## How to Pass the MRCPsych CASC

**Oxford University Press** "In 2008 the Royal College of Psychiatrists made a radical change to the way it examines its prospective members. The most significant change is the way in which clinical skills are assessed. The **Clinical Assessment of Skills and Competencies (CASC)** was introduced. The traditional long case, patient management problems (PMPs), and the observed clinical interview of the old Part 2 examination were all abandoned." - Preface.

# SBAs for the Final FRCR 2A

Oxford University Press **Providing everything you need to pass the FRCR Part 2A, this book provides a thorough assessment of a candidate's radiological knowledge. The book is divided into six chapters, with 75 questions in each chapter, mirroring the modules and exam papers laid out by the Royal College of Radiologists. This makes you as familiar as possible with its style, content and structure and facilitates directed learning. All questions have been formulated to reflect the current best practice and evidenced-base, ensuring candidates' knowledge of their field is up-to-date. A detailed explanation is provided for each question, including references to review publications or widely-used textbooks, which allow detailed follow-up on the issues discussed.**

## Critical Appraisal for Psychiatry

**Aimed primarily at psychiatric trainees sitting the MRCPsych part II, this text should also appeal to more senior and junior psychiatrists, other mental health professionals and managers who need a brief but comprehensive introduction to the underlying concepts and practice of evidence-based mental health (EBMH). It covers the principal components of research methods, relevant statistics and critical appraisal processes for doctors and particularly psychiatrists. An everyday clinical relevance is maintained throughout with examples from psychiatric literature where possible.**
