is playing by the rules. Can she help Team USA hold its own? Can she even survive? This is episode 1 of 10 in Alternis, a serialized novel by Andrea Phillips, Maurice Broaddus, Jacqueline Koyanagi, E.C. Myers.

## Mirror Racing

This guide to the popular single-masted Mirror class takes readers from the steps and knowledge needed to obtain a fast boat -- by building it if necessary -- to the skills and tactics needed to become a winner in the class. Experienced Mirror builder and racer Guy Wilkins also explains such crucial topics as launching and landing, typical Mirror control systems, tuning, tacking, and improving race skills. The instructional is illustrated throughout with photo sequences of the author in action.
